THE BOARD OF SUPERVISORS OF THE COUNTY OF STANISLAUS
ACTION AGENDA SUMMARY

DEPT: AGRICULTURAL COMMISSIONER **BOARD AGENDA #** B-9

Urgent ☐ **Routine** ☒ **AGENDA DATE** August 7, 2007

CEO Concurs with Recommendation YES ☒ **NO** ☐ **4/5 Vote Required YES** ☐ **NO** ☒
(Information Attached)

SUBJECT:

Acceptance of a Presentation of the 2006 Stanislaus County Agricultural Crop Report

STAFF RECOMMENDATIONS:

Accept the presentation of the 2006 Stanislaus County Agricultural Crop Report.

FISCAL IMPACT:

The gross agricultural farm gate income for 2006 is $2,148,152,000. This figure represents an increase of $170,557,000 from the 2005 gross production value of $1,977,595,000. Activities associated with processing of these agricultural commodities increases the economic value by a multiplier of approximately 4.5. Using this multiplier, agriculture's contribution to our local economy for the year 2006 amounts to almost $10 billion.

BOARD ACTION AS FOLLOWS:

No. 2007-626

On motion of Supervisor Mayfield **, Seconded by Supervisor** DeMartini
and approved by the following vote,
Ayes: Supervisors: Mayfield, Grover, Monteith, DeMartini, and Chairman O'Brien
Noes: Supervisors: None
Excused or Absent: Supervisors: None
Abstaining: Supervisor: None

1) X **Approved as recommended**
2) ____ **Denied**
3) ____ **Approved as amended**
4) ____ **Other:**

MOTION:

Christine Ferraro

ATTEST: **CHRISTINE FERRARO TALLMAN, Clerk** **File No.**

DISCUSSION:

Sections 2272 and 2279 of the California Food and Agricultural Code require that the County Agricultural Commissioner annually report the condition of agriculture in the county to the Secretary of the California Department of Food and Agriculture. This is the fifth year that the Stanislaus County Agricultural Crop Report will be published solely on-line. Customers may access the crop report information at the main Stanislaus County web site located at www.co.stanislaus.ca.us. by selecting "Agencies and Departments", then "Agricultural Commissioner". The Agricultural Commissioner's website now offers access to Stanislaus County Crop Report statistics dating back to 1940.

The on-line publication of the crop report illustrates the importance of technology in Stanislaus County's number one industry—agriculture, while maintaining a focus on the driving force behind this industry—the people of agriculture.

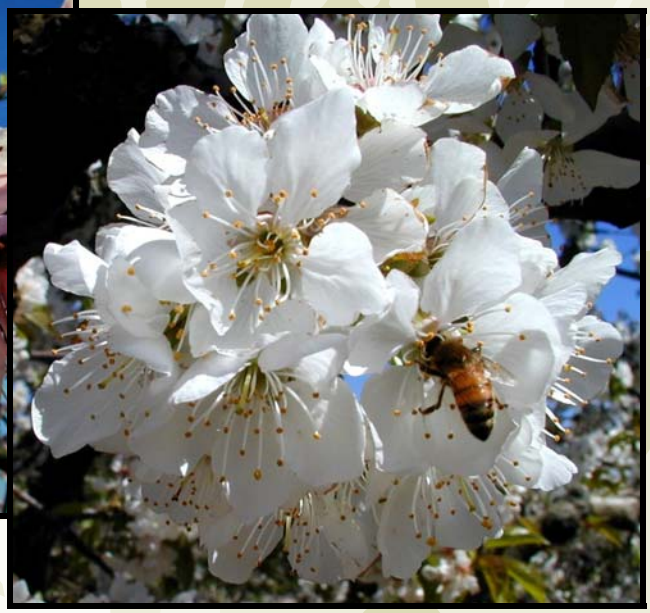
POLICY ISSUE:

The 2006 Agricultural Crop Report promotes and illustrates the significance of the agricultural industry in Stanislaus County and supports the Board Priority for a Strong Agricultural Economy/Heritage.

STAFFING IMPACT:

There are no staffing impacts associated with this item.

Stanislaus County Agricultural Crop Report 2006



"Honeybees are a critical component of Stanislaus County agriculture. As honeybees visit blossoms to gather the nectar and pollen necessary for their survival, they help agricultural crops, home gardens and habitats flourish. Without the honeybees' pollination work, the quantity and quality of many crops would be reduced and some would not yield at all. In fact, approximately one-third of the total human diet is directly or indirectly derived from insect pollinated plants (fruits, legumes and vegetables).

Stanislaus County's largest benefactors of honeybee pollination include almonds, tree fruit and melons. Bees also pollinate seed alfalfa, which provides hay for the county's large dairy industry."

Orin Johnson, President
California State Beekeepers Association, Inc.

In addition to hives provided by California bee keepers to Stanislaus County growers, honeybee hives are imported into Stanislaus County for the pollination season from all over the United States including, North Dakota, Oregon, Washington, Montana, Utah, Wyoming, and Nebraska. Stanislaus County Agricultural inspectors inspected more than 186,000 out-of-state hives this year. There are approximately 7,100 hives registered in Stanislaus County.

Stanislaus County Department of Agriculture

2006 Annual Crop Report

The Honorable Board of Supervisors
County of Stanislaus

Bill O'Brien, Chairman	Supervisor District I
Thomas Mayfield	Supervisor District 2
Jeff Grover	Supervisor District 3

July 26, 2007

A.G. Kawamura, Secretary
State of California
Department of Food and Agriculture
1220 N Street, Room 409
Sacramento, California 95814

The Honorable Board of Supervisors
Stanislaus County
1010 Tenth Street
Modesto, California 95354

The Stanislaus County Agricultural Crop Report for 2006 is hereby submitted in compliance with Section 2279 of the California Food and Agricultural Code.

The gross agricultural income for 2006 is $2,148,152,000. This figure represents an increase of $170,557,000 from the 2005 gross production value of $1,977,595,000. The Vegetable Seed category decreased approximately 24%, and the Livestock and Poultry Products category decreased approximately 12%. Categories posting significant gains were Field Crops (approximately 13%), Nursery Products (approximately 23%), and Livestock and Poultry (approximately 57%).

It must be noted that these are gross figures and do not indicate net profit. Also, figures shown do not reflect on any individual operation since the whole county is the smallest unit measured for any particular commodity.

We wish to express our appreciation to the many persons who contributed to the preparation of this document. Special thanks go to the staff of the Department of Agriculture, particularly Ann Juette who compiled this report, Victor Perry who assisted in gathering information, Cynthia Darmstandler, and Dalila Barron who prepared the information for publication.

Respectfully,

DENNIS GUDGEL
Agricultural Commissioner/Sealer
Department of Agriculture
Stanislaus County

ED PERRY
Acting County Director
Cooperative Extension
Stanislaus County

McPhail Trap

Pest Detection & Emergency Projects 2006

In an effort to protect the agricultural and horticultural industries, and the environment of Stanislaus County, trapping for invasive and injurious pests is conducted. Trapping is the first line of defense to detect invasive and injurious pests that would be detrimental to the environment, economy, and in some cases, human health.

County Trapper Hanging Trap

Pest	# of Traps	Crops Affected
Mediterranean Fruit Fly	377	walnut, tomato, apple, almond, plum, peach, nectarine, pear, grape, orange, lemon, grapefruit, fig, pomegranate, kumquat and olive
Mexican Fruit Fly	207	apple, apricot, citrus, pear, plum, peach, nectarine and pomegranate
General Fruit Fly	81	citrus, stone fruit and pome fruit
Japanese Beetle	199	turf and roses
Gypsy Moth	201	most trees
Oriental Fruit Fly	214	apple, apricot, cherry, cucumber, fig, grape, grapefruit, kumquat, lemon, plum, nectarine, orange, passion fruit, peach, pear, pomegranate, tomato and walnut
Melon Fly	201	peaches, oranges, beans, tomato, cucumber, apple, cantaloupe, grape, pear and watermelon
Glassy-winged Sharpshooter	1,392	grape, almond, peach and citrus / vector for Pierce's Disease
Apple Maggot	77	stone fruit and pome fruit
Vine Mealybug	37	grapes
Citrus Leafminer	7	citrus
Khapra Beatle	223	grain and grain products
European Corn Borer	7	corn, potatoes, oat, green bean, and rhubarb
Red Imported Fire Ant	Survey & Treat	may infest agricultural and residential settings, as well as natural habitats-dangerous to children, pets, elderly and wildlife

Due to the threat of the Glassy-winged Sharpshooter (GWSS), traps are placed at nurseries and residential sites, and all plant shipments coming into the county from counties known to be infested with GWSS are inspected.
