DISCUSSION: The Scenic Faculty Medical Group (SFMG) is a strategic partner in the County's provision of health care to its residents. SFMG is the core faculty for the Family Practice Residency Program that is affiliated with U.C. Davis. Approximately 40% of the primary care physicians in DMC's Family Practice Department are graduates of the County's program. In addition, the faculty group provides approximately 40% of direct patient care for the Health Services Agency's clinics. SFMG physicians provide services to other County departments, including Behavioral Health and Recovery Services and the Community Services Agency. The presentation has been developed as a visual demonstration of the role that SFMG plays in providing medical care.

The diversity of physicians within SFMG is presented in a format highlighting training and language skills to meet the community's diverse population.

County Chief Executive Officer, Reagan Wilson, recently met with SFMG's Executive Committee to view the presentation. Mr. Wilson suggested this presentation be shared with the County Board of Supervisors.
