**AUTHORIZATION OF THE DESTRUCTION OF CERTAIN RECORDS IN THE CUSTODY OF
THE DISTRICT ATTORNEY page 2**

DISCUSSION: Currently the District Attorney has no available, adequate, safe facility for the storage of the many files that are created or collected by this office in the course of conducting business. The current storage building (Zeff Building) is scheduled to be demolished. Many of the files contained in storage in that building are ten years old or older and do not contain information that is required to be maintained any longer, either by statute or practicality.

Most of the documents are not original documents, but copies of records or documents created by other criminal justice agencies. Those that are created by this office are not required to be maintained or copied as provided by law.

Allowing the destruction of these records will lower the volume of records that will have to be moved to a new storage facility, once one is found.

**POLICY
ISSUES:**

Destruction of these records should not impact the safety or security of the citizens of Stanislaus County and uphold the Board's commitment to efficient government operations.

Destruction of these records should not adversely impact any future criminal prosecutions.

**STAFFING
IMPACTS:**

The District Attorney's office will absorb any staffing impact in order to carry out the destruction of these files.
