

THE BOARD OF SUPERVISORS OF THE COUNTY OF STANISLAUS
ACTION AGENDA SUMMARY

DEPT: Behavioral Health & Recovery Services

BOARD AGENDA # B-11

Urgent

Routine

AGENDA DATE July 10, 2007

CEO Concurs with Recommendation YES NO
(Information Attached)

4/5 Vote Required YES NO

SUBJECT:

Consideration of the Proposal from Doctors Medical Center to Purchase Stanislaus Behavioral Health Center, including the Operations, Real Property, Improvements and Equipment; Authorization to Conduct a Reduction in Force; and Approval to Set a Public Hearing on July 31, 2007 at 9:30 a.m. to Consider the Approval of Sale, Introduction, Waive of First Reading and Adoption of an Ordinance Authorizing the Sale of Stanislaus Behavioral Health Center

STAFF RECOMMENDATIONS:

1. Consider the proposal of the sale of Stanislaus Behavioral Health Center, including the operations, real property, improvements and equipment, to Doctors Medical Center.
2. Authorize the Chief Executive Officer, Behavioral Health Director and all other officers, employees and agents of the County to commence negotiations relating to the potential sale of the Stanislaus Behavioral Health Center.
3. Set Public Hearing on July 31, 2007 at 9:30 a.m. to consider the approval of sale of Stanislaus Behavioral Health Center, and to introduce, waive the first reading and adopt an Ordinance authorizing the sale of Stanislaus Behavioral Health Center.

Continued on Page 2

FISCAL IMPACT:

The proposed sale of the Stanislaus Behavioral Health Center will result in economic benefit to the County. The proceeds from the sale will be available to reduce any existing operational deficit, thereby lessening any General Fund contribution required by the Department. Additionally, there is economic benefit to the sale in that an existing County mental health facility will continue in operation by a private entity. One proposal was received as the result of the Request for Proposal from Doctors Medical Center for \$10,949,000 plus the negotiated cost of existing equipment.

BOARD ACTION AS FOLLOWS:

No. 2007-550

On motion of Supervisor Mayfield, Seconded by Supervisor Grover

and approved by the following vote,

Ayes: Supervisors: Mayfield, Grover, Monteith, DeMartini, and Chairman O'Brien

Noes: Supervisors: None

Excused or Absent: Supervisors: None

Abstaining: Supervisor: None

1) Approved as recommended

2) Denied

3) Approved as amended

4) Other:

MOTION:

ATTEST: CHRISTINE FERRARO TALLMAN, Clerk

File No. ORD-55-C-7

Consideration of the Proposal from Doctors Medical Center to Purchase Stanislaus Behavioral Health Center, including the Operations, Real Property, Improvements and Equipment; Authorization to Conduct a Reduction in Force; and Approval to Set a Public Hearing on July 31, 2007 at 9:30 a.m. to Consider the Approval of Sale, Introduction, Waive of First Reading and Adoption of an Ordinance Authorizing the Sale of Stanislaus Behavioral Health Center

Page 2

STAFF RECOMMENDATIONS (Continued):

4. Approve the reduction-in-force of 68 filled and 47 vacant positions in the Stanislaus Behavioral Health Center budget unit effective no earlier than September 1, 2007 and no later than October 1, 2007 as outlined in Attachment A.
5. Approve the transfer of seven positions from the Stanislaus Behavioral Health Center budget unit to the Behavioral Health and Recovery Services budget unit effective no earlier than September 1, 2007 and no later than October 1, 2007 as outlined in Attachment A.
6. Amend the Salary and Position Allocation Resolution to reflect the recommended changes as outlined in this report.
7. Find that the proposed sale of the property will result in economic benefits to the county.

FISCAL IMPACT (Continued):

The Chief Executive Officer and Behavioral Health and Recovery Services will return to the Board of Supervisors with details of the use of revenues from the sale after completion of the sale process. Sale of the Stanislaus Behavioral Health Center, including acute psychiatric in-patient operations, will require Behavioral Health and Recovery Services to purchase beds from Doctors Medical Center, or other providers, for an annual cost of \$11,575,550. The Department estimates State and Federal revenue for these services to be \$10,287,324. The net County cost will be \$1,288,226.

DISCUSSION:

Stanislaus Behavioral Health Center is a 67-bed inpatient acute psychiatric facility providing essential psychiatric services for individuals who are eligible Medi-Cal or Medicare beneficiaries, indigent or underinsured. Affiliation with an acute care hospital is necessary for Stanislaus County to claim Medicaid (Medi-Cal) and Medicare funds. In 1997, Doctors Medical Center became the licensee for Stanislaus Behavioral Health Center. Previously the facility was licensed under Stanislaus Medical Center. The transition to Doctors Medical Center occurred as part of the various agreements with Tenet Healthcare related to the closing of the County Hospital. Additionally, due to the critical shortage of inpatient psychiatric beds in Northern California, Stanislaus Behavioral Health Center provides access to Medi-Cal, Medicare and county funded individuals from many other counties in Central and Northern California and to those who are privately insured.

Consideration of the Proposal from Doctors Medical Center to Purchase Stanislaus Behavioral Health Center, including the Operations, Real Property, Improvements and Equipment; Authorization to Conduct a Reduction in Force; and Approval to Set a Public Hearing on July 31, 2007 at 9:30 a.m. to Consider the Approval of Sale, Introduction, Waive of First Reading and Adoption of an Ordinance Authorizing the Sale of Stanislaus Behavioral Health Center

Page 3

In 2000, the federal government, in an attempt to better control fraud and abuse in the Medicare program, introduced revised requirements for facilities that are affiliated with parent hospitals. These requirements are called "provider-based" rules. Stanislaus Behavioral Health Center's relationship with Doctors Medical Center met the rules in effect in 1997 when the agreement was negotiated, but does not meet all of the new requirements. This is especially true of the requirements that all employees (except managers) be employed by the parent organization, and with regard to the integration of medical records and fiscal operations.

Staff previously attempted to have the rules modified, but was rejected on two occasions. Through staff efforts a "grandfathering" period was granted that ended on May 30, 2004. Additionally, staff appealed to administrators at the federal level and received a sympathetic response. It was acknowledged that the County's situation was an unintended consequence of the new regulations and that the regulations were not intended for situations such as Stanislaus County's. However, they did not effect a change in the regulations. They instead wrote a letter to Doctors Medical Center indicating that Stanislaus Behavioral Health Center would continue to be treated as "provider-based" until such time as a final decision is made on the status. In subsequent meetings staff were informed that if the issue was not pressed, the Centers for Medicare/Medicaid Services would not make a final decision, thus continuing to treat Stanislaus Behavioral Health Center as "provider-based" even past the end of the "grandfathering" period. Staff worked long and hard on the issue, including efforts with Congressional representatives, the Center for Medicaid/Medicare Services, lobbyists and attorneys. Staff came to the end of those efforts in early 2006.

In early 2006, Doctors Medical Center informed Stanislaus County that they planned to initiate a request for determination related to Stanislaus Behavioral Health Center's "provider-based" status. Doctors Medical Center forwarded information to the Center for Medicare/Medicaid Services with regard to the request. They indicated that this was part of addressing outstanding compliance issues of Tenet Corporation.

The request for determination by Doctors Medical Center set into motion negotiations between Doctors Medical Center and Stanislaus County related to the operation of Stanislaus Behavioral Health Center. There is mutual acknowledgement that the Center for Medicare/Medicaid Services will not rule that Stanislaus Behavioral Health Center is in compliance with the "provider-based" regulations. The agreement between Stanislaus County and Tenet Corporation provides for such negotiations if Stanislaus Behavioral Health Center is found not to be in compliance with "provider-based" regulations. Based on the situation, a public hearing was held August 15, 2006, at which the Board of Supervisors approved two possible outcomes to the negotiations:

Consideration of the Proposal from Doctors Medical Center to Purchase Stanislaus Behavioral Health Center, including the Operations, Real Property, Improvements and Equipment; Authorization to Conduct a Reduction in Force; and Approval to Set a Public Hearing on July 31, 2007 at 9:30 a.m. to Consider the Approval of Sale, Introduction, Waive of First Reading and Adoption of an Ordinance Authorizing the Sale of Stanislaus Behavioral Health Center

Page 4

- Doctors Medical Center could assume operation of Stanislaus Behavioral Health Center as an acute psychiatric hospital. This would include Doctors Medical Center employing hospital staff and providing all services related to the operation of the hospital, i.e. patient medical records and the accounting system would become part of Doctors Medical Center's system. Stanislaus County would continue to own the land and structures and would lease the facility to Doctors Medical Center. Behavioral Health and Recovery Services could purchase inpatient psychiatric services for Stanislaus County Medi-Cal beneficiaries and uninsured individuals from Doctors Medical Center at a negotiated rate. This option would require a carefully negotiated agreement.
- In the event that a negotiated agreement with DMC could not be reached, Behavioral Health and Recovery Services could operate a Psychiatric Health Facility (PHF). A Psychiatric Health Facility is licensed through the State Department of Mental Health. Many California counties operate Psychiatric Health Facilities, which have different staffing requirements than acute psychiatric hospitals. Psychiatric Health Facilities also have different requirements relating to the medical status of individuals who are hospitalized. Individuals with severe or complex medical issues in addition to psychiatric problems cannot be hospitalized in a Psychiatric Health Facility. Additionally, Behavioral Health and Recovery Services would be unable to bill Medi-Cal for services, resulting in less revenue.

Pursuant to the August 15, 2006 Board of Supervisors authorization to either sell the acute psychiatric inpatient operations or terminate the existing license and acquire a Psychiatric Health Facility license, negotiations with DMC commenced. The results of these negotiations form the basic conditions upon which a sale of SBHC could proceed.

During a public hearing on April 24, 2007 the Board of Supervisors authorized staff to issue a Request for Proposals for the sale of the Stanislaus Behavioral Health Center property and operations pursuant to Government Code Section 25515, by a four-fifths vote. These proposals were due to the Chief Executive Officer by June 26, 2007. One proposal was received and met all requirements in the Request for Proposals. Doctors Medical Center submitted the following proposal:

- To purchase the land (including the excess land) and the building of the Stanislaus Behavioral Health Center from the County for \$10,949,000, so long as the County repairs the roof and replaces the broken chiller.
- To purchase the equipment from the County for an amount not to exceed \$168,500 based upon a fair market value appraisal.
- To purchase supplies and inventory from the County at appraised fair market value prepared by an appraiser agreed to by the County and Doctors Medical Center.

Consideration of the Proposal from Doctors Medical Center to Purchase Stanislaus Behavioral Health Center, including the Operations, Real Property, Improvements and Equipment; Authorization to Conduct a Reduction in Force; and Approval to Set a Public Hearing on July 31, 2007 at 9:30 a.m. to Consider the Approval of Sale, Introduction, Waive of First Reading and Adoption of an Ordinance Authorizing the Sale of Stanislaus Behavioral Health Center

Page 5

- To negotiate and enter into a "Settlement and Release Agreement" with the County to resolve all outstanding issues regarding any and all past, present and future claims and liabilities that Doctors Medical Center may owe Medi-Cal Disproportionate Share (DSH) payments to the County, and the only obligation of Doctors Medical Center to credit the County for Medi-Cal DSH payments in the future will be set forth in the to-be negotiated and executed "Managed Care Agreement."

Additionally, as part of the proposal, Doctors Medical Center demonstrated the following:

- Doctors Medical Center has current licensure for operating an acute psychiatric facility;
- Doctors Medical Center has financial ability to purchase the land and operations from the County;
- Doctors Medical Center has the ability to immediately commence facility operations; and
- Doctors Medical Center has the ability to comply with all of the terms and conditions of the Request for Proposals.

Staff requests authority to proceed with negotiations relating to the potential sale of Stanislaus Behavioral Health Center, including the sales contract and any other agreements required as part of the sales transaction. Additionally, staff requests the Board authorize a Public Hearing on July 31, 2007 at 9: 30 a.m. to consider the sale of the Stanislaus Behavioral Health Center to Doctors Medical Center and to introduce, waive the first reading and adopt an ordinance authorizing the sale. Upon adoption, there is a 30-day referendum period prior to the ordinance being enacted. Following the referendum period, staff will finalize all legal documents and return to the Board to complete the sales transaction.

Government Code §65402(c) states that a local agency (the County) shall not dispose of real property in any City that has an adopted General Plan applicable to the area until the location and purpose of the disposition have been submitted to the City's planning agency and the agency has reported on the conformity with the General Plan. On July 2, 2007, the Modesto Planning Commission made the determination that the proposed transfer of SBHC to DMC is in conformity with the City's General Plan.

When completed, the sale of the Stanislaus Behavioral Health Center will result in economic benefit to the County. The proceeds from the sale will be available to reduce any existing operational deficit of the Stanislaus Behavioral Health Center, thereby lessening any General Fund contribution required by the Department. Additionally,

Consideration of the Proposal from Doctors Medical Center to Purchase Stanislaus Behavioral Health Center, including the Operations, Real Property, Improvements and Equipment; Authorization to Conduct a Reduction in Force; and Approval to Set a Public Hearing on July 31, 2007 at 9:30 a.m. to Consider the Approval of Sale, Introduction, Waive of First Reading and Adoption of an Ordinance Authorizing the Sale of Stanislaus Behavioral Health Center

Page 6

there is economic benefit to the sale in that an existing County mental health facility will continue in operation by a private entity.

POLICY ISSUES:

This request meets the County's responsibility under Section 1442.5 of the California Health and Safety Code to hold a public hearing prior to the closing, or selling of a County health facility or reducing the level of medical services provided by the County for the care of indigents in addition to supporting the Board's priorities of a safe community, a healthy community, and efficient delivery of public services.

STAFFING IMPACT:

Currently there are 122 allocated full-time positions dedicated to the Stanislaus Behavioral Health Center budget unit. This report includes the recommendation to delete 115 of the 122 allocated positions upon the transition of SBHC operations to Doctors Medical Center. Of the 115 positions to be deleted, 67 positions are currently filled and require approval of a reduction-in-force action. Seven allocated Psychiatrist positions will be transferred to the Behavioral Health and Recovery Services budget unit to support the County's intent to contract with Doctors Medical Center to provide psychiatric services for County patients receiving services at SBHC. The effective date for all recommended position deletions and transfers will be no earlier than September 1, 2007 and no later than October 1, 2007. The effective date is subject to the final transition of SBHC operations to Doctors Medical Center and the final approval of all associated agreements.

The staffing attachment (Attachment A) reflects the details of the positions recommended for deletion as part of this item. It is recommended the Salary and Position Allocation Resolution be amended to reflect these changes. The following table includes a summary of the staffing recommendations:

Stanislaus Behavioral Health Center Budget Unit

	Allocated	Filled	Vacant
Current Positions	122	72	50
Delete	115	67	48
Transfer-out	7	5	2
Remaining Positions	0	0	0

Consideration of the Proposal from Doctors Medical Center to Purchase Stanislaus Behavioral Health Center, including the Operations, Real Property, Improvements and Equipment; Authorization to Conduct a Reduction in Force; and Approval to Set a Public Hearing on July 31, 2007 at 9:30 a.m. to Consider the Approval of Sale, Introduction, Waive of First Reading and Adoption of an Ordinance Authorizing the Sale of Stanislaus Behavioral Health Center

Page 7

In addition to the full-time positions identified with the recommended actions, there are approximately 45 part-time/extra-help and contract employees currently employed at the Stanislaus Behavioral Health Center who will be impacted by the transition to Doctors Medical Center.

Recognizing the potential impact this recommendation may have on the County's workforce, representatives from the County's Chief Executive Office/Human Resources Division and Behavioral Health and Recovery Services leadership team have been meeting with the affected labor organizations since July 2006 to discuss the potential impacts of this action. Additionally, the County has asked departments to hold vacancies as potential landing positions for employees affected by this recommendation. Behavioral Health and Recovery Services has prepared for this reduction in force by maintaining funded vacancies throughout the department to minimize the number of impacted employees. There are approximately 25 vacant funded positions within the impacted classifications available within Behavioral Health and Recovery Services to assist in partially absorbing the 67 filled positions to be deleted. There may be additional opportunities for staff as a result of turnover in the next two months. If this item is approved the team will meet individually with each affected employee to outline employment options and assist during this time of transition. Doctors Medical Center will also have the opportunity to meet with impacted employees to discuss potential employment opportunities to maintain the continued operation of the facility. Based on continued employee turnover and voluntary transfers to other departments, the final impact of this action upon current employees will remain unknown until the final transition of operations.
