

Cal-MMET

California Multi-Jurisdictional
Methamphetamine Enforcement Team

5th Year Progress Report

September 2005 - October 2006

GOVERNOR ARNOLD SCHWARZENEGGER

February 17, 2007

Dear Fellow Californian,

This year has been a year of moving our great state forward. We have gotten California back on the road to fiscal health. We have put money back into our schools. We have improved our roads and levees. We have accomplished much by focusing on solutions, rather than partisan divisions.

The work of the multi-jurisdictional Methamphetamine Enforcement Team (Cal-MMET) is a shining example of this kind of innovative and common sense problem solving. Over the last year, the Cal-MMET program has gotten thousands of pounds of drugs off our streets and seized more than \$4.8 million in drug dealer assets. This kind of success deserves continued financial support from the State of California.

I commend the men and women of the Cal-MMET program for their tireless efforts in keeping our children and communities drug free.

Sincerely,

Arnold Schwarzenegger
