BOARD OF SUPERVISORS
2007 OCT 22 A 10:41

Dear Chairman O'Brien,

At the October 1, 2007 meeting of the Stanislaus County Agricultural Advisory Board, the topic of tertiary wastewater was on the agenda. Specifically, the question was raised whether tertiary wastewater, also known as treated sewage water, could be used to irrigate crops in Stanislaus County.

It was the wish of the Ag Advisory Board to ask you as the Chairman of the Board of Supervisors if this was a topic for which you and your colleagues would like the Ag Advisory Board to study and make a recommendation to the Board of Supervisors.

Thank you for your consideration.

Sincerely,

WAYNE ZIPSER
Chairman
Stanislaus County Agricultural Advisory Board
