DISCUSSION:

Behavioral Health and Recovery Services partners with West Modesto King Kennedy Neighborhood Collaborative to provide outreach and engagement services to individuals with a serious mental illness. This includes underserved and unserved individuals within Stanislaus County who are located in racially, culturally, and ethnically diverse communities who are reluctant or unable to seek services in traditional mental health settings in West Modesto. Under the Mental Health Services Act, Workforce Education and Training funds can be used to provide mental health career pathway programs, training and technical assistance, financial incentive programs, residency and internship programs and workforce staffing support. These funds will be used to provide approximately six junior high students with stipends in West Modesto. This need was identified through stakeholder meetings held to develop the Workforce Education and Training component of the Mental Health Services Act, Community Services and Supports Plan submitted to the State. West Modesto King Kennedy Neighborhood Collaborative currently provides services in the West Modesto community and has expressed a strong interest in collaborating with Mark Twain Junior High School to provide the oversight, development and implementation of the project in West Modesto. Through this collaboration, it is anticipated that West Modesto King Kennedy Neighborhood Collaborative will foster interest in careers in the mental health field among junior high school students.

POLICY ISSUE:

Approval of this agenda item supports the Board of Supervisors' priorities of *A healthy community, the Efficient delivery of public services and Effective partnerships* by using an existing partnership in the West Modesto community to oversee student stipends intended to provide awareness of mental health career opportunities.

STAFFING IMPACT:

There is no staffing impact associated with the approval of this agenda item.
