

THE BOARD OF SUPERVISORS OF THE COUNTY OF STANISLAUS  
ACTION AGENDA SUMMARY

DEPT: Public Works *alban*

BOARD AGENDA # 6:40 p.m.

Urgent  Routine

AGENDA DATE May 19, 2009

CEO Concurs with Recommendation YES  NO   
(Information Attached)

4/5 Vote Required YES  NO

SUBJECT:

Approval to Introduce and Waive the First Reading of an Ordinance to Amend Existing Fees for the Department of Public Works Engineering Division

STAFF RECOMMENDATIONS:

Introduce and waive the first reading of an ordinance to amend existing fees for the Department of Public Works Engineering Division.

FISCAL IMPACT:

The proposed fee increase will enable the Department of Public Works to recover more of the cost of providing construction inspection, plan review, and project review services. The proposed fees will generate approximately \$180,000. This revenue will be used to offset the staffing and operational costs associated with these services. Staffing costs to provide these services for Fiscal Year 2008/2009 were approximately \$540,000. Revenues for the same time period, based on the existing fee schedule, are projected to be \$178,000, a deficit of \$362,000. The proposed increase in fees will reduce the deficit to \$182,000.

BOARD ACTION AS FOLLOWS:

No. 2009-347

On motion of Supervisor O'Brien, Seconded by Supervisor Grover

and approved by the following vote,

Ayes: Supervisors: O'Brien, Chiesa, Grover, Monteith, and Chairman DeMartini

Noes: Supervisors: None

Excused or Absent: Supervisors: None

Abstaining: Supervisor: None

1) X Approved as recommended

2) \_\_\_\_\_ Denied

3) \_\_\_\_\_ Approved as amended

4) \_\_\_\_\_ Other:

MOTION: Introduced and waived the first reading of Ordinance No. C.S. 1062

*Christine Ferraro*

ATTEST: CHRISTINE FERRARO TALLMAN, Clerk

File No. ORD-55-J-9

## Approval to Introduce and Waive the First Reading of an Ordinance to Amend Existing Fees for the Department of Public Works Engineering Division

### **DISCUSSION:**

The Public Works Department provides services as required by law to the public and the development community. Some of these services encompass construction inspection, plan review, and project review. These services cannot be paid out of gas tax funds and therefore, Public Works charges fees to provide inspection and review services.

The proposed fee adjustments are based upon average time and costs involved in providing the service. Construction inspection, plan review, and project review fees were last increased in 1991. The cost of providing these services has increased and is not fully recovered under the existing fee structure.

As an example a driveway permit under the current fee system, would cost \$35. A concrete driveway takes a minimum of 3 inspections totaling an average of 2 hours (not including travel time). Calculating the cost of this same permit under the new methodology would be as follows: The base permit fee of \$20 plus the flat rate of \$120 for a total cost of \$140. As a comparison, the City of Modesto's driveway encroachment permit is \$198.

Public Works realizes that in the current economic environment, it would be unreasonable to propose to increase fees in one year to cover the deficit between the current fees charged and the cost of delivering the services that has developed over the last 18 years since the fees were last set in 1991. Therefore, Public Works proposes to increase the fees incrementally over a five-year period.

The majority of Public Works inspection fees are currently at a \$60 flat rate. Flat rates are charged by project category and currently are independent of the actual hours of inspection required for a project. They are also independent of the location, travel time, size, and type of each project.

Public Works proposes to use \$120 flat rate as a baseline for setting inspection services and permit fees based on an average 2 hour inspection per job at \$60/hour. In addition, it is proposed to set a base permit fee of \$20 to cover administrative costs, GIS fee and Flood Plain Administration fee. Public Works is submitting for approval only the first year's fee increase.

## Approval to Introduce and Waive the First Reading of an Ordinance to Amend Existing Fees for the Department of Public Works Engineering Division

The remaining adjustments will be returned to the Board of Supervisors for approval on an annual basis through year five. The anticipated increments over the next five years for the per hour baseline rate are shown in the following table:

Proposed Increases Over Five Years				
Year 1	Year 2	Year 3	Year 4	Year 5
\$60	\$70	\$80	\$90	\$95

Staff's current average weighted hourly rate is \$85. Based upon the current weighted rate and the proposed fee in year one, Public Works will continue to subsidize these services. With projected equity increases and cost of living increases, it is anticipated that the Department will be able to eliminate the deficit by year five. Exhibit B of the fee analysis includes information indicating how weighted rates were determined for various tasks.

### **Fee Review Process**

In order to determine proposed fee increases, Public Works used the following process:

- Public Works' plan check, encroachment permit, excavation permit, street improvement construction permit, and construction inspection fees were last increased December 17, 1991. In reviewing the fee structure, Public Works staff believed that the fees had fallen behind what is customarily and routinely charged by other San Joaquin Valley governmental entities for the same types of services.
- Public Works' Engineering staff contacted Fresno County, Merced County, and San Joaquin County, and the cities of Ceres, Fresno, Merced, Modesto, and Oakdale to obtain information about the fees they currently charge for plan checks, encroachment permits, excavation permits, street improvement construction permits, and construction inspections.

A spreadsheet was developed listing the fees charged by those government entities along with the current Stanislaus County Public Works fees (Exhibit C).

- The fees charged by other government entities were averaged and compared with the Stanislaus County fees. In addition, the variation in methods for charging the fees was also evaluated. Variations included a flat rate, charging actual time taken to perform the services, and requiring deposits based on a percentage of the engineer's estimated cost to complete the project.
- Based on the above analysis and evaluation, Public Works has arrived at a proposed change in construction review and inspection fees.

## Approval to Introduce and Waive the First Reading of an Ordinance to Amend Existing Fees for the Department of Public Works Engineering Division

### **Proposed Fee Changes**

Excavation Permit (for any excavation occurring in a County right-of-way): The basic permit fee is proposed to increase to \$20. This fee includes \$5 each for Flood Plain Administrator review and Geographic Information System (GIS) updates as related to the improvements and \$10 for administrative fees. An additional fee for the inspection of the excavation work would change from a \$60 flat fee per 250 or 500 lineal feet of excavation of unpaved or paved area to a \$120 flat fee. The fee is based on the average inspection time of two hours per project.

Encroachment Permit: The flat rate fee that has been charged for an encroachment permit (for construction that occurs in a County right-of-way) for driveway construction has been \$35. The proposed fee increase is to \$120. Inspection for a concrete driveway takes a minimum of 3 inspections totaling on average 2 hours. With an hourly charge of \$60, 2 hours of inspection time equals \$120.

Construction Permits: Permits for street improvements have been charged at a flat rate fee of \$30 for the basic permit and an additional fee of \$60 per 250 lineal feet for inspection of curb and gutter work, sidewalks, and matching pavement construction, and a flat fee of \$60 for drywell inspections. Using a baseline of \$60 per hour and the average inspection time for the listed services of two hours, the proposed fee is \$120 flat rate plus a base permit fee of \$40. This fee includes \$5 each for Flood Plain Administrator review and Geographic Information System (GIS) updates as related to the improvements and \$30 for administration. Fees are to be paid in advance of the inspection.

Re-inspections have been charged, and will continue to be charged, at \$60 per hour. These fees have historically been collected after the work has been performed. It is now proposed to require a deposit of 10% of the engineer's estimate for the offsite cost of the construction. Inspection time would be charged at the rate of \$60 per hour (no change), the charge being drawn down against the deposit. At the completion of the project, the balance of the deposit would be remitted to the customer. If the deposit is not sufficient to cover all inspection charges, the customer will be billed separately for additional charges. The standard rate per hour for construction inspection is proposed to remain at \$60 per hour for this year. A base fee of \$40 will be charged. This fee includes \$5 each for Flood Plain Administrator review and Geographic Information System (GIS) updates as related to the improvements and \$30 for administrative fees. Improvement plan checking is proposed to remain at the rate of \$80 per hour. A base fee of \$40 will be charged. This fee includes \$5 each for Flood Plain Administrator review and Geographic Information System (GIS) updates as related to the improvements and \$30 for administrative fees. As with large construction projects, a deposit of 10% of the engineer's estimate for the off site cost of the project would be required, and review time would be charged back against the deposit.

## Approval to Introduce and Waive the First Reading of an Ordinance to Amend Existing Fees for the Department of Public Works Engineering Division

The flat rate fee for a parade permit is proposed to be increased from \$25 to \$50. A parade permit takes approximately 45 minutes to process, equivalent to \$50 of staff time. Public Works waives the parade permit fee for non-profit organizations.

The proposed new fee schedule is shown as Exhibit "A" in this document.

Currently, Public Works subsidizes these services in the amount of approximately \$360,000. With the proposed phasing plan, the subsidy will reduce to approximately \$182,000 in year one and the deficit will be eliminated by year five.

### **POLICY ISSUES:**

Authority for the Department of Public Works to charge fees for use of County roads and inspection of constructions, excavations, and installations occurring in Stanislaus County streets is granted in California Street and Highways Code, Division 2, Chapter 2, Section 982, and Chapter 5.5, Article 2, Section 1464. The Board should consider if the recommended action is consistent with its priorities of a well-planned infrastructure system and the efficient delivery of public services.

### **STAFFING IMPACT:**

The proposed increases will enable Public Works staff to continue to provide construction inspection, plan review, and project review services in a timely manner.

ORDINANCE NO. C.S. \_\_\_\_\_

**AN ORDINANCE ADOPTING NEW FEES AND INCREASING EXISTING FEES  
COLLECTED BY THE DEPARTMENT OF PUBLIC WORKS**

THE BOARD OF SUPERVISORS OF THE COUNTY OF STANISLAUS, STATE  
OF CALIFORNIA ORDAINS AS FOLLOWS:

**Section 1.** Fees to be collected by the Department of Public Works are adopted and amended as set forth in the Department of Public Works Fee Schedule attached hereto as Exhibit A and incorporated by reference, copy of which is on file with the Clerk of the Board of Supervisors and is available for public inspection and copying in that office in accordance with the California Public Records Act.

**Section 2.** This ordinance shall take effect 30 days from and after the date of its passage and before the expiration of 15 days after its passage it shall be published once, with the members voting for and against the same, in the Modesto Bee, a newspaper published in the County of Stanislaus, State of California.

Upon motion of Supervisor \_\_\_\_\_ seconded  
by Supervisor \_\_\_\_\_, the foregoing Ordinance was  
passed and adopted at a regular meeting of the Board of Supervisors of the  
County of Stanislaus, State of California, this \_\_\_\_ day of \_\_\_\_\_,  
2009, by the following called-vote:

AYES: Supervisors:

NOES: Supervisors:

ABSENT: Supervisors:

\_\_\_\_\_  
Jim DeMartini, Chairman  
of the Board of Supervisors of the  
County of Stanislaus, State of California

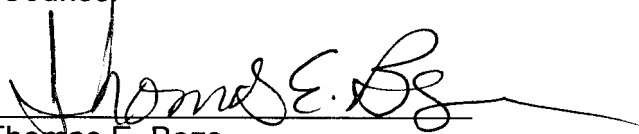

ATTEST:

CHRISTINE FERRARO TALLMAN, Clerk of the  
Board of Supervisors of the County of Stanislaus,  
State of California

By \_\_\_\_\_  
Liz King, Deputy Clerk

APPROVED AS TO FORM:

EXHIBIT "B"

FEE ANALYSIS – JANUARY 2009

DETERMINING WEIGHTED RATES FOR VARIOUS TASKS

1. Weighted Rate for Construction Inspection

Hourly rate charged by the construction inspector shall be \$85.00 per hour.

Assistant Engineer	1.0 hr @ \$61.85 = \$61.85
Public Services Manager	0.1 hr @ \$80.84 = \$ 8.08
Assistant Engineer	0.1 hr @ \$61.85 = \$ 6.19
Clerical	0.1 hr @ \$19.59 = \$ 1.60
Deputy Director	0.1 hr @ \$82.94 = \$ 8.29
	<u>\$86.01</u>

All work by others, including traffic engineering and additional inspectors, shall be charged at each individual's weighted labor rate. Per Stanislaus County Subdivision Ordinance 20.58.070, Inspection Fees shall be based on the actual costs incurred plus a reasonable sum for overhead and supervision.

2. Weighted Rate for Project Review

Hourly rate charged by the construction inspector shall be \$85.00 per hour.

Assistant Engineer	1.0 hr @ \$ 61.85 = \$61.85
Public Services Manager	0.1 hr @ \$ 80.84 = \$ 8.08
Clerical	0.1 hr @ \$ 19.59 = \$ 1.60
Deputy Director	0.1 hr @ \$ 82.94 = \$ 8.29
Director	0.1 hr @ \$122.49 = <u>\$12.25</u>
	<u>\$92.07</u>

All work by others, including traffic engineering and additional inspectors, shall be charged at each individual's weighted labor rate. Per Stanislaus County Subdivision Ordinance 20.58.070, Inspection Fees shall be based on the actual costs incurred plus a reasonable sum for overhead and supervision.
