TITLE 14. Fish and Game Commission Notice of Proposed Changes in Regulations

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 202 and 355 of the Fish and Game Code and to implement, interpret or make specific sections 202, 355, and 356 of said Code, proposes to amend Section 502, Title 14, California Code of Regulations, relating to waterfowl hunting.

Informative Digest/Policy Statement Overview

Current regulations in Section 502, Title 14, California Code of Regulations (CCR), provide definitions, hunting zone descriptions, season opening and closing dates, and establish daily bag and possession limits. In addition to the five proposals contained herein, the U.S. Fish and Wildlife Service (Service), after analysis of waterfowl population survey and other data, may change federal regulations; if this occurs changes in existing and proposed regulations in California may be necessary. Changes in federal regulations for season opening and closing dates. elimination or creation of special management areas, season length, and daily bag limits for migratory birds may occur. Item 4 requires changes in the federal regulations and must be approved by the Pacific Flyway Council at its meeting on July 24, 2009. Item 5 (including the table below) provides a proposed range of season dates and bag limits for waterfowl. The Service will consider recommendations from the Flyway Council at their meeting on July 30. 2009. At this time, the California Breeding Pair Survey has not been conducted and the Service has not established federal regulation "frameworks" which will occur in August after the analysis of current waterfowl population survey, other data, input from the Flyway Councils and the public. Also, minor editorial changes are proposed to clarify and simplify the regulations and to comply with existing federal frameworks.

The Department's proposals are as follows:

- 1. Increase the white-fronted goose daily bag limit to 6 geese per day in the Northeastern, Southern San Joaquin Valley, and Balance of State zones. Also, the white-fronted goose, Large and Small Canada goose daily bag limits will be collectively called dark geese in the Southern San Joaquin Valley and Balance of State zones.
- 2. Increase the Large Canada goose daily bag limit to 6 per day in the Southern San Joaquin Valley and Balance of State zones. Also, the white-fronted goose, Large and Small Canada goose daily bag limits will be collectively called dark geese in the Southern San Joaquin Valley and Balance of State zones.
- 3. Change the name of the Youth Hunting Days section to Youth Waterfowl Hunting Days.
- 4. Modify the opening date of the Sacramento Valley (West) Special Management Area to open concurrently with the general goose season in the Balance of State Zone. This proposal requires approval by the Pacific Flyway Council and the U.S. Fish and Wildlife Service.
- 5. Provide a range of waterfowl hunting season lengths (which may be split into two segments) between 38 and 107 days for all hunting methods. A range of daily bag limits is also given for ducks in all zones. Also, federal regulations require that California's hunting regulations conform to those of Arizona in the Colorado River Zone. See the following table for season and bag limit ranges.
