SUBJECT:

Approval to Set a Public Hearing on May 18, 2010 at 6:35 p.m. to Introduce and Waive the First Reading of an Ordinance to Establish New Fees and Amend Existing Fees for Planning Services

STAFF RECOMMENDATIONS:

Set a public hearing on May 18, 2010 at 6:35 p.m. to introduce and waive the first reading of an ordinance to establish new fees and amend existing fees for planning services.

FISCAL IMPACT:

The increase in revenue resulting from the approval of this fee proposal is expected to partially offset direct costs related to processing land use applications and the ongoing provision of services. This proposal also includes a fee for a Reclamation Plan Amendment which is not reflected on the current fee schedule but is an application type reflected in County ordinance and State regulations. It is anticipated that with the total adjustments as proposed, revenues to the Planning and Community Development Department could potentially increase by approximately \$6,300 annually. The proposed adjustments are anticipated to produce additional revenue for the Public Works Department in the amount of \$15,500.

DISCUSSION:

The last Planning and Community Development Department initiated increase to the fee schedule for planning services was adopted by the Board of Supervisors on April 28, 2009. The approved fee schedule reflects separate fees for the Planning and Community Development Department (Planning Division and Planning Commission Clerk), Department of Public Works, Department of Environmental Resources (DER), and Clerk of the Board.

This item proposes an approximate 3% increase to the Planning and Community Development portion of the fees. This increase reflects increases in operating costs (such as salaries, benefits, and office materials and equipment) and addresses external increases in other direct costs incurred in the processing of discretionary permits. This increase is comparable to increases in the Consumer Price Index (CPI), as reported by the Bureau of Labor Statistics, of 2.6 to 3.3% from January 2009 to January 2010.

In addition to the above 3% increase, the following changes have been incorporated into the fee structure:

1. A fee for a Reclamation Plan Amendment has been added to the fee schedule. This type of application is reflected in County ordinance and State regulations relating to the Surface Mining and Reclamation Act, but has never been specifically included on the fee schedule. The fee has been added to the existing fee category addressing Mine Use Permits and Reclamation Plans as an "actual cost" application with a deposit of \$3,843.

Mine operators may request to amend their Reclamation Plans if material is identified in an area not previously reflected on the approved Reclamation Plan. Furthermore, the County is required to process a Reclamation Plan Amendment when a surface mining operation goes "idle" and an Interim Management Plan (IMP) is required. A surface mine is considered "idle" when operations are curtailed, for a period of one year or more, by more than 90 percent of the previous maximum annual mineral production, and where there is an intent to resume surface mining operations at a future date. An IMP is a temporary plan to address public health, safety, and environmental issues relevant to the site in question.

To date, Stanislaus County has never processed a Reclamation Plan Amendment in relation to an IMP. However, with the current economic downturn, the County has been informed by the State that seven (7) of our existing thirteen (13) mines are classified as "idle" and require an IMP. Variables which may contribute to cost differences in processing IMP related Reclamation Plan Amendments include the extent of mining which has occurred on-site, the possible need for an on-site inspection, and the processing of individual requests versus grouping the requests for

consideration by the Stanislaus County Planning Commission. These are variables which staff cannot control and will need to be addressed on a case-by-case basis as the requests are received.

Tuolumne and Calaveras Counties are our only neighboring counties with similar fees addressing IMP's or Reclamation Plan Amendments (revisions). In Tuolumne County the cost of an IMP is \$1,863. Their fee schedule makes no reference to a Reclamation Plan Amendment, but the cost of a Reclamation Plan itself is \$4,152.50. Calaveras County does not have an IMP fee, but does have minor and major mining Reclamation Plan revision fees of \$2,277.66 and \$4,184.38 respectively. San Joaquin and Merced Counties do not have fees identified for IMP's or Reclamation Plan Amendments.

Incorporation as an "actual cost" application will allow the County flexibility to recover actual costs while allowing for a refund if processing costs are less than the deposit. The hope is that as the economy recovers very little, if any, need for this fee will exist.

2. Note (2) of the fee schedule has been changed to clarify that if a Lot Line Adjustment in a combined application results in the need for a Certificate of Compliance, the cost of the Certificate of Compliance is not included in the fee schedule and Public Works will require the standard \$695 Certificate of Compliance fee.
3. Note (2) of the fee schedule has also been changed to reflect the need for payment of the total Williamson Act Cancellation fee when an application is combined with other non-"actual cost" applications for the purpose of determining the applicable "highest cost" fee for a combined application. The reason for this change is to reflect specific individual costs associated with the processing of a Williamson Act Cancellation, such as special public noticing requirements, which are not addressed in the fees collected for other types of applications.
4. The fee schedule has been changed to update Airport Land Use Commission fees reflected in Note (5). As approved by the Airport Land Use Commission (ALUC) in November of 2005, the minimum charge for an actual cost application and appeal of a staff determination are the same as the Planning and Community Development Department's General Plan Amendment and appeal of a staff determination. The fee schedule has been changed to reflect the ALUC adopted fee without requiring an actual value which must be adjusted every time there is a change to the planning fees.
5. The Clerk of the Board is requesting an increase in their separate fee charged for rezone applications (currently \$200) to \$300. The fee increase covers increased public notice costs.

Page 4

6. Note (7) is being added to the fee schedule to reflect that separate fees for the Department of Public Works and the Department of Environment Resource shall only apply when processing of the request requires referral and/or action by the respective Departments.
7. The Department of Public Works is requesting a new separate fee of \$70 for Williamson Act contracts. Currently, there is no Public Works fee to cover the costs of the Survey Division's review of legal descriptions/grant deeds. This review is required to ensure only legal parcels in their entirety are accepted for enrollment in the Williamson Act. This fee reflects work already being conducted by the Survey Division with no cost recovery. With this new fee, and the increase in the Planning fee discussed earlier, the cost for a new Williamson Act Contract will increase from \$194 to \$268.
8. The Department of Public Works is requesting an increase in their separate fee charged for applications requiring a public hearing and *not* charged actual cost. The increase will apply to Condition of Approval or Development Standard Modifications (currently \$160), Parcel Maps (currently \$210), and Use Permits (currently \$160). The Department requests a standard charge of \$350 for each of the above applications. The Department has reviewed fees charged by the County of Fresno, County of Merced, City of Fresno and City of Turlock. The proposed fees are in line with neighboring entities. In addition, the proposed weighted labor rate is based on the Department's proposal to increase fees over a 5-year period to reduce the actual deficit to zero, consistent with the strategy presented to the Board in 2009. The actual weighted labor rate is \$92.07. The Department will request to increase fees as follows: Fiscal Year 2010-2011 \$70/hr; Fiscal Year 2011-2012 \$80/hr; Fiscal Year 2012-2013 \$90/hr and Fiscal Year 2013-2014 \$95/hr. The increase requested for this year reflects a minimum charge of five (5) hours at a weighted labor rate of \$70 per hour. In addition, Note (6) has been added to the fee schedule to reflect the need for payment of additional charges at the same weighted labor rate if additional staff time is needed.
9. The Planning Division collects fees for several Departments during the Land Use Application process, including Public Works, Environmental Resources, and the Clerk of the Board. The Division is also charged bank service charges when customers use a credit card to pay for fees. The Division has covered labor, record retention, reporting and direct costs related to collection of these fees without any assistance from the Departments to cover those costs and charges.

The Planning Division desires to recover direct costs associated with collection and administration of fees collected for other Departments, and as such, proposes to charge a 1% administrative fee to all departments for fees collected during the Land Use Application process. An additional 2.5%

Page 5

charge will be added if the fees are collected by credit card. It is the intention not to increase the various fees to cover these costs, but rather to transfer the appropriate percentage related to administrative charges from the existing fees during the journal voucher and deposit process. This administrative cost recovery is reflected in Note (8) of the fee schedule.

No other changes are proposed to the fee structure adopted by the Board in 2009. The average proposed increase per application type is \$57. The deposit for most "actual cost" applications will increase by \$80 and the average proposed increase for projects requiring Planning Commission consideration is \$101. The greatest fee increase is \$249 for agricultural Use Permits and Use Permits requiring Board of Supervisors approval. These Use Permit increases are primarily attributed to the \$190 fee increase proposed by the Department of Public Works.

A review of comparable County agencies (Monterey, Kern, Fresno, San Joaquin, Sonoma, Solano, Sacramento, and Ventura) shows the proposed total fee amounts are in most cases equal to, in respect to charging actual cost, or less than the total fees charged by other agencies. The counties with some fees less than the County's proposed total fee amounts include Fresno County (Lot Line Adjustments and Parcel Maps) and Solano County (Variance). A fee comparison is provided in Attachment 2.

A public hearing is requested pursuant to Government Code Section 66016 as it relates to proposed fee increases which provide that: a local agency shall hold at least one public meeting, at which oral or written presentations can be made, as part of a regular scheduled meeting.

POLICY ISSUES:

The Board should determine if this action is consistent with its stated priorities of striving for effective partnerships and the efficient delivery of public services.

STAFFING IMPACTS:

(1) Fees described above that require a deposit and are charged at "actual cost" have a minimum charge associated with them. The deposit required is this minimum charge and is non-refundable. This DOES NOT include any necessary consultant costs for environmental review, specialized studies, financial consulting or any other expert consulting services potentially needed by the County for processing these applications. Monthly draws against the deposit will be made based on staff time and materials needed to process the applications. Staff costs and expenses for Planning, Public Works, and DER will be billed at fully burdened weighted labor rates as provided by the Auditors Office at the time of services rendered.

All additional staff time and expenses needed to complete the application processing that exceed the deposit amount will be charged at actual cost, including labor charged at the weighted labor rate. Invoices will be calculated on a quarterly basis and forwarded to the applicant for payment. If the deposit reaches a balance of 20% of the initial deposit or less, the Applicant will be asked to make a subsequent deposit in an amount dependent upon the amount of work left to complete on processing. Applicants will be expected to pay the subsequent deposit within 30 days of invoice date. In the event that the account is not paid within 30 days of the invoice date, processing will be suspended until such time that payment is made. Any remainder will be used to reconcile your final bill. If there is a balance remaining after reconciling the final bill, a refund check will be mailed to you. Public hearings will not be scheduled until payment in full is received.

*(2) Applications for two or more actions (for example: Tentative Map and Exception) will be charged the highest application fee, **except applications for a Williamson Act Cancellation**. For those applications for two or more actions that include an action that is charged at "actual cost" (for example: General Plan Amendment, Rezone, & Parcel Map) they will be charged the highest deposit amount as a minimum charge and deposit. The deposit is non-refundable*. All additional staff time and expenses needed to complete the application processing that exceed the deposit amount will be charged at actual cost, including labor charged at the weighted labor rate per note #1 above. If a Lot Line Adjustment in an Agricultural zone is included in a Combination Application, an additional \$695 will be required beyond the set fee or deposit amount in order to obtain a "Certificate of Compliance" from Public Works. **Applications for a Williamson Act Cancellation shall pay a separate fee except when combined with an "actual cost" action.**

*(3) Department of Environmental Resources charges for Tentative Map Review reflect a minimum charge of 8 hours at a weighted labor rate of \$103.00 per hour. Additional time required for tentative map review will be charged at the same hourly rate.

*(4) A General Plan Maintenance Fee will be charged for every Building Permit of \$1.28 per \$1,000 of improvement valuation. This fee will be collected with other Building Permit fees and will be calculated based on the total valuation of the improvement as determined through the normal Building Permit process.

*(5) If your project falls within an Airport Planning Boundary, a separate application and fee will be required for the Airport Land Use Commission (ALUC). You will be required to contact the ALUC and submit an application for review. For information purposes only: Projects are identified by the ALUC as either "Major" or "Minor" and the ALUC has adopted the following project review fees as of November 2005: Major: \$1,200, Minor: \$225. An amendment to the ALUC Plan will be charged as "Actual Cost" with a deposit and minimum charge of \$3,950, and an appeal of a Staff determination to the ALUC is charged \$629 the same as a general plan amendment and appeal of a staff determination as reflected on the current Planning fee schedule. Applicants should check with the ALUC to verify application costs.

*(6) Department of Public Works charges for Condition of Approval or Development Standards Modifications, Parcel Maps, and Use Permits reflect a minimum charge of 5 hours at a weighted labor rate of \$70.00 per hour. Additional time required for these types of request will be charged at the same hourly rate.

*(7) Fees for the Departments of Public Works and the Department of Environmental Resources shall only apply when processing of the application(s) require referral to and/or action by the respective Departments.

*(8) A 1% Administrative Cost Recovery Fee will be charged to Public Works, Department of Environmental Resources, and Clerk of the Board for fees collected during the Land Use Application process. An addition 2.5% fee will be charged for fees collected by credit card.

* Fees may be refunded if the Planning Director, or his appointed designee, determines extraordinary circumstance warranting a refund exist.

NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that on May 18, 2010 at 6:35 p.m., or as soon thereafter as the matter may be heard, the Stanislaus County Board of Supervisors will meet in the Basement Chambers, Lower Level, 1010 10th St., Modesto, CA, to introduce and waive the first reading of an ordinance to establish new fees and amend existing fees for Planning Services.

ADDITIONAL NOTICE IS GIVEN that Planning and Community Development 2010 Fee Schedule will be available for review on March 30, 2010, in the Clerk of the Board Office, 1010 10th Street, Suite 6500, Modesto, CA.

NOTICE IS FURTHER GIVEN that at the said time and place, interested persons will be given the opportunity to be heard. Material submitted to the Board for consideration (i.e. photos, petitions, etc.) will be retained by the County. If a challenge to the above application is made in court, persons may be limited to raising only those issues they or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the Board of Supervisors.
