 REVISED DRAFT PROGRAM ENVIRONMENTAL IMPACT REPORT MATERIAL**

The California High-Speed Rail Authority (Authority) is circulating the **Bay Area to Central Valley High-Speed Train (HST) Revised Draft Program Environmental Impact Report (EIR) Material** to comply with the court judgment in *Town of Atherton, et al., v. California High-Speed Rail Authority*. You are receiving this notice because your name appears on a mailing list for a project-level EIR involving the same geographic area. The programmatic review is a broader level of environmental review than the project-level work and typically occurs prior to the project-level work that is currently ongoing.

The Bay Area to Central Valley HST Revised Draft Program EIR Material can be obtained on the Authority's website, [www.cahighspeedrail.ca.gov/library](http://www.cahighspeedrail.ca.gov/library), or by calling the Authority at (916) 324-1541 and requesting a CD of the document. The Revised Draft Program EIR Material contains only the additional information and analyses needed for compliance with the court judgment. Context for this document is contained in the **2008 Final Bay Area to Central Valley HST Program Environmental Impact Report/Environmental Impact Statement (EIR/EIS)**, also located on the Authority's website. Pursuant to CEQA Guidelines section 15088.5, subdivision (f)(2), the Authority requests that reviewers limit the scope of their comments to the revised materials contained in this document. The Authority is only obligated to respond to those comments received during the circulation period that relate to content of the Revised Draft Program EIR Material.

The Authority will accept public comment on this document for a period of 45 days, commencing on March 11, 2010, and concluding at close of business on April 26, 2010. Comments shall be directed to Dan Leavitt, California High-Speed Rail Authority, 925 L Street, Suite 1425, Sacramento, CA 95814.
