BOARD OF SUPERVISORS

Proposed NPDES Permit Renewal  
for

2010 MAY -3 A 11: 46

Sacramento Regional County Sanitation District  
Sacramento Regional Wastewater Treatment Plant  
28 April 2010

Central Valley Regional Water Quality Control Board (Central Valley Water Board) staff is developing the National Pollutant Discharge Elimination System (NPDES) permit renewal for the Sacramento Regional County Sanitation District's (SRCSD) Regional Wastewater Treatment Plant discharge to the Sacramento River. The proposed permit renewal is scheduled to be considered by the Central Valley Water Board for adoption in 2010. The existing NPDES permit (Waste Discharge Requirements Order No. 5-00-188) regulates the discharge of up to 181 million gallons per day (mgd) of secondary treated municipal wastewater to the Sacramento River, within the Sacramento-San Joaquin Delta (Delta). For the proposed permit renewal, the SRCSD is requesting an increase of its permitted average dry weather discharge flow from 181 mgd to 218 mgd for this regional facility to accommodate future growth in the greater Sacramento area.

There are many significant interrelated issues that must be addressed in the renewed NPDES permit. Through the attached Issue Paper, Central Valley Water Board staff has identified aquatic and wildlife issues and is seeking public comments and additional information regarding the NPDES permitting requirements necessary to protect the following beneficial uses for the Delta: warm and cold freshwater habitat (WARM and COLD), wildlife habitat (WILD), migration of aquatic organisms (MIGR), and spawning, reproduction, and/or early development (SPWN). Through this effort, Central Valley Water Board staff is soliciting input from stakeholders to assist in identifying deficiencies in protection of the beneficial uses of the Sacramento River (and the Delta), and potential conflicts with other agency's programs, as it pertains to the subject discharge.

The issue paper can be accessed at the Central Valley Water Control Board's website under Sacramento County Tentative Orders –
