DISCUSSION:

The Central Unit Building located at 830 Scenic Drive, Modesto is a three-story building on the campus of the Health Services Agency (HSA). The building was constructed in 1948. The Specialty Clinic, Medical Records and Housekeeping departments are located in the basement of this building. The second floor houses the Orthopedic Clinic, GI lab, Oncology and HSA Administration, and Public Health Programs are located on the third floor. There are two elevators within the building, one of which is located at the front of the building near the main entrance and one is located toward the rear of the building. The front elevator has been utilized as the primary public elevator (Main Elevator), with the rear elevator serving as a back-up and employee elevator (Back-up Elevator). Both the Main Elevator and the Back-up Elevator have been maintained by the County's elevator maintenance vendor, Thyssenkrupp Elevator Company (Thyssenkrupp).

In June of 2012 the Main Elevator began to show signs of failure and again on September 21, 2012. On September 24, 2012 the Main Elevator was removed from service until the repair in the form of a modernization is complete. On October 2, 2012 the Board of Supervisors approved the emergency repair to modernize and bring the elevator to full operational status.

To date, a scope of work has been developed and materials have been ordered, which are expected to arrive within the next ten weeks. Thyssenkrupp has taken final measurements and is working with GSA staff to finalize plans and drawings, which should be finalized by the end of the month. The project is on schedule and is expected to be completed in 115 working days as originally planned.

As required by the Public Contract Code, staff will return to the Board and report on the status of the emergency repair project every 14 days. Staff will return to the Board to provide an update at the next regularly scheduled meeting on November 13, 2012.

POLICY ISSUE:

This action supports the Board's priorities of A Safe Community, A Healthy Community, Effective Partnerships, and Efficient Delivery of Public Services by providing a time and cost effective repair solution.

STAFFING IMPACT:

Existing GSA staff will continue to manage the contract for the elevator modernization services.
