**DISCUSSION:**

Behavioral Health and Recovery Services (BHRS) contracts with numerous individuals and agencies to provide mental health services to Stanislaus County residents. In most cases, individuals and agencies are selected through a competitive process, which takes into account specific expertise, as well as cost efficiency. Agreements are renewed based on a demonstrated ability to deliver required outcomes effectively, along with availability of funding. While a number of agencies have successful, long term partnering relationships with BHRS, all major provider agreements continue to be reviewed and, consistent with Board of Supervisors' direction, competitive bids will be sought periodically.

One of the services that BHRS provides via contract is specialized mental health services to adults residing in locked facilities and adults needing transitional rehabilitation with intensive case management support services. These services include a recovery-based approach in providing services to adults with a serious mental illness who may have a co-occurring substance abuse disorder and achieving the least restrictive level of care and maximizing each client's potential for independent living and employment. The current agreement has been in place since July 1, 2014 and is set to expire on June 30, 2015.

Behavioral Health and Recovery Services is now requesting approval to issue a Request for Proposal (RFP) for the provision of specialized mental health services to adults residing in locked facilities and adults needing transitional rehabilitation with intensive case management support services. The procurement method will be a "best value" approach, which means that the County is prepared to award a single contract to the Proposer who offers the most cost-effective and comprehensive solution.

The Department will return to the Board upon completion of the RFP process with final contract recommendation.

**POLICY ISSUES:**

Approval of this request to issue an RFP supports the Board's priorities of A Healthy Community, Effective Partnerships and Efficient Delivery of Public Services by providing services through a vendor partnership that provides mental health services in the community.

**STAFFING IMPACT:**

Existing Behavioral Health and Recovery Services and Purchasing staff are available to support this RFP process.
