SUBJECT:

Approval to Set a Public Hearing on April 28, 2015, at 9:05 A.M. to Introduce and Waive the First Reading of an Ordinance to Amend Existing Fees for the Department of Planning and Community Development

STAFF RECOMMENDATIONS:

Set a public hearing on April 28, 2015, at 9:05 a.m. to introduce and waive the first reading of an ordinance to amend existing fees for the Department of Planning and Community Development.

FISCAL IMPACT:

The Planning and Community Development Department's proposed fee adjustments will allow for the recovery of costs related to carrying out lead agency responsibilities of the Surface Mining and Reclamation Act (SMARA). These include annual mine inspections and any resulting re-inspections conducted by an outside contractor and all other SMARA requirements performed by department staff. Mine Inspection costs are estimated to range anywhere from \$2,000 to \$5,110 per mine for annual

inspections and a minimum of \$755 for re-inspections. It is anticipated that with the adjustments proposed, revenues to the Planning and Community Development Department will increase by approximately \$41,000 annually and would be necessary in order to recover actual costs incurred and avoid a deficit.

**DISCUSSION:**

The Department of Planning and Community Development, as Lead Agency, is responsible for insuring that Stanislaus County Mines are in compliance with their respective Reclamation Plans, the Surface Mining and Reclamation Act (SMARA), the Public Resources Code (PRC), and the California Code of Regulations (CCR). SMARA §2774(b) and CCR §3504.5(e) states that the lead agency shall inspect a mine no less than one time per year and that the mine operator shall be solely responsible for the reasonable cost of the inspection. Consequently, lead agencies may impose a fee upon each mining operation to cover the reasonable costs incurred in connection with implementing the requirements of SMARA. Since 2010, these fees have been \$783 for mine inspections and a minimum of \$222 for re-inspections per mine. A review of costs for Fiscal Years 2012-2013 and 2013-2014 reveal that fees collected have not been sufficient to fully recover the costs incurred related to administering the requirements of SMARA.

Tasks related to mine inspections have historically been completed by a vendor, with the administrative oversight performed by Department staff. The vendor used had been unchanged for the last 23 years. Purchasing advised that the Department embark on a Request for Qualifications (RFQ) and review the current vendor against current County procurement standards. The Department agreed that this was the prudent response and embarked on issuing an RFQ.

The RFQ was done in October 2014 in search for vendors that could perform mine inspections and assist with administering SMARA. Three proposals were received, and only two of the vendors met County procurement standards. The vendor that the Department had been utilizing for the last 23 years no longer meets County procurement standards and was not willing to incur additional costs associated with meeting the current standards, primarily around carrying the required amount of insurance. The qualifying vendors proposed estimates and hourly rates which are significantly higher than what the Department has paid for these services in the past. In 2014, vendor mine inspection costs totaled \$7,000 while the eligible proposals received in the RFQ range from an estimated \$18,000 to \$44,400 for vendors to conduct mine inspections and associated SMARA reports.

Approval to Set a Public Hearing on April 28, 2015, at 9:05 A.M. to Introduce and Waive the First Reading of an Ordinance to Amend Existing Fees for the Department of Planning and Community Development  
Page 3

A total cost forecast analysis was completed by the Department that captured staff costs and estimated contractor costs. This analysis revealed that the cost to administer SMARA will increase significantly upon the selection of a new vendor. Under the proposed new fee structure, the cost for annual inspections and SMARA administration are estimated to total as much as \$49,331 in Fiscal Year 2015-2016 compared to \$14,475 spent in Fiscal Year 2013–2014. Only \$11,059 was recovered in Fiscal Year 2013-2014 creating a deficit of \$3,416.

In preparation for the proposed mining fees, a review of mine related fees assessed in the counties of San Joaquin, Kern, Merced, Fresno, and Tulare was conducted. The review showed that mine inspection fees are not easily comparable due to varying fee structures. Some counties collect as hourly fees and others collect various mining fees which vary based on the size of the mining operation. Still, our proposed deposit amounts appear to be in-line with counties with comparable mining operations such as Fresno County whose fee for a staff inspection is \$2,257.

Key factors that contribute to future increased costs are the selection of a new SMARA vendor and the increasing amount of time spent administering SMARA due to legislative changes. Legislative changes include the Office of Mine Reclamation's (OMR) creation of a Lead Agency Review Team (LART) to oversee proper management of mines, changes to operating requirements for idle mines through Senate Bill 108, and the creation of a new annual mine inspection form MRRC-1 as allowed per SMARA code. The Lead Agency Review Team oversees SMARA administrative practices, conducts program audits, inspects mines, reviews reclamation plans and Financial Assurance Cost Estimates (FACE), and issues findings which require extensive Department staff response. The creation of form MRRC-1 requires extensive use permit research in order to complete and a lot of coordination with OMR which has added a significant amount of workload for Department staff who administer SMARA.

The Department's recommendation is to increase the fees for mine inspections to recoup actual costs with an initial deposit of \$2,000 required and a \$755 deposit for re-inspections; however, actual costs will vary based on the size of the mine and complexity of its associated Reclamation Plan. The change to collecting actual costs is necessary in order to avoid significant growth to the deficit related to SMARA administration costs. Mine inspection fees cost the miners \$783 each in Fiscal Year 2014–2015 and are estimated to average \$1,657 to \$3,542 for each miner in Fiscal Year 2015–2016 dependent upon final selection of a vendor. The proposed changes are found in the fee schedule Attachment 1.

Over the last three years, the miners had been advised that fees related to Mine inspections would need to increase. In February 2015, miners were sent correspondence informing them of the change needing to occur for mine inspections and any resulting re-inspections to recover actual costs incurred. A copy of the correspondence sent to mine operators is included as Attachment 2. The Department did not receive any responses back from the miners.

Approval to Set a Public Hearing on April 28, 2015, at 9:05 A.M. to Introduce and Waive the First Reading of an Ordinance to Amend Existing Fees for the Department of Planning and Community Development

**POLICY ISSUES:**

An ordinance of the Board of Supervisors is required to increase or establish fees for the Planning and Community Development Department. The recommended action is consistent with the Board's priority of A Safe Community, A Healthy Community, A Well Planned Infrastructure System and the Efficient Delivery of Public Services by carrying out lead agency responsibilities and ensuring all SMARA requirements are followed.

**STAFFING IMPACTS:**

The implementation of the new fees will not affect current staffing levels. Instead, any workload impact will be redistributed among existing staff.

\*(1) Fees described above that require a deposit and are charged at "actual cost" have a minimum charge associated with them. The deposit required is this minimum charge and is non-refundable\*. This DOES NOT include any necessary consultant costs for environmental review, specialized studies, financial consulting or any other expert consulting services potentially needed by the County for processing these applications. Monthly draws against the deposit will be made based on staff time and materials needed to process the applications. Staff costs and expenses for Planning, Public Works, and DER will be billed at fully burdened weighted labor rates as provided by the Auditors Office at the time of services rendered.

All additional staff time and expenses needed to complete the application processing that exceed the deposit amount will be charged at actual cost, including labor charged at the weighted labor rate. Invoices will be calculated on a quarterly basis and forwarded to the applicant for payment. If the deposit reaches a balance of 20% of the initial deposit or less, the Applicant will be asked to make a subsequent deposit in an amount dependent upon the amount of work left to complete on processing. Applicants will be expected to pay the subsequent deposit within 30 days of invoice date. In the event that the account is not paid within 30 days of the invoice date, processing will be suspended until such time that payment is made. Any remainder will be used to reconcile your final bill. If there is a balance remaining after reconciling the final bill, a refund check will be mailed to you. Public hearings will not be scheduled until payment in full is received.

\*(2) Applications for two or more actions (for example: Tentative Map and Exception ) will be charged the highest application fee, except applications for a Williamson Act Cancellation. For those applications for two or more actions that include an action that is charged at "actual cost" (for example: General Plan Amendment, Rezone, & Parcel Map) they will be charged the highest deposit amount as a minimum charge and deposit. The deposit is non-refundable\*. All additional staff time and expenses needed to complete the application processing that exceed the deposit amount will be charged at actual cost, including labor charged at the weighted labor rate per note #1 above. If a Lot Line Adjustment is included in a Combination Application, an additional \$695 will be required beyond the set fee or deposit amount in order to obtain a "Certificate of Compliance" from Public Works. Applications for a Williamson Act Cancellation shall pay a separate fee except when combined with an "actual cost" action.

\*(3) Department of Environmental Resources charges for Tentative Map Review reflect a minimum charge of 8 hours at a weighted labor rate of \$95.00 per hour. Additional time required for tentative map review will be charged at the same hourly rate.

\*(4) A General Plan Maintenance Fee will be charged for every Building Permit of \$1.28 per \$1,000 of improvement valuation. This fee will be collected with other Building Permit fees and will be calculated based on the total valuation of the improvement as determined through the normal Building Permit process.

\*(5) If your project falls within an Airport Planning Boundary, a separate application and fee will be required for the Airport Land Use Commission (ALUC). You will be required to contact the ALUC and submit an application for review. For information purposes only: Projects are identified by the ALUC as either "Major" or "Minor" and the ALUC has adopted the following project review fees as of November 2005: Major: \$1,200, Minor: \$225. An amendment to the ALUC Plan will be charged as "Actual Cost" with a deposit and minimum charge the same as a general plan amendment and appeal of a staff determination as reflected on the current Planning fee schedule. Applicants should check with the ALUC to verify application costs.

\*(6) Department of Public Works charges for Condition of Approval or Development Standards Modifications, Parcel Maps, and Use Permits reflect a minimum charge of 5 hours at a weighted labor rate of \$90.00 per hour. Additional time required for these types of request will be charged at the same hourly rate.

\*(7) Fees for the Departments of Public Works and the Department of Environmental Resources shall only apply when processing of the application(s) require referral to and/or action by the respective Departments.

\*(8) A 1% Administrative Cost Recovery Fee will be charged to Public Works, Department of Environmental Resources, and Clerk of the Board for fees collected during the Land Use Application process. An additional 2.5% fee will be charged for fees collected by credit card.

\* Fees may be refunded if the Planning Director, or his appointed designee, determines extraordinary circumstance warranting a refund exist.

TO: Mine Operator  
FROM: Rachel Wyse, Associate Planner  
SUBJECT: **MINE INSPECTION FEE INCREASE**

Dear Mine Operator:

During the last three annual mine inspections, County staff has indicated that: 1) mine inspection fees would likely increase to reflect the new inspection requirements and additional work associated with completing the revised MRRC-1 form drafted by the Department of Conservation's Office of Mining and Reclamation Division (OMR); and 2) that the contract with TKS Consulting, Inc. for mine inspections was soon to expire.

The County issued a Request for Proposal (RFP) for the mine inspector position in October, 2014. The response to the RFP indicated that the County's fee for mine inspections was insufficient to cover the cost of consultant and staff time for annual inspections. The County was able to contract with TKS Consulting for an additional year; however, it soon became obvious that even TKS fees would need to increase as a result of current State and County standards. As a result, staff is taking a request for fee increase to the BOS in March, 2015. After reviewing and comparing the County's mining fee schedule with the fee schedule of similar jurisdictions, staff has determined that inspection costs will include a deposit amount of \$2,000. The actual cost of inspection will be based on the size and complexity of the mine and its reclamation plan. Inspection costs could range anywhere from \$1,000 to \$4,500.

Please feel free to contact me at 209-525-6330 or [wyser@stancounty.com](mailto:wyser@stancounty.com) if you have any questions, concerns, or recommendations.

Thank you.
