DISCUSSION:

The State Department of Transportation acquires real property for present and future state highway purposes. Real property acquired for future needs is leased until needed for proposed projects. Disposition of lease revenues is governed by Sections 104.6, 104.10, and 104.13 of the California Streets and Highways Code. Annually, 24% of the lease revenue is forwarded to the County to be distributed by the Board of Supervisors. The local revenue must first be used to pay possessory interest tax bills against the property (section 104.13), and cities are entitled to one-half of the revenues generated within their jurisdiction (Section 104.10). The only other restriction is stated in Section 104.10, "the money received ... shall be expended only for purposes authorized by Article XIX of the California Constitution." Article XIX of the California Constitution describes how motor vehicle revenues shall be distributed among cities, counties and areas of the state for what purposes those revenues may be used. In our opinion, this limits the use of the money to mass transit, street and highway purposes.

As mentioned above, the discretionary portion of this revenue (staff recommendation 3) is to be used for transportation purposes. That would limit distribution to those agencies (county and cities) that provide transportation services. Since the amount of revenue is immaterial and there is no prescribed methodology for distribution to agencies providing transportation services, we recommend distribution of the discretionary portion entirely to the County.

POLICY ISSUES:

Allocation of these funds must be determined by the Board of Supervisors per Section 104.10 of the California Streets and Highways Code. Approval of this agenda item supports the Board of Supervisors priority of A Well-Planned Infrastructure System.

STAFFING IMPACT:

There are no staffing impacts associated with this agenda item.
