The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following findings have been found to be true:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.
2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
3. No new or additional mitigation measures or alternatives are required.
4. The subsequent project is within the scope of the project covered by the Master EIR.

Date removed from posting 10/9/2020

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

The Initial Study, Environmental Assessment No. EA/C&ED 2020-05, on file at the City of Modesto, Community and Economic Development Department, provides substantial evidence to support findings 1 thru 6, noted above.
