What is CERS?

CERS = California Environmental Reporting System

- A statewide, web-based system created by the State of California for use by the State.
- Used to electronically report, collect, and manage hazardous materials-related data from the regulated community and Unified Program Agencies.
- Mandated by the California Health and Safety Code through AB 2286.

CERS Training Portals

Experiment and gain familiarity with using CERS by using the [Business Training Portal](#) and/or the [Regulator Training Portal](#). Learn more [here](#)...

Businesses Must Report Electronically Starting January 2013

All  businesses must submit their Unified Program facility reporting electronically (instead of on paper forms) starting January 1, 2013 (subject to exceptions provided by some CUPAs and PAs). For example, if your CUPA/PA requires you to submit an updated materials inventory statement by March 1, you would submit an electronic version using CERS (or a local web portal if available) either on or before March 1. For further information please contact your local CUPA or PA.

Are you a Multi-Facility/Multi-Jurisdictional Business?

If your business/organization operates multiple CUPA-regulated facilities located in multiple CUPAs, CERS now supports creation of a single corporate identity that allows consolidated management of ALL of your facilities by one or more authorized users. To establish a multi-facility business and add new or consolidate existing CERS facilities, you need to [submit documentation to Cal/EPA](#).

For additional assistance, please contact the CERS Help Center at cers@calepa.ca.gov.

A Multi-Jurisdictional Business is a business that has facilities in more than one county in California. If you are a MJB business you should contact CAL EPA and provide them with a list of your facilities which includes the name and physical address of those facilities.

CERS Training Portals

If you would like to gain familiarity with using CERS, you can begin using the [Business Training Portal](#) and/or the [Regulator Training Portal](#). These training portals are fully functional copies of CERS. Existing CERS users can sign in to the training portals with their CERS1 sign in, and other users can create new accounts. Neither training portal contains any business or facility data, but users can create new businesses and facilities in the Business training portal, and regulator users (once approved by CERS Technical Support staff) can view and act upon these facilities and their submittals.

Common Tasks

**Start Facility Submittal**

CERS will help walk you through the forms and documents required for your previously added facility(s).

**Add Facility**

If you are new to CERS, or must add new facility(s), the Add Facility pages will ensure you get started correctly!

**People/Users**

You can allow/manage other people in your business who need to view or edit your facility reporting.

**Contact Your Local Regulator(s)**

Find contact information for your facility's local regulator(s).

View All...

Under Common Tasks, there are three ways to start the submittal process, to update your business plan with Stanislaus County. The submittal information that is required of your facility is based on your answers provided in the business activities page (On the business activities page you answered questions regarding the hazardous materials, hazardous waste, underground storage tanks, aboveground petroleum storage, etc. on-site).

Prepare Draft Submittal: N&Y FOOD MART

Home » Prepare Submittal (10139379)

Instructions/Help

Use this page to prepare draft submittals for your facility to transmit to your local regulator(s). Make sure to review any status and guidance messages for your forms or submittals by selecting the guidance icons.

- Select "Start" button to create a submittal from scratch or copied from a previous submittal.
- Select "New" and "Edit" buttons to complete specific submittal forms or provide supplemental documentation.
- Select "Discard" button to delete a draft form/documentation when you need to re-start a form or it is no longer relevant for your draft submittal.
- Select "Not Applicable" if you believe the submittal element is no longer relevant for your facility (e.g., closed UST tank).
- Select "Submit" when you are ready to transmit one or more submittals to your local regulator(s). ALL submittals must include a Facility Information element.

Attention! The regulator of your facility is not currently accepting electronic submittals. Contact the regulator shown below for further guidance.

Home > Prepare Submittal (10139825) > Hazardous Materials Inventory: Hazardous Material Inventory (Draft)

Instructions/Help

You must enter a separate inventory record for each individual hazardous material and hazardous waste that you handle at your facility in an aggregate quantity subject to Hazardous Material Business Plan (HMBP) reporting requirements (or as required by your local regulator). The completed inventory must reflect all hazardous materials at your facility, reported separately for each building or outside storage area, with separate entries for unique occurrences of physical state, storage temperature, storage pressure.

New Inventory Select **Add Material** to manually enter new materials for your facility, or select **Upload Inventory** to upload a spreadsheet of your entire inventory.

Update Inventory Review your facility's entire inventory to make sure it reflects your current hazardous materials management practices. Select **Search Inventory** to find previously entered materials needing updating. Replace (or append to) your current inventory by selecting **Upload Inventory**.

Inventory Complete? Review any status and guidance messages for your forms or submittals by selecting the guidance icons. Then select **Done** when you have completed reviewing/updating your facility's inventory.

Instructions/Help

Emergency Response/Contingency Plan(s) Supplemental Documentation
You must submit an emergency response/contingency plan for your facility. Contact your local regulator for more information about providing a suitable plan. To upload a document, select the **Browse** button and then the file on your computer to upload, provide a document title, and then select **Save & Finish** to complete the upload. Use of other document options shown on the left must be approved by your local regulator.

[Consolidated Emergency Response/Contingency Plan Template](#): This optional template may be used to satisfy requirements that Hazardous Materials Business Plans (HMBP) contain emergency response plans, procedures, and employee training in the event of a reportable/threatened hazardous material release. [Download](#) the form, read the [instructions](#), complete it, and upload it here.

Document Options

- Upload Document(s)
- Public Internet URL
- Provided in other Submittal Element
- Provided to Regulator
- Stored at Facility
- Exempt

Document Upload(s)

Upload Document

Choose File No file chosen

Date Authored (Required) 10/3/2012

Document Title (Required) Emergency Response/Contingency Plan

Description (Optional)

Save & Upload Again Save & Finish Cancel

Emergency Response/Contingency Plan Page->The document submittal options are; (1) Upload Document (will ask you which file to upload), (2) Public Internet (asks for internet address), (3) Provided in other submittal element (asks which element), (4) provided to regulator (asks date given to regulator), (5) stored at facility (asks which facility the document is stored at), (6) exempt (must provide comments as to why exempt --> NOTE: Not a good choice).

Since you need to have a copy of your plan on-site for inspection, "stored at facility" is probably the best option. If you don't have a response contingency plan, there is a downloadable link at arrow.

UST Tank # 1
A UST monitoring plan must be completed for each tank/UST System entered into CERS. This form must be updated within 30 days of changes in the information it contains. Please note that your local agency may require you to obtain approval prior to installing or modifying monitoring equipment. UST monitoring plans must include a Site Plan showing the general tank and piping layouts and the locations where monitoring is performed. Provide this document using the UST Monitoring Site Plan supplemental documentation found elsewhere in the UST submittal element. To upload a document, select the **Browse** button and then the file on your computer to upload, provide a document title, and then select **Save & Finish** to complete the upload. Use of other document options shown on the left (e.g., Exempt) must be approved by your local regulator.

UST Information

The screenshot shows a web browser window with the URL <https://cersapps.calepa.ca.gov/Training/Business/577/Facility/10139661/Submittal/Draft/UST/3159/MonitoringSitePlan/New>. The page title is "UST Monitoring Site Plan". The main content area is titled "CERS Business" and includes a navigation menu with buttons for "Home", "Submittals", "Facilities", "Compliance", and "My Business". Below this is a breadcrumb trail: "Home » Prepare Submittal (10139661) » UST: UST Monitoring Site Plan (Draft)".

The "Instructions/Help" section contains the following text:

UST Monitoring Site Plan Documentation
UST monitoring plans must include a Site Plan showing the general tank and piping layouts and the locations where monitoring is performed (i.e., location of each sensor, line leak detector, monitoring system control panel, etc.). A UST monitoring site plan template is available from the State Water Resources Control Board [here](#). If your facility's Hazardous Materials Inventory site map shows all the required information, select the "Provided in Other Submittal Element" option on the left side of this web form and then select from "Hazardous Materials Inventory."
To upload a document, select the **Browse** button and then the file on your computer to upload, provide a document title, and then select **Save & Finish** to complete the upload. Use of other document options shown on the left (e.g., Exempt) must be approved by your local regulator.

The "Document Options" section has a red arrow pointing to it. It contains the following radio button options:

- Upload Document(s)
- Public Internet URL
- Provided in other Submittal Element
- Provided to Regulator
- Stored at Facility
- Exempt

The "Document Upload(s)" section contains the following form fields:

- Upload Document** (Section Header)
- Choose File** (Button) - No file chosen
- Date Authored (Required)**: 10/4/2012
- Document Title (Required)**: UST Monitoring Site Plan
- Description (Optional)**: (Empty text area)
- Save & Upload Again** (Button)
- Save & Finish** (Button)
- Cancel** (Button)

UST Monitoring Site Plan Page -->Same page as Emer Response/Contingency Plan PageU --> Document submittal options are; (1) Upload Document (will ask you to find file), (2) Public Internet (asks for address), (3) Provided in other submittal element (asks which one), (4) provided to regulator (asks date given to regulator), (5) stored at facility (asks which facility), (6) exempt (must provide comments as to why exempt -- > NOTE: Not a good choice).

Since you need a copy on site, "stored at facility" is probably the best option. All other submittals for UST look like this with the same options.

Tiered Permitting

Tiered Permitting

The screenshot shows a web browser window with the URL <https://cersapps.calepa.ca.gov/Training/Business/716/Facility/10139825/DraftSubmittals>. The page displays a list of permit categories with their respective draft dates and actions:

Category	Status	Actions
Facility Information	DRAFT Aug. 9, 2012	Submit, Ready to Submit, Review Needed, Edit
Hazardous Materials Inventory	DRAFT Aug. 16, 2012	Submit
Emergency Response and Training Plans	DRAFT Oct. 25, 2012	Submit
Underground Storage Tanks	No Previous Submittal	Start, Not Applicable
Tiered Permitting	No Previous Submittal	Start (highlighted), Not Applicable
Recyclable Materials Report	No Previous Submittal	Start, Not Applicable
Remote Waste Consolidation Site Annual Notification	No Previous Submittal	Start, Not Applicable
Hazardous Waste Tank Closure Certification	No Previous Submittal	Start, Not Applicable

If you answered “yes” to any tiered permitting questions on the business activities page you will be required to provide information on the tiered permitted activities at your site. Expand the Tiered Permitting tab and click on the “start” –or – “document needed” button...

Tiered Permitting

Training
Build: 2.10.0078

Home >> Prepare Submittal (10139827) >> Tiered Permitting: Facility (Draft)

Instructions/Help

Some treatment activities are exempt from reporting provided certain conditions are met (see Appendix A of the Onsite Hazardous Waste Treatment Notification Instructions at <http://www.calepa.ca.gov/Publications/Title27/Hwf1772f.pdf>). Otherwise, you must complete this submittal element if your facility is a hazardous waste generator performing treatment of hazardous wastes at the site where the waste is generated, and the facility is eligible under the Conditional Exemption (CE), or Conditional Authorization (CA) tiers, or operates a Fixed Treatment Unit (FTU) under the Permit by Rule (PBR) tier. To determine which tier or tiers apply to your operations, refer to the DTSC Onsite Tiered Permitting Flow Chart (<http://www.dtsc.ca.gov/HazardousWaste/upload/onsite-tiered-permitting-flowchart3.pdf>).

Permit Status (Check all that apply)

- Facility Permit
- Interim Status
- Standardized Permit
- Variance
- Consent Agreement

Number of Units at Facility

#	Unit Type / Tier	
0	Conditionally Exempt – Small Quantity Treatment (CESQT)	With the exception of CE-CL Units, the Number of Units for this facility are automatically calculated based on each populated Unit Page. Filling out the appropriate Unit Pages for this Facility will automatically update these numbers.
0	Conditionally Exempt Specified Wastestream (CESW)	
0	Conditionally Authorized (CA)	
0	Permit by Rule (PBR)	
0	Conditionally Exempt – Limited (CEL)	
<input type="text"/>	Number of CE-CL Units	
0	TOTAL UNITS	

Certification

Waste Minimization I certify that I have a program in place to reduce the volume, quantity and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment.

Tiered Permitting Certification I certify that the unit or units described in these documents meet the eligibility and operating requirements of state statutes and regulations for the indicated permitting tier, including generator and secondary containment requirements. I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those directly responsible for gathering the information, the information is, to the best of my knowledge and belief, true, accurate, and

Again you have the Same 6 options as Emer Response/Contingency Plan Page --> Document submittal options are; (1) Upload Document (will ask you to find file), (2) Public Internet (asks for address), (3) Provided in other submittal element (asks which one), (4) provided to regulator (asks date given to regulator), (5) stored at facility (asks which facility), (6) exempt (must provide comments as to why exempt --> **NOTE:** Not a good choice).

Onsite Hazardous Waste Treatment Notification Instructions located at top arrow, To determine which tier or tiers apply to your operations, refer to the DTSC Onsite Tiered Permitting Flow Chart (bottom arrow).

Since you need to have a copy of the plan on-site for inspection, "stored at facility" is probably the best option. The arrow link has a draft Recyclable Materials Report that may be used.

Recyclable Materials

The screenshot shows a web browser window with the URL <https://cersapps.calepa.ca.gov/Training/Business/717/Facility/10139827/DraftSubmittals>. The page displays a list of submittal items under the heading "Training Build: 2.10.0078". The items include:

- UST Certifications of Installation/Modification
- UST Monitoring Site Plan
- UST Certification of Financial Responsibility
- UST Response Plan
- UST Owner/Operator Written Agreement
- UST Letter from Chief Financial Officer
- Owner Statement of Designated UST Operator Compliance
- Discard Draft Submittal

Below this list is a section for "Tiered Permitting" (DRAFT Oct. 25, 2012) with a "Form Needed" status and a "New" button.

The "Recyclable Materials Report" section (DRAFT Oct. 25, 2012) is highlighted with an orange arrow. It contains the following items:

- Recyclable Materials Market Documentation
- Recyclable Materials Activities
- Recyclable Materials Material
- Offsite Generator Identification
- Recyclable Materials Report Documentation Exempt
- Discard Draft Submittal

The "Recyclable Materials Report" section has a "Form Needed" status and a "New" button. The "Recyclable Materials Report Documentation Exempt" item has a "Ready to Submit" status and "Edit" and "Discard" buttons.

Below the "Recyclable Materials Report" section are three other submittal items:

- Remote Waste Consolidation Site Annual Notification (No Previous Submittal, Start, Not Applicable)
- Hazardous Waste Tank Closure Certification (No Previous Submittal, Start, Not Applicable)
- Aboveground Petroleum Storage Act (No Previous Submittal, Start, Not Applicable)

At the Submittals Page, you'll notice that the other elements of Recyclable Materials will have a "new" button on right side of screen. To complete the Recyclable Materials submittal click each "new" button (the "new" buttons will bring up same 6 options to document compliance).

Hazardous Waste Closure

Haz-Waste Tank Closure Certification

The screenshot shows a web browser window with the URL <https://cersapps.calepa.ca.gov/Training/Business/716/Facility/10139825/DraftSubmittals>. The page displays a list of sections for a draft submittal, each with a 'Start' button and a 'Not Applicable' button. The 'Hazardous Waste Tank Closure Certification' section has its 'Start' button highlighted with an orange box.

Section	Status	Action
Facility Information	DRAFT Aug. 9, 2012	Submit
Hazardous Materials Inventory	DRAFT Aug. 16, 2012	Submit
Emergency Response and Training Plans	DRAFT Oct. 25, 2012	Submit
Underground Storage Tanks	No Previous Submittal	Start / Not Applicable
Tiered Permitting	No Previous Submittal	Start / Not Applicable
Recyclable Materials Report	No Previous Submittal	Start / Not Applicable
Remote Waste Consolidation Site Annual Notification	No Previous Submittal	Start / Not Applicable
Hazardous Waste Tank Closure Certification	No Previous Submittal	Start / Not Applicable
Aboveground Petroleum Storage Act	No Previous Submittal	Start / Not Applicable

If you answered “yes” to any hazardous waste tank closure activities questions on the business activities page you will be required to provide information on the hazardous waste tank closure activities at your site. Click on Hazardous Waste Tank Closure Certification “start” button...

Haz-Waste Tank Closure Certification

The screenshot shows the CERS Business web application interface. At the top, there is a navigation bar with a yellow 'Training' button and a user account for Robert Riess. Below this is a green navigation bar with tabs for Home, Submittals, Facilities, Compliance, and My Business. The main content area is titled '99 Bottles of Beer On the Wall: Hazardous Waste Tank Closure Certificate' and includes a breadcrumb trail: Home » Prepare Submittal (10139513) » Hazardous Waste Tank Closure: Hazardous Waste Tank Closure Certificate (Draft). An orange arrow points to the 'Instructions/Help' section, which contains the following text:

Hazardous Waste Tank Closure Certificate
You must complete download, print, and complete in the field the form [Hazardous Waste Tank Closure Certificate](#) prior to initiating any cleaning, cutting, dismantling, or excavation of a tank system (see below). Once the paper form is completed, scan it, and upload the document to this page. You may be able to select other documentation options (on the left side of this page) as directed by your local regulator.
To upload a document, select the **Browse** button and then the file on your computer to upload, provide a document title, and then select **Save & Finish** to complete the upload. Use of other document options shown on the left must be approved by your local regulator.

A Hazardous Waste Tank Closure Certificate must be prior to initiating any cleaning, cutting, dismantling, or excavation of a tank system that 1) previously held a hazardous material or a hazardous waste, 2) is identified as a hazardous waste, and 3) is destined to be disposed, reclaimed or closed in place. This does not apply to tank systems regulated under a hazardous waste facility permit, other than permit by rule (PBR), or to tank systems regulated under a grant of interim status, nor to a tank system or any portion thereof, that meets the definition of scrap metal in 22 CCR §66260.10 and is excluded from regulation pursuant to 22 CCR §66261.6(a)(3)(B). Refer to 22 CCR §67383.3 and 23 CCR §2672 for disposal requirements for tank systems.

Below the instructions are two sections: 'Document Options' and 'Stored at Facility'. The 'Document Options' section has six radio button options: Upload Document(s), Public Internet URL, Provided in other Submittal Element, Provided to Regulator, Stored at Facility (selected), and Exempt. The 'Stored at Facility' section has a dropdown menu for 'Select Facility...' with 'Select Facility' and '99 Bottles of Beer On the Wall' as options. A 'Save' button is highlighted with an orange box.

Again you have the Same 6 options --> Document submittal options are; (1) Upload Document (will ask you to find file), (2) Public Internet (asks for address), (3) Provided in other submittal element (asks which one), (4) provided to regulator (asks date given to regulator), (5) stored at facility (asks which facility), (6) exempt (must provide comments as to why exempt -- > NOTE: Not a good choice).

The link at top is the HAZ Waste Tank Closure Certificate” that you need to download, print, complete, (or scan and then upload to CERS) prior to doing any work.

99 Bottles of Beer On the Wall: Aboveground Petroleum Storage Act Documentation

Home » Prepare Submittal (10139513) » APSA: Aboveground Petroleum Storage Act Documentation (Draft)

Instructions/Help

Aboveground Petroleum Storage Act Documentation

You can meet APSA state reporting requirements by completing a **Hazardous Materials Inventory** submittal element for this facility. To indicate this, select the **Provided Elsewhere in CERS Document Option** below, and then select the **Hazardous Materials Inventory**, and then select the **Save** button.

Your local regulator may request you upload additional documentation if shown below under "Local Reporting Requirements" information. To upload a document, select the **Browse** button and then the file on your computer to upload, provide a document title, and then select **Save & Finish** to complete the upload. Contact your local regulator if you need further information.

Facilities subject to federal SPCC requirements shall keep a copy of their SPCC plan or [Qualified Facility Plan Template](#) onsite. See additional information in [EPA Requirements for SPCC Plan](#) and [US EPA Tier I plan template](#)

Document Options

- Upload Document(s)
- Public Internet URL
- Provided in other Submittal Element
- Provided to Regulator
- Stored at Facility
- Exempt

Supplied Elsewhere in CERS

If requirements for this supplemental documentation can be satisfied by another document you have provided in CERS, please indicate the submittal element where the document can be found and provide the submittal date or other comments to assist your regulator in locating this document in your current/previous CERS facility submittals.

Supplied in Submittal Element...

- Facility Information
- Hazardous Materials Inventory
- Emergency Response and Training Plans
- Underground Storage Tanks
- Tiered Permitting
- Recyclable Materials Report
- Remote Waste Consolidation Site Annual Notification
- Hazardous Waste Tank Closure Certification

Again you have the Same 6 options --> Document submittal options are; (1) Upload Document (will ask you to find file), (2) Public Internet (asks for address), (3) Provided in other submittal element (asks which one), (4) provided to regulator (asks date given to regulator), (5) stored at facility (asks which facility), (6) exempt (must provide comments as to why exempt --> **NOTE:** Not a good choice).

This page is asking for your "tank facility statement", and by submitting a business plan, you satisfy this requirement. So your best option here might be to say that its "provided in other submittal element" and choose "hazardous Materials Inventory" on right.

The screenshot shows a web browser window with the URL <https://cersapps.calepa.ca.gov/Training/Business/583/Facility/10139513/DraftSubmittals>. The page title is "Prepare Draft Submittal: CE". The main content area includes a "Training" banner (Build: 2.10.0081) and instructions for preparing draft submittals. A list of instructions includes: "Select 'Discard' button to delete a draft form/documentation when you need to re-start a form or it is no longer relevant for your draft submittal." Below this is an "Attention!" message: "The regulator of your facility is not currently accepting electronic submittals. Contact the regulator shown below for further guidance." The interface features several sections: "Facility Information" (SUBMITTED Oct. 18, 2012), "Hazardous Materials Inventory" (DRAFT Oct. 18, 2012), "Emergency Response and Management Plan", "Underground Storage Tanks", "Tiered Permitting", and "Recyclable Materials Reporting". A "Discard Resource Confirmation" dialog box is open, displaying a warning icon and the text: "Are you sure you want to discard your draft Hazardous Material Inventory resource? Discarding your Hazardous Material Inventory will not delete any data you have previously submitted to your regulator." The dialog has "Discard" and "Cancel" buttons.

Clicking "Discard", will only discard your latest "draft" information, it does not delete all the information you've previously submitted.
