PERMIT REQUIREMENTS FOR THE USE OF FOOD PROCESSING BY-PRODUCTS

If you are planning to use food processing by-products in Stanislaus County, you must obtain a permit from the Department of Environmental Resources, Solid Waste Management Division (Stanislaus County Code, Title 9, Chapter 9.88).

Your proposed food processing by-product use site will be evaluated by the Solid Waste Management Division and other agencies. Those evaluations may be lengthy, so we recommend that you begin the application process as early as possible. To apply for a permit, follow these steps:

- Step 1: Answer questions 1-6 on the Application form. Be sure it is signed and dated.
- Step 2: Write a Plan of Operation. The Plan of Operation is a complete and comprehensive plan of how you are going to receive and utilize the inert wastes. The enclosed "Plan of Operation Guidelines" should be followed; address all items listed in the guidelines.
- Step 3: Submit the Application form and Plan of Operation to this office. Those documents will be reviewed by staff and an inspector will contact you to schedule a visit to your site.
- Step 4: Pursuant to environmental laws, your project may be subject to a rigorous environmental review. California law stipulates that such a review may require the payment of approximately \$2,010.25 to the California Department of Fish and Game. A County Clerk-Recorder filing fee of approximately \$57.00 will also be charged to file the environmental documents.
- Step 5: Your project may be considered at public hearings conducted by the Department of Environmental Resources.
- Step 6: If your application is approved, you must submit a bond or another form of security satisfactory to the Department, in an amount determined by the Department. (Note: If you plan to transport food processing by-products, vehicles must be inspected by staff for compliance with applicable sections of the County Code. You must also provide the Department with a certificate of current insurance on the vehicles.) Thereafter, your permit can be issued.

Payment of a permit application fee will be required prior to permit issuance. The fee is based on a weighted hourly labor rate for staff time spent on processing the application, reviewing your Plan of Operation, making site inspections, etc. Accuracy and completeness in your permit application and supporting documents will help to minimize your application fee.

Once your permit is issued, the site will be inspected on a weekly basis by Department staff during the food processing by-product season, and on a monthly basis during off-season use when applicable. The monitoring program is funded through monthly inspection fees billed to the site operators.

If you have any questions concerning the application process or the Food Processing By-Product Use Program, please contact Bryan Kumimoto with the Solid Waste Management Division at (209) 525-6752.

Enclosures (Application, Guidelines)

**FOOD PROCESSING BY-PRODUCT USE PERMIT OR HAULER PERMIT
FEES, BOND, INSURANCE & INSPECTIONS
Stanislaus County Code, Title 9**

A permit is required of anyone in the business of collecting, transporting or using food processing by-products or refuse in the unincorporated areas of the county. A person proposing one or more of these activities shall submit an application annually to this department along with the following:

FEES

- * Permit Fee: Do not send at this time. The Department will request payment for the permit application fee at permit issuance. The fee is based on a weighted labor rate for staff time spent on processing the application, reviewing the plan of operation, etc.
- * Food processing by-product site permit holders will receive a monthly bill for inspections performed during the cannery season. During the off-season, sites that continue to receive by-products will be billed on a quarterly basis for routine site inspections. The monitoring fee for inspections, program administration, and travel time is currently \$40.87 per hour and subject to change without prior notice.

BOND

- * Each permit holder must submit and keep in place a current cash bond, certificate of deposit, irrevocable letter of credit, or a faithful performance bond in favor of the County of Stanislaus. The Department will determine the amount required. If submitting a faithful performance bond, please complete the enclosed performance bond form. For more information on meeting this requirement, contact the Department.

INSURANCE

- * Provide certificate of current insurance policy for each vehicle and site, containing the state required minimum coverage limits, or higher, for liability and property damage, extending through the permit period. Vehicle license numbers shall be indicated on the forms.
- * Worker's Compensation coverage verification is also required if you employ anyone in addition to yourself. If you are exempt, a Worker's Compensation Exemption Form is included for you to fill out and return.

INSPECTION

- * This department will perform routine inspections regularly.
- * Vehicles that collect and/or transport refuse or food processing by-products must be inspected annually and an identification sticker issued to complete the permitting procedure. Verification of an inspection is required at time of permit renewal. Please contact our office if you have any questions.

**PLAN OF OPERATION GUIDELINES
FOR
FOOD PROCESSING BY-PRODUCT USE SITES**

ALL APPLICANTS SHALL SUBMIT A "PLAN OF OPERATION"

In order for your Application and Plan of Operation to be considered COMPLETE, please answer all applicable questions on the following pages and provide all applicable information. All sites shall operate in accordance with the Stanislaus County Code, Title 9.

It may be necessary for you to provide additional information and/or meet with DER staff to discuss the application. Pre-application meetings are not required, but are highly recommended. An incomplete application will be placed on hold until all necessary information is provided to the satisfaction of the DER. An application will not be accepted or approved without all of the information identified being provided.

1. List the owner of the site. If different from the permit applicant, list the property owner's name, mailing address and phone number. If the parcel is under a different ownership, the applicant must provide a notarized letter from the landowner that states: the applicant has been granted consent from the landowner to conduct the proposed project on the subject parcel(s), the owner approves of the proposed Plan of Operation, and the owner acknowledges the landowner could be held responsible for clean-up and abatement of conditions resulting from permitted operations.
2. List the address and the assessor's parcel number(s) of the site(s).
3. List the general plan and zoning designation of the site(s).
4. List the current use of the site(s).
5. List the soil types of the project site(s). List their approximate absorption/water holding capacities.
6. List the approximate depth to groundwater at the site(s). State how the depth was determined, and the month and year the depth was determined.
7. Provide a vicinity map showing the location of the site(s) and all proposed delivery routes.
8. Provide a plot plan drawn to a legible scale that clearly shows the intended project. The map must contain the following physical data:

- Sufficient description to define the location, date, north arrow, scale and boundaries; (full width of all public and private road ways bordering the property must be shown);
 - Name and address of recorded owner(s);
 - Name and address of person(s) preparing the map;
 - Acreage to the nearest acre;
 - Location and size of all waterways, drainage courses, pipelines, existing irrigation and drainage facilities, irrigation and drainage patterns, existing or proposed water wells, septic tanks and drainage (leach) fields, sewage lines and structures used in connecting therewith, slope of the land; and
 - Outline of existing buildings and other structures to remain in place within the project area, showing the distance to existing or proposed public and private roadways.
9. Provide an 8½" x 11" reproducible, to scale, legible area map showing specific land uses (crops, houses, buildings, parcel lines and parcel sizes, etc.) for the adjacent two parcels in each direction from the subject property.
 10. Provide a list of names, addresses and assessment numbers of all properties located within ¼ mile (1,320 feet) and/or two parcels in each direction of applicant's project. Said information must be taken from the latest assessment roll of the subject county. A written notice of the permit application to operate a Food Processing By-Product Use Site will be sent by the applicant to those property owners located within ¼ mile (1,320 feet) and/or two parcels in each direction of the subject site. The notice will include a description of your project approved by DER staff. Documentation of the notice must then be submitted to DER staff.
 11. Name the site manager, provide a mailing address and list a 24-hour contact phone number.
 12. List the types of by-product you plan to accept at the site(s), and describe how the by-product will be ultimately utilized.
 13. List the names, addresses, phone numbers and contact persons for the food processing plant(s) that will provide the by-product to your site(s).
 14. List the names, addresses, phone numbers and contact persons of the hauler(s) who will haul the by-product to your site(s).
 15. State how many tons per day of by-product will be delivered to your site(s). List the total tons for the season.
 16. If more than one type of by-product will be delivered, estimate the tons per day of each type of by-product that will be delivered to the site(s).
 17. State how many truckloads per day will be delivered to your site(s).
 18. Give the date that by-product deliveries will start and the date they will stop each season or indicate if you will accept the by-product year-round. Estimate how many days per year the site will accept by-product.
 19. List the days of the week, and the approximate times that by-product will be delivered to your site(s).

20. Explain in a detailed, step-by-step manner, how you will use or process the by-products. Applicants for direct feed operations shall also contain the following information:
- A. Indicate what type of livestock or poultry will be fed.
 - B. List the percentage (by dry weight) of the feed ration at which this by-product will be used.
 - C. List the number of lactating and non-lactating animals.
 - D. List the number of livestock or poultry that will consume the by-product, or a list of purchasers and their intended use.
21. Explain in detail, the methodology to be used for tracking, receiving, storing, and depositing by-products. This tracking procedure must include records of when by-product is received, where it is received, and the location of the by-product when it is used at the site(s).
22. List the types of the equipment you will use to manage the by-products. Indicate if that equipment is under your ownership. List stand-by equipment available in case of equipment breakdown.
23. Explain in detail how you will prevent the following conditions from occurring, and provide contingency plans in the event these conditions occur:
- Excessive liquid accumulation and excess moisture.
 - Excessive dust.
 - Excessive noise.
 - Excessive objectionable odors.
 - Excessive fly, mosquito and/or vector nuisance.
 - Inclement weather.
24. Describe how the by-products will be contained on the site(s) and not allowed to flow or otherwise be deposited on other surrounding properties or waterways.
25. Applicant shall provide DER staff with written verification from the food processing by-product processor(s), that all by-products deposited on permitted sites in Stanislaus County will not pose a risk to land, air, water, to human and animal health or the environment and that utilization of the by-product as direct feed or as a soil amendment is an acceptable use of said by-product.
26. Where applicable, the site operator shall demonstrate compliance with the Central Valley Regional Water Quality Control Board's Irrigated Lands Conditional Waiver Program (Resolution No. R5-2003-0105)
