Preventing identity theft

Imagine opening your credit card bill and finding charges for thousands of dollars of purchases you didn't make. With more and more people using the Internet to shop and pay bills, it is not uncommon to hear about a stolen identity. Correcting the situation and restoring your credit can take months. Clearly the best route is to avoid becoming a victim of identity theft in the first place.

On Tuesday, March 27, at 2 p.m., an expert from the Modesto Police Department will discuss how identities are stolen and tips for protecting yourself from becoming an identity theft victim. This free program will be presented in the downstairs auditorium of the Modesto Library, located at 1500 I Street. Free parking is available.

This program is offered through a partnership of the American Association of Retired Persons and the Stanislaus County Library. To reserve a seat, please call 558-7814 or visit the Modesto Library Reference Desk.
