ITEM: 5d

SUBJECT:

State Route 120 at Postmile 11.0 – 18.1 Safety Project – Caltrans Project Status and Update

STAFF RECOMMENDATIONS:

Information Only

FISCAL IMPACT:

None at this time

DISCUSSION:

Recently we have been receiving comments on the need to make improvements on existing State Route 120 at postmile 11.0-18.1. This section of SR120 is just east of Lancaster Road where the roadway dips and curves. Currently this portion of SR120 is not within the proposed study corridor for the NCC. Considering that this existing roadway condition appears to have an immediate need and the NCC is only in the early phases of project development, it seemed appropriate to review the status of any current efforts by Caltrans to alleviate this roadway issue. A Caltrans representative will be present to describe current efforts and status.
