Re: North County Corridor Transportation Expressway Authority – March 11th Meeting Summary

The March 11th NCC JPA meeting was held at 4:00 pm in the City / County basement training room. In attendance for this meeting were approximately 30 people from the general public. They primarily represented the area between Dale Road and McHenry Avenue. Their primary concern was how this project could affect their homes and businesses. Many of these people have been vocal over the past few months. In anticipation of this showing from the general public, we developed our Task 2 and Task 3 agenda presentation to address some of their concerns. Our presentation highlighted the timeline on when the public could provide comment, and what the overall schedule would be in terms of the route identification. Additionally, we identified the portion of the project where Caltrans will take environmental lead and the portion where the facility will be a local roadway and the JPA will take environmental lead. After much discussion one area of concern that was identified by the public was what studies / events / public participation had occurred prior to the current PA&ED effort. This detailed information is currently being compiled for review at our next JPA Board meeting in April. Finally, in an effort to communicate directly with these stakeholders we asked all attendees to sign-in and provide email addresses so that future agendas could be sent directly. This sign-in sheet is attached for review.

For complete agenda item discussions and actions see attached minutes.

Our next scheduled meeting is April 8th at 4:30 pm in the Basement Training Room at 1010 10th St.
