**REVISED****CALIFORNIA TRANSPORTATION COMMISSION  
Adoption of 2010 State Transportation Improvement Program****Resolution No. G-10-13**

- 1.1 WHEREAS Government Code Section 14529 requires the California Transportation Commission biennially to adopt and submit to the Legislature and Governor a state transportation improvement program (STIP), and
- 1.2 WHEREAS, pursuant to Section 14529, the 2010 STIP is a five-year STIP, adding two new program years, 2013-14, and 2014-15, and
- 1.3 WHEREAS, pursuant to Section 14525, the Commission adopted the 2010 STIP Fund Estimate on October 14, 2009, and
- 1.4 WHEREAS, pursuant to Section 14530.1, the Commission adopted amendments to the STIP guidelines, to be applicable to the 2010 STIP development process, on October 14, 2009, and
- 1.5 WHEREAS the 2010 STIP fund estimate provided \$113 million in new STIP programming capacity, and
- 1.6 WHEREAS the \$113 million in new capacity includes \$195 million that is restricted to projects eligible for funding from federal Transportation Enhancement funds, and
- 1.7 WHEREAS the fund estimate included negative program capacity in both the Public Transportation Account (-\$1 million) and the flexible funds from the Transportation Investment Fund and the Transportation Facilities Account (-\$81 million) totaling approximately 2% of the total six-year program capacity for those funds, and
- 1.8 WHEREAS, based on the fund estimate, approximately 30% of the projects programmed from flexible Transportation Investment Fund and the Transportation Facilities Account fund from 2009-10 through 2012 13 need to be delayed (reprogrammed) to 2013-14 and 2014-15, and
- 1.9 WHEREAS, the limited program capacity in the 2010 STIP necessitates that regions that had less than their county share programmed in the 2008 STIP retain those programming imbalances, and
- 1.10 WHEREAS the statutes define the STIP as a resource management document to assist the state and local entities to plan and implement transportation improvements and to utilize resources in a cost effective manner, and
- 1.11 WHEREAS the statutes make 75% of all new STIP funds available for the regional improvement program, subdivided by formula into county shares, with projects to be nominated by each regional agency in its regional transportation improvement program (RTIP), and
- 1.12 WHEREAS the statutes make the remaining 25% of all new STIP funds available for the interregional improvement program, with projects to be nominated by the Department of Transportation (Caltrans) in its interregional transportation improvement program (ITIP) or, under limited circumstances, by a regional agency in its RTIP, and

- 1.13 WHEREAS the Commission has received and reviewed the 2010 RTIPs and the 2010 ITIP submitted on or about February 12, 2010, as well as various amendments and corrections submitted subsequently, and
- 1.14 WHEREAS the Commission has received requests for changes to the STIP funding of projects also funded from competitive Proposition 1B programs (such as the Corridor Mobility Improvement Account and the Trade Corridors Improvement Fund) and requests for STIP funding for projects that have been nominated for programming in the Corridor Mobility Improvement Account using savings from that program, and
- 1.15 WHEREAS, pursuant to Section 14529, the Commission held two public hearings, one in Sacramento on March 22, 2010, and the other in Los Angeles on March 25, 2010, for the purpose of reconciling any objections by any county or regional agency to the ITIP or the Department's objections to any RTIP, and has considered the testimony heard at those hearings along with further written and oral comments, and
- 1.16 WHEREAS the total amount programmed in each fiscal year may not exceed the amount specified in the adopted fund estimate, and
- 1.17 WHEREAS the Commission staff recommendations for the 2010 STIP were published and made available to the Commission, the Department, regional transportation agencies, and county transportation commissions on April 29, 2010, and
- 1.18 WHEREAS the staff recommendations conform to the fund estimate and other requirements of statute for the STIP, and
- 2.1 NOW THEREFORE BE IT RESOLVED that the California Transportation Commission hereby adopts the 2010 State Transportation Improvement Program to include the program described in the staff recommendations, including the attachments to this resolution, and
- 2.2 BE IT FURTHER RESOLVED that, except as otherwise noted in the staff recommendations or this resolution, the 2010 STIP includes all projects remaining from the 2008 STIP, as currently amended, for which funding has not yet been allocated, and
- 2.3 BE IT FURTHER RESOLVED that each of the local road and transit rehabilitation projects included in the staff recommendations or remaining from the prior STIP is included in the 2010 STIP, subject to verification by the Department at the time of allocation by the Commission that the project meets the standard for rehabilitation and does not include ineligible maintenance costs, and
- 2.4 BE IT FURTHER RESOLVED that each of the projects identified in the staff recommendations as eligible for Transportation Enhancement funding is included in the 2010 STIP subject to verification by the Department and the Federal Highway Administration that the project is indeed eligible for Transportation Enhancement funding, and
- 2.5 BE IT FURTHER RESOLVED that the Commission intends that all STIP projects that are eligible or could be made eligible for Transportation Enhancement funds shall be funded from the state's Federal Transportation Enhancement apportionment, whether or not they are identified in the staff recommendations as Transportation Enhancement eligible and whether or not they are designated for programming from Transportation Enhancement funding, and
- 2.6 BE IT FURTHER RESOLVED that the Commission intends that STIP rail and transit projects, including grade separations on passenger rail lines, be funded from the Public Transportation Account should such funds be available, or, if eligible, from the state's Federal Transportation Enhancement apportionment, and

- 2.7 BE IT FURTHER RESOLVED that if available funding is less than assumed in the fund estimate, the Commission may be forced to delay or restrict allocations using interim allocation plans, or, if available funding proves to be greater than assumed, it may be possible to allocate funding to some projects earlier than the year programmed, and
- 2.8 BE IT FURTHER RESOLVED that the Commission recognizes the Stanislaus Council of Governments for its efforts in keeping its commitment made during the 2008 STIP by bringing forth to the Commission the North County Corridor for adoption into the State Highway System as State Route 108, and the Commission acknowledges the Stanislaus Council of Governments' successful effort in supporting legislation to designate State Route 108 between State Route 132 and State Route 120 as an interregional route to provide interregional connectivity, and
- 2.9 BE IT FURTHER RESOLVED that the Commission acknowledges the Department's continued intent to nominate up to \$91 million in the 2012 or 2014 ITIP for programming of a segment of the North County Corridor – State Route 108 for construction of an ITIP eligible segment with independent utility, and
- 2.10 BE IT FURTHER RESOLVED that the Commission's first priority for new programming when new program capacity becomes available, whether in the 2012 STIP or earlier, will go to counties with unprogrammed share balances carried forward from the 2008 STIP, and
- 2.11 BE IT FURTHER RESOLVED that the Commission acknowledges and supports the Department efforts in the 2010 ITIP to prioritize large partially programmed ITIP projects and to limit the expenditures on projects without a reasonable expectation of receiving construction funding, and
- 2.12 BE IT FURTHER RESOLVED that highway and transit projects (excluding Transportation Enhancement projects) programmed in 2009-10 that are reprogrammed into 2010-11 pursuant to staff recommendations remain eligible for allocation in 2009-10 pursuant to the Commission's 2009-10 allocation plan should sufficient funds be available, and
- 2.13 BE IT FURTHER RESOLVED that changes to or the addition of the STIP funding of projects also funded from competitive Proposition 1B programs does not constitute approval of non-STIP Proposition 1B programming actions, and
- 2.14 BE IT FURTHER RESOLVED that the approval of such actions requires the approval of a baseline or program amendment, or inclusion in a new programming action in the appropriate Proposition 1B program, with subsequent conforming STIP amendments as needed based on the Proposition 1B programming action, and
- 2.15 BE IT FURTHER RESOLVED that Commission staff, in consultation with the Department and regional agencies, is authorized to make further technical changes in cost, schedules, and descriptions for projects in the 2010 STIP, consistent with the fund estimate, in order to reflect the most current information, including the allocation or lapse of projects at the close of the 2009-10 fiscal year, or to clarify the Commission's programming commitments, with report of any substantive changes back to the Commission for approval at the June 30 – July 1, 2010 meeting.
