

**BENTLEY ROAD & WARNERVILLE ROAD  
RECONSTRUCTION PROJECT  
Funded by Senate Bill SB-1**

The Senate Bill (SB 1) Roadway Reconstruction Project proposes to reconstruct Bentley Road from Patterson Road to Milnes Road and Warnerville Road from Tim Bell Road to Crabtree Road. Bentley Road is a north/south 2-lane local rural road south of the City of Oakdale and Warnerville Road is an east/west 2-lane minor collector east of the City of Oakdale.

Bentley Road and Warnerville Road will be reconstructed using a Full Depth Reclamation (FDR) process, which mixes, treats and compacts the existing material in place. FDR is a best practice for recycling existing materials and using them in place. Bentley Road will be treated with cement and then capped with asphalt concrete pavement. Warnerville Road is being treated with a Lithtech agent with a double chip seal on top as a riding surface. Lithtech has been used successfully in New Mexico and Utah and this is the first California project utilizing this product.

Estimated Start Date:	October 31, 2018
Estimated Completion Date:	April 1, 2019
Contractor:	T & S Intermodal Maintenance, Inc. Linden, CA
Construction Contract:	\$3,573,928.00
