PART I - INVITATION TO BIDDERS

Contractors are invited to submit written, formal bids for the Claribel Road and Roselle Avenue Intersection Project, Federal Project No. CML-5938(181) project. Estimated Construction cost for this project is \$3,200,000. The work to be accomplished includes construction of a signalized intersection at Claribel Road and Roselle Avenue to accommodate turn lanes.

Plans and Specifications are available for viewing on the Modesto Reprographics webpage at www.modestoplanroom.com. Paper copies are available from Modesto Reprographics. Call (209) 544-2400 for questions regarding the purchase of plans and specifications.

Technical Questions: All questions must be submitted in writing. Email your questions to tumminellon@stancounty.com or fax your questions to (209) 541-2509, Attn: Nate Tumminello.

Bid forms are provided in the Section titled "Proposal". Bids shall be submitted in a sealed envelope and plainly marked "Proposal for Claribel Road and Roselle Avenue Intersection Project, Federal Project No. CML- 5938(181)". Bid envelopes shall be addressed to: Stanislaus County, Clerk of the Board of Supervisors, 1010 10th Street, Ste. 6700, Modesto, California, 95354. Bid envelopes must be delivered to the Clerk of the Board of Supervisors prior to 2:30 p.m., June 27, 2018, as evidenced by the Clerk's date/time stamp on the envelopes. The bids will be publicly opened in Room 6709 and read by the Clerk of the Board after bid closing.

EVENT DESCRIPTION	ANTICIPATED DATE
Project Advertisement	June 4, 2018
Last Day Contractors Clarification Requests	June 29, 2018
Issuance of Addendum (if required)	July 3, 2018
Bid Opening	July 12, 2018
Board Approval of Contract	July 31, 2018
Notice to Proceed	August 13, 2018

The award of the contract, if it be awarded, will be to the lowest responsible bidder whose proposal complies with all the requirements prescribed.

The lowest bid shall be the lowest bid price on the base contract without consideration of the prices on the additive or deductive items.

All bids will be compared on the basis of the Engineer's Estimate of the quantities of work to be done.

Bidders are advised that, as required by 49 CFR Part 26, the County of Stanislaus is implementing a Race Conscious DBE Program. DBE requirements are located in Part V, "Special Conditions," Section SC-12,

"Federal Aid Construction Contracts," and Part III, "Proposal," Section 5-1, "Performance of Subcontractor," of the project specifications.

The DBE contract goal for this project has been set at 7% percent participation.

Other such items and details not mentioned herein that are required by the Plans, Standard Specifications or Special Provisions shall be performed, placed, constructed or detailed.

A pre-construction conference shall be required prior to the "Notice to Proceed".

This project is subject to the "Buy America" provisions of the Surface Transportation Assistance Act of 1982, as amended by the Intermodal Surface Transportation Efficiency Act of 1991.

The contractor shall possess a Class A License at the time this contract is awarded.

This contract is subject to state contract nondiscrimination and compliance requirements pursuant to Government Code, Section 12990.

The successful bidder shall furnish a payment bond and a performance bond.

A contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in this chapter, unless currently registered and qualified to perform public work pursuant to Section 1725.5. It is not a violation of this section for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time contract is awarded.

Pursuant to Sections 1770 and 1773 of the Labor Code, the Board of Supervisors has ascertained the general prevailing rate of per diem wages applicable to the work to be done for straight time, overtime, Saturday, Sunday, and holiday work. These wage rates are set forth by the Director of the Department of Industrial Relations and are available at the agencies web site and are on file with the Department of Public Works and hereby made a part of the agreement.

Attention is directed to the Federal minimum wage rate requirements in Part III, "Proposal." If there is a difference between the minimum wage rates predetermined by the Secretary of Labor and the general prevailing wage rates determined by the Director of the California Department of Industrial Relations for similar classifications of labor, the Contractor and subcontractors shall pay not less than the higher wage rate. The County will not accept lower State wage rates not specifically included in the Federal minimum wage determinations. This includes "helper" (or other classifications based on hours of experience) or any other classification not appearing in the Federal wage determinations. Where Federal wage determinations do not contain the State wage rate determination otherwise available for use by the Contractor and subcontractors, the Contractor and subcontractor shall pay not less than the Federal minimum wage rate, which most closely approximates the duties of the employees in question.

The U.S. Department of Transportation (DOT) provides a toll-free hotline to report bid rigging activities. Use the hotline to report bid rigging, bidder collusion, and other fraudulent activities. The hotline number is (800) 424-9071. The service is available 24 hours 7 days a week and is confidential and anonymous. The hotline is part of the DOT's continuing effort to identify and investigate highway construction contract fraud and abuse and is operated under the direction of the DOT Inspector General.

Contract No. 9606

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS

Pursuant to and in accordance with the Provisions of Public Contract Code Section 22300, the contractor may elect to substitute securities for retention monies withheld by the County or to request payment of retention monies earned to an escrow agent.

PART II - INFORMATION FOR BIDDERS

1. DATE AND PLACE FOR OPENING PROPOSALS

- 1. Pursuant to the "Invitation to Bidders", sealed proposals for performing the work will be received by the Clerk of the Board of Supervisors of the County of Stanislaus.
- 2. At the place and time set forth in said "Invitation to Bidders", they will be publicly opened and read. The awarding of the agreement, if awarded, will be made by said Board of Supervisors as soon thereafter as practicable.

2. PRINTED FORM OF PROPOSALS

All proposals must be made upon the blank proposal as included in PART III - PROPOSAL, and must give the price data in figures, and must be signed by the bidder. In accordance with the directions in the proposal, in order to insure consideration the proposal must be enclosed in a return envelope furnished by the bidder, and plainly marked: "Proposal for the Claribel Road and Roselle Avenue Intersection Project, Federal Project No. CML-5938(181)" and addressed to the Stanislaus County, Attn: Clerk of the Board of Supervisors, 1010 10th Street, Ste. 6700, Modesto, California, 95354. No bid may be withdrawn within Sixty (60) days after time of opening.

3. OMISSIONS AND DISCREPANCIES

Should a bidder find discrepancies in, or omissions from, the drawings or other contract documents, or should the bidder be in doubt as to their meaning, it shall at once notify the Engineer in writing who may send a written instruction to all bidders.

4. ACCEPTANCE OR REJECTION OF PROPOSALS

The Board of Supervisors reserves the right to reject any or all proposals. Without limiting the generality of the foregoing, any proposal that is incomplete, obscure, or irregular may be rejected. Any proposal having erasures or corrections in the price sheet may be rejected. Any proposal that omits a bid on any one or more items in the price sheet may be rejected. Any proposal in which unit prices are obviously unbalanced may be rejected. Any proposal accompanied by an insufficient or irregular bidder's bond may be rejected. Any proposal that does not include and have attached a list of all subcontractors, complete with names and addresses, may be rejected.

Also, the Board reserves the right to reject the proposal of any bidder who is not responsible. The successful bidder shall be licensed by the State of California to perform the work required by the plans and specifications and shall endorse its license number on the proposal. The Board may require additional evidence of experience, financial responsibility, or corporate existence, at its option. Each bidder shall endorse its address to which notices hereunder may be directed on the proposal.

A bidder may be deemed not to be responsible and its bid rejected if a listed subcontractor is not responsible. Responsibility of any bidder or of any listed subcontractor shall be determined at the sole discretion of the Board.

5. CASH, CERTIFIED CHECK, CASHIER'S CHECK OR BIDDER'S BOND

All proposals shall be accompanied by cash, a certified check, certified to by some responsible bank or banker, a cashier's check on a bank, or a bidder's bond prepared and guaranteed by an admitted corporate surety made payable to the "County of Stanislaus" in the amount of ten percent (10%) of the total bid, unless otherwise specified. All such cash or checks will be returned to the respective bidder within ten (10) days after the proposals are opened, except those which the Board of Supervisors elects to hold until the successful bidder has executed the contract. Thereafter, all remaining cash or checks, including that of the successful bidder, will be returned within five (5) days after the issuance of the Notice to Proceed.

6. ACCEPTANCE OF PROPOSALS AND ITS EFFECT

Within sixty (60) days after the opening of the proposals, the Board of Supervisors will act upon them. The acceptance of a proposal will be notice in writing signed by a duly authorized representative of the Board of Supervisors and no other act of the Board of Supervisors shall constitute the acceptance of a proposal. The acceptance of a proposal shall bind the successful bidder to execute the contract and to be responsible for liquidated damages, as provided in Article SC-08. The rights and obligations provided for in the contract shall become effective and binding upon the parties only with its formal execution by the Board of Supervisors or its authorized designee.

7. MANDATORY PRE-BID MEETING AND SITE VISIT – NOT APPLICABLE

8. BID PROTEST

Any Bid protest must be submitted in writing to the County's offices (Attention: Linda Allsop), before 5:00 p.m. of the tenth (10) day following posting on the official bulletin board of the Clerk of the Board of Notice of Intent to Award for Construction. Time will be determined by County staff using the official clock of the Clerk of the Board. County will use reasonable efforts to deliver by facsimile a copy of Notice of Intent to Award for Construction to all Bidders who submitted Bids no later than the Business Day after issuance, although any delay or failure to do so will not extend the Bid protest deadline described above.

The initial protest must contain a complete statement of the basis for the protest.

The protest must refer to the specific portion of the document that forms the basis for the protest.

The protest must include the name, address, and telephone number of the person representing the protesting party.

Only Bidders who the County otherwise determines are responsive and responsible are eligible to protest a Bid; protests from any other Bidder will not be considered.

The party filing the protest must concurrently transmit a copy of the initial protest document and any attached documentation to all other parties with a direct financial interest that may be adversely affected by the outcome of the protest. Such parties shall include all other Bidders who appear to have a reasonable prospect of receiving an award depending upon the outcome of the protest.

The procedure and time limits set forth in this paragraph are mandatory and are Bidder's sole and exclusive remedy in the event of a Bid protest. Bidder's failure to comply with these procedures shall constitute a waiver of any right to further pursue the Bid protest, including filing a Government Code Claim or legal proceedings. A Bidder may not rely on a protest submitted by another Bidder, but must timely pursue its own protest.

9. WITHDRAWAL OF BIDS

Bidders may withdraw their Bids at any time prior to the Bid opening time fixed in this Information to Bidders, only by written request for the withdrawal of Bid filed with the County at the County's office. Bidder or its duly authorized representative shall execute request to withdraw Bid. The submission of a Bid does not commit the County to award a contract for the Project, to pay costs incurred in the preparation of a Bid, or to procure or contract for any goods or services.

10. TIME FOR EXECUTING CONTRACT AND DAMAGES FOR FAILURE TO EXECUTE

After Notice of Award, the successful Bidder must execute and submit the following documents as indicated below:

- 1. Submit the following documents to County by 2:00 p.m. of the tenth (10) Day following Notice of Award. Execution of Contract by County depends upon approval of these documents, and any other document identified in County's Notice of Award:
 - a. Agreement: To be executed by successful Bidder. Submit four originals, each bearing an original signature.
 - b. Construction Performance Bond: To be executed by successful Bidder and surety, in the amount set forth in Construction Performance Bond. Submit one original.
 - c. Construction Labor and Material Payment Bond: To be executed by successful Bidder and surety, in the amount set forth in Construction Labor and Materials Payment Bond. Submit one original.
 - d. Insurance certificates and endorsements required by Special Conditions Article SC-15, INSURANCE. Submit one original set.
 - e. One complete set of documentary information received or generated by successful Bidder in preparation of Bid prices for its Bid, as set forth in Escrow Bid Documents.
 - f. The Guaranty in the form set forth in Guaranty. Submit four originals, each bearing an original signature.
 - g. Any other item described in Notice of Award (if any).
- 2. County shall have the right to communicate directly with Apparent Low Bidder's proposed performance bond surety, to confirm the performance bond. County may elect to extend the time to receive faithful performance and labor and material payment bonds.
- 3. The damages to the County for such breach will include loss from interference with its construction program and other items whose accurate amount will be difficult or impossible to compute. The amount of the cash, certified check, cashier's check or bidder's bond accompanying the proposal of such bidder shall be forfeited and applied by the Board of Supervisors as liquidated damages for such breach. In the event any bidder whose proposal shall be accepted shall fail or refuse to execute the contract as accepted as hereinbefore provided, the Board of Supervisors may, at its option, determine that such bidder has abandoned the contract and thereupon his proposal and the acceptance thereof shall be null and void and the County shall be entitled to liquidated damages as provided in the Special Conditions. In such event, the Board of Supervisors may award the contract to the next low responsible bidder or bidders.

11. DETERMINATION OF LOW BIDDER

Except where the Board of Supervisors exercises the right reserved herein to reject any or all proposals, the contract will be awarded by said Board to the responsible bidder who has submitted the lowest bid. Quantities are approximate, only being as a basis for the comparison of bids. The Board of Supervisors reserves the right to increase, decrease or omit portions of the work as may be deemed necessary or advisable by the Engineer.

12. TIME FOR BEGINNING AND COMPLETING THE WORK

The Contractor shall commence work within five (5) calendar days after the date of the Notice to Proceed, and shall complete the work within **one hundred-forty** (140) working days. The date of the Notice to Proceed shall constitute the first working day.

13. PRICES

The prices are to include the furnishing of all materials, plant, equipment, tools, scaffolds, and all other facilities, and the performance of all labor and services necessary or proper for completion of the work, except such as may be otherwise expressly provided in the contract documents.

14. INTERPRETATION OF ADDENDA

Oral interpretations shall not be made to any bidder as to the meaning of any of the contract documents, or be effective to modify any of the provisions of the contract documents. Every request for an interpretation shall be made in writing at least seven (7) calendar days prior to the bid opening and addressed and forwarded to Public Works Engineering, Attn: Nate Tumminello, 1716 Morgan Road, Modesto, California 95358.

15. RIGHT TO MAKE CORRECTIONS

The Engineer/Architect shall have the right to make such corrections and interpretations as may be deemed necessary for the fulfillment of the intent of the specifications. The Contractor shall be responsible for calling apparent errors or omissions to the attention of the Engineer/Architect for his corrections and/or interpretation. The Contractor shall not take advantage of said apparent errors or omissions.

16. SUBSTITUTIONS OF SECURITIES FOR WITHHELD PAYMENTS

Except as otherwise prohibited by law, the Contractor may elect to receive all payments due under the contract pursuant to without any retention. If the Contractor so elects, he shall deposit with the County securities with a value equal to the monies that would otherwise be withheld by the County. Said securities shall be as provided in Section 22300 of the Public Contract Code and shall be approved by the County as to both sufficiency and form.

17. CONSTRUCTION PAYMENT BOND AND CONSTRUCTION LABOR AND MATERIALS BOND SURETY

A surety insurer admitted in the State of California by the Department of Insurance shall execute Construction Payment Bond and Construction Labor and Materials Bond. County shall verify Surety's admission by either: (1) printing out information from the website of the Department of Insurance confirming that Surety is an admitted surety insurer; or, (2) obtaining a certificate from the County Clerk confirming that Surety is an admitted insurer. County shall attach such verification to Construction Payment Bond and Construction Labor and Materials Bond.

18. CONFORMED CONSTRUCTION DOCUMENTS

Following Award of Contract, County may prepare a conformed set of Contract Documents reflecting Addenda issued during bidding, which shall, failing objection, constitute the approved set of Contract Documents.

PART III - PROPOSAL

STANISLAUS COUNTY BOARD OF SUPERVISORS

FOR THE CONSTRUCTION OF

Claribel Road and Roselle Avenue Intersection Project, Federal Project No. CML-5938(181)

NAME OF BIDDER:	
BUSINESS P.O. BOX:	
BUSINESS STREET ADDRESS:	
CITY, STATE, ZIP:	(Please include even if P.O. Box used)
TELEPHONE NO: ()	
Area Code	
$FAX NO: \qquad (\qquad)$	
Area Code	
CONTRACTOR LICENSE NO.:	

The work for which this proposal is submitted is for construction in conformance with the special provisions (including the payment of not less than the State general prevailing wage rates or Federal minimum wage rates), the project plans described below, including any addenda thereto, the contract annexed hereto, and also in conformance with the California Department of Transportation Standard Plans, dated 2010, the Standard Specifications, dated 2010, and the Labor Surcharge and Equipment Rental Rates in effect on the date the work is accomplished.

The specification and project plans for the work to be done were adopted, and are entitled:

Claribel Road and Roselle Avenue Intersection Project, Federal Project No. CML-5938(181)

Bids are to be submitted for the entire work. The amount of the bid for comparison purposes will be the total of all items. The bidder shall set forth for each unit basis item of work a unit price and a total for the item, and for each lump sum item a total for the item, all in clearly legible figures in the respective spaces provided for that purpose. In the case of unit basis items, the amount set forth under the "Item Total" column shall be the product of the unit price bid and the estimated quantity for the item.

In case of discrepancy between the unit price and the total set forth for a unit basis item, the unit price shall prevail, except as provided in (a) or (b), as follows:

- (a) If the amount set forth as a unit price is unreadable or otherwise unclear, or is omitted, or is the same as the amount as the entry in the item total column, then the amount set forth in the item total column for the item shall prevail and shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price;
- (b) Decimal Errors. If the product of the entered unit price and the estimated quantity is exactly off by a factor of ten, one hundred, etc., or one-tenth, or one-hundredth, etc. from the entered total, the discrepancy will be resolved by using the entered unit price or item total, whichever most closely approximates percentage wise the unit price or item total in the Item Total.

If both the unit price and the item total are unreadable or otherwise unclear, or are omitted, the bid may be deemed irregular. Likewise if the item total for a lump sum item is unreadable or otherwise unclear, or is omitted, the bid may be deemed irregular unless the project being bid has only a single item and a clear, readable total bid is provided.

Symbols such as commas and dollar signs will be ignored and have no mathematical significance in establishing any unit price or item total or lump sums. Written unit prices, item totals and lump sums will be interpreted according to the number of digits and, if applicable, decimal placement. Cent symbols also have no significance in establishing any unit price or item total since all figures are assumed to be expressed in dollars and/or decimal fractions of a dollar. Bids on lump sum items shall be item totals only; if any unit price for a lump sum item is included in a bid and it differs from the item total, the items total shall prevail.

The foregoing provisions for the resolution of specific irregularities cannot be so comprehensive as to cover every omission, inconsistency, error or other irregularity which may occur in a bid. Any situation not specifically provided for will be determined in the discretion of the COUNTY OF STANISLAUS, and that discretion will be exercised in the manner deemed by the COUNTY OF STANISLAUS to best protect the public interest in the prompt and economical completion of the work. The decision of the COUNTY OF STANISLAUS respecting the amount of a bid, or the existence or treatment of an irregularity in a bid, shall be final.

Accompanying this proposal shall be a bidder's bond issued by a California admitted surety, or certified or cashier's check, or cash in the amount of ten percent (10%) of the proposal as a form of bidder's security.

If this proposal shall be accepted and the undersigned shall fail to enter into the contract and furnish the 2 bonds in the sum required by Article SC-14, BONDS, with surety satisfactory to the COUNTY OF STANISLAUS, within ten (10) days, not including Saturdays, Sundays and legal holidays, after the bidder has received notice from the COUNTY OF STANISLAUS that the contract has been awarded, the COUNTY OF STANISLAUS may, at its option, determine that the bidder has abandoned the contract, and thereupon this proposal and the acceptance thereof shall be null and void and the forfeiture of the security accompanying this proposal shall operate and the same shall be the property of the COUNTY OF STANISLAUS.

The undersigned, as bidder, declares that the only persons or parties interested in this proposal as principals are those named herein; that this proposal is made without collusion with any other person, firm, or corporation; that he has carefully examined the location of the proposed work, the annexed proposed form of contract, and the plans therein referred to; and he proposes, and agrees if this proposal is accepted, that he will contract with the COUNTY OF STANISLAUS, in the form of the copy of the contract annexed hereto, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the contract, in the manner and time therein prescribed, and according to the requirements of the Engineer as therein set forth, and that he will take in full payment therefore the following prices, to wit:

BID DOCUMENTS REQUIRED AT BID OPENING

It is <u>required</u> that the following documents must be completed, signed, and submitted with the Proposal at bid opening. Failure to complete or provide any of the required documents will be deemed an incomplete and rejected bid.

- Contractor's Bid Sheet
- Addendum Sheet
- Subcontractors List
- Insurance Requirements Acknowledgement
- Equal Employment Opportunity Certification (for Contractor and each Subcontractor)
- Public Contract code
- Noncollusion Affidavit
- Non-Discrimination of Individuals with Disabilities
- Debarment and Suspension Certification
- Proposal Signature Sheet
- Bidder's Bond
- W-9 Form
- Disclosure of Lobbying Activities

Note: The following documents below must be completed, signed, and submitted to 1716 Morgan Road, Modesto, CA 95358 no later than 4:00 p.m. on the 4th business day after bid opening.

DOCUMENT NAME	PAGE
Exhibit 15-G Local Agency Bidder DBE Commitment (Construction Contracts)	III-24
Exhibit 15-H DBE Information – Good Faith Efforts	III-28

Insurance Requirements for Construction Contracts

Contractor shall procure and maintain for the duration of the contract, and for 3 years thereafter, insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, his agents, representatives, employees, or subcontractors.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

- 1. Commercial General Liability (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than \$3,000,000 per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.
- Automobile Liability: Insurance Services Office Form Number CA 0001 covering Code 1
 (any auto), with limits no less than \$1,000,000 per accident for bodily injury and property
 damage.
- Workers' Compensation insurance as required by the State of California, with Statutory Limits, and Employers' Liability insurance with a limit of no less than \$1,000,000 per accident for bodily injury or disease.
- Builder's Risk (Course of Construction) insurance utilizing an "All Risk" (Special Perils)
 coverage form, with limits equal to the completed value of the project and no coinsurance
 penalty provisions.
- Surety Bonds as described below.
- Professional Liability (if Design/Build), with limits no less than \$1,000,000 per occurrence or claim, and \$2,000,000 policy aggregate.
- Contractors' Pollution Legal Liability and/or Asbestos Legal Liability and/or Errors and Omissions (if project involves environmental hazards) with limits no less than \$1,000,000 per occurrence or claim, and \$2,000,000 policy aggregate.

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the County.

Application of Excess Liability Coverage: Contractors may use a combination of primary, and excess insurance policies which provide coverage as broad as ("follow form" over) the underlying primary policies, to satisfy the Required Insurance provisions.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The County, its officers, officials, employees, agents and volunteers are to be covered as additional insureds on the CGL and Auto policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations and automobiles owned, leased, hired, or borrowed by or on behalf of the Contractor. General liability and Auto liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10, CG 11 85 or both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 forms if later revisions used).

Primary Coverage

For any claims related to this contract, the Contractor's insurance coverage shall be primary coverage at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

Builder's Risk (Course of Construction) Insurance

Contractor may submit evidence of Builder's Risk insurance in the form of Course of Construction coverage. Such coverage shall name the County as a loss payee as their interest may appear.

If the project does not involve new or major reconstruction, at the option of the County, an Installation Floater may be acceptable. For such projects, a Property Installation Floater shall be obtained that provides for the improvement, remodel, modification, alteration, conversion or adjustment to existing buildings, structures, processes, machinery and equipment. The Property Installation Floater shall provide property damage coverage for any building, structure, machinery or equipment damaged, impaired, broken, or destroyed during the performance of the Work, including during transit, installation, and testing at the County's site.

Reporting

Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the County or its officers, officials, employees, agents or volunteers.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the County.

Waiver of Subrogation

Contractor hereby agrees to waive rights of subrogation (except for Professional Liability) which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation. The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of the County for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

Self-insured retentions must be declared to and approved by the County. At the option of the County, either: the contractor shall cause the insurer shall reduce or eliminate such self-insured retentions as respects the County, its officers, officials, employees, and volunteers; or the Contractor shall provide a financial guarantee satisfactory to the County guaranteeing payment of losses and related investigations, claim administration, and defense expenses. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or County.

Acceptability of Insurers

Insurance is to be placed with California admitted insurers (licensed to do business in California) with a current A.M. Best's rating of no less than A-VII, however, if no California admitted insurance company provides the required insurance, it is acceptable to provide the required insurance through a United States domiciled carrier that meets the required Best's rating and that is listed on the current List of Approved Surplus Line Insurers (LASLI) maintained by the California Department of Insurance.

Claims Made Policies

If any coverage required is written on a claims-made coverage form:

- The retroactive date must be shown, and this date must be before the execution date of the contract or the beginning of contract work.
- Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of contract work.
- If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the contract effective, or start of work date, the Contractor must purchase extended reporting period coverage for a minimum of five (5) years after completion of contract work.
- A copy of the claims reporting requirements must be submitted to the County for review.
- 5. If the services involve lead-based paint or asbestos identification/remediation, the Contractors Pollution Liability policy shall not contain lead-based paint or asbestos exclusions. If the services involve mold identification/remediation, the Contractors Pollution Liability policy shall not contain a mold exclusion, and the definition of Pollution shall include microbial matter, including mold.

Verification of Coverage

Contractor shall furnish the County with original certificates and amendatory endorsements, or copies of the applicable insurance language, effecting coverage required by this contract. All certificates and endorsements are to be received and approved by the County before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The County reserves the right to require complete, certified copies of all required insurance policies, including endorsements, required by these specifications, at any time. We strongly recommend obtaining a copy of the policy declarations and endorsement page (make this a requirement in your Contract) to facilitate verification of coverages and spot any undesirable policy limitations or exclusions.

Subcontractors

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that County is an additional insured on insurance required from subcontractors. For CGL coverage subcontractors shall provide coverage with a format least as broad as CG 20 38 04 13.

Surety Bonds

Contractor shall provide the following Surety Bonds:

- 1. Bid bond
- 2. Performance bond
- 3. Payment bond
- Maintenance bond

The Payment Bond and the Performance Bond shall be in a sum equal to the contract price. If the Performance Bond provides for a one-year warranty a separate Maintenance Bond is not necessary. If the warranty period specified in the contract is for longer than one year a Maintenance Bond equal to 10% of the contract price is required. Bonds shall be duly executed by a responsible corporate surety, authorized to issue such bonds in the State of California and secured through an authorized agent with an office in California.

Special Risks or Circumstances

County reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other circumstances.

Insurance Limits

The limits of insurance described herein shall not limit the liability of the Contractor and Contractor's officers, employees, agents, representatives or subcontractors. Contractor's obligation to defend, indemnify and hold the County and its officers, officials, employees, agents and volunteers harmless under the provisions of this paragraph is not limited to or restricted by any requirement in the Agreement for Contractor to procure and maintain a policy of insurance.

[SIGNATURES SET FORTH ON THE FOLLOWING PAGE]

	m Auto – I will not utilize a vehicle in the performance of my work with the County.
	m WC – I am exempt from providing workers' compensation coverage as on 1861 and 3700 of the California Labor Code.

subcon	tractor, hereby certifies that he has
	, has not, participated in a previous contract or subcontract subject to the equal opportunity
clauses	, as required by Executive Orders 10925, 11114, or 11246, and that, where required, he has filed with the
Joint R	Reporting Committee, the Director of the Office of Federal Contract Compliance, a Federal Government
contrac	eting or administering agency, or the former President's Committee on Equal Employment Opportunity, al
reports	due under the applicable filling requirements.
Note:	The above certification is required by the Equal Employment Opportunity Regulations of the Secretary of Labor (41 CFR 60-1.7(b) (1)), and must be submitted by bidders and proposed subcontractors only in connection with contracts and subcontracts which are subject to the equal opportunity clause. Contract and subcontracts which are exempt from the equal opportunity clause are set forth in 41 CFR 60-1.5 (Generally only contracts or subcontracts of \$10,000 or under are exempt.)
	Currently, Standard Form 100 (EEO-1) is the only report required by the Executive Orders or their implementing regulations.
	Proposed prime contractors and subcontractors who have participated in a previous contract of subcontract subject to the Executive Orders and have not filed the required reports should note that 4 CFR 60-1.7(b) (1) prevents the award of contracts and subcontracts unless such contractor submits report covering the delinquent period or such other period specified by the Federal Highway Administration or by the Director, Office of Federal Contract Compliance, U.S. Department of Labor.

NON-DISCRIMINATION OF INDIVIDUALS WITH DISABILITIES

COUNTY OF STANISLAUS

POLICY STATEMENT

In compliance with 29 U.S.C. 794 and 42 U.S.C. 12132, it is the policy of the County of Stanislaus that it will not aid or perpetuate discrimination against a qualified individual with a disability by funding an agency, organization, or person that discriminates on the basis of handicap disability in providing any aid, benefit, or service to beneficiaries of the program or activity.

The County is committed to provide access to all County services, programs, and meetings open to the public to people with disabilities.

In this regard, County and all of its contractors and subcontractors will take all reasonable steps in accordance with 29 U.S.C. 794 and 42 U.S.C. 12132 to ensure that individuals with disabilities have the maximum opportunity for the same level of aid, benefit, or service as any other individual.

CERTIFICATION

Each agency, organization, or person seeking a bid, contract, or agreement with the County of Stanislaus shall sign a Certification of Compliance with 29 U.S.C. 794 and 42 U.S.C. 12132.

CERTIFICATION OF BIDDER REGARDING NON-DISCRIMINATION OF INDIVIDUALS WITH DISABILITIES

The Bidder hereby certifies that he/she/it is in compliance with 29 U.S.C. 794, 42 U.S.C. 12132,, the applicable administrative requirements promulgated in response thereto, and any other applicable Federal laws and regulations relating to discrimination and participation of individuals with disabilities.

Form (Rev. October 2007)
Department of the Treasury

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Internal	Revenue Service		Production contact that should be a top other and page								
5	Name (as shown on your income tax return)										
n page	Business name, if different from above										
Print or type Instructions on	Check appropriate box: ☐ Individual/Sole proprietor ☐ Corporation ☐ Limited liability company. Enter the tax classification (D=disregarded entit ☐ Other (see instructions) ▶	Partnership ty, C=corporation, P=partnership)	Exempt payee								
Print c Inst	Address (number, street, and apt. or suite no.)	Requester's name and	d address (optional)								
Specific	City, state, and ZIP code										
See	List account number(s) here (optional)										
Par	Taxpayer Identification Number (TIN)										
backu	your TIN in the appropriate box. The TIN provided must match the na up withholding. For individuals, this is your social security number (SSI sole proprietor, or disregarded entity, see the Part I instructions on pa	N). However, for a resident	curity number								
	employer identification number (EIN). If you do not have a number, see		or								
	. If the account is in more than one name, see the chart on page 4 for er to enter.	guidelines on whose Employe	r identification number								
Part	t II Certification										

Under penalties of perjury, I certify that:

- 1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
- 3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- 2. Certify that you are not subject to backup withholding, or
- 3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- · An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- · An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301,7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

• The U.S. owner of a disregarded entity and not the entity,

Cat. No. 10231X Form W-9 (Rev. 10-2007)

Form W-9 (Rev. 10-2007) Page 2

- \bullet The U.S. grantor or other owner of a grantor trust and not the trust, and
- The U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person, do not use Form W-9. Instead, use the appropriate Form W-8 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

- The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
 - 2. The treaty article addressing the income.
- 3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
- The type and amount of income that qualifies for the exemption from tax.
- Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity not subject to backup withholding, give the requester the appropriate completed Form W-8.

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

- You do not furnish your TIN to the requester,
- 2. You do not certify your TIN when required (see the Part II instructions on page 3 for details), $\,$
- 3. The IRS tells the requester that you furnished an incorrect TIN.

- 4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
- 5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See the instructions below and the separate Instructions for the Requester of Form W-9.

Also see Special rules for partnerships on page 1.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 negativ

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Name

If you are an individual, you must generally enter the name shown on your income tax return. However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form.

Sole proprietor. Enter your individual name as shown on your income tax return on the "Name" line. You may enter your business, trade, or "doing business as (DBA)" name on the "Business name" line.

Limited liability company (LLC). Check the "Limited liability company" box only and enter the appropriate code for the tax classification ("D" for disregarded entity, "C" for corporation, "P' for partnership) in the space provided.

For a single-member LLC (including a foreign LLC with a domestic owner) that is disregarded as an entity separate from its owner under Regulations section 301.7701-3, enter the owner's name on the "Name" line. Enter the LLC's name on the "Business name" line.

For an LLC classified as a partnership or a corporation, enter the LLC's name on the "Name" line and any business, trade, or DBA name on the "Business name" line.

Other entities. Enter your business name as shown on required federal tax documents on the "Name" line. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on the "Business name" line.

Note. You are requested to check the appropriate box for your status (individual/sole proprietor, corporation, etc.).

Exempt Payee

If you are exempt from backup withholding, enter your name as described above and check the appropriate box for your status, then check the "Exempt payee" box in the line following the business name, sign and date the form.

Form W-9 (Rev. 10-2007) Page 3

Generally, individuals (including sole proprietors) are not exempt from backup withholding. Corporations are exempt from backup withholding for certain payments, such as interest and dividends.

Note. If you are exempt from backup withholding, you should still complete this form to avoid possible erroneous backup withholding.

The following payees are exempt from backup withholding:

- 1. An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2).
- The United States or any of its agencies or instrumentalities.
- 3. A state, the District of Columbia, a possession of the United States, or any of their political subdivisions or instrumentalities,
- A foreign government or any of its political subdivisions, agencies, or instrumentalities, or
- 5. An international organization or any of its agencies or instrumentalities.

Other payees that may be exempt from backup withholding include:

- 6. A corporation,
- A foreign central bank of issue,
- A dealer in securities or commodities required to register in the United States, the District of Columbia, or a possession of the United States.
- 9. A futures commission merchant registered with the Commodity Futures Trading Commission,
 - 10. A real estate investment trust,
- 11. An entity registered at all times during the tax year under the Investment Company Act of 1940,
- 12. A common trust fund operated by a bank under section 584(a),
 - 13. A financial institution.
- 14. A middleman known in the investment community as a nominee or custodian, or
- 15. A trust exempt from tax under section 664 or described in section 4947.

The chart below shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above, 1 through 15.

IF the payment is for	THEN the payment is exempt for
Interest and dividend payments	All exempt payees except for 9
Broker transactions	Exempt payees 1 through 13. Also, a person registered under the investment Advisers Act of 1940 who regularly acts as a broker
Barter exchange transactions and patronage dividends	Exempt payees 1 through 5
Payments over \$600 required to be reported and direct sales over \$5,000	Generally, exempt payees 1 through 7

¹See Form 1099-MISC, Miscellaneous Income, and its instructions.
²However, the following payments made to a corporation (including gross proceeds paid to an attorney under section 6045(f), even if the attorney is a corporation) and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, and payments for services paid by a federal executive agency.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see How to get a TIN below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-member LLC that is disregarded as an entity separate from its owner (see *Limited liability company (LLC)* on page 2), enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note. See the chart on page 4 for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at www.ssa.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN You can apply for an EIN online by accessing the IRS website at www.irs.gov/businesses and clicking on Employer Identification Number (EIN) under Starting a Business. You can get Forms W-7 and SS-4 from the IRS by visiting www.irs.gov or by calling 1-800-TAX-FORM (1-800-829-3676).

If you are asked to complete Form W-9 but do not have a TIN, write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note. Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if items 1, 4, and 5 below indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). Exempt payees, see *Exempt Payee* on page 2.

Signature requirements. Complete the certification as indicated in 1 through 5 below.

- 1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.
- 2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

Form W-9 (Rev. 10-2007) Page 4

- Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.
- 4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).
- 5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

What Name and Number To Give the Requester

	For this type of account:	Give name and SSN of:
1.	Individual	The individual
2.	Two or more individuals (joint account)	The actual owner of the account or if combined funds, the first individual on the account.
3.	Custodian account of a minor (Uniform Gift to Minors Act)	The minor ²
4.	a. The usual revocable savings trust (grantor is also trustee)	The grantor-trustee '
	b. So-called trust account that is not a legal or valid trust under state law	The actual owner '
5.	Sole proprietorship or disregarded entity owned by an individual	The owner ⁵
	For this type of account:	Give name and EIN of:
6.	Disregarded entity not owned by an individual	The owner
7.	A valid trust, estate, or pension trust	Legal entity ⁴
8.	Corporate or LLC electing corporate status on Form 8832	The corporation
9.	Association, club, religious, charitable, educational, or other tax-exempt organization	The organization
10.	Partnership or multi-member LLC	The partnership
11.	A broker or registered nominee	The broker or nominee
12.	Account with the Department of Agriculture in the name of a public entity (such as a state or local government, school district, or prison) that receives agricultural program payments	The public entity

List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

Note. If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed

Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- · Protect your SSN,
- · Ensure your employer is protecting your SSN, and
- · Be careful when choosing a tax preparer.

Call the IRS at 1-800-829-1040 if you think your identity has been used inappropriately for tax purposes.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to *phishing@irs.gov*. You may also report misuse of the IRS name, logo, or other IRS personal property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at: *spam@uce.gov* or contact them at *www.consumer.gov/idtheft* or 1-877-IDTHEFT(438-4338).

Visit the IRS website at www.irs.gov to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons who must file information returns with the IRS to report interest, dividends, and certain other income paid to you, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA, or Archer MSA or HSA. The IRS uses the numbers for identification purposes and to help verify the accuracy of your tax return. The IRS may also provide this information to the Department of Justice for civil and criminal litigation, and to cities, states, the District of Columbia, and U.S. possessions to carry out their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You must provide your TIN whether or not you are required to file a tax return. Payers must generally withhold 28% of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to a payer. Certain penalties may also apply.

²Circle the minor's name and furnish the minor's SSN.

You must show your individual name and you may also enter your business or "DBA" name on the second name line. You may use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

⁴ List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see Special rules for perfurniships on page 1.

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS BIDDER'S BOND

as Surety are bound unto the County of Stanislaus, State of California, hereafter referred to as "Obligee", in the penal sum of ten percent (10%) of the total amount of the bid of the Principal submitted to the Obligee for the work described below, for the payment of which sum we bind ourselves, jointly and severally,
THE CONDITION OF THIS OBLIGATION IS SUCH, THAT:
WHEREAS, the Principal is submitted to the Obligee, for the Claribel Road and Roselle Avenue Intersection Project Federal Project No. CML-5938(181), for which bids are to be opened at Stanislaus County Board of Supervisors Office, Tenth Street Place, 1010 10th Street, Room 6709, Modesto, CA, June 27, 2018.
NOW, THEREFORE, if the Principal is awarded the contract and, within the time and manner required under the specifications, after the prescribed forms are presented to him for signature, enters into a written contract, in the prescribed form, in conformance with the bid, and files two bonds with the Obligee, one to guarantee faithful performance of the contract and the other to guarantee payment for labor and materials as provided by law, then this obligation shall be null and void; otherwise, it shall remain in full force.
In the event suit is brought upon this bond by the Obligee and judgment is recovered, the Surety shall pay all costs incurred by the Obligee in such suit, including a reasonable attorney's fee to be fixed by the court.

Local Assistance Procedures Manual

Exhibit 15-G

Construction Contract DBE Commitment

INSTRUCTIONS - CONSTRUCTION CONTRACT DBE COMMITMENT

CONTRACTOR SECTION

- 1. Local Agency Enter the name of the local or regional agency that is funding the contract.
- 2. Contract DBE Goal Enter the contract DBE goal percentage as it appears on the project advertisement.
- 3. Project Location Enter the project location as it appears on the project advertisement.
- 4. Project Description Enter the project description as it appears on the project advertisement (Bridge Rehab, Seismic Rehab, Overlay, Widening, etc).
- 5. Bidder's Name Enter the contractor's firm name.
- 6. Prime Certified DBE Check box if prime contractor is a certified DBE.
- 7. Bid Amount Enter the total contract bid dollar amount for the prime contractor.
- $\textbf{8. Total Dollar Amount for } \underline{\textbf{ALL}} \ \textbf{Subcontractors} \textbf{Enter the total dollar amount for all subcontracted contractors}.$
- SUM = (DBEs + all Non-DBEs). Do not include the prime contractor information in this count.
- 9. Total number of <u>ALL</u> subcontractors Enter the total number of all subcontracted contractors. SUM = (DBEs + all Non-DBEs). Do not include the prime contractor information in this count.
- 10. Bid Item Number Enter bid item number for work, services, or materials supplied to be provided.
- 11. Description of Work, Services, or Materials Supplied Enter description of work, services, or materials to be provided. Indicate all work to be performed by DBEs including work performed by the prime contractor's own forces, if the prime is a DBE. If 100% of the item is not to be performed or furnished by the DBE, describe the exact portion to be performed or furnished by the DBE. See LAPM Chapter 9 to determine how to count the participation of DBE firms.
- 12. DBE Certification Number Enter the DBE's Certification Identification Number. All DBEs must be certified on the date bids are opened.
- 13. DBE Contact Information Enter the name, address, and phone number of all DBE subcontracted contractors. Also, enter the prime contractor's name and phone number, if the prime is a DBE.
- 14. DBE Dollar Amount Enter the subcontracted dollar amount of the work to be performed or service to be provided. Include the prime contractor if the prime is a DBE. See LAPM Chapter 9 for how to count full/partial participation.
- 15. Total Claimed DBE Participation \$: Enter the total dollar amounts entered in the "DBE Dollar Amount" column. %: Enter the total DBE participation claimed ("Total Claimed DBE Participation Dollars" divided by item "Bid Amount"). If the total % claimed is less than item "Contract DBE Goal," an adequately documented Good Faith Effort (GFE) is required (see Exhibit 15-H DBE Information Good Faith Efforts of the LAPM).
- 16. Preparer's Signature The person completing the DBE commitment form on behalf of the contractor's firm must sign their name.
- 17. Date Enter the date the DBE commitment form is signed by the contractor's preparer.
- 18. Preparer's Name Enter the name of the person preparing and signing the contractor's DBE commitment form.
- 19. Phone Enter the area code and phone number of the person signing the contractor's DBE commitment form.
- 20. Preparer's Title Enter the position/title of the person signing the contractor's DBE commitment form.

LOCAL AGENCY SECTION

- 21. Local Agency Contract Number Enter the Local Agency contract number or identifier.
- 22. Federal-Aid Project Number Enter the Federal-Aid Project Number.
- 23. Bid Opening Date Enter the date contract bids were opened.
- 24. Contract Award Date Enter the date the contract was executed.
- 25. Local Agency Representative's Signature The person completing this section of the form for the Local Agency must sign their name to certify that the information in this and the Contractor Section of this form is complete and accurate.
- 26. Date Enter the date the DBE commitment form is signed by the Local Agency Representative.
- 27. Local Agency Representative's Name Enter the name of the Local Agency Representative certifying the contractor's DBE commitment form.
- 28. Phone Enter the area code and phone number of the person signing the contractor's DBE commitment form.
- 29. Local Agency Representative Title Enter the position/title of the Local Agency Representative certifying the contractor's DBE commitment form.

Final Report-Utilization of Disadvantaged Business Enterprises (DBE) and First-Tier Subcontractors

INSTRUCTIONS – FINAL REPORT-UTILIZATION OF DISADVANTAGED BUSINESS ENTERPRISES (DBE) AND FIRST-TIER SUBCONTRACTORS

- 1. Local Agency Contract Number Enter the Local Agency contract number or identifier.
- 2. Federal-Aid Project Number Enter the Federal-Aid Project Number.
- 3. Local Agency Enter the name of the local or regional agency that is funding the contract.
- 4. Contract Completion Date Enter the date the contract was completed.
- 5. Contractor/Consultant Enter the contractor/consultant's firm name.
- 6. Business Address Enter the contractor/consultant's business address.
- 7. Final Contract Amount Enter the total final amount for the contract.
- 8. Contract Item Number Enter contract item for work, services, or materials supplied provided. Not applicable for consultant contracts.
- 9. Description of Work, Services, or Materials Supplied Enter description of work, services, or materials provided. Indicate all work to be performed by DBEs including work performed by the prime contractor/consultant's own forces, if the prime is a DBE. If 100% of the item is not to be performed or furnished by the DBE, describe the exact portion to be performed or furnished by the DBE. See LAPM Chapter 9 to determine how to count the participation of DBE firms.
- 10. Company Name and Business Address Enter the name, address, and phone number of all subcontracted contractors/consultants. Also, enter the prime contractor/consultant's name and phone number, if the prime is a DBE.
- 11. DBE Certification Number Enter the DBE's Certification Identification Number. Leave blank if subcontractor is not a DBE.
- 12. Contract Payments Enter the subcontracted dollar amount of the work performed or service provided. Include the prime contractor/consultant if the prime is a DBE. The Non-DBE column is used to enter the dollar value of work performed by firms that are not certified DBE or for work after a DBE becomes decertified.
- 13. Date Work Completed Enter the date the subcontractor/subconsultant's item work was completed.
- **14. Date of Final Payment** Enter the date when the prime contractor/consultant made the final payment to the subcontractor/subconsultant for the portion of work listed as being completed.
- **15. Original DBE Commitment Amount** Enter the "Total Claimed DBE Participation Dollars" from Exhibits 15-G or 10-O2 for the contract.
- 16. Total Enter the sum of the "Contract Payments" Non-DBE and DBE columns.
- 17. Contractor/Consultant Representative's Signature The person completing the form on behalf of the contractor/consultant's firm must sign their name.
- 18. Contractor/Consultant Representative's Name Enter the name of the person preparing and signing the form.
- 19. Phone Enter the area code and telephone number of the person signing the form.
- 20. Date Enter the date the form is signed by the contractor's preparer.
- **21.** Local Agency Representative's Signature A Local Agency Representative must sign their name to certify that the contracting records and on-site performance of the DBE(s) has been monitored.
- 22. Local Agency Representative's Name Enter the name of the Local Agency Representative signing the form.
- 23. Phone Enter the area code and telephone number of the person signing the form.
- 24. Date Enter the date the form is signed by the Local Agency Representative.

MONTHLY DBE TRUCKING VERIFFICATION

Local Assistance Procedures Manual

The top of Form CEM-2404(F) contains boxes to put in the Contract Number, the Month of the reporting period and the Year of the reporting period.

The Form CEM-2404(F) has a column to enter the name of the Truck Owner, the DBE Cert. No. (if DBE certified) and the Name and Address of the trucking company. The Form CEM-2404(F) also requires the Truck No. and the California Highway Patrol CA No.

company(s) for trucking work performed by DBE certified trucks and for any fees or commissions of non DBE trucks utilized each month on the project. The amount paid to each trucking company is to be entered in the column called "Commission or Amount Paid," in accordance Form CEM-2404(F) is to be submitted prior to the 15th of each month and must show the dollar amount paid to the DBE trucking with the Special Provisions Section 5-1.X.

Payment information is derived using the following:

- 1.) 100% for the trucking services provided by the DBE using trucks it owns, operates and insures.
 - 100% for the trucking services provided by the trucks leased from other DBE firms.
- The fee or commission paid to non DBEs for the lease of trucks. The Prime does not receive 100% credit for these services because they are not provided by a DBE company.

each trucking company is paid for services rendered. The next column contains information that must be completed if a lease arrangement is The total dollar figure of this column is to be placed in the box labeled "Total Amount Paid." The column "Date Paid" requires a date that applicable. Located at the bottom of the form is a space to put the name of the "Prime Contractor," their "Business Address" and their "Business Phone No."

At the bottom of the form there is a space for the Contractor or designee "Contractor Representative's Signature, Title and Date" certifying that the information provided on the form is complete and correct.

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS NONLOBBYING CERTIFICATION FOR FEDERAL-AID CONTRACTS

The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

- (1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- (2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure of Lobbying Activities," in conformance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed \$100,000 and that all such subrecipients shall certify and disclose accordingly.

EXHBIT 10-Q Disclosure of Lobbying Activities

INSTRUCTIONS FOR COMPLETING EXHIBIT 10-Q DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime federal recipient at the initiation or receipt of covered federal action or a material change to previous filing pursuant to title 31 U.S.C. Section 1352. The filing of a form is required for such payment or agreement to make payment to lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress an officer or employee of Congress or an employee of a Member of Congress in connection with a covered federal action. Attach a continuation sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

- Identify the type of covered federal action for which lobbying activity is or has been secured to influence, the outcome of a covered federal action.
- 2. Identify the status of the covered federal action.
- 3. Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last, previously submitted report by this reporting entity for this covered federal action.
- 4. Enter the full name, address, city, state, and zip code of the reporting entity. Include Congressional District if known. Check the appropriate classification of the reporting entity that designates if it is or expects to be a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the first tier. Subawards include but are not limited to: subcontracts, subgrants, and contract awards under grants.
- 5. If the organization filing the report in Item 4 checks "Subawardee" then enter the full name, address, city, state, and zip code of the prime federal recipient. Include Congressional District, if known.
- **6.** Enter the name of the federal agency making the award or loan commitment. Include at least one organization level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
- Enter the federal program name or description for the covered federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans and loan commitments.
- 8. Enter the most appropriate federal identifying number available for the federal action identification in item 1 (e.g., Request for Proposal (RFP) number, Invitation for Bid (IFB) number, grant announcement number, the contract grant, or loan award number, the application/proposal control number assigned by the federal agency). Include prefixes, e.g., "RFP-DE-90-001."
- 9. For a covered federal action where there has been an award or loan commitment by the Federal agency, enter the federal amount of the award/loan commitments for the prime entity identified in item 4 or 5.
- 10. Enter the full name, address, city, state, and zip code of the lobbying entity engaged by the reporting entity identified in Item 4 to influence the covered federal action.
- 11. Enter the full names of the individual(s) performing services and include full address if different from 10 (a). Enter Last Name, First Name and Middle Initial (Ml).
- 12. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (Item 4) to the lobbying entity (Item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
- Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
- 14. Check all boxes that apply. If other, specify nature.
- 15. Provide a specific and detailed description of the services that the lobbyist has performed or will be expected to perform and the date(s) of any services rendered. Include all preparatory and related activity not just time spent in actual contact with federal officials. Identify the federal officer(s) or employee(s) contacted or the officer(s) employee(s) or Member(s) of Congress that were contacted.
- 16. Check whether or not a continuation sheet(s) is attached.
- 17. The certifying official shall sign and date the form, and print his/her name title and telephone number.

Public reporting burden for this collection of information is estimated to average 30-minutes per response, including time for reviewing instruction, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, D.C. 20503. PART IV – SAMPLE AGREEMENT, BONDS, AND GUARANTEE

COUNTY OF STANISLAUS AGREEMENT

THIS	AGREEMENT, by and between, whose place of business is located at ("Contractor"), and the County of Stanislaus ("County"), acting under and true of the authority vested in the County by the laws of the State of California.
by vir	tue of the authority vested in the County by the laws of the State of California.
WHE	REAS, County, by its Resolution Noadopted on the f, 20 awarded to Contractor the following Contract:
Contr	NOW, THEREFORE, in consideration of the mutual covenants hereinafter set forth, ractor and County agree as follows:
	Article 1. Work
1.1	Contractor shall complete all Work specified in the Contract Documents, in accordance with the Specifications, Drawings, and all other terms and conditions of the Contract Documents.
	Article 2. Architect/Engineer and Project Manager
2.1	designed the Project and furnished the Plans and Specifications. shall have the rights assigned to Architect/Engineer in the
	Contract Documents.
2.2	County has designated the Public Works Construction Manager as its Project Manager to act as County's Representative in all matters relating to the Contract Documents.
	Article 3. Contract Time and Liquidated Damages
3.1 C	ontractor shall commence Work on the date established in the Notice to Proceed. County reserves the right to modify or alter the Commencement Date of the Work.
3.2 C	ontractor shall achieve Final Completion of the entire Work and be ready for Final Payment in accordance with Contract Closeout Working Days from the date when the Contract Time commences to run as provided in the Agreement.
3.3 Li	iquidated Damages shall comply with SC-08 of the Special Conditions and 8-1.10 of the Standard Specifications.

3.4 Liquidated damages shall apply cumulatively and except as provided below, shall be presumed to be the damages suffered by County resulting from delay in completion of the Work.

3.5 Liquidated damages for delay shall only cover administrative, overhead, interest on bonds, and general loss of public use damages suffered by County as a result of delay. Liquidated damages shall not cover the cost of completion of the Work, damages resulting from Defective Work, lost revenues or costs of substitute facilities, or damages suffered by others who then seek to recover their damages from County (for example, delay claims of other contractors, subcontractors, tenants, or other third-parties), and defense costs thereof.

Article 4. Contract Sum

4.1 County shall pay Contractor the Contract Sum for completion of Work in accordance with Contract Documents as set forth in Contractor's Bid.

Article 5. Contractor's Representations

In order to induce County to enter into this Agreement, Contractor makes the following representations and warranties:

- 5.1 Contractor has visited the Site and has examined thoroughly and understood the nature and extent of the Contract Documents, Work, Site, locality, actual conditions, as-built conditions, and all local conditions, and federal, state and local laws and regulations that in any manner may affect cost, progress, performance or furnishing of Work or which relate to any aspect of the means, methods, techniques, sequences or procedures of construction to be employed by Contractor and safety precautions and programs incident thereto.
- 5.2 Contractor has examined thoroughly and understood all reports of exploration and tests of subsurface conditions, as-built drawings, drawings, products specifications or reports, available for Bidding purposes, of physical conditions, including Underground Facilities, which have been made available for Bidders or which may appear in the Drawings. Contractor accepts the determination set forth in these Documents of the limited extent of the information contained in such materials upon which Contractor may be entitled to rely. Contractor agrees that except for the information so identified, Contractor does not and shall not rely on any other information contained in such reports and drawings.
- 5.3 Contractor has conducted or obtained and has understood all such examinations, investigations, explorations, tests, reports and studies (in addition to or to supplement those referred to in Section 5.2 of this Document that pertain to the subsurface conditions, as-built conditions, Underground Facilities and all other physical conditions at or contiguous to the Site or otherwise that may affect the cost, progress, performance or furnishing of Work, as Contractor considers necessary for the performance or furnishing of Work at the Contract Sum, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents, including specifically the provisions of the Special Conditions; and no additional examinations, investigations, explorations, tests, reports, studies or similar information or data are or will be required by Contractor for such purposes.
- 5.4 Contractor has correlated its knowledge and the results of all such observations, examinations, investigations, explorations, tests, reports and studies with the terms and conditions of the Contract Documents.

Article 6. Contract Documents

6.1 Contract Documents consist of the following documents, including all changes, addenda, and modifications thereto:

Agreement
Encroachment Permit (if applicable)
Form FHWA-1273 (if applicable)
Project Plans
Project Specifications
State Standard Specifications and Standard Plans

Article 7. Indemnity

- 7.1 County and each of its officers, employees, consultants and agents including, but not limited to the Board, Architect/Engineer and each County Representative, shall not be liable or accountable in any manner for loss or damage that may happen to any part of the Work; loss or damage to materials or other things used or employed in performing the Work; injury, sickness, disease, or death of any person; or damage to property resulting from any cause whatsoever except their sole negligence, willful misconduct or active negligence, attributable to performance or character of the Work, and Contractor releases all of the foregoing persons and entities from any and all such claims.
- 7.2 To the furthest extent permitted by law (including without limitation California Civil Code Section 2782), Contractor shall assume defense of, and indemnify and hold harmless, County and each of its officers, employees, consultants and agents, including but not limited to the Board, Architect/Engineer and each County representative, from claims, suits, actions, losses and liability of every kind, nature and description, including but not limited to claims and fines of regulatory agencies and attorney's fees and consultant's fees, directly or indirectly arising out of, connected with or resulting from performance of the Work, failure to perform the Work, or condition of the Work which is caused in whole or part by any act or omission of Contractor, Subcontractors, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, regardless of whether it is caused in part by the negligence of County or by any person or entity required to be indemnified hereunder.
- 7.3 With respect to third-party claims against Contractor, Contractor waives any and all rights to any type of express or implied indemnity against County and each of its officers, employees, consultants and agents including, but not limited to County, the Board, Architect/Engineer and each County representative.
- 7.4 Approval or purchase of any insurance contracts or policies shall in no way relieve from liability nor limit the liability of Contractor, its Subcontractors of any tier, or the officers or agents of any of them.
- 7.5 To the furthest extent permitted by law (including, without limitation, Civil Code Section 2782), the indemnities, releases of liability and limitations of liability, claims procedures, and limitations of remedy expressed throughout the Contract Documents shall apply even in the event of breach of contract, negligence (active or passive), fault or strict liability of the party(is) indemnified, released, or limited in liability, and shall survive the termination, rescission, breach, abandonment, or completion of the Work or the terms of the Contract Documents. If

- Contractor fails to perform any of these defense or indemnity obligations, County may in its discretion back charge Contractor for County's costs and damages resulting therefrom and withhold such sums from progress payments or other contract moneys which may become due.
- 7.6 The indemnities in the Contract Documents shall not apply to any indemnified party to the extent of its sole negligence or willful misconduct; nor shall they apply to County or other indemnified party to the extent of its active negligence.

Article 8. Miscellaneous

- 8.1 Terms and abbreviations used in this Agreement are defined in Special Conditions, Section 1: DEFINITIONS AND TERMS and will have the meaning indicated therein.
- 8.2 It is understood and agreed that in no instance are the persons signing this Agreement for or on behalf of County or acting as an employee, agent, or representative of County, liable on this Agreement or any of the Contract Documents, or upon any warranty of authority, or otherwise, and it is further understood and agreed that liability of the County is limited and confined to such liability as authorized or imposed by the Contract Documents or applicable law.
- 8.3 Contractor shall not assign any portion of the Contract Documents, and may subcontract portions of the Contract Documents only in compliance with the Subcontractor Listing Law, California Public Contract Code §4100 *et seq*.
- 8.4 The Contract Sum includes all allowances (if any).
- In entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, Contractor or Subcontractor offers and agrees to assign to the awarding body all rights, title and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. §15) or under the Cartwright Act (Chapter 2 (commencing with §16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time County tenders final payment to Contractor, without further acknowledgment by the parties.
- 8.6 Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Contract, as determined by Director of the State of California Department of Industrial Relations, are deemed included in the Contract Documents and on file at County's Office, and shall be made available to any interested party on request. Pursuant to California Labor Code §1861, Contractor represents that it is aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that Code, and Contractor shall comply with such provisions before commencing the performance of the Work of the Contract Documents.
- 8.7 Should any part, term or provision of this Agreement or any of the Contract Documents, or any document required herein or therein to be executed or delivered, be declared invalid, void or unenforceable, all remaining parts, terms and provisions shall remain in full force and effect and shall in no way be invalidated, impaired or affected thereby. If the provisions of any law causing such invalidity, illegality or unenforceability may be waived, they are hereby waived

to the end that this Agreement and the Contract Documents may be deemed valid and binding agreements, enforceable in accordance with their terms to the greatest extent permitted by applicable law. In the event any provision not otherwise included in the Contract Documents is required to be included by any applicable law, that provision is deemed included herein by this reference (or, if such provision is required to be included in any particular portion of the Contract Documents, that provision is deemed included in that portion).

- This Agreement and the Contract Documents shall be deemed to have been entered into in the County of Stanislaus, State of California, and governed in all respects by California law (excluding choice of law rules). The exclusive venue for all disputes or litigation hereunder shall be in Stanislaus County Superior Court. Contractor accepts the Claims Procedure in Special Conditions, Article SC-16, WORK DISPUTES, as a claims procedure by agreement under the California Government Code, Title 1, Division 3.6, Part 3, Chapter 5.
- Notices: Any notices, documents, correspondence or other communications concerning this Agreement or the work hereunder may be provided by personal delivery, facsimile or mail and shall be addressed as set forth below. Such communication shall be deemed served or delivered: a) at the time of delivery if such communication is sent by personal delivery; b) at the time of transmission if such communication is sent by facsimile; and c) 48 hours after deposit in the U.S. Mail as reflected by the official U.S. postmark if such communication is sent through regular United States mail.

CONSTRUCTION PERFORMANCE BOND TERMS AND CONDITIONS

- Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors and assigns to County for the complete and proper performance of the Construction Contract, which is incorporated herein by reference.
- 2. If Contractor completely and properly performs all of its obligations under the Construction Contract, Surety and Contractor shall have no obligation under this Bond
- 3. If there is no County Default, Surety's obligation under this Bond shall arise after:
 - 3.1 County has declared a Contractor Default under the Construction Contract pursuant to the terms of the Construction Contract; and
 - 3.2 County has agreed to pay the Balance of the Contract Sum:
 - 3.2.1 To Surety in accordance with the terms of this Bond and the Construction Contract; or
 - 3.2.2 To a contractor selected to perform the Construction Contract in accordance with the terms of this Bond and the Construction Contract.
- 4. When County has satisfied the conditions of Paragraph 3, Surety shall promptly (within thirty (30) Days) and at Surety's expense elect to take one of the following actions:
 - 4.1 Arrange for Contractor, with consent of County, to perform and complete the Construction Contract (but County may withhold consent, in which case the Surety must elect an option described in Paragraphs 4.2, 4.3 or 4.4, below); or
 - 4.2 Undertake to perform and complete the Construction Contract itself, through its agents or through independent contractors; provided, that Surety may not select Contractor as its agent or independent contractor without County's consent; or
 - 4.3 Undertake to perform and complete the Construction Contract by obtaining bids from qualified contractors acceptable to County for a contract for performance and completion of the Construction Contract and, upon determination by County of the lowest responsive and responsible Bidder, arrange for a contract to be prepared for execution by County and the contractor selected with County's concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Construction Contract; and, if Surety's obligations defined in Paragraph 6, below, exceed the Balance of the Contract Sum, then Surety shall pay to County the amount of such excess; or
 - 4.4 Waive its right to perform and complete, arrange for completion, or obtain a new contractor and with reasonable promptness under the circumstances and, after investigation and consultation with County, determine in good faith its monetary obligation to County under Paragraph 6, below, for the performance and completion of the Construction Contract and, as soon as practicable after the amount is determined, tender payment therefore to County with full explanation of the payment's calculation. If County accepts Surety's tender under this Paragraph 4.4, County may still hold Surety liable for future damages then unknown or unliquidated resulting from the Contractor Default. If County disputes the amount of Surety's tender under this Paragraph 4.4, County may exercise all remedies available to it at law to enforce Surety's liability under Paragraph 6, below.
- 5. If Surety does not proceed as provided in Paragraph 4, then Surety shall be deemed to be in default on this Bond ten (10) Days after receipt of an additional written notice from County to Surety demanding that Surety perform its obligations under this Bond. At all times County shall be entitled to enforce any remedy available to County at law or under the Construction Contract including, without limitation, and by way of example only, rights to perform work, protect Work, mitigate damages, advance critical Work to mitigate schedule delay, or coordinate Work with other consultants or contractors.
- 6. Surety's monetary obligation under this Bond is limited by the amount of this Bond identified herein as the Penal Sum. This monetary obligation shall augment the Balance of the Contract Sum. Subject to these limits, Surety's obligations under this Bond are commensurate with the obligations of Contractor under the Construction Contract. Surety's obligations shall include, but are not limited to:
 - 6.1 The responsibilities of Contractor under the Construction Contract for completion of the Construction Contract and correction of Defective Work;
 - 6.2 The responsibilities of Contractor under the Construction Contract to pay liquidated damages, and for damages for which no liquidated damages are specified in the Construction Contract, actual damages caused by non-performance of the Construction Contract including, but not limited to, all valid and proper backcharges, offsets, payments, indemnities, or other damages;
 - 6.3 Additional legal, design professional and delay costs resulting from Contractor Default or resulting from the actions or failure to act of the Surety under Paragraph 4, above (but excluding attorney's fees incurred to enforce this Bond).
- 7. No right of action shall accrue on this Bond to any person or entity other than County or its successors or assigns.
- 8. Surety hereby waives notice of any change, alteration or addition to the Construction Contract or to related subcontracts, purchase orders and other obligations, including changes of time. Surety consents to all terms of the Construction Contract, including provisions on changes to the Contract. No extension of time, change, alteration, Modification, deletion, or addition to the Contract Documents, or of the Work required thereunder, shall release or exonerate Surety on this Bond or in any way affect the obligations of Surety on this Bond.
- 9. Any proceeding, legal or equitable, under this Bond shall be instituted in any court of competent jurisdiction where a proceeding is pending between County and Contractor regarding the Construction Contract, or in the courts of the County of Stanislaus, or in a court of competent jurisdiction in the location in which the Work is located. Communications from County to Surety under Paragraph 3.1 of this Bond shall be deemed to include the necessary agreements under Paragraph 3.2 of this Bond unless expressly stated otherwise.
- All notices to Surety or Contractor shall be mailed or delivered (at the address set forth on the signature page of this Bond), and all notices to County shall be mailed or delivered as provided in the Agreement. Actual receipt of notice by Surety, County or Contractor, however accomplished, shall be sufficient compliance as of the date received at the foregoing addresses.
- 11. Any provision in this Bond conflicting with any statutory or regulatory requirement shall be deemed deleted herefrom and provisions conforming to such statutory requirement shall be deemed incorporated herein.
- 12. Definitions
 - 12.1 Balance of the Contract Sum: The total amount payable by County to Contractor pursuant to the terms of the Construction Contract after all proper adjustments have been made under the Construction Contract, for example, deductions for progress payments made, and increases/decreases for approved Modifications to the Construction Contract.
 - 12.2 Construction Contract: The agreement between County and Contractor identified on the signature page of this Bond, including all Contract Documents and changes thereto.
 - 12.3 Contractor Default: Material failure of Contractor, which has neither been remedied nor waived, to perform or otherwise to comply with the terms of the Construction Contract including, but not limited to, "default" or any other condition allowing a termination for cause as provided in Section 8-1.11 of the State of California, Department of Transportation, Standard Specifications.
 - 12.4 County Default: Material failure of County, which has neither been remedied nor waived, to pay Contractor progress payments due under the Construction Contract or to perform other material terms of the Construction Contract, if such failure is the cause of the asserted Contractor Default and is sufficient to justify Contractor termination of the Construction Contract.

CONSTRUCTION LABOR AND MATERIAL PAYMENT BOND TERMS AND CONDITIONS

- 1. Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors and assigns to County and to Claimants, to pay for labor, materials and equipment furnished for use in the performance of the Construction Contract, which is incorporated herein by reference.
- 2. With respect to County, this obligation shall be null and void if Contractor:
 - 2.1 Promptly makes payment, directly or indirectly, for all sums due Claimant; and
 - 2.2 Defends, indemnifies and hold harmless County from all claims, demands, liens or suits by any person or entity who furnished labor, materials or equipment for use in the performance of the Construction Contract, provided County has promptly notified Contractor and Surety (at the address set forth on the signature page on this Bond) or any claims, demands, lien or suits and tendered defense of such claims, demands, liens or suits to Contractor and Surety, and provided there is no County Default.
- 3. With respect to Claimants, this obligation shall be null and void if Contractor promptly makes payment, directly or indirectly through its Subcontractors, for all sums due Claimants. If Contractor or its Subcontractors, however, fail to pay any of the persons named in Section 3181 of the California Civil Code, or amounts due under the Unemployment Insurance Code with respect to Work or labor performed under the Contract, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department form the wages of employees of Contractor or Subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to such work and labor, then Surety shall pay for the same, and also, in case suit is brought upon this Bond, a reasonable attorney's fee, to be fixed by the court.
- 4. Consistent with the California's Mechanic's Lien Law, Civil Code §3082, et seq., Surety shall have no obligation to Claimants under this Bond unless the Claimant has satisfied all applicable notice requirements.
- 5. Surety's total obligation shall not exceed the amount of this Bond, and the amount of this Bond shall be credited for any payments made in good faith by Surety under this Bond.
- Amounts due Contractor under the Construction Contract shall be applied first to satisfy claims, if any, under any Construction Performance Bond and second, to satisfy obligations of Contractor and Surety under this Bond.
- 7. County shall not be liable for payment of any costs, expenses, or attorney's fees of any Claimant under this Bond, and shall have under this Bond no obligation to made payments to, give notices on behalf of, or otherwise have obligations to Claimants under this Bond.
- 8. Surety hereby waives notice of any change, including changes to time, to the Construction Contract or to related subcontracts, purchase orders and other obligations. Surety further hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Construction Contract, or to the Work to be performed thereunder, or materials or equipment to be furnished thereunder or the Specifications accompanying the same, shall in any way affect its obligations under this Bond, and it does hereby waive any requirement of notice or any such change, extension of time, alteration or addition to the terms of the Construction Contract or to the Work or to the Specifications or any other changes.
- 9. Suit against Surety on this Bond may be brought by any Claimant, or its assigns, at any time after the Claimant has furnished the last of the labor or materials, or both, but, per Civil Code §3249, must be commenced before the expiration of six (6) months after the period in which stop notices may be filed as provided in Civil Code §3184.
- 10. All notices to Surety or Contractor shall be mailed or delivered (at the address set forth on the signature page of this Bond), and all notices to County shall be mailed or delivered as provided in Agreement. Actual receipt of notice by Surety, County or Contractor, however accomplished, shall be sufficient compliance as of the date received at the foregoing address.
- 11. This Bond has been furnished to comply with the California Mechanic's Lien Law including, but not limited to, Civil Code §3247, 3248, et seq. Any provision in this Bond conflicting with said statutory or other legal requirements shall be deemed incorporated herein. The intent is that this Bond shall be construed as a statutory bond and not as a common law bond.
- 12. Upon request by any person or entity appearing to be a potential beneficiary of this Bond, Contractor shall promptly furnish a copy of this Bond or shall permit a copy to be made.

13. Definitions:

- 13.1 Claimant: An individual or entity having a direct contract with Contractor or with a Subcontractor of Contractor to furnish labor, materials or equipment for use in the performance of the Contract, as further defined in California Civil Code §3181. The intent of this Bond shall be to include without limitation in the terms "labor, material or equipment" that part of water, gas, light, heat, oil, gasoline, telephone service or rental equipment used in the Construction Contract, architectural and engineering services required for performance of the Work of Contractor and Contractor's Subcontractors, and all other items for which a stop notice might be asserted. The Term Claimant shall also include the Unemployment Development Department as referred to in Civil Code §3248(b),
- 13.2 Construction Contract: The agreement between County and Contractor identified on the signature page of this Bond, including all Contract Documents and changes thereto.
- 13.3 County Default: Material failure of County, which has neither been remedied nor waived, to pay the Contractor as required by the Construction Contract, provided that failure is the cause of the failure of Contractor to pay the Claimants and its sufficient to justify termination of the Construction Contract.

GUARANTEE

TO: The County of Stanislaus ("County"), for construction of the

The undersigned guarantees all construction performed on this Project and also guarantees all material and equipment incorporated therein.

Contractor hereby grants to County for a period of one (1) year following the date of Final Acceptance of the Work completed, or such longer period specified in the Contract Documents, its unconditional warranty of the quality and adequacy of all of the Work including, without limitation, all labor, materials and equipment provided by Contractor and its Subcontractors of all tiers in connection with the Work

Neither final payment nor use nor occupancy of the Work performed by the Contractor shall constitute an acceptance of Work not done in accordance with this Guarantee or relieve Contractor of liability in respect to any express warranties or responsibilities for faulty materials or workmanship. Contractor shall remedy any defects in the Work and pay for any damage resulting therefrom, which shall appear within one year, or longer if specified, from the date of Final Acceptance of the Work completed.

If within one (1) year after the date of Final Acceptance of the Work completed, or such longer period of time as may be prescribed by laws or regulations, or by the terms of Contract Documents, any Work is found to be Defective, Contractor shall promptly, without cost to County and in accordance with County's written instructions, correct such Defective Work. Contractor shall remove any Defective Work rejected by County and replace it with Work that is not Defective, and satisfactorily correct or remove and replace any damage to other Work or the work of others resulting therefrom. If Contractor fails to promptly comply with the terms of such instructions, or in an emergency where delay would cause serious risk of loss or damage, County may have the Defective Work corrected or the rejected Work removed and replaced. Contractor shall pay for all claims, costs, losses and damages caused by or resulting from such removal and replacement. Where Contractor fails to correct Defective Work, or defects are discovered outside the correction period, County shall have all rights and remedies granted by law.

Inspection of the Work shall not relieve Contractor of any of its obligations under the Contract Documents. Even though equipment, materials, or Work required to be provided under the Contract Documents have been inspected, accepted, and estimated for payment, Contractor shall, at its own expense, replace or repair any such equipment, material, or Work found to be Defective or otherwise not to comply with the requirements of the Contract Documents up to the end of the guarantee period.

All abbreviations and definitions of terms used in this Agreement shall have the meanings set forth in the Contract Documents, including, without means of limitation, Special Provisions.

The foregoing Guarantee is in addition to any other warranties of Contractor contained in the Contract Documents, and not in lieu of, any and all other liability imposed on Contractor under the Contract Documents and at law with respect to Contractor's duties, obligations, and performance under the Contract Documents. In the event of any conflict or inconsistency between the terms of this Guarantee and any warranty or obligation of the Contractor under the Contract Documents or at law, such inconsistency or conflict shall be resolved in favor of the higher level of obligation of the Contractor.

PART V - SPECIAL CONDITIONS

SC-01 DEFINITIONS AND TERMS

The work herein shall be done in accordance with the Standard Specifications, and the Standard Plans dated 2010, of the California Department of Transportation insofar as the same may apply and these Special Provisions. Electrical Special Provisions shall comply with 2015 Standard Specifications.

In case of conflict between the Standard Specifications and these Special Provisions, the Special Provisions shall take precedence.

Whenever in the Standard Specifications, Standard Plans, Special Provisions, Invitation to Bidders, Proposal, Contract, or other contract documents the following terms are used, the intent and meaning shall be interpreted as follows:

State or State of California - County of Stanislaus

<u>Department of Transportation</u> – Stanislaus County, Department of Public Works

<u>Director of Transportation</u> – Stanislaus County, Director of Public Works

<u>District Director</u> – Stanislaus County, Director of Public Works

Engineer – Resident Engineer

Attorney General – Stanislaus County, County Counsel

Contract – Agreement

Amendments to the Standard Specifications set forth in these Specifications shall be considered as part of the Standard Specifications for the purposes set forth in Section 5-1.02, "Contract Components," of the Standard Specifications. Whenever either the term "Standard Specifications is amended" or the term "Standard Specifications are amended" is used in the Special Provisions, the indented text or table following the term shall be considered an amendment to the Standard Specifications. In case of conflict between such amendments and the Standard Specifications, the amendments shall take precedence over and be used in lieu of the conflicting portions.

Attention is directed to Section 1 of the Standard Specifications and to the following additional and qualifying definitions:

<u>Board of Supervisors</u> – Board of Supervisors, Stanislaus County, State of California.

<u>Contractor</u> – Any person or persons, firm, partnership, corporation or a combination thereof who have entered into a contract with any person, corporation, company, special district, the County of Stanislaus as a party or parties of the second part, or his or their legal representatives, for the construction of any capital improvement within the County of Stanislaus.

County - County of Stanislaus, a political subdivision of the State of California.

<u>Design Engineer</u> – Any person or persons, firm, partnership or corporation legally authorized to practice civil engineering in the State of California who prepares improvement plans and specifications for any improvement or portion of any improvement within the County of Stanislaus.

Department – Department of Public Works, County of Stanislaus.

<u>Developer/Subdivider</u> – A person, firm, partnership, corporation, association, or agent thereof who causes land to be divided into a subdivision or causes existing property to be developed for himself or for others.

<u>Director</u> – The Public Works Director of County of Stanislaus, acting either directly or through properly authorized agents, such agents acting within the scope of the particular duties delegated to them.

<u>Standards and Specifications</u> – Improvement Specifications and Standards of the County of Stanislaus, Public Works Department. In case of conflicts, The Standard Specifications and Standard Plans of the State of California and Special Provisions should take precedence over The Improvement Specifications and Standards of The County of Stanislaus.

<u>Laboratory</u> – Any testing agency or quality control firm licensed to practice in the State of California.

Owner – County of Stanislaus.

<u>Project Plans</u> – The project plans are specific details and dimensions peculiar to the work and are supplemented by the Standard Plans and Standard Drawings insofar as they may apply.

<u>Special Provisions</u> – The special provisions are specific clauses setting forth conditions or requirements peculiar to the work and supplementary to the Standard Specifications of the State of California.

<u>Standard Plans</u> – Standard Plans 2010 of the State of California Department of Transportation and the Revised Standard Plans (see Part VIII) unless otherwise noted on the Project Plans.

<u>Standard Details</u> – Standard Details of the County of Stanislaus, unless otherwise noted on The Project Plans.

<u>Standard Specifications</u> – Standard Specifications 2010 of the State of California, Department of Transportation and the Revised Standard Specifications (see Part VIII).

SC-02 PROPOSAL REQUIREMENTS AND CONDITIONS

The bidder's attention is directed to the provisions in Section 2, "Bidding," of the Standard Specifications and these Special Conditions for the requirements and conditions which the bidder must observe in the preparation of the proposal form and the submission of the bid.

In addition to the subcontractors required to be listed in conformance with Section 2-1.10, "Subcontractor List," of the Standard Specifications, each proposal shall have listed therein the portion of work that will be done by each subcontractor listed. A sheet for listing the subcontractors is included in Part III.

The form of Bidder's Bond mentioned in Section 2-1.34, "Bidder's Security," of the Standard Specifications will be found in Part III.

In conformance with Public Contract Code Section 7106, a Noncollusion Affidavit is included in Part III.

The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate. Each subcontract signed by the bidder must include this assurance.

SC-03 BLANK

SC-04 BLANK

SC-05 EXCAVATION SAFETY PLANS

Attention is directed to Section 7-1.02K(6)(b), "Excavation Safety" of the Standard Specifications and these Special Conditions.

The Contractor's attention is directed to the provisions, which require submitting a shoring/bracing plan for County's Review and approval.

Approval by the Engineer of the shoring drawings or shoring inspection performed by the Engineer shall in no way relieve the Contractor of full responsibility for adequacy of the shoring.

When construction is taking place in a public area, the Contractor shall take all necessary precautions to protect the public from the hazards of open excavations. Trenches shall be covered at night, on weekends, and during non-working hours.

SC-06 CONTROL OF MATERIALS

Attention is directed to Section 6-1.01 of the Standard Specifications.

The Contractor shall comply with Section 6-2.03, "Department-Furnished Materials," of the Standard Specifications and these Special Conditions. The following materials shall be furnished to the Contractor:

ATC Traffic Signal Controller

The Contractor shall be responsible for Quality Control. Contractor Quality Control shall comply with 6-3.04 of the Standard Specifications.

The County will perform Quality Assurance testing per 6-3.05 of the Standard Specifications and according to the County's Quality Assurance program.

SC-07 LEGAL RELATIONS AND RESPONSIBILITY

Prevailing Wage and Certified Payrolls

The Contractor shall comply with Section 7-1.02K(2) "Wages" and Section 7-1.02K(3) "Certified Payroll Records" of the Standard Specifications.

The general prevailing wage rates determined by the Director of Industrial Relations, for the County in which the work is to be done, are available at the County of Stanislaus Department of Public Works,

Engineering Division, 1716 Morgan Road, Modesto, CA 95358 and the Division of Labor Statistics and Research web page:

http://www.dir.ca.gov/DLSR/statistics research.html

These wage rates are not included in the Proposal and Agreement for the project. Changes, if any, to the general prevailing wage rates will be available at the same location.

The County does not accept Certified Payroll Submittals by electronic filing.

Immediate changes:

- **Duty to notify DIR when awarding a contract for a public works project, using the online PWC- 100 form.** This requirement, found in Labor Code Section 1773.3, now applies to *all* public works projects. Previously it applied to projects subject either to apprenticeship or DIR compliance monitoring requirements.
- Elimination of the obligation to pay DIR for compliance monitoring on state bond-funded projects and other projects that required use of DIR's Compliance Monitoring Unit (CMU). DIR will continue to monitor compliance on these projects but will not charge awarding bodies for any services provided on or after June 20, 2014 [the effective date of SB 854]. The alternative of using a DIR-approved Labor Compliance Program (LCP) or a project labor agreement in lieu of the CMU on one of these projects has also been eliminated. However, for ongoing projects that were using one of the alternatives, monitoring should continue until the project is completed.

Phased-in changes:

- I. Public Works Contractor Registration Program
 - All contractors and subcontractors who bid or work on a public works project must register and pay an annual fee to DIR. The phase-in timetable is as follows:
 - **July 1, 2014:** Registration program became effective and first contractors registered. Initial registrations will be valid through June 30, 2015.
 - March 1, 2015: No contractor or subcontractor may be listed on a bid proposal for a public works project unless registered with DIR.
 - **April 1, 2015**: No contractor or subcontractor may work on a public works project unless registered with DIR. All projects bid before March 1, 2015, or awarded prior to April 1, 2015 will not trigger the registration requirements.
 - Once the registration requirement becomes mandatory (March 1, 2015 for bids and April 1, 2015 for projects awarded), an awarding body may not accept a bid or enter into a contract for public work with an unregistered contractor.
 - o DIR maintains an up-to-date <u>listing of registered contractors</u>.
 - There are *exceptions* to the registration requirement for bidders in circumstances where a CSLB license would not be required at the time of bidding.
 - o Additional exceptions and protections are included in the registration laws to limit bid challenges, allow some violations to be cured through payment of penalty fees, and allow unregistered contractors to be replaced with registered ones.

II. NOTICE REQUIREMENTS

• January 1, 2015: The call for bids and contract documents must include the following information:

- o No contractor or subcontractor may be listed on a bid proposal for a public works project (submitted on or after March 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].
- o No contractor or subcontractor may be awarded a contract for public work on a public works project (awarded on or after April 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5.
- o This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
- **[To be determined]:** The awarding body must post or require the prime contractor to post job site notices prescribed by regulation. (*See* 8 Calif. Code Reg. §16451(d) for the notice that previously was required for projects monitored by the CMU.)

III. FURNISHING OF ELECTRONIC CERTIFIED PAYROLL RECORDS TO LABOR COMMISSIONER

 All contractors and subcontractors must furnish electronic certified payroll records directly to the Labor Commissioner (aka Division of Labor Standards Enforcement). The phase-in timetable for this requirement is as follows:

June 20, 2014 [immediate]: Any project that was being monitored by the CMU/Labor Commissioner prior to the adoption of SB 854 will continue to be monitored by the Labor Commissioner afterward; and the contractors on those projects must continue to furnish certified payroll records to the Labor Commissioner until the project is complete.

April 1, 2015: For all new projects awarded on or after this date, the contractors and subcontractors must furnish electronic certified payroll records to the Labor Commissioner.

Anytime: For projects besides those listed above, the Labor Commissioner may at any time require the contractors and subcontractors to furnish electronic certified payroll records. The Labor Commissioner anticipates requiring this for green energy school projects that receive Proposition 39 funding.

January 1, 2016: The requirement to furnish electronic certified payroll records to the Labor Commissioner will apply to all public works projects, whether new or ongoing.

Exceptions: The Labor Commissioner may (but is not required to) excuse contractors and subcontractors from furnishing electronic certified payroll records to the Labor Commissioner on a project that is under the jurisdiction of one of the four legacy DIR-approved labor compliance programs (Caltrans, City of Los Angeles, Los Angeles Unified School District, and County of Sacramento) or that is covered by a qualifying project labor agreement.

These new requirements will apply to all public works that are subject to the prevailing wage requirements of the Labor Code, without regard to funding source.

Ongoing projects that were subject to Labor Compliance Program (LCP) or Compliance Monitoring Unit (CMU) requirements prior to the adoption of SB 854:

Older projects (contract for public work was awarded prior to January 1, 2012): The LCP requirements and alternatives that applied to projects funded by Propositions 47, 55, or 84 and to certain design-build projects *remain in effect*. These monitoring and compliance requirements must continue to be observed through the end of the project, even if the Labor Commissioner starts monitoring the project pursuant to SB 854.

More recent projects (contract for public work was awarded on or after January 1, 2012): All requirements for state bond-funded projects and other design-build and specially authorized projects to use the CMU or a specified alternative *have been repealed*. However, it is important to note the following:

• Any project that was being monitored by the CMU/Labor Commissioner prior to the adoption of SB 854 will continue to be monitored by the Labor Commissioner after; and the contractors on those projects must continue to furnish certified payroll records to the Labor Commissioner until the project is complete.

- Bond funding agencies (such as the State Allocation Board) may still require that awarding bodies
 demonstrate past compliance with DIR requirements in order to qualify for retroactive funding. In
 particular, awarding bodies may need to show that they notified DIR of the project using the PWC-100.
- The LCP requirement for past, present, and future projects funded by Proposition 84 (Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006) *remains in effect.* This LCP requirement must continue to be observed, even if the Labor Commissioner also monitors the project pursuant to SB 854.

A contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in this chapter, unless currently registered and qualified to perform public work pursuant to Section 1725.5. It is not a violation of this section for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.

Apprentices

The Contractor shall comply with Section 7-1.02K(4) "Apprentices" of the Standard Specifications" to ensure compliance and complete understanding of the law regarding apprentices.

Water Pollution

Water pollution Control shall comply with SP-02, "Water Pollution Control" of the Special Provisions.

Sound Control Requirements

Sound control shall conform to the provisions in Section 14-8.02, "Noise Control," of the Standard Specifications and these Special Conditions.

The noise level from the Contractor's operations, between the hours of **7:00 p.m. and 7:00 a.m.**, shall not exceed 75 DBA at or beyond the property line that includes a dwelling unit. This requirement shall not relieve the Contractor from responsibility for complying with local ordinances regulating noise level.

The noise level requirement shall apply to the equipment on the job or related to the job, including but not limited to trucks, transit mixers or transient equipment that may or may not be owned by the Contractor. The use of loud sound signals shall be avoided in favor of light warnings except those required by safety laws for the protection of personnel.

Full compensation for conforming to the requirements of this section shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation will be allowed there for.

Permits

The Contractor shall conform to the requirements of Section 5-1.20B "Permits, Licenses, Agreement, and Certification" of Standard Specifications and these Special Conditions. The Contractor shall conform to the requirements of:

City of Riverbank No-Fee Encroachment Permit and Stanislaus County Building Permit

Compensation for conforming to the requirements of "Permits" shall be included in the various items of work, and no additional compensation will be allowed.

Notice and Removal of Asbestos and Hazardous Substances

When the presence of asbestos or hazardous substances are not shown on the plans or indicated in the specifications and the Contractor encounters materials which the Contractor reasonably believes to be asbestos or a hazardous substance as defined in Section 25914.1 of the Health and Safety Code, and the asbestos or hazardous substance has not been rendered harmless, the Contractor may continue work in unaffected areas reasonably believed to be safe. The contractor shall immediately cease work in the affected area and report the condition to the Engineer in writing.

Contractor shall give a written Notice of Hazardous Materials Condition to County promptly, before any of the following conditions are disturbed (except in an emergency as required by Article SC-22, Emergencies, and in no event later than twenty four (24) hours after first observance of any:

- a. Material that Contractor believes may be hazardous waste or hazardous material, as defined in Section 25117 of the Health and Safety Code (including, without limitation, asbestos, lead, PCBs, petroleum and related hydrocarbons, and radioactive material) that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law ("hazardous material"); or
- b. Other material that may present an imminent substantial danger to persons or property exposed thereto in connection with Work at the Site ("other materials").

Except as otherwise provided in the Contract Documents or as provided by applicable law, Contractor shall not be required to give any notice for the disturbance or observation of any such hazardous materials or other materials where such matter is disturbed or observed as part of the scope of Work under the Contract Documents (such as hazardous waste or hazardous material investigation, remediation or disposal activities which are identified as the subject of Work under the Contract Documents), where Contractor complies with all requirements in the Contract Documents and applicable law respecting such materials.

Contractor's Notice of Hazardous Materials Condition shall indicate whether the hazardous materials or other materials were shown or indicated in the Contract Documents to be within the scope of Work, and whether the hazardous materials or other materials were brought to the Site by Contractor, its Subcontractors, suppliers, or anyone else for whom Contractor is responsible.

Contractor shall not be entitled to any adjustment in the Contract Sum or Contract Time regarding claimed hazardous waste or materials if:

- a. Contractor knew of the existence of such hazardous materials or other materials at the time Contractor submitted its Bid; or
- b. Contractor should have known of the existence of such hazardous material or other materials as a result of its having the responsibility to obtain additional or supplementary examinations, investigation, explorations, tests, studies, and data concerning the conditions at or contiguous to the Site prior to submitting its Bid; or
- c. Contractor failed to give the written notice within the time required by this Article.

If County determines that conditions involve hazardous materials or other materials and that a change in Contract Document terms is justified, County will issue either a Request for Proposal or Construction Change Directive under the procedures described in the Contract Documents, including without limitation Article SC-17 Alterations and Modifications. If County determines that conditions do not involve hazardous materials or other materials or that no change in Contract Document terms is justified, County will notify Contractor in writing, stating the reasons for its determination.

If County and Contractor are unable to agree on entitlement to or as to the amount or length of any adjustment in the Contract Sum or Contract Time required under this section, Contractor shall proceed with the Work as directed by County and may make a claim as provided in Article SC-16, WORK DISPUTES.

In addition to the parties' other rights under this section, if Contractor does not agree to resume Work based on a reasonable belief that it is unsafe, or does not agree to resume Work under special conditions, County may order the disputed portion of Work deleted from the Work, or performed by others, or County may invoke its right to terminate Contractor's right to proceed under the Contract Documents in whole or in part, for convenience or for cause as the facts may warrant. If Contractor does not agree with County's determination of any adjustment in the Contract Sum or Contract Time as a result, Contractor may make a claim as provided in Article SC-16, WORK DISPUTES.

In conformance with Section 25914.2 of the Health and Safety Code, removal of asbestos or hazardous substances including exploratory work to identify and determine the extent of the asbestos or hazardous substance will be performed by separate contract.

If exploratory or removal work delays the current controlling operation, the delay will be considered a right-of-way delay and the Contractor shall be compensated for the delay in conformance with the provisions in Section 8-1.07, "Delays" of the Standard Specifications.

Public Convenience

Where work is to be performed in residential or commercial driveways, suitable provisions approved by the Engineer shall be made by the Contractor prior to commencing work. The Contractor shall minimize the duration of said blocking and notify the property owners of this need at least forty-eight (48) hours in advance

Contractor shall provide access to each residential or commercial establishment each evening. No driveway shall be closed over a weekend. No driveway shall be closed for more than a total of eight (8) hours. Where concrete has been removed, a temporary surface shall be placed suitable to provide vehicular access to the property if reconstruction has not been completed by that evening. Access to private property shall be provided at all times during construction except when access must be denied to protect forms or to permit improvements to be constructed. The County may require grading to the back of the new driveway approach so as to provide adequate access. Such work shall be done at no additional compensation.

Public Safety

The Contractor shall provide for the safety of traffic and the public in conformance with the provisions in Section 7-1.04, "Public Safety," of the Standard Specifications and these Special Conditions.

Except for installing, maintaining and removing traffic control devices, whenever work is performed or equipment is operated in the following work areas, the Contractor shall close the adjacent traffic lane unless otherwise provided in the Standard Specifications and these Special Conditions:

Approach Speed of Public Traffic Posted Limit Miles Per Hour	Work Areas
45	Within 6 feet of a traffic lane but not on a traffic lane
35 to 45	Within 3 feet of a traffic lane but not on a traffic lane

The lane closure provisions of this section shall not apply if the work area is protected by permanent or temporary railing or barrier.

When traffic cones or delineators are used to delineate a temporary edge of a traffic lane, the line of cones or delineators shall be considered to be the edge of the traffic lane, however, the Contractor shall not reduce the width of an existing lane to by more than two (2) feet without written approval from the Engineer.

When work is not in progress on a trench or other excavation that required closure of an adjacent lane, the traffic cones or portable delineators used for the lane closure shall be placed off of and adjacent to the edge of the traveled way. The spacing of the cones or delineators shall be not more than the spacing used for the lane closure.

Suspended loads or equipment shall not be moved nor positioned over public traffic or pedestrians.

The Contractor shall install temporary railing (Type K) between a lane open to public traffic and an excavation, obstacle or storage area when the following conditions exist:

- A. The near edge of the excavation is 15' or less from the edge of the lane, except:
 - i. Excavations covered with sheet steel or concrete covers of adequate thickness to prevent accidental entry by traffic or the public.
 - ii. Excavations protected by existing barrier or railing.
 - iii. Trenches less than 1' wide for irrigation pipe or electrical conduit, or excavations less than 1' in depth.
- B. Excavations parallel to the lane for the purpose of pavement widening or reconstruction.
- C. Excavations in side slopes, where the slope is steeper than 4:1 (horizontal:vertical).
- D. Temporarily Unprotected Permanent Obstacles. The work includes the installation of a fixed obstacle together with a protective system, such as a sign structure together with protective railing, and the Contractor elects to install the obstacle prior to installing the protective system; or the Contractor, for the Contractor's convenience and with permission of the Engineer, removes a portion of an existing protective railing at an obstacle and does not replace such railing complete in place during the same day.
- E. Storage Areas. Material or equipment is stored within 12' of the lane and the provisions of the Standard Specifications and these Special Conditions do not otherwise prohibit the storage.

The approach end of temporary railing (Type K), installed in conformance with the provisions in this section "Public Safety" and in Section 7-1.04 "Public Safety," of the Standard Specifications, shall be offset a minimum of 15' from the edge of the traffic lane open to public traffic. The temporary railing shall be installed on a skew toward the edge of the traffic lane of not more than 1' transversely to 10' longitudinally with respect to the edge of the traffic lane. If the 15' minimum offset cannot be achieved, the temporary railing shall be installed on the 10:1 skew to obtain the maximum available offset between the approach end of the railing and the edge of the traffic lane, and an array of temporary crash cushion modules shall be installed at the approach end of the temporary railing.

Temporary railing (Type K) shall conform to the provisions in Section 12-3.08 "Type K Temporary Railing," of the Standard Specifications. Temporary railing (Type K) conforming to the details shown on 2010 Standard Plan T3A and B, may be used.

Temporary crash cushion modules shall conform to the provisions in Section 12-3.15, "Temporary Crash Cushion Module" of the Standard Specification.

Full compensation for conforming to the provisions in this section "Public Safety," including furnishing and installing temporary railing (Type K) and temporary crash cushion modules, shall be considered as included in the contract prices paid for the various items of work involved and no additional compensation will be allowed therefore.

Cooperation

The Contractor shall conform to the requirements of Section 5-1.20 "Coordination with Other Entities" of the Standard Specifications and these Special Conditions.

Compensation for conforming to the requirements of "Cooperation" shall be included in the various items of work and no additional compensation will be allowed.

SC-08 PROSECUTION AND PROGRESS

Subcontracting

Attention is directed to the provisions in Section 5-1.13, "Subcontracting," of the Standard Specifications, and SC-2, "Proposal Requirements and Conditions," of these Special Conditions.

Pursuant to the provisions of Section 1777.1 of the Labor Code, the Labor Commissioner publishes and distributes a list of contractors ineligible to perform work as a subcontractor on a public works project. This list of debarred contractors is available from the Department of Industrial Relations web site at:

http://www.dir.ca.gov/DLSE/Debar.html

Each subcontract and any lower tier subcontract that may in turn be made shall include the "Required Contract Provisions Federal-Aid Construction Contracts" in SC-12 of these Special Conditions. This requirement shall be enforced as follows:

Noncompliance shall be corrected. Payment for subcontracted work involved shall be withheld from progress payments due, or to become due, until correction is made. Failure to comply may result in termination of the contract

Prosecution

The Contractor shall comply with the provisions in Section 8-1.04B, "Standard Start," Section 8-1.05, "Time," and Section 8-1.10, "Liquidated Damages," of the Standard Specifications and these Special Provisions.

Liquidated Damages

The County will withhold liquidated damages per calendar day as described in Section 8-1.10, "Liquidated Damages" of the Standard Specifications. The actual daily withhold will be determined according to the chart in Section 8-1.10A, "General" of the Standard Specifications.

The amount specified may, at the option of the County, be deducted from any payments due or to become due to the Contractor.

County may deduct from any money due or to become due to Contractor subsequent to time for completion

of entire Work and extensions of time allowed pursuant to provisions hereof, a sum representing thenaccrued liquidated damages. Should Contractor fall behind the approved Progress Schedule, County may deduct liquidated damages based on its estimated period of late completion. County need not wait until Final Completion to withhold liquidated damages from Contractor's progress payments. Should money due or to become due to Contractor be insufficient to cover aggregate liquidated damages due, then Contractor forthwith shall pay the remainder of the assessed liquidated damages to County.

Preconstruction Conference

Prior to the issuance of the Notice to Proceed, a pre-construction conference shall be held at the County of Stanislaus, Department of Public works, Engineering Division, 1716 Morgan Road, Modesto, California, for the purpose of discussing with the Contractor the scope of work, contract drawings, specifications, existing conditions, materials to be ordered, equipment to be used, and all essential matters pertaining to the prosecution of and the satisfactory completion of the project as required. The Contractor's representative at this conference shall include all major superintendents for the work and may include subcontractors.

Modesto Irrigation District – Work Restrictions

All work within the channel shall be completed between November 1 and March 1. The Modesto Irrigation District has reserved the right, by agreement, to give fortyeight (48) hour notice and flood the channel after March 1. This provision is exercised only in drought conditions. The CONTRACTOR is encouraged to accelerate his schedule to complete in channel work by March 1. However, the CONTRACTOR is at liberty to communicate with Modesto Irrigation District, to receive potential updates on the possibility of flooding of the channel by March 1, and adjust the project schedule accordingly. All irrigation line work shall be completed by March 1. The liquidated damage clause will be exercised for noncompletion of irrigation line work by March 1.

SC-09 MEASUREMENT AND PAYMENT

Payment

The County makes contract payments according to Section 9, "Payment" of the Standard Specifications.

Withholds

The County may withhold payment for noncompliance per Section 9-1.16E, "Witholds" of the Standard Specifications.

Progress Payments

Attention is directed to Section 9-1.16, "Progress Payments," and 9-1.17, "Payment After Contract Acceptance," of the Standard Specifications and these Special Conditions.

For the purpose of making progress payments pursuant to Section 9-1.16, "Progress Payments," of the Standard Specifications, the amount set forth for the contract items of work hereinafter listed shall be deemed to be the maximum value of said contract item of work which will be recognized for progress payment purposes.

NONE

After acceptance of the contract pursuant to Section 5-1.46, "Final Inspection and Contract Acceptance," of the Standard Specifications, the amount, if any, payable for a contract item of work in excess of themaximum value for progress payment purposes hereinabove listed for said item, will be included for payment in the first estimate made after acceptance of the contract.

No partial payment will be made for any materials on hand which are furnished but not incorporated in the work.

Withholding of Retention Monies

Pursuant to and in accordance with the provisions of Public Contract Code Section 20146, the County shall retain 5 percent of the estimated value of the work done and 5 percent of the value of materials so estimated to have been furnished and delivered and unused or furnished and stored as aforesaid as part security for the fulfillment of the contract by the Contractor.

Payment of Withheld Funds

Pursuant to and in accordance with the provisions of Public Contract Code Section 22300, the contractor may elect to substitute securities for retention monies withheld by the County or to request payment of retention monies earned to an escrow agent.

Final Payment and Claims

Attention is directed to Section 9-1.17D, "Final Payment and Claims," of the Standard Specifications.

SC-10 GEOTECHNICAL DATA AND EXISTING CONDITIONS

The following geotechnical data and existing conditions data is provided to assist the bidder in preparing their bid. This data is supplied for informational purposes. These materials are not contract documents and Contractor shall not in any manner rely on the information in these materials. Subject to the foregoing, Contractor shall make its own independent investigation of all conditions affecting the Work and must not rely on information provided by County.

Geotechnical Report by Crawford dated March 2018

SC-11 SITE DATA

The following site data is provided to assist the bidder in preparing their bid. This data is supplied for informational purposes. These materials are not contract documents and Contractor shall not in any manner rely on the information in these materials. Subject to the foregoing, Contractor shall make its own independent investigation of all conditions affecting the Work and must not rely on information provided by County.

NONE

SC-12 FEDERAL AID CONSTRUCTION CONTRACTS

The Contractors attention is directed to the following Federal Requirements for Federal-Aid Construction Projects:

The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal Agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall

complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in conformance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less that \$10,000 and not more than \$100,000 for each such failure.

The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language or this certification be included in all lower tier subcontracts which exceed \$100,000 and that all such subrecipients shall certify and disclose accordingly.

The bidder shall complete the Disclosure of Lobbying Activities form included in Part III, "Proposal" which shall be submitted with its bid.

Federal Lobbying Restrictions

Section 1352, Title 21, United States Code prohibits Federal funds being expended by the recipient or any lower tier sub recipient of a Federal-aid contract to pay for any person for influencing or attempting to influence a Federal agency or Congress in connection with the awarding of any Federal-aid contract, the making of any Federal grant or loan, or the entering into of any cooperative agreement.

If any funds other than Federal funds have been paid for the same purpose in connection with this Federalaid contract, the recipient shall submit an executed certification and, if required, submit a completed disclosure form as part of the bid documents.

A certification for Federal-aid contracts regarding payment of funds to lobby Congress or a Federal agency is included in the Proposal. Standard Form – LLL, "Disclosure of Lobbying Activities," with instructions for completion of the Standard Form is also included in the Proposal. Signing the Proposal shall constitute signature of the Certification.

The above referenced certification and disclosure of lobbying activities shall be included in each subcontract and any lower-tier contracts exceeding \$100,000. All disclosure forms, but not certifications, shall be forwarded from tier to tier until received by the Engineer.

The Contractor, subcontractors and any lower-tier contractors shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by the Contractor, subcontractors and any lower-tier contractors. An event that materially affects the accuracy of the information reported includes:

A cumulative increase if \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or

A change in the officer(s), employees(s), or Member(s) contacted to influence or attempt to influence a covered Federal Action.

Disadvantaged Business Enterprise (DBE)

This project is subject to Title 49 CFR 26.13(b):

The Contractor, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of BOT-assisted contracts. Failure by the Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate.

Take necessary and reasonable steps to ensure that DBEs have opportunity to participate in the contract (49 CFR 26).

To ensure equal participation of DBEs provided in 49CFR 26.5, the County shows a goal for DBEs.

Make work available to DBEs and select work parts consistent with available DBE subcontractors and suppliers.

Meet the DBE goal shown in the Notice to Bidders or demonstrate that you made adequate good faith efforts to meet this goal.

It is your responsibility to verify that the DBE firm is certified as DBE at date of bid opening. For a list of DBEs certified by the California Unified Certification Program, go to:

http://www.dot.ca.gov/hq/bep/find certified.htm

DBE participation will count towards the Agency's Annual Anticipated DBE Participation Level and the California statewide goal.

Credit for materials or supplies you purchase from DBEs counts towards the goal in the following manner:

- 1. 100 percent counts if the materials or supplies are obtained from a DBE manufacturer.
- 2. 60 percent counts if the materials or supplies are obtained from a DBE regular dealer.
- 3. Only fees, commissions, and charges for assistance in the procurement and delivery of materials or supplies count if obtained from a DBE that is neither a manufacturer or regular dealer. 49 CFR 26.55 defines "manufacturer" and "regular dealer."

You receive credit towards the goal if you employ a DBE trucking company that performs a commercially useful function as defined in 49 CFR 26.55

DBE Commitment Submittal

Submit DBE information on the "Local Agency Bidder-DBE Commitment (Construction Contracts)," Exhibit 15-G form included in Part III, "Proposal". If the form is not submitted with the bid, remove the form from the Bid book before submitting your bid.

If the DBE Commitment form is not submitted with the bid, the apparent low bidder, the 2nd low bidder, and the 3rd low bidder must complete and submit the DBE Commitment form to the Agency. DBE Commitment form must be received by the Agency no later than 4:00 p.m. on the 4th business day after bid opening.

Other bidders do not need to submit the DBE Commitment form unless the Agency requests it. If the Agency requests you to submit a DBE Commitment form, submit the completed form within 4 business days of the request.

Submit written confirmation from each DBE stating that it is participating in the contract. Include confirmation with the DBE Commitment form. A copy of a DBE's quote will serve as written confirmation that the DBE is participating in the contract.

If you do not submit the DBE Commitment form within the specified time, the Agency finds your bid nonresponsive.

Good Faith Efforts Submittal

If you have not met the DBE goal, complete and submit the "DBE Information - Good Faith Efforts," Exhibit 15-H, form with the bid showing that you made adequate good faith efforts to meet the goal. If good faith efforts documentation is not submitted with the bid, it must be received by the Agency no later than 4:00 p.m. on the 4th business day after bid opening.

If your DBE Commitment form shows that you have met the DBE goal or if you are required to submit the DBE Commitment form, you must also submit good faith efforts documentation within the specified time to protect your eligibility for award of the contract in the event the Agency finds that the DBE goal has not been met

Good faith efforts documentation must include the following information and supporting documents, as necessary:

- 1. Items of work you have made available to DBE firms. Identify those items of work you might otherwise perform with its own forces and those items that have been broken down into economically feasible units to facilitate DBE participation. For each item listed, show the dollar value and percentage of the total contract. It is your responsibility to demonstrate that sufficient work to meet the goal was made available to DBE firms.
- 2. Names of certified DBEs and dates on which they were solicited to bid on the project. Include the items of work offered. Describe the methods used for following up initial solicitations to determine with certainty if the DBEs were interested, and the dates of the follow-up. Attach supporting documents such as copies of letters, memos, facsimiles sent, telephone logs, telephone billing statements, and other evidence of solicitation. You are reminded to solicit certified DBEs through all reasonable and available means and provide sufficient time to allow DBEs to respond.
- 3. Name of selected firm and its status as a DBE for each item of work made available. Include name, address, and telephone number of each DBE that provided a quote and their price quote. If the firm selected for the item is not a DBE, provide the reasons for the selection.
- 4. Name and date of each publication in which you requested DBE participation for the project. Attach copies of the published advertisements.
- 5. Names of agencies and dates on which they were contacted to provide assistance in contacting, recruiting, and using DBE firms. If the agencies were contacted in writing, provide copies of supporting documents.
- 6. List of efforts made to provide interested DBEs with adequate information about the plans, specifications, and requirements of the contract to assist them in responding to a solicitation. If you have provided information, identify the name of the DBE assisted, the nature of the information provided, and date of contact. Provide copies of supporting

documents, as appropriate.

- 7. List of efforts made to assist interested DBEs in obtaining bonding, lines of credit, insurance, necessary equipment, supplies, and materials, excluding supplies and equipment that the DBE subcontractor purchases or leases from the prime contractor or its affiliate. If such assistance is provided by you, identify the name of the DBE assisted, nature of the assistance offered, and date. Provide copies of supporting documents, as appropriate.
- 8. Any additional data to support demonstration of good faith efforts.

The Agency may consider DBE commitments of the 2nd and 3rd bidders when determining whether the low bidder made good faith efforts to meet the DBE goal.

Subcontractor and disadvantaged Business Enterprise Records

Use each DBE subcontractor as listed on Exhibit 12-B, "Bidder's List of Subcontractors (DBE and Non-DBE) and Exhibit 15-G, "Construction Contract DBE Commitment", form unless you receive authorization for a substitution.

The Agency requests the Contractor to:

- 1. Notify the Engineer of any changes to its anticipated DBE participation
- 2. Provide this notification before starting the affected work
- 3. Maintain records including:
 - a. Name and business address of each 1st-tier subcontractor
 - b. Name and business address of each DBE subcontractor, DBE vendor, and DBE Trucking company, regardless of tier
 - c. Date of payment and total amount paid to each business

If you are a DBE contractor, include the date of work performed by your own forces and the corresponding value of the work.

Before the 15th of each month, submit a Monthly DBE Trucking Verification form.

If a DBE is decertified before completing its work, the DBE must notify you in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify you in writing of the certification date. Submit the notifications. On work completion, complete a Disadvantaged Business Enterprises (DBE) Certification Status Change, Exhibit 17-O form. Submit the form within 30 days of contract acceptance.

Upon work completion, complete Exhibit 17-F, "Final Report – Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subcontractors." Submit it within 90 days of contract acceptance. The Agency will withhold \$10,000 until the form is submitted. The Agency releases the withhold upon submission of the completed form.

Performance of Disadvantaged Business Enterprises

DBEs must perform work or supply materials as listed in the Exhibit 15-G, "Construction Contract DBE Commitment" form, included in the Bid.

Do not terminate or substitute a listed DBE for convenience and perform the work with your own forces or obtain materials from other sources without authorization from the Agency.

The Agency authorizes a request to use other forces or sources of materials if it shows any of the following justifications:

- 1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.
- 2. You stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet your bond requirements.
- 3. Work requires a contractor's license and listed DBE does not have a valid license under Contractors License Law.
- 4. Listed DBE fails or refuses to perform the work or furnish the listed materials.
- 5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
- 6. Listed DBE is ineligible to work on the project because of suspension or debarment.
- 7. Listed DBE becomes bankrupt or insolvent.
- 8. Listed DBE voluntarily withdraws with written notice from the Contract.
- 9. Listed DBE is ineligible to receive credit for the type of work required.
- 10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
- 11. Agency determines other documented good cause.

Notify the original DBE of your intent to use other forces or material sources and provide the reasons. Provide the DBE with 5 days to respond to your notice and advise you and the Agency of the reasons why the use of other forces or sources of materials should not occur. Your request to use other forces or material sources must include:

- 1. One or more of the reasons listed in the preceding paragraph.
- 2. Notices from you to the DBE regarding the request.
- 3. Notices from the DBEs to you regarding the request.

If a listed DBE is terminated or substituted, you must make good faith efforts to find another DBE to substitute for the original DBE. The substitute DBE must perform at least the same amount of work as the original DBE under the contract to the extent needed to meet the DBE goal.

The substitute DBE must be certified as a DBE at the time of request for substitution.

Unless the Agency authorizes (1) a request to use other forces or sources of materials or (2) a good faith effort for a substitution of a terminated DBE, the Agency does not pay for work listed on the Exhibit 15-G, "Construction Contract DBE Commitment", form unless it is performed or supplied by the listed DBE or an authorized substitute.

Final Report – Utilization of Disadvantaged Business Enterprises

The Contractor shall submit the Final Report –Utilization of Disadvantaged Business Enterprises (DBE), First – Tier Subcontractors Form (Exhibit 17-F) to the Resident Engineer within ten (10) days following Claribel Road and Roselle Avenue Intersection Project V-17 Federal Project No. CML-5938(181)

Special Conditions March 2018

final payment to the subcontractor(s).

Buy America Requirements

Furnish steel and iron materials to be incorporated into the work with certificate of compliance. Steel and iron materials must be produced in the U.S. except:

- 1. Foreign pig iron and processed, pelletized, and reduced iron ore may be used in the domestic production of the steel and iron materials [60 Fed Reg 15478 (03/24/1995)];
- 2. If the total combined cost of the materials does not exceed the greater of 0.1 percent of the total bid or \$2,500, materials produced outside the U.S. may be used.

Production includes:

- 1. Processing steel and iron materials, including smelting or other processes that alter the physical form or shape (such as rolling, extruding, machining, bending, grinding, and drilling) or chemical composition;
- 2. Coating application, including epoxy coating, galvanizing, and painting, that protects or enhances the value of steel and iron materials.

Use Of United States-Flag Vessels (Cargo Preference Act)

The Contractor shall agree:

- 1. To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carries, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels.
- 2. To Furnish within 20 days following the date of loading for shipments originating within the United State or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated "on-board" commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590.
- 3. To insert the substance of the provisions of this clause in all subcontracts issued pursuant to this contract.

Prompt Payment of Withheld Funds to Subcontractors

The agency shall hold retainage from the prime contractor and shall make prompt and regular incremental acceptances of portions, as determined by the agency of the contract work and pay retainage to the prime contractor based on these acceptances. The prime contractor or subcontractor shall return all monies withheld in retention from all subcontractors within 30 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the agency. Any delay or postponement of payment may take place only for good cause and with the agency's prior written approval. Any violation of these provisions shall subject the violating prime contractor to the penalties, sanctions, and other remedies specified in Section 7108.5 of the California Business and Professions Code. This requirement shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to the contractor or subcontractor in the event of: a dispute involving late payment or nonpayment by the

contractor; deficient subcontractor performance and/or noncompliance by a subcontractor. This clause applies to both DBE and non-DBE subcontractors.

Female and Minority Goals

To comply with Section II, "Nondiscrimination," of the "Required Contract Provisions Federal-Aid Construction Contracts," the following are goals for female and minority utilization goals for Federal-Aid construction contracts and subcontracts that exceed \$10,000:

- 1. The nationwide goal for female utilization is 6.9 percent.
- 2. The goal for minority utilization [45 Fed Reg 65984 (10/3/1980)] in Stanislaus County is 12.3%.

For each July during which work is performed under the contract, the Contractor and each non material-supplier subcontractor with a subcontract of \$10,000 or more must complete form FHWA PR-1391 (Appendix C to 23 CFR 230). Submit the forms by August 15th.

Federal Trainee Program

Not applicable.

Title VI Assurances

During the performance of this Agreement, the contractor, for itself, its assignees and successors in interest (hereinafter collectively referred to as CONTRACTOR) agrees as follows:

- 1. <u>Compliance with Regulations</u>: CONTRACTOR shall comply with the regulations relative to nondiscrimination in federally assisted programs of the Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the REGULATIONS), which are herein incorporated by reference and made a part of this agreement.
- 2. <u>Nondiscrimination</u>: CONTRACTOR, with regard to the work performed by it during the AGREEMENT, shall not discriminate on the grounds of race, color, sex, national origin, religion, age, or disability in the selection and retention of sub-applicants, including procurements of materials and leases of equipment. CONTRACTOR shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the agreement covers a program set forth in Appendix B of the Regulations.
- 3. <u>Solicitations for Sub-agreements, Including Procurements of Materials and Equipment</u>: In all solicitations either by competitive bidding or negotiation made by CONTRACTOR for work to be performed under a Sub-agreement, including procurements of materials or leases of equipment, each potential sub-applicant or supplier shall be notified by CONTRACTOR of the CONTRACTOR'S obligations under this Agreement and the Regulations relative to nondiscrimination on the grounds of race, color, or national origin.
- 4. <u>Information and Reports</u>: CONTRACTOR shall provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the California Department of Transportation or FHWA to be pertinent to ascertain compliance with such Regulations or directives. Where any information required of CONTRACTOR is in the exclusive possession of another who fails or refuses to furnish this information, CONTRACTOR shall so certify to the California Department of Transportation or the FHWA as appropriate, and shall set forth what efforts CONTRACTOR has made to obtain the information.
- 5. <u>Sanctions for Noncompliance</u>: In the event of CONTRACTOR's noncompliance with the nondiscrimination provisions of this agreement, the California Department of Transportation shall

impose such agreement sanctions as it or the FHWA may determine to be appropriate, including, but not limited to:

- a. withholding of payments to CONTRACTOR under the Agreement within a reasonable period of time, not to exceed 90 days; and/or
- b. cancellation, termination or suspension of the Agreement, in whole or in part.
- 6. <u>Incorporation of Provisions</u>: CONTRACTOR shall include the provisions of paragraphs (1) through (6) in every sub-agreement, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto.

CONTRACTOR shall take such action with respect to any sub-agreement or procurement as the California Department of Transportation or FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance, provided, however, that, in the event CONTRACTOR becomes involved in, or is threatened with, litigation with a sub-applicant or supplier as a result of such direction, CONTRACTOR may request the California Department of Transportation enter into such litigation to protect the interests of the State, and, in addition, CONTRACTOR may request the United States to enter into such litigation to protect the interests of the United States.

Maintain records and submit reports documenting your performance under this section.

Required Federal Contract Provisions

See the following pages for provisions.

FHWA-1273 -- Revised May 1, 2012

REQUIRED CONTRACT PROVISIONS FEDERAL-AID CONSTRUCTION CONTRACTS

- General
- Nondiscrimination
- Nonsegregated Facilities
- Davis-Bacon and Related Act Provisions IV.
- Contract Work Hours and Safety Standards Act
- Subletting or Assigning the Contract Safety: Accident Prevention VI
- False Statements Concerning Highway Projects VIII.
- IX. Implementation of Clean Air Act and Federal Water Pollution Control Act
- Compliance with Governmentwide Suspension and Debarment Requirements
- Certification Regarding Use of Contract Funds for XI Lobbying
- Cargo Preference Act 1954 (CPA)

ATTACHMENTS

A. Employment and Materials Preference for Appalachian Development Highway System or Appalachian Local Access Road Contracts (included in Appalachian contracts only)

I. GENERAL

1. Form FHWA-1273 must be physically incorporated in each construction contract funded under Title 23 (excluding emergency contracts solely intended for debris removal). The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Form FHWA-1273 must be included in all Federal-aid design-build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services purchase orders, rental agreements and other agreements for supplies or services). The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider

Contracting agencies may reference Form FHWA-1273 in bid proposal or request for proposal documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's

immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract

- A breach of any of the stipulations contained in these Required Contract Provisions may be sufficient grounds for withholding of progress payments, withholding of final payment, termination of the contract, suspension / debarment or any other action determined to be appropriate by the contracting agency and FHWA.
- 4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors.

II. NONDISCRIMINATION

The provisions of this section related to 23 CFR Part 230 are applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR 60, 29 CFR 1625-1627, Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-1.4(b) and, for all construction contracts exceeding \$10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR 60, and 29 CFR 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements

1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23

- U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:
- a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.
- b. The contractor will accept as its operating policy the following statement:
- "It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."
- EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so.
- 3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:
- a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.
- b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.
- c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.
- d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.
- The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

- 4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.
- a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.
- b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.
- c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.
- 5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hirring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:
- a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.
- b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.
- c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.
- d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.
- 6. Training and Promotion:

- a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.
- b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).
- The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.
- d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.
- 7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:
- a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.
- b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.
- c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.
- d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

- Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.
- 9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.
- a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract
- b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurance Required by 49 CFR 26.13(b):

- The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference
- b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.
- 11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.
- a. The records kept by the contractor shall document the following:
- (1) The number and work hours of minority and nonminority group members and women employed in each work classification on the project;
 - (2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and
- (3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women;
- b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form FHWA-1391. The staffing data should represent the project work force on board in all or any part of

the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, sime clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding \$2,000 and to all related subcontracts and lower-tier subcontracts (gradless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon

Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

- b.(1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:
 - (i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and
 - (ii) The classification is utilized in the area by the construction industry; and
 - (iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.
- (2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.
- (3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within

30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

- (4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.
- c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.
- d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

3. Payrolls and basic records

a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a

plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

- b.(1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at http://www.dol.gov/esa/whd/forms/wh347instr.htm or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency.
- (2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:
 - (i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete:
 - (ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;
 - (iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

- (3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.
- (4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.
- c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contract, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the vork actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

c. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

d. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

- Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.
- 6. Subcontracts. The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.
- 7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.
- Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.
- 9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.
- 10. Certification of eligibility.
- a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- c. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

- 1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
- 2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1.) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.
- 3. Withholding for unpaid wages and liquidated damages. The FHWA or the contacting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section
- 4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

VI SUBJETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

- The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).
- a. The term "perform work with its own organization" refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:
- (1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees:
- (2) the prime contractor remains responsible for the quality of the work of the leased employees;
- (3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and
- (4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.
- b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.
- The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.
- 3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.
- 4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contract or of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is

evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.

The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

- 1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.
- 2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).
- 3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C.3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 1, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

By submission of this bid/proposal or the execution of this contract, or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, or subcontractor, as appropriate, will be deemed to have stipulated as follows:

- That any person who is or will be utilized in the performance of this contract is not prohibited from receiving an award due to a violation of Section 508 of the Clean Water Act or Section 306 of the Clean Air Act.
 That the contractor agrees to include or cause to be
- That the contractor agrees to include or cause to be included the requirements of paragraph (1) of this Section X in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements.

X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, buccontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost \$25,000 or more – as defined in 2 CFR Parts 180 and 1200.

- 1. Instructions for Certification First Tier Participants:
- a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.
- b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this

covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

- c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default.
- d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- e. The terms "covered transaction," "debarred,"
 "suspended," "ineligible," "participant," "person," "principal,"
 and "voluntarily excluded," as used in this clause, are defined
 in 2 CFR Parts 180 and 1200. "First Tier Covered
 Transactions" refers to any covered transaction between a
 grantee or subgrantee of Federal funds and a participant (such
 as the prime or general contract). "Lower Tier Covered
 Transactions" refers to any covered transaction under a First
 Tier Covered Transaction (such as subcontracts). "First Tier
 Participant" refers to the participant who has entered into a
 covered transaction with a grantee or subgrantee of Federal
 funds (such as the prime or general contractor). "Lower Tier
 Participant" refers any participant who has entered into a
 covered transaction with a First Tier Participant or other Lower
 Tier Participants (such as subcontractors and suppliers).
- f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
- g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.
- h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (https://www.epls.gov/), which is compiled by the General Services Administration.

- i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

* * * *

- 2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion First Tier Participants:
- The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:
- Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;
- (2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- (3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification; and
- (4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.
- 2. Instructions for Certification Lower Tier Participants:

(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost \$25,000 or more - 2 CFR Parts 180 and 1200)

- a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.
- b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which

this transaction originated may pursue available remedies, including suspension and/or debarment.

- c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.
- d. The terms "covered transaction," "debarred,"
 "suspended," "ineligible," "participant," "person," "principal,"
 and "voluntarily excluded," as used in this clause, are defined
 in 2 CFR Parts 180 and 1200. You may contact the person to
 which this proposal is submitted for assistance in obtaining a
 copy of those regulations. "First Tier Covered Transactions"
 refers to any covered transaction between a grantee or
 subgrantee of Federal funds and a participant (such as the
 prime or general contract). "Lower Tier Covered Transactions"
 refers to any covered transaction under a First Tier Covered
 Transaction (such as subcontracts). "First Tier Participant"
 refers to the participant who has entered into a covered
 transaction with a grantee or subgrantee of Federal funds
 (such as the prime or general contractor). "Lower Tier
 Participant" refers any participant who has entered into a
 covered transaction with a First Tier Participant or other Lower
 Tier Participants (such as subcontractors and suppliers).
- e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
- f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.
- g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (https://www.epls.gov/), which is compiled by the General Services Administration.
- h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the

department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Participants:

- 1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.
- Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

XI. CERTIFICATION REGARDING USE OF CONTRACT FUNDS FOR LOBBYING

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts which exceed \$100,000 (49 CFR 20).

- The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:
- a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- 2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.
- 3. The prospective participant also agrees by submitting its bid or proposal that the participant shall require that the language of this certification be included in all lower tier subcontracts, which exceed \$100,000 and that all such recipients shall certify and disclose accordingly.

XII. CARGO PREFERENCE ACT OF 1954(CPA)

The provisions of this section related to 46 CFR 381.7(a) (1, 2) & 381.7 (b) (1, 2, 3) applies to federally funded highway construction projects. This requirement applies to materials or equipment acquired for specific Federal –aid Highway projects. The clauses required by this part shall provide that at least 50 percent of the freight revenue and tonnage of cargo generated by the U.S. Government Grant, Guaranty, Loan or Advance of Funds be transported on privately owned United States-flag commercial vessels. The following are suggested acceptable clauses with respect to the use of United States-flag vessels to be incorporated in the Grant, Guaranty, Loan and/or Advance of Funds Agreements as well as contracts and subcontracts resulting therefrom:

- (a) Agreement Clauses. "Use of United States-flag
 - "(1) Pursuant to Pub. L. 664 (43 U.S.C. 1241(b)) at least 50 percent of any equipment, materials or commodities procured, contracted for or otherwise obtained with funds granted, guaranteed, loaned, or advanced by the U.S. Government under this agreement, and which may be transported by ocean vessel, shall be transported on privately owned United States-flag commercial vessels, if available
 - "(2) Within 20 days following the date of loading for shipments originating within the United Sates or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, 'on-board' commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (a)(1) of this section shall be furnished to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590."
- (b) Contractor and Subcontractor Clauses. "Use of United States-flag vessels: The contractor agrees—
 - "(1) To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels.
 - "(2) To furnish within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, 'on-board' commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (b) (1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590.

 "(3) To insert the substance of the provisions of
 - "(3) To insert the substance of the provisions of this clause in all subcontracts issued pursuant to this contract."

ATTACHMENT A - EMPLOYMENT AND MATERIALS PREFERENCE FOR APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM OR APPALACHIAN LOCAL ACCESS ROAD CONTRACTS

This provision is applicable to all Federal-aid projects funded under the Appalachian Regional Development Act of 1965.

- 1. During the performance of this contract, the contractor undertaking to do work which is, or reasonably may be, done as on-site work, shall give preference to qualified persons who regularly reside in the labor area as designated by the DOL wherein the contract work is situated, or the subregion, or the Appalachian counties of the State wherein the contract work is situated, except:
- a. To the extent that qualified persons regularly residing in the area are not available.
- b. For the reasonable needs of the contractor to employ supervisory or specially experienced personnel necessary to assure an efficient execution of the contract work.
- c. For the obligation of the contractor to offer employment to present or former employees as the result of a lawful collective bargaining contract, provided that the number of nonresident persons employed under this subparagraph (1c) shall not exceed 20 percent of the total number of employees employed by the contractor on the contract work, except as provided in subparagraph (4) below.
- 2. The contractor shall place a job order with the State Employment Service indicating (a) the classifications of the laborers, mechanics and other employees required to perform the contract work, (b) the number of employees required in each classification, (c) the date on which the participant estimates such employees will be required, and (d) any other pertinent information required by the State Employment Service to complete the job order form. The job order may be placed with the State Employment Service in writing or by telephone. If during the course of the contract work, the information submitted by the contractor in the original job order is substantially modified, the participant shall promptly notify the State Employment Service.
- 3. The contractor shall give full consideration to all qualified job applicants referred to him by the State Employment Service. The contractor is not required to grant employment to any job applicants who, in his opinion, are not qualified to perform the classification of work required.
- 4. If, within one week following the placing of a job order by the contractor with the State Employment Service, the State Employment Service is unable to refer any qualified job applicants to the contractor, or less than the number requested, the State Employment Service will forward a certificate to the contractor indicating the unavailability of applicants. Such certificate shall be made a part of the contractor's permanent project records. Upon receipt of this certificate, the contractor may employ persons who do not normally reside in the labor area to fill positions covered by the certificate, notwithstanding the provisions of subparagraph (1c) above
- The provisions of 23 CFR 633.207(e) allow the contracting agency to provide a contractual preference for the use of mineral resource materials native to the Appalachian region.

 The contractor shall include the provisions of Sections 1 through 4 of this Attachment A in every subcontract for work which is, or reasonably may be, done as on-site work.

SC-13 BLANK

SC-14 BONDS

General

At or before the date indicated in Part II – INFORMATION TO BIDDERS, Contractor shall file with County the following bonds:

- a. Corporate surety bond, in the form of Construction Performance Bond, in the penal sum of 100% of the Contractor's Bid as accepted, to guaranty faithful performance of the Work; and
- b. Corporate surety bond, in the form of Construction Labor and Material Payment Bond, in the penal sum of 100% of the Contractor's Bid as accepted, to guaranty payment of wages for services engaged and of bills contracted for materials, supplies, and equipment used in performance of Contract Documents.

Sureties shall be satisfactory to County. Corporate sureties on these bonds and on bonds accompanying Bids shall be duly licensed to do business in the State of California and shall have an A.M. Best Company financial rating of [A,VII] or better in termination of the contract.

SC-15 INSURANCE

Contractor shall comply with the insurance requirements included in the Exhibit B "Insurance Requirements for Construction Contracts" of Part III - Proposal.

SC-16 WORK DISPUTES

All disputes shall comply with the provisions of Assembly Bill No. 626 (an act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts. Approved by the Governor: September 29, 2016) and requirements set forth in section 5-1.43, "Potential Claim and Dispute Resolution," of the Standard Specifications.

SC-17 ALTERATIONS AND MODIFICATIONS

The County reserves the right to make changes to the plans and specifications in accordance with section 4-1.05, "Changes and Extra Work," of the Standard Specifications.

SC-18 DISCOVERY OF CONFLICTS, ERRORS, OMISSIONS, OR DISCREPANCIES

In case of discovery by Contractor of conflict, discrepancies, errors, or omissions among the various Contract Documents the matter shall be submitted in writing by Contractor to Engineer for clarification. Any work affected by Contractor prior to clarification by Engineer shall be at Contractor's risk.

SC-19 DIFFERING SITE CONDITIONS

See Section 4-1.06, "Differing Site Conditions" of the Standard Specifications.

If either of the following conditions is encountered at Site when digging trenches or other excavations that extend deeper than four (4) feet below the surface, Contractor shall give a written Notice of Differing Site Conditions to County promptly before conditions are disturbed, except in an emergency as required by Article SC-22, Emergencies, and in no event later than seven (7) days after first observance of:

a. Subsurface or Latent physical conditions which differ materially from those indicated in the Contract Documents; or

b. Unknown physical conditions of an unusual nature or which differ materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents.

In response to Contractor's Notice of Differing Site Conditions under this paragraph, County will investigate the identified conditions, and if they differ materially and cause increase or decrease in Contractor's cost of, or time required for, performance of any part of the Work, County will issue either a Request for Proposal or a Construction Change Directive under the procedures described in the Contract Documents, including without limitation Article SC-17 Alterations and Modifications. If County determines that physical conditions at the Site are not latent or are not materially different from those indicated in Contract Documents or that no change in terms of the Contract Documents is justified, County will so notify Contractor in writing, stating reasons.

Contractor shall not be entitled to any adjustment in the Contract Sum or Contract Time regarding claimed Latent or materially different Site conditions (whether above or below grade) if:

- a. Contractor knew of the existence of such conditions at the time Contractor submitted its Bid; or
- b. Contractor should have known of the existence of such conditions as a result of having complied with the requirements of Contract Documents, or
- c. Contractor was required to give written Notice of Differing Site Conditions and failed to do so within the time required.

SC-20 BLANK

SC-21 TIME ADJUSTMENT AND ENTITLEMENTS FOR DELAYS

Contractor may receive a time extension and be compensated for delays caused directly and solely by the County. Submit an RFI per 8-1.07, "Delays" of the Standard Specifications.

All delay related time adjustments shall be per Section 8-1.07B, "Time Adjustments" of the Standard Specifications.

All delay related payment adjustments shall be per Section 8-1.07C, "Payment Adjustment" of the Standard Specifications.

SC-22 EMERGENCIES

In emergencies affecting the safety or protection of persons or Work or property at the Site or adjacent thereto, Contractor, without special instruction or authorization from County, is obligated to act to prevent threat and damage, injury or loss, until directed otherwise by County. Contractor shall give County prompt written notice if Contractor believes that any significant changes in Work or variations from Contract Documents have been caused thereby. If County determines that a change in the Contract Documents is required because of the action taken by Contractor in response to such an emergency, a Change Order or Construction Change Directive will be issued to document the consequences of such action.

SC-23 WORKING DAYS AND LEGAL HOLIDAYS

County will provide inspectors during work days at no cost to the Contractor. Work days shall be defined as hours between 7 a.m. and 5 p.m. any day Monday through Friday of any week, excluding the following legal holidays:

New Year's Day, January 1 Martin Luther King Day, January, third Monday President's Day, February, third Monday

Memorial Day, May, last Monday
Independence Day, July 4
Labor Day, September, first Monday
Veteran's Day, November 11
Thanksgiving Day, November, fourth Thursday
Friday after Thanksgiving Day
Christmas Eve, 1PM -5PM
Christmas Day, December 25

If the Contractor elects to schedule work outside normal hours of work, the Contractor shall request the additional days or hours at least forty-eight (48) hours prior to the work. No work shall be done outside of the normal working hours, without the prior consent of the County. The Contractor shall be responsible for payment to the County for providing inspectors for those days or hours. Inspector costs shall be the full reimbursable rate established by the County. Rates will be available to the Contractor at the pre-construction meeting if requested.

SC-24 SUBMITTALS

Each submittal should meet the requirements of Section 5-1.23, "Submittals" of the Standard Specification and these Special Conditions.

Each Submittal must include:

- 1. Contract Number.
- 2. Designation as an "Action" or "Informational" Submittal
- 3. Sequential submittal number
- 4. A concise description of the material or item submitted
- 5. Be referenced to the bid item and Specification section

Submittals may be rejected if they are missing required information or do not meet the requirements of the Specification.

SC-25 PROGRESS REPORTS

The Contractor shall submit daily Progress Reports to the Engineer via the Internet utilizing a web site address Virtual Project Manager (VPM) at www.virtual-pm.com managed by the County. This web site, VPM, will be used exclusively by job site foreman to record daily progress, problems, additions/deletions and or request change orders for review by engineer/inspector and Project Manager. Requires a digital camera and daily use of computer and Internet access by job site supervisor.

PART VI – SPECIAL PROVISIONS

SP-01 ORDER OF WORK

Attention is directed to Section 7-1.04, "Public Safety," of the Standard Specifications.

The contractor shall submit a Storm Water Pollution Prevention Plan and schedule for approval, prior to beginning the contract work.

The contractor must submit a Staging Plan and a Traffic Control Plan for review and approval by the Engineer. Construction staging is to occur within the County Right-of-Way. The Staging Plan and Traffic Control Plan must be approved prior to commencement of construction activities.

The Contractor shall construct the project in stages generally described as follows, unless otherwise approved by the Engineer:

Contractor shall pothole existing M.I.D crossing as shown on the plans.

Contractor shall verify/order signal and lighting equipment.

- Stage 1: Clearing and Grubbing, including tree removal. Demolish and remove buildings. Relocate the Modesto Irrigation District (M.I.D.) crossing during the non-irrigation season (typically between November 1 and March 1). Construct Traffic Signal & Lighting.
- Stage 2: Construct roadway improvements along the north side within the project while maintaining access to properties within the project limits.
- Stage 3: Construct roadway improvements along south side while maintain access to properties within the project limits.

Contractor shall pull all electrical wires for signal and lighting prior to placing final lift of pavement.

The final order of work is to place all permanent traffic striping and pavement markings.

SP-02 WATER POLLUTION CONTROL

General

The project is Risk Level 1.

Discharges of stormwater from the project must comply with NPDES General Permit for Storm Water Discharges Associated with Construction and Land Disturbance Activities (Order No. 2009-0009-DWQ, NPDES No. CAS000002) referred to herein as "Permit." Manage work activities to reduce the discharge of pollutants to surface, groundwater, or municipal separate storm sewer systems including work items shown:

- 1. Identify a Qualified Storm Water Pollution Prevention Plan (SWPPP) Practitioner (QSP). The QSP is responsible for all inspections; maintenance and repair of BMPs, and sampling activities at the project location
- 2. Prepare a SWPPP. SWPPP preparation must be by a Qualified SWPPP Developer (QSD) and includes obtaining SWPPP approval, amending the SWPPP, preparing a Construction Site Monitoring Program (CSMP), and monitoring and inspecting Best Management Practices (BMPs) at the job site.

3. Prepare Storm Water Annual Reports. Storm Water Annual Report preparation includes certifications, training, monitoring and inspecting results, and obtaining Strom Water Annual Report acceptance.

Do not start field work until:

- 1. SWPPP is approved by the County and,
- 2. All Permit Registration Documents (PRDs) have been uploaded onto SMARTS and a WDID is issued; and
- 3. A QSP has been assigned to the project and has been identified to the County.

Submittals

Submit:

- 1. Storm water training records including training dates and subjects for employees and subcontractors. Include dates and subjects for ongoing training, including tailgate meetings.
- 2. Employee training records:
 - a. Within 5 days of SWPPP approval for existing employees.
 - b. Within 5 days of training for new employees
 - c. At least 5 days before subcontractors start work for subcontractor's employees.
- 3. Within 24 hours of completing an inspection report or visual monitoring report, submit as an informational submittal.

All submittals required by this Special Provisions shall be submitted by one electronic pdf copy and 2 printed copies, unless otherwise specified.

Submit documentation for the Storm Water Annual Report, which shall be submitted every September. Submit all documentation for the Annual Report no later than the first business day in August or within 15 days of contract acceptance if construction ends before July 1st. Submittal and approval of Annual Report documentation will be considered a controlling operation of work until acceptable Annual Report information is received.

Quality Control and Assurance Training

Provide Storm Water Training for:

- 1. Project Managers
- 2. Supervisory Personnel
- 3. Employees involved with BMP work and/or inspections.

Train all employees, including subcontractor's employees, in the following topics:

- 1. BMP rules and regulations
- 2. Implementation and maintenance for:
 - a. Temporary Soil Stabilization
 - b. Temporary Sediment Control
 - c. Tracking Control
 - d. Wind Erosion Control
 - e. Material pollution prevention and control
 - f. Waste Management
 - g. Non-stormwater management
 - h. Identifying and handling hazardous substance
 - i. Potential dangers to humans and the environment from spills and leaks or exposure to toxic or hazardous substances

Employees must receive initial BMP training before working on the job site. Conduct weekly training meeting covering:

- 1. BMP deficiencies and corrective actions
- 2. BMPs that are required for work activities during the week

Qualified SWPPP Practitioner (QSP)

Assign one QSP to implement the SWPPP. The QSP must comply with the Permit qualifications for a QSP.

At the job site, the QSP must:

- 1. Be responsible for BMP work
- 2. Be the primary contact for BMP work;
- 3. Oversee the maintenance of BMP practices;
- 4. Oversee and enforce hazardous waste management practices;
- 5. Have the authority to mobilize crews to make immediate repairs to BMP practices;
- 6. Ensure that all employees have current water pollution control training;
- 7. Implement the approved SWPPP;
- 8. Perform inspections of BMP practices identified in the SWPPP;
- 9. Perform inspections and reports for visual monitoring;
- 10. Preparation and submittal of:
 - a. SWPPP Annual Certification
 - b. Annual Report Documents
 - c. BMP status reports

Samples taken for laboratory analysis must follow water quality sampling procedures and be analyzed by a State-Certified Laboratory under 40 CFR Part 136, "Guidelines Establishing Test Procedures for the Analysis of Pollutants."

The CSMP must identify the State-Certified Laboratory, type of test equipment to be used for field sampling (pH pen and turbidity meter), sample containers, preservation requirements, holding times, and analysis methods. For a list of state-certified laboratories, go to:

http://www.cdph.ca.gov/certliclabs/Pages/ELAP.aspx

Qualified SWPPP Developer (OSD)

Identify the QSD responsible for the SWPPP preparation and any amendments or revisions. The QSD must comply with the Permit qualifications for a QSD.

The QSD must amend the SWPPP if:

- 1. Changes in work activities could affect the discharge of pollutants
- 2. BMP practices are added
- 3. Changes in the amount of disturbed soil are substantial
- 4. Objectives for reducing or eliminating pollutants in storm water discharges have not been achieved, or
- 5. There is a Permit violation

The County will review all amendments or revisions to the SWPPP.

Whenever you amend the SWPPP, follow the same process specified for SWPPP approval. Retain a printed copy of the approved SWPPP at the job site.

Implementation Requirements

Obtain, install, and maintain a rain gauge at the job site or use a public available weather station. Observe and record daily precipitation. It is the contractor's responsibility to provide daily storm water data, even

Contract No. 9606

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS

if the public weather system is not functional.

Monitor the National Weather Service Forecast Office on a daily basis. For forecasts, go to: http://www.srh.noaa.gov/forecast

Continue SWPPP implementation during any temporary suspension of work activities.

Measurement and Payment

The contract lump sum price paid for "Water Pollution Control" includes full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all work involved in preparing, obtaining approval of, and amending the SWPPP and CSMP, inspecting water pollution control practices, installing and maintaining BMP's, and preparation of storm water annual report, collection, analysis and reporting of Storm Water samples as specified in the Standard Specifications and these special provisions, and as directed by the County and submitting annual report documentation.

Payment for Water Pollution Control will be made as follows:

- 1. After the Engineer approves the SWPPP, the County will include 50 percent of the Bid Item price in the monthly progress payment.
- 2. 40 percent of the Bid Item price will be paid over the life of the contract.
- 3. After contract acceptance and approval of the Annual Report, the County will pay the remaining 10 percent.

Deficiency Correction

Whenever the contractor receives a Notice to Correct or the County identifies a deficiency in the implementation of the approved SWPPP, the contractor is required to:

- 1. Correct the deficiency immediately, unless the County agrees to a later date for making the correction
- 2. Correct the deficiency before precipitation occurs

If you fail to correct the deficiency by the agreed date or before the onset of precipitation, the County may correct the deficiency and deduct the cost of correcting the deficiency from payment. The contractor will be back billed for the time and materials (+10%) to correct all deficiencies.

For each failure to submit completed Storm Water Annual Report Documents, inspect or monitor a qualifying discharge event, or correct a Notice of Violation by the due date the County will withhold payments per Section 9-1.16E(3) "Performance Failure Withholds" of the Standard Specifications. Each failure to comply with any part of these special provisions and each failure to implement water pollution control practices are considered separate performance failures.

SP-03 JOB SITE MANAGEMENT

Job Site Management must conform to the provisions in Section 13-4, "Job Site Management," of the State Standard Specifications and these special provisions.

Measurement and Payment

The contract lump sum price paid for job site management includes full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all the work involved in spill prevention and control, material management, waste management, nonstormwater management, and dewatering activities, including identifying, sampling, testing, handling, and disposing of hazardous waste resulting from your activities, as shown on the plans, as specified in the State Standard Specifications and these special provisions, and as ordered by the Engineer.

SP-04 DUST CONTROL

Dust control must conform to the provisions in Section 18, "Dust Palliatives," of the State Revised

Standard Specifications and these special provisions.

The Contractor shall implement all adequate fugitive dust control measures and ensure that the fugitive dust control measures are implemented in a timely manner during project construction on the Project Site. The contractor shall use measures to control fugitive dust that are outlined in the San Juaquin Valley Air Pollution Control District, *Guidance for Assessing and Mitigating Air Quality Impacts*, to remain in compliance with the District Regulation VIII. Fugitive dust control measures shall include:

- Apply water to all visible unpaved surfaces and areas;
- Limit or reduce vehicle speed on unpaved roads and traffic areas to 10 miles per hour;
- Earth or other material that has been deposited by trucking or earth moving equipment, erosion by water, or other means onto paved streets shall be promptly removed;
- Cover haul trucks with a tarp or other suitable cover, or wet the top of load enough to limit visible dust emissions;
- Asphalt, oil, water or suitable chemicals shall be applied on stockpiled materials and other surfaces that give rise to airborne dust;
- All earthmoving activates shall cease when sustained winds exceed 15 miles per hour;
- The Contractor shall take responsible precautions to prevent the entry of unauthorized vehicles during non-work hours; and
- The Contractor shall keep a daily log of activities to control fugitive dust.

Measurement and Payment

Full compensation for applying dust control will be considered as included in the prices paid for the various contract items requiring dust control and no separate payment will be made therefor.

SP-05 PROGRESS SCHEDULE

Progress schedules are required for this contract and shall be submitted in conformance with the provisions in Section 8-1.02, "Schedule," of the State Standard Specifications, unless otherwise authorized in writing by the Engineer.

Measurement and Payment

Full compensation for preparing and updating progress schedules will be considered as included in the prices paid for the various contract items and no separate payment will be made therefor.

SP-06 EXISTING FACILITIES

Work involving existing property and facilities shall conform to Section 5-1.36, "Property and Facility Preservation," and Section 15, "Existing Facilities" of the State Standard Specifications and these special provisions. The Contractor shall notify the Engineer and the appropriate regional notification center for operators of subsurface installations at least 3 working days, but not more than 14 calendar days, prior to performing any excavation or other work close to any underground facility. Regional notification centers include, but are not limited to, the following:

Underground Service Alert Northern California (USA)

811, or 1-800-227-2600

Utility Relocation

Add between the 2nd and 3rd paragraphs of the RSS for section 5-1.36C(3):

The utility owner will relocate a utility shown in the following table before the corresponding date shown:

Utility Relocation and Date of the Relocation

Utility	Location	Date
Pacific Gas & Electric (Gas Service)	As Shown on plans - Northeast corner of Roselle Ave/Claribel Road	August 15, 2018
Private Irrigation	North side of Claribel Road from approximately STA 120+00 to 128+50	July 30, 2018

SP-07 MOBILIZATION

Mobilization shall consist of preparatory work and operations, including, but not limited to, those necessary for the movement of personnel, equipment, supplies and incidentals to the project site; for the establishment of all offices, buildings and other facilities necessary for work on the project; and for all other work and operations which must be performed or costs incurred prior to beginning work on the various contract items on the project site.

Measurement and Payment

Payment for mobilization shall conform to the provisions in Section 9-1.16D, "Mobilization," of the State Standard Specifications.

SP-08 TRAFFIC CONTROL SYSTEM

Flagging, construction area signs, and all other traffic control devices furnished, installed, maintained, and removed when no longer required shall conform to the provisions in Chapter 2, "Temporary Traffic Control and Safety," of the County Standards and Specifications, Section 12, "Temporary Traffic Control," of the State Standard Specifications and these special provisions.

Traffic Control Systems and construction area traffic control devices shall be in accordance with the current California Manual on Uniform Traffic Control Devices. The traffic control system for lane closures shall be in accordance with State Standard Plan T-13.

A minimum of one paved traffic lane each direction, not less than twelve (12) feet wide, shall be open for use by public traffic at all times unless controlled by "Flagging" or specified otherwise. When construction operations are not actively in progress, not less than one lane in each direction shall be open to public traffic.

When lane closures are made for work periods only, at the end of each work period, all components of the Traffic Control System, except portable delineators placed along open trenches or excavation adjacent to the traveled way shall be removed from the traveled way and shoulder.

If components in the traffic control system are displaced or cease to operate or function as specified, from any cause, during the progress of the work, the Contractor shall immediately repair the components to the original condition or replace the components and shall restore the components to the original location.

The Contractor may be required to cover certain signs during the progress of the work. Signs that are no longer required or that convey inaccurate information to the public shall be immediately covered or

removed, or the information shall be corrected. Covers for construction area signs shall be of sufficient size and density to completely block out the complete face of the signs. The retroreflective face of the covered signs shall not be visible either during the day or at night. Covers shall be fastened securely so that the signs remain covered during inclement weather. Covers shall be replaced when they no longer cover the signs properly.

Attention is directed to Sections 7-1.03, "Public Convenience," 7-1.04, "Public Safety," of the State Standard Specifications. Nothing in these Special Provisions shall be construed as relieving the Contractor from the responsibilities specified in Section 7-1.04, "Public Safety," of the State Standard Specifications.

Personal vehicles of the Contractor's employees shall not be parked on the traveled way or shoulder.

Advance warning signs if any shall be furnished, installed and maintained by the Contractor. The Contractor shall submit traffic control plans. Said plans shall be approved by the Engineer before the affected item of work is begun. Traffic control plans shall show the placement of all signs, barricades, delineators and other traffic control devices required by the Contractor's operation.

If any component in the Traffic Control System is displaced or ceases to operate or function as specified, from any cause during the progress of the work, the Contractor shall immediately repair said component to its original condition or replace said component and shall restore the component to its original location.

The Contractor shall furnish, erect and maintain all construction area traffic control devices within the project and at all public road entrances to the project.

If flaggers are needed, Contractor shall furnish flaggers at the Contractor's expense to maintain traffic control.

Measurement and Payment

Full compensation for furnishing all labor (including flagging costs), materials, tools, equipment and incidentals, for preparing and submitting lane closure plans and for doing all work involved in maintaining traffic, including maintaining the roadbed in a smooth and even paved condition for passage of public traffic, furnishing, installing, and maintaining such traffic control devices, lights, flares necessary to expedite passage of public traffic through or around the work, and providing pilot cars as needed, all as specified in Sections 7-1.03, "Public Convenience," and 7-1.04, "Public Safety," of the State Standard Specifications and as directed by the Engineer will be considered as included in the contract lump sum price paid for Temporary Traffic Control, and no additional compensation will be allowed.

SP-09 PORTABLE CHANGEABLE MESSAGE SIGNS

Portable changeable message sign must conform to Section 12-3.12, "Portable Changeable Message Signs," of the State Standard Specifications and these special provisions.

Measurement and Payment

Portable changeable message signs will be measured by the unit from actual count.

The contract unit price paid for portable changeable message sign shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing, placing, operating, maintaining, repairing, replacing, transporting from location to location and removing the portable changeable message signs, as shown on the plans, as specified in the State

Standard Specifications and these special provisions, and as directed by the Engineer.

SP-10 CONSTRUCTION AREA SIGNS

Construction area signs for temporary traffic control must be furnished, installed, maintained, and removed when no longer required in conformance with the Chapter 2, "Temporary Traffic Control and Safety," of the County Standards and Specifications, Section 12-3.06, "Construction Area Signs," of the State Standard Specifications and these special provisions.

Measurement and Payment

Construction area signs shown on Standard Plan T-13, will be paid for on a lump sum basis, which lump sum price shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing construction area signs required for the direction of public traffic through or around the work and for erecting or placing, maintaining (including covering and uncovering as needed) and, when no longer required, removing construction area signs at locations shown on the plans.

Full compensation for furnishing, erecting, maintaining and removing any additional construction area signs the Contractor may deem necessary will be considered as included in the lump sum price paid for construction area signs and no additional compensation will be allowed therefor.

SP-11 REMOVE YELLOW PAINTED TRAFFIC STRIPE (HAZARDOUS WASTE)

Residue from removal of yellow painted traffic stripe contains lead chromate. The average lead concentration is at least 1,000 mg/kg total lead or 5 mg/l soluble lead. When applied to the roadway, the yellow painted traffic stripe contained as much as 2.6 percent lead. Residue produced from the removal of this yellow painted traffic stripe contains heavy metals in concentrations that exceed thresholds established by the Health & Safety Code and 22 CA Code of Regs. For bidding purposes, assume the residue is not regulated under the Federal Resource Conservation and Recovery Act (RCRA), 42 USC § 6901 et seq.

Work associated with disposal of hazardous waste residue regulated under RCRA as determined by test results is change order work.

Yellow paint may produce toxic fumes when heated.

Lead Compliance Plan

Submit a lead compliance plan under section 7-1.02K(6)(j)(ii), "Lead Compliance Plan." Submit a work plan within 7 days for the removal, containment, storage, and disposal of yellow painted traffic stripe. The work plan must include:

- 1. Objective of the operation
- 2. Removal equipment
- 3. Procedures for removal and collection of yellow painted traffic stripe residue, including dust
- 4. Type of hazardous waste storage containers
- 5. Container storage location and how it will be secured
- 6. Hazardous waste sampling protocol and QA/QC requirements and procedures
- 7. Qualifications of sampling personnel
- 8. Analytical lab that will perform the analyses
- 9. DTSC registration certificate and CA Highway Patrol (CHP) Biennial Inspection of Terminals (BIT) Program compliance documentation of the hazardous waste hauler that will transport the hazardous waste

10. Disposal site that will accept the hazardous waste residue

The Engineer will review the work plan within 5 business days of receipt. Do not perform work that generates hazardous waste residue until the work plan has been authorized. Correct any rejected work plan and resubmit a corrected work plan within 5 business days of notification by the Engineer. A new review period of 5 business days will begin from date of resubmittal.

Submit analytical test results of the residue from removal of yellow painted traffic stripe, including chain of custody documentation, for review and acceptance before:

- 1. Requesting the Engineer's signature on the waste profile requested by the disposal facility
- 2. Requesting the Engineer obtain an US EPA Generator Identification Number for disposal
- 3. Removing the residue from the site

Submit a request for the US EPA Generator Identification Number when the Engineer accepts analytical test results documenting that residue from removal of yellow painted traffic stripe is a hazardous waste.

Submit documentation of proper disposal from the receiving landfill within 5 business days of residue transport from the project.

Where grinding or other authorized methods are used to remove yellow painted traffic stripe that will produce a hazardous waste residue, immediately contain and collect the removed residue, including dust. Use a HEPA filter-equipped vacuum attachment operated concurrently with the removal operations or other equally effective approved methods for collection of the residue.

Make necessary arrangements to test the yellow paint hazardous waste residue as required by the disposal facility and these special provisions. Testing must include:

- 1. Total lead by US EPA Method 6010B
- 2. Total chromium by US EPA Method 6010B
- 3. Soluble lead by California Waste Extraction Test (CA WET)
- 4. Soluble chromium by CA WET
- 5. Soluble lead by Toxicity Characteristic Leaching Procedure (TCLP)
- 6. Soluble chromium by TCLP

From the first 220 gal of hazardous waste or portion thereof if less than 220 gal of hazardous waste are produced, a minimum of 4 randomly selected samples must be taken and analyzed individually. Samples must not be composited. From each additional 880 gal of hazardous waste or portion thereof if less than 880 gal are produced, a minimum of 1 additional random sample must be taken and analyzed. Use chain of custody procedures consistent with chapter 9 of US EPA Test Methods for Evaluating Solid Waste, Physical/Chemical Methods (SW-846) while transporting samples from the project to the laboratory. Each sample must be homogenized before analysis by the laboratory performing the analyses. A sample aliquot sufficient to cover the amount necessary for the total and the soluble analyses must then be taken. This aliquot must be homogenized a 2nd time and the total and soluble analyses run on this aliquot. The homogenization process must not include grinding of the samples. Submit the name and location of the disposal facility that will be accepting the hazardous waste and the analytical laboratory along with the testing requirements not less than 5 business days before the start of removal of yellow painted traffic stripe. The analytical laboratory must be certified by the State Water Resources Control Board (SWRCB) Environmental Laboratory Accreditation Program (ELAP) for all analyses to be performed.

After the Engineer accepts the analytical test results, dispose of yellow paint hazardous waste residue

at a Class 1 disposal facility located in California under the requirements of the disposal facility operator within 30 days after accumulating 220 pounds of residue and dust.

If less than 220 pounds of hazardous waste residue and dust is generated in total, dispose of it within 30 days after the start of accumulation of the residue and dust.

The Engineer will sign all manifests as the generator within 2 business days of receiving and accepting the analytical test results and receiving your request for the US EPA Generator Identification Number. Use a transporter with a current DTSC registration certificate and that is in compliance with the CHP BIT Program when transporting hazardous waste.

Measurement and Payment

The work to develop lead compliance plan will be paid for on a lump sum basis.

The above prices and payments for lead compliance plan shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in developing lead compliance plan, including safety training and residue testing, as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

The lump sum price paid for remove yellow painted traffic stripe (hazardous waste) shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in removing yellow painted traffic stripe (hazardous waste), including storing and disposing the hazardous material to the designated facility, as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-12 CONSTRUCTION STAKING

Stanislaus County shall provide construction staking services in accordance with the provisions in "Construction Surveys - Attachment B" available on Public Works website at www.stancounty.com/publicworks/. The "Attachment B" is hereby made part of these special provisions and the contractor shall follow staking request procedures as outlined in the document.

SP-13 RELOCATE ROADSIDE SIGN

Relocate roadside sign must conform to Section 15-2.09, "Relocate Roadside Signs," of the State Standard Specifications and these special provisions.

Measurement and Payment

Quantities of roadside signs to be relocated will be determined as units from actual count, regardless of post size, or number of posts.

Full compensation for relocate roadside sign shall be considered as included in the contract unit price paid for the item of work involved and no separate payment will be made therefor.

SP-14 RELOCATE PIPE GATE

Relocate pipe gate must conform to Section 15-2, "Miscellaneous Facilities," of the State Standard Specifications and these special provisions.

Measurement and Payment

Quantities of relocate pipe gate to be relocated will be determined as units from actual count. Full compensation for relocate pipe gate shall be considered as included in the contract unit price paid for the item of work involved and no separate payment will be made therefor.

SP-15 REMOVE PIPE

Remove pipe must conform to Section 15-2.02K, "Remove Drainage Facilities," of the State Standard Specifications and these special provisions.

Measurement and Payment

Remove pipe will be measured by the linear foot.

Full compensation for removing pipe, including the removal of M.I.D. riser and all excavation and backfill required, preparing, disassembling, packaging, bundling, tagging, hauling and stockpiling of removed materials including any temporary storage prior to stockpiling and disposal of materials, shall be considered as included in the contract unit price paid for remove pipe and no separate payment will be made therefor.

SP-16 REMOVE FENCE

Remove fence must conform to Section 15-2, "Miscellaneous Facilities," of the State Standard Specifications and these special provisions.

Measurement and Payment

The above prices and payments shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in removing fence, including concrete footing, as shown on the plans, as specified in these special provisions, and as directed by the Engineer.

SP-17 REMOVE ROADSIDE SIGN

Remove roadside sign must conform to Section 15-2.02J, "Remove Roadside Signs," of the State Standard Specifications and these special provisions.

Measurement and Payment

Removing roadside signs will be measured by the unit, regardless of the number of posts or sign panels involved.

The above prices and payments shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in removing roadside signs as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-18 REMOVE TREE

Remove Tree shall conform to the provisions in Section 16 "Clearing and Grubbing" of the State Standard Specifications and these special provisions.

Remove trees as shown on the plans.

Measurement and Payment

The contract unit price paid for Remove Tree shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in Remove Tree,

complete in place, including excavation, stump removal, disposal, and tree trimming, as shown on the plans, as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-19 COLD PLANE ASPHALT CONCRETE PAVEMENT

Cold planing asphalt concrete pavement includes the removal of pavement markers and traffic stripes within the area of cold planing.

Do not use a heating device to soften the pavement.

The cold planing machine must be:

- 1. Equipped with a cutter head width that matches the planing width unless a wider cutter head is authorized.
- 2. Equipped with automatic controls for the longitudinal grade and transverse slope of the cutter head and:
 - 2.1. If a ski device is used, it must be at least 30 feet long, rigid, and a 1-piece unit. The entire length must be used in activating the sensor.
 - 2.2. If referencing from existing pavement, the cold planing machine must be controlled by a self-contained grade reference system. The system must be used at or near the centerline of the roadway. On the adjacent pass with the cold planing machine, a joint-matching shoe may be used.
- 3. Equipped to effectively control dust generated by the planing operation
- 4. Operated such that no fumes or smoke is produced.

Replace broken, missing, or worn machine teeth.

Install and maintain grade and transverse slope references.

The final cut must result in a neat and uniform surface.

The completed surface of the planed pavement must not vary more than 0.02 foot when measured with a 12-foot straightedge parallel with the centerline. With the straightedge at right angles to the centerline, the transverse slope of the planed surface must not vary more than 0.03 foot.

Where lanes are open to traffic, the drop-off of between adjacent lanes must not be more than 0.15 foot.

Remove cold planed material concurrently with planing activities such that the removal does not lag more than 50 feet behind the planer.

Measurement and Payment

Cold plane asphalt concrete pavement is measured by the square foot.

Remove asphalt concrete dike must be considered as included in the contract price paid for cold plane asphalt concrete pavement.

The contract price paid per square foot for cold plane asphalt concrete pavement includes full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in cold planing asphalt concrete surfacing and disposing of planed material, including constructing, maintaining, removing temporary HMA tapers if applicable, as specified in the State Standard Specifications and these special provisions and as directed by the Engineer. Full compensation for removal of thermoplastic traffic stripe, painted traffic stripe, and pavement markers in areas of cold plane asphalt concrete is included in the contract price paid for cold plane asphalt concrete and no separate payment will be made therefor.

SP-20 REMOVE BASE AND SURFACING

Remove base and surfacing as shown. Removing base and bituminous surfacing shall conform to the provisions in Section 15-2.02B(4), "Remove Subbase, Base, and Bituminous Surfacing," of the State Standard Specifications and these special provisions.

Measurement and Payment

Remove base and surfacing is measured by the square yard.

The contract price paid for remove base and surfacing includes full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in remove base and surfacing, including excavation and backfill, as shown on the plans, as specified in State Standard Specification and these special provisions, and as directed by the Engineer.

SP-21 REMOVE CONCRETE (CURB AND MOWBAND)

Remove concrete as shown. Removing concrete shall conform to the provisions in Section 15-3, "Remove Concrete," of the State Standard Specifications and these special provisions.

Measurement and Payment

Removing concrete curb and remove concrete mow band is measured by the linear foot.

The contract price paid for remove concrete full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in remove concrete, including excavation and backfill, as shown on the plans, as specified in State Standard Specification and these special provisions, and as directed by the Engineer.

SP-22 RELOCATE MAILBOX

Relocate mailbox must conform to Section 15-2, "Miscellaneous Facilities," of the State Standard Specifications and these special provisions.

Mailboxes include newspaper boxes. Provide access for the mail and newspaper delivery at all times. Reset the mail box location as necessary during your work. Mount mailboxes on posts that are set in the ground.

If authorized, temporary supports may be used. For the final location, install mailboxes on new redwood posts that comply with Section 56, "Signs," of the State Standard Specifications.

Backfill the space around posts with earth material. Place the backfill in 4-inch thick layers. Moisten and thoroughly compact each layer.

Dispose of posts, mounts, and hardware that are no longer used.

Measurement and Payment

Relocate mailbox will be paid for by the unit, regardless of the number of mailboxes and/or newspaper boxes involved on each post. Payment for a unit includes relocating as many times as necessary during your work.

The contract price paid for relocating mailbox shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in relocate mailbox as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer, including the removal and disposal of the resulting material.

SP-23 CLEARING AND GRUBBING

Clearing and grubbing shall conform to the provisions in Section 16, "Clearing and Grubbing," of the State Standard Specifications and these special provisions.

Measurement and Payment

Clearing and grubbing will be paid for at a lump sum price.

The contract lump sum price paid for clearing and grubbing shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in clearing and grubbing as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer, including the removal and disposal of the resulting material. Payment for remove tree is covered under separate bid item.

SP-24 WATERING

Developing a water supply and applying watering shall conform to the provisions in Section 17, "Watering," of the State Standard Specifications and these special provisions.

The Contractor shall be responsible for developing a water supply and furnishing all water required for the work.

Measurement and Payment

Full compensation for developing a sufficient supply of water required for the work shall be considered as included in the prices paid for the various contract items of work involving the use of water and no separate payment will be made therefor.

SP-25 EARTHWORK & ROADWAY EXCAVATION

Earthwork shall conform to the applicable requirements of Section 19, "Earthwork," of the Standard Specifications, and Chapter 3.9, "Earthwork," of the County Standards and Specifications, and these special provisions.

Measurement and Payment

Full compensation for Earthwork necessary for construction of Concrete Structures and Miscellaneous Concrete Construction shall be considered as included in the cost of the contract items for which it is related and no additional compensation will be allowed therefore.

Full compensation for Earthwork operations necessary for roadside grading, between edge of pavement and right of way line, shall be considered as included in the cost of roadway excavation and no additional compensation will be allowed therefore.

The price paid for Roadway Excavation shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals for doing all the work involved in excavating, transporting, filling, compacting and disposing of material, between edge of pavement and edge of pavement, proof rolling, earthwork required for construction of asphalt concrete paving and concrete facilities as shown on the Plans and as specified in these special provisions, shall be considered as included in the cost of Roadway Excavation and no separate payment will be made therefore.

SP-26 SHOULDER BACKING

Shoulder Backing must comply with Section 19-9, "Shoulder Backing," of the Standard Specifications

Contract No. 9606

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS

and these special provisions.

Measurement and Payment

Quantities of Shoulder Backing to be paid for by the cubic yard will be calculated on the basis of the dimensions shown on the plans adjusted by the amount of any change ordered by the Engineer. No allowance will be made for shoulder backing placed outside those dimensions unless otherwise ordered by the Engineer.

Full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in constructing aggregate base, complete in place, as specified in the Standard Specifications and these special provisions, and as directed by the Engineer shall be considered as included in the contract unit price paid for Shoulder Backing, and no additional compensation will be allowed

SP-27 AGGREGATE BASE

Aggregate base must comply with Section 26, "Aggregate Bases," of the Standard Specifications and these special provisions.

Aggregate Base shall be Class 2.

Measurement and Payment

Quantities of aggregate base to be paid for by the cubic yard will be calculated on the basis of the dimensions shown on the plans adjusted by the amount of any change ordered by the Engineer. No allowance will be made for aggregate base placed outside those dimensions unless otherwise ordered by the Engineer.

Full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in constructing aggregate base, complete in place, as specified in the Standard Specifications and these special provisions, and as directed by the Engineer shall be considered as included in the contract unit price paid for Aggregate Base, and no additional compensation will be allowed.

SP-28 HOT MIX ASPHALT

This work shall consist of furnishing and placing asphalt concrete in conformance with Section 39, "Hot Mix Asphalt" (HMA) of the Standard Specifications and these special provisions.

Hot Mix Asphalt shall be Type A.

The asphalt binder shall be grade PG 64-10 as specified in the Standard Specifications, unless otherwise noted on the plans or approved by the Engineer. Aggregate Gradations shall be as specified in Section 39-2.02D(2), "Aggregate Gradations," of the Standard Specifications, except maximum aggregate size shall be 3/4 inch.

A maximum of 15% Reclaimed Asphalt Pavement (RAP) is allowed.

Use Method Compaction for placement of all HMA as specified in Section 39-1.03. Material testing shall be per SC-06, "Control of Materials" of the Special Conditions.

A drop off of more than 0.15-foot will not be allowed at any time between adjacent lanes open to

public traffic. The final lift of HMA for all streets shall be placed after all work related to underground facilities, excavations, reconstruction, trench pavement, and pre-paving work has been completed.

HMA smoothness requirements shall conform to 39-1.01D. Pavement smoothness shall be measured using the Straightedge Method. Inertial Profiler requirements shall not apply.

The completed surfacing shall be true to grade and cross section, of uniform smoothness and texture, compacted firmly, and free from depressions, humps or irregularities.

Measurement and Payment

Full compensation for furnishing all labor, materials, tools, equipment, and incidentals for all work performed under this section "Hot Mix Asphalt," including HMA, leveling course, dikes, surfacing miscellaneous areas, various HMA items and Tack Coat, shall be considered as included in the contract unit price paid for Hot Mix Asphalt items, and no additional compensation will be allowed.

There will be no Payment Adjustment for Price Index Fluctuations on this project.

The payment quantity for place hot mix asphalt dike of the type shown on the Bid Item List is the length measured from end to end. Payment for the HMA used to construct the dike is not included in the payment for place hot mix asphalt dike.

The payment quantity for place hot mix asphalt (miscellaneous areas) is the area measured for the inplace compacted area. Payment for the HMA used for miscellaneous areas is not included in the payment for place hot mix asphalt (miscellaneous areas).

SP-29 ROADSIDE SIGN

Roadside signs shall be installed at the location shown on the plans or where designated by the Engineer.

Roadside sign must comply with the County's Standard Plans 3-I1, 3-I2, and Section 56, "Signs," of the State Standard Specifications, and these special provisions.

Measurement and Payment

Roadside signs on will be measured by the unit from actual count, regardless of the number of sign panels mounted on the post.

The above prices and payments shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and installing roadside signs, complete in place, including the installation of sign panels, placement of posts, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-30 MINOR CONCRETE

Minor concrete curbs and mow band must comply with the plans, Section 73, "Concrete Curb and Sidewalks," of the State Standard Specifications and Section 3.16, "Concrete Curbs and Sidewalks," of the County Standard Specifications, and these special provisions.

Concrete Curb must comply with County's Standard Plan 3-D1.

Measurement and Payment

Minor concrete curb will be measured by the linear foot. Minor concrete mow band will be measured by linear foot.

The above prices and payments shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and installing minor concrete, complete in place, including the installation of dowels, reinforcement, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-31 FENCE

Fences must comply with the plans, Section 80, "Fences," of the State Standard Specifications, and these special provisions. Fence (Type WM) and fence (Type BW) must comply with State Standard Plan A86 and A86A. Posts must be metal.

Galvanize posts under Section 75-1.05, "Galvanizing" of the State Standard Specifications. Paint posts as directed by Engineer.

Measurement and Payment

Fence will be measured by the linear foot.

The above price paid shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and installing fences, complete in place, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-32 ADJUST SURVEY MONUMENT FRAME AND COVER

Adjusting survey monuments must comply with the plans, Section 15-2, "Miscellaneous Facilities," of the State Standard Specifications, and these special provisions.

Contractor must comply with business and professions code section 8771(b) regarding referencing, preserving, and reconstructing monuments.

If monuments are disturbed during Contractor's operations, contractor shall comply with special provisions section "Re-Establishing Survey Monument (Type B)" below.

Measurement and Payment

Adjust survey monument frame and cover will be measured by the unit.

The contract unit price paid for adjusting survey monuments shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in adjusting survey monument frame and cover, complete in place, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

RE-ESTABLISHING SURVEY MONUMENT (TYPE B)

Survey monuments shall be re-established in accordance with the Stanislaus County standards and Specifications, and these special provisions. The contractor shall re-establish survey monuments affected by the work included in the contract in accordance with Section 8771 of the Professional Land

Surveyors Act in the Business and Professions Code of the State of California. Locations of existing monuments known to the engineer that are within the area of work in this contract have been included on the Plans.

A new monument and lid shall be obtained from Stanislaus Public Works at 1716 Morgan Road. The existing marker disks shall not be used. After roadway construction is complete contractor shall contact Stanislaus County Surveyor's Office to mark the location for the placement of the monument box. The contractor shall install the monument box and lid to finished grade as marked. Stanislaus County Surveyor's Office will then install the monument inside the existing box at a later date.

Full compensation for furnishing all labor, materials, tools, equipment, and incidentals for doing all work involved in preserving the survey monument prior to removal of existing pavement, and constructing new survey monuments disturbed by Contractor's operations, complete with concrete pad, including excavation and saw cutting pavement at the periphery until the adjustment of final grade commences shall be included in various items of work, and no additional compensation will be allowed.

SP-33 REINFORCED CONCRETE PIPE

Reinforced concrete pipe must comply with the plans, Section 65-2, "Reinforced Concrete Pipe," of the State Standard Specifications and Section 4.9, "Pipelines," of the County Standard Specifications, and these special provisions.

Where embankment will not be placed over the top of the pipe, a relative compaction of not less than 85 percent shall be required below the pipe spring line for pipe installed using Method 1 backfill in trench, as shown on Standard Plan A62D. Where the pipe is to be placed under the traveled way, a relative compaction of not less than 90 percent shall be required unless the minimum distance between the top of the pipe and the pavement surface is the greater of 4 feet or one half of the outside diameter of the pipe. Except as otherwise designated by classification on the plans or in the specifications, joints for drainage pipes shall conform to the Standard Plans and Section 65-2.02E of the State Standard Specifications for standard joints.

Reinforced concrete pipe for irrigation facilities shall conform to the provisions in ASTM C361 for rubber-gasketed reinforced concrete pipe (RGRCP). The RGRCP shall have a minimum strength of 6000 psi. Contractor must submit factory test data to M.I.D. Engineer, and verify that pipe joints conform to no leakage at hydrostatic pressures up to twenty-five (25) feet. Field tests must be performed in the presence of M.I.D. Engineer, if required by M.I.D. Engineer.

All work affecting irrigation facilities shall occur during the non-irrigation season (typically November 1 to March 1).

Contractor must notify M.I.D Engineering Department at least two (2) workings days before any M.I.D irrigation facilities construction and/or necessary inspections on M.I.D. facilities. Contractor must notify M.I.D. Engineer prior to any work within the immediate vicinity of MID facilities or within MID rights of way. M.I.D. Engineer must be notified of any irrigation work stoppages. Whenever irrigation work is to restart, M.I.D. Engineer must be notified two (2) working days in advance. M.I.D. Engineer must be contacted a minimum of two (2) working days before irrigation work is scheduled on a holiday or weekend.

M.I.D. maintains that there are currently no signs of leakage at the Roselle Improvement District pipeline crossing Claribel Road. If leakage becomes apparent after the work is performed and it is

determined, solely by the M.I.D Engineer, that the leakage is a result of damage to the facility or installation deficiencies in connection with the project then repair of the facility will be performed solely at the expense of the contractor. M.I.D. shall bear no expense in relation to the project or repair.

MID Contact:

Seylin Savy

Phone: 209-557-1351 Seylin.savy@mid.org

When solid rock or other unyielding material is encountered at the planned elevation of the bottom of the bedding, the material below the bottom of the bedding shall be removed to a depth of 1/50 of the height of the embankment over the top of the culvert, but not less than 6 inches nor more than 12 inches. The resulting trench below the bottom of the bedding shall be backfilled with structure backfill material in conformance with the provisions in Section 19-3.03E, "Structure Backfill," of the State Standard Specifications.

The excavation and backfill below the planned elevation of the bottom of the bedding will be paid for as extra work as provided in Section 4-1.05, "Changes and Extra Work," of the State Standard Specifications.

The Outer Bedding shown on Standard Plan A62DA shall not be compacted prior to placement of the pipe.

Measurement and Payment

The length of pipe to be paid for will be the slope length designated by the Engineer. Pipe placed in excess of the length designated will not be paid for, unless pipes are cut to fit a structure or slope. When pipes are cut to fit a structure or slope, the quantity to be paid for will be the length of pipe necessary to be placed before cutting, measured in 2-foot increments.

The above prices and payments shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in installing pipe, complete in place, including structure excavation and structure backfill, and connecting new pipe to existing or new facilities, including concrete collars or concrete tees and reinforcement, as shown on the plans, and as specified in the State Standard Specifications and the special provisions, and as directed by the Engineer.

SP-34 CONCRETE BACKFILL (PIPE TRENCH)

Concrete backfill for pipe trenches must comply with the plans, Section 62-4, "Concrete Backfill for Pipe Trenches," of the State Standard Specifications, and these special provisions.

Measurement and Payment

Concrete backfill for pipe trenches will be measured by the cubic yard.

The contract unit price paid for concrete backfill for pipe trenches shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and installing concrete backfill for pipe trench, complete in place, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-35 HORIZONTAL DRAIN AND ROCK DITCH

Horizontal drain and rock ditch must comply with the plans and these special provisions. HDPE perforated pipe must comply with County's Standard Plan 4-D3 and AASHTO Specification M294.

Drainage rock must be 1-1/2" to 2-1/2" round rock, wheel rolled. The rock must be non-crushed, prewashed, clean, hard, sound, durable, and uniform in quality, free of any detrimental quantity of soft, friable, thick elongated or laminated pieces, organic material, clay balls, oil, alkali, or other deleterious substances. Drainage rock must have a durability index of not less than 40.

Surface gravel must be Class 1 (Type A) Permeable Material and comply with the plans, Section 68-2.02F "Permeable Material," of the State Standard Specifications.

Engineering fabric must be non-woven needle-punched and weigh 6 ounces per square yard or greater and comply with Section 88-1.02B, "Filter Fabric," and the following table:

Filter Fabric Class D

Property	Test	Value
Grab breaking load, lb 1-inch grip, min. in each direction	ASTM D 4632	120x120
Apparent elongation, percent min., in each direction	ASTM D 4632	50x50
Permittivity, sec-1, minimum and maximum	ASTM D 4491	1.6-1.8
Apparent opening size, U.S. Standard sieve size maximum and minimum	ASTM D 4751	60-80
Ultraviolet resistance, percent minimum retained grab breaking load, 500 hr.	ASTM D4355	70

Horizontal drain material submittals must be subject to review and approval by the Engineer, prior to any excavations or ordering materials necessary for the construction of the horizontal drains.

Measurement and Payment

48" HDPE perforated pipe will be measured by the linear foot.

Drainage rock will be measured by the cubic yard.

Surface gravel will be measured by the cubic yard.

-Filter fabric (Type D) fabric will be measured by the square yard.

The above prices and payments shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and installing minor concrete, complete in place, including the installation of dowels, reinforcement, truncated domes, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-36 FLARED END SECTION

Flared end sections must comply with the plans, conform to the provisions in Section 70-5.02, "Flared End Sections," of the State Standard Specifications and these special provisions.

Measurement and Payment

Flared end sections will be measured by the unit.

The contract unit price paid for flared end sections shall include full compensation for furnishing all

labor, materials, tools, equipment, and incidentals, and for doing all the work involved in furnishing and installing flared end sections, complete in place, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-37 DRAINAGE INLETS

Drainage inlets must comply with the plans, conform to the provisions in Section 51-7, "Minor Structures," of the State Standard Specifications and these special provisions. Field drainage inlets with a 2' sump must have a 6" weep hole with 8" pea gravel bedding.

Measurement and Payment

Drainage inlets will be measured by the unit.

The contract unit price paid for drainage inlets shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, including grate and pea gravel, and for doing all the work involved in furnishing and installing drainage inlets, complete in place, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-38 STORM DRAIN MANHOLES

Storm drain manholes must comply with the plans and conform to County Standard Detail 4-F2B and these special provisions or pre-cast manholes as approved by the Engineer.

Measurement and Payment

Storm drain manholes will be measured by the unit.

The contract unit price paid for storm drain manholes shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, including grate or lid, and for doing all the work involved in furnishing and installing storm drain manholes, complete in place, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-39 CONCRETE AIR VENT

Concrete air vent must comply with the plans and conform to these special provisions.

Measurement and Payment

Concrete vent pipe will be measured by the unit.

The contract unit price paid for concrete air vent shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, including vent cover, and for doing all the work involved in furnishing and installing concrete air vent, complete in place, as shown on the plans, and as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-40 DETECTABLE WARNING SURFACE

Detectable warning surface shall conform to the provisions in Section 73-1.02B, "Detectable Warning Surface," of the State Standard Specifications and these special provisions.

Measurement and Payment

Quantities of detectable warning surface to be paid for will be determined as units from actual count in place.

The above prices and payments shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in installing detectable warning surface, complete in place, as shown on the plans, as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-41 MARKERS AND DELINEATORS

Markers and delineators shall conform to the provisions in Section 82, "Markers and Delineators," of the State Standard Specifications and these special provisions.

Flexible posts shall be made from a flexible white plastic which shall be resistant to impact, ultraviolet light, ozone, and hydrocarbons. Flexible posts shall resist stiffening with age and shall be free of burns, discoloration, contamination, and other objectionable marks or defects which affect appearance or serviceability.

Retroreflective sheeting for metal and flexible target plates shall be the retroreflective sheeting designated for channelizers, markers, and delineators conforming to the requirements in ASTM Designation: D 4956-95.

Measurement and Payment

Quantities of markers and delineators to be paid for will be determined as units from actual count in place.

The above prices and payments shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in installing markers and delineators, complete in place, as shown on the plans, as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-42 THERMOPLASTIC TRAFFIC STRIPES AND PAVEMENT MARKINGS (ENHANCED WET-NIGHT VISIBILITY)

Thermoplastic traffic stripes (traffic lines) and pavement markings with enhanced wet-night visibility shall conform to the provisions in Sections 84, "Markings" of the Standard Specifications and as specified in these special provisions.

Thermoplastic material for traffic stripes and pavement markings shall be applied at a minimum thickness of 0.100 inch.

Thermoplastic traffic stripes and pavement markings with enhanced wet-night visibility shall consist of a single uniform layer of thermoplastic and a layer of bonded core elements and a layer of glass beads as follows:

The 1st layer of bonded core elements shall be 3M Bonded Core All Weather Reflective Elements for use in thermoplastic traffic stripes and pavement markings. The color of the bonded core elements shall match the color of the stripe or marking to which they are being applied.

The 2nd layer of glass beads shall comply with AASHTO M247 Type 2.

Both bonded core elements and glass beads must be surface treated for use with thermoplastic under the manufacturer's instructions.

The bonded core elements (surface-drop) shall contain either clear or yellow tinted microcrystalline ceramic beads bonded to the opacified core. These elements shall not be manufactured using lead,

chromate or arsenic. All "dry performing" microcrystalline ceramic beads bonded to the core shall have a minimum index of refraction of 1.8 when tested using the liquid oil immersion method. All "wet performing "microcrystalline ceramic beads bonded to the core shall have a minimum index of refraction of 2.30 when tested using the oil immersion method.

Gradations for the Bonded Core Elements

Element Gradations			
Mass I	Mass Percent Passing (ASTM D1214)		
US Mesh	Micron	"S" series	
12	1700	85-100	
14	1410	70-96	
16	1180	50-90	
18	1000	5-60	
20	850	0-25	
30	600	0-7	

A sample of bonded core reflective elements supplied by the manufacturer shall show resistance to corrosion of their surface after exposure to a 1 % solution (by weight) of sulfuric acid. The 1 % acid solution shall be made by adding 5.7 cc of concentrated acid into 1000 cc of distilled water.

The bonded core elements shall be surface treated to optimize embedment and adhesion to the thermoplastic binder.

Minimum retroreflectivity values [mcd(ft2)(fc)] metric equivalent [mcd(m2)(lux)] are shown below:

Minimum Initial Retroreflectivity Values

Test Method	White	Yellow
Dry (ASTM E1710)	700	500
Wet recovery (ASTM E2177)	280	250
Wet continuous (ASTM E2832)	90	75

Note: Increased element drop may be necessary to compensate for increased surface area characteristic of rough pavement surfaces.

Mobile truck mounted applicators shall be capable of traveling at a uniform, predetermined speed over variable road grades to produce uniform application of striping material, following straight lines and making normal curves in a true arc. The equipment shall be capable of air blasting the pavement, applying the stripe and immediately dropping the bonded core elements and glass beads in a single pass at speeds of up to 8 MPH.

Walk-behind cart applicators shall be capable of uniform application of striping material at walking speeds, following straight lines and making tight turns symbols and legends. Mobile equipment must be available to air blast the areas immediately prior to hand cart application. The walk-behind cart shall be capable of applying the molten binder and immediately dropping the bonded core elements and glass beads in a single pass at walking speeds.

The equipment shall be capable of application of bonded core elements and glass beads to the surface of the pavement marking by double drop application. The element dispenser for the first drop shall be attached to the striping machine in such a manner that the elements are dispensed closely behind the

binder application device. The bead dispenser for the second drop shall be attached to the striping machine in such a manner that the beads are dispensed immediately after the first drop (bonded core elements).

The applicator for the bonded core elements and glass beads shall be capable of delivering a uniform drop rate at required application speeds. The bonded core elements and glass beads are applied such that they appear uniform on the entire traffic marking.

The specified reflective media shall be dropped immediately after binder application. Reflective media consists of retroreflective elements followed by glass beads commonly called "Double-Drop" and shall be applied to achieve the application rates shown below.

Bonded Core Element Application Rates for Thermoplastic Binders

Units	Minimum for smooth pavement surfaces
Lb. per 4 in. ln. ft.	0.022
Lb. per 100 sq. ft.	6.6
Gr. per 4 in. ln. ft.	10

Note: Increased element drop may be necessary to compensate for increased surface area characteristic of rough pavement surfaces

Application Rates for Glass Beads

Units	AASHTO M247 (Type 2)
Lb. per 4 in. ln. ft.	0.048
Gr. per 4 in. ln. ft.	22
Lb. per 100 sq. ft.	14.4

Note: Increased glass bead may be necessary to compensate for increased surface area characteristic of rough pavement surfaces

Within 3-7 days of applying a thermoplastic traffic stripe or pavement marking with enhanced wetnight visibility, the Contractor shall test the retroreflectivity using a reflectometer in the presence of the Engineer under ASTM E1710. For continuous lines, reflectance measurements must be made at approximately 20 feet intervals. For skip lines, measurements must be taken at two random locations on each skip. The Contractor shall provide all equipment necessary to conduct field tests.

Retroreflective pavement markers to be installed along with thermoplastic traffic striping shall conform to the provisions in Section 81-3.02C, "Retroreflective Pavement Markers," of the Standard Specifications and these special provisions.

Full compensation for furnishing and installing retroreflective pavement markers shall be considered as included in the contract unit price paid for the various thermoplastic traffic striping requiring retroreflective pavement markers, and no additional compensation will be allowed.

The quantity of thermoplastic traffic stripes (Enhanced Wet-Night Visibility) to be paid for will be determined by measuring the length of traffic stripes applied. No deductions will be made for gaps in

traffic striping. Payment for thermoplastic traffic stripes will be made at the contract unit price bid per linear foot of **Thermoplastic Striping**.

The quantity of thermoplastic pavement markings (Enhanced Wet-Night Visibility) to be paid for will be determined by the actual area of pavement markings applied. Payment for thermoplastic pavement markings will be made at the contract unit price bid per square foot of **Thermoplastic Pavement Markings**.

The prices bid for **Thermoplastic Striping** and **Thermoplastic Pavement Markings** shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work included in furnishing, placing and testing Thermoplastic Striping and Thermoplastic Pavement Markings (regardless of the number, widths, and patterns of individual stripes involved in each traffic stripe), including establishing alignment for stripes, and layout work, complete in place, as shown on the plans, as specified herein, and as directed by the engineer, and no additional compensation will be allowed.

SP-43 GREEN BIKE LANE COATING

Green bike lane coating shall be applied in conformance with the provisions in these special provisions and the State Standard Specifications. The green bike lane coating shall be a color green with colorant as directed by the Engineer.

Materials

Colorized coatings must be composed of:

Coatings: A two component, epoxy-modified, acrylic, waterborne coating specially formulated to have a balance of properties that will ensure adhesion and movement on a flexible pavement, while providing excellent durability, color stability and friction properties.

Colorant: A highly concentrated, high quality, UV stable pigment blend designed to add the desired color to the coating.

Characteristics of Coating Material must conform to the following:

Product Characteristic		<u>Test</u>
Solids by volume	55% +/- 2%	ASTM D 2697
Solids by weight	70% +/- 2%	ASTM D 2369
Density	13.2 lb/gal	ASTM D 1475
VOC	<20 g/L	ASTM D 3960-04 (EPA-24)

Material must be designed for application onto asphalt pavement surfaces but can be applied to non-bituminous concrete surfaces, such as portland cement concrete, with use of a concrete primer. Material shall be applied in 4 thin layers, allowing each layer to dry to the touch in between, to provide a total dry build thickness of 20-25 mils (0.51-0.635mm).

Application

Material shall be applied to the pavement surface using the methods outlined in the coating manufacturer's application instructions.

Preconditions:

Surface Preparation: The pavement surface shall be completely dry and free from all foreign matter. Concrete surfaces shall require additional surface preparation to remove any laitance from the surface. A waterborne concrete primer, as recommended by manufacturer, shall be applied according to application instructions and shall be allowed to dry to the touch before applying coatings.

Weather: Optimal installation temperatures are between 70-90F, with low humidity. Minimum air and substrate must be 50F and rising, and shall not drop below 50F within 8 hours of application of the last layer of coating. Increase in drying and curing times shall be expected at lower temperatures, and during high humidity. No precipitation shall be expected within 2 hours after the last layer of the coating is dry to the touch.

Obstacles: Pavement markings that are to be left in place, utilities, drainage structures, curbs and any other structure within or adjacent to the treatment location shall be masked to protect from application. Existing pavement markings conflicting with the surface treatment should be removed by grinding or water blasting. Extra care should be taken to thoroughly remove the dust and debris caused from grinding.

Mixing: Part B, Colorant and 1 quart +/- 0.5 water shall be added to Part A and mixed thoroughly, creating a vortex, using a high speed high torque drill and paddle for a minimum of 3 minutes.

Installation

Initial Layer

Small projects: Distribute initial layer of coatings to the pavement using a soft bristle broom and / or 1" - 1.5" nap roller. Ensure a thin build with even distribution.

Large or small projects: Each layer of coating application shall be spray applied using a double diaphragm spray system with an air atomized textured spray gun. Coatings shall be broomed using a soft bristle broom to work the material into the surface.

Additional Layers: The first layer and each additional layer of coating shall be allowed to dry to the touch before applying the next layer. The last layer shall be rolled, or spray and rolled, using a 1" – 1.5" nap roller to provide additional friction properties. Environmental factors such as air and substrate temperature, humidity, sun and wind will affect dry times. Conditions that improve ability for moisture to evaporate will have positive effects on dry times.

Coverage: Coating material shall cover approximately 175 sq. ft. (16.3 m2) per mixed pail, using the recommended 4-layer system. While building the coating in layers, there will be less coverage with the first layer and greater coverage with subsequent layers.

Open to Traffic: Coating material shall be allowed to cure before being exposed to traffic. The longer they are allowed to cure, the better they will perform. Coatings shall be left for a minimum of 12 hours after the last layer is dry to the touch before traffic is introduced.

Clean up: Tooling and equipment shall be cleaned only with water while coatings are still wet. Remove masking. Dispose of all materials in accordance with all applicable federal, state and local laws and regulations.

Performance Properties of Colorized Coating

Key properties include wear and crack resistance, color retention, adhesion, minimal softening from water absorption and anti-slip. Colorized coating must conform to the following criteria:

Product Characteristic		<u>Test</u>
Dry Time (to recoat)	~35 min	ASTM D 5895 (23°C; 37% RH)
Taber Wear Abrasion - Dry H-10 wheel	\leq 0.98 g/1000 cycles	ASTM D 4060 (1 day cure)
Taber Wear Abrasion - Wet H-10 wheel	\leq 3.4 g/1000 cycles	ASTM D 4060 (7 day cure)
Hydrophobicity - Water Absorption	~ 8.3%	ASTM D 570
Shore Hardness	60 +/- 3	ASTM D 2240, Type D
Mandrel Bend	1/4 in @ 21° C	ASTM D 522-93A
Permeance	$3.45 \text{ g/m}^2/\text{hr}$	ASTM D 1653
Adhesion to Asphalt	Substrate Failure	ASTM D 4541
Friction (Wet)	>60 BPN	ASTM E 303

Measurement and Payment

Green bike lane coating will be measured by the square foot for each striping detail without deductions for gaps in coating area, regardless of the number, widths and patterns of coating.

The contract prices paid per square foot for green bike lane coating shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, complying with manufacture's specifications, and for doing all the work involved in applying green bike lane coating, complete in place, as shown on the plans, as specified in the State Standard Specifications and these special provisions, and as directed by the Engineer.

SP-44 DEMOLISH AND REMOVE BUILDINGS

The contractor shall demolish and remove buildings located at 3001 Claribel Road as shown on the plans. The structure behind the garage shall remain in place. Within County right of way, remove and dispose of landscaping, above ground sprinklers,/valves, plumbing, including septic service to demolished building. The County will be responsible for coordinating with the respective utility companies to disconnect utility facilities.

Demolition and removal of existing structures shall include the foundation, plumbing (gas and water), walkways, porches, and patios.

After demolition and clearing operations have been completed, the Contractor shall grade the site level.

The County will provide right-of-way stakes prior to the start of demolition work.

The site has been tested for asbestos. Test results can be found on the Modesto Reprographics webpage at www.modestoplanroom.com.

NESHAP Notification

The US EPA has established the National Emission Standards for Hazardous Air Pollutants (NESHAP). Under the Health & Safety Code § 39658(b)(1), your demolition and rehabilitation activities must comply with 40 CFR 61, Subpart M (National Emission Standard for Asbestos). Notify the US EPA and the California Air Resources Board of your demolition activities even if the activities will not disturb asbestos-containing material.

You may obtain an Asbestos NESHAP Notification of Demolition and Renovation Form at the California Air Resources Board's website:

http://www.arb.ca.gov/enf/asbestos/asbestos.htm

Contract No. 9606

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS

Instead of the 10 working days specified at the website, mail or deliver the form with the necessary attachments at least 15 days before starting demolition or rehabilitation activities to:

US EPA - REGION IX ASBESTOS NESHAP NOTIFICATION (AIR-5) 75 HAWTHORNE ST SAN FRANCISCO, CA 94105

Mail or fax a copy of the notification form to: CALIFORNIA AIR RESOURCES BOARD ENFORCEMENT DIVISION ASBESTOS NESHAP NOTIFICATION P.O. BOX 2815 SACRAMENTO, CA 95812

FAX: (916) 229-0645

Submit a copy of the notification form and attachments as informational submittals before starting demolition or rehabilitation activities.

You must notify the San Joaquin Valley APCD of demolition activities even if the activities will not disturb asbestos-containing material.

You may obtain the notification form, submittal instructions, and other information from:

San Joaquin Valley APCD

1990 E. Gettysburg Fresno, CA 93726 Phone: (559) 230-6000 Fax: (559) 230-6061

https://www.valleyair.org/newsed/asbestos.pdf

Instead of the 10 working days specified at the website, submit a notification form to the San Joaquin Valley Air Pollution Control District at least 15 days before starting demolition or rehabilitation activities.

Submit a copy of the notification form and the necessary attachments as informational submittals before starting demolition or rehabilitation activities.

If you discover unanticipated asbestos-containing material during the demolition or rehabilitation activities, immediately stop work in that area and notify the Engineer. The Department will use other forces to remove and dispose of the material. Do not resume work in the area until authorized. Notify the San Joaquin Valley APCD of a change to your demolition or rehabilitation activities, including a revised work plan or the discovery of unanticipated asbestos-containing materials, within 2 days of the change or discovery.

Measurement and Payment

The contract lump sum price paid for demolish and remove buildings includes full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all the work involved in building demolition, removal, abandoning wells and septic systems, including applicable permits and fees, clearances, and disposal fees necessary to complete the work, material management, waste management, handling, and disposing of hazardous waste resulting from your activities, as shown on the plans, as specified in the State Standard Specifications and these special provisions, and as ordered by the Engineer.

SP-45 ENVIRONMENTAL STEWARDSHIP

Air Quality

The Contractor shall implement the following measures:

- On-site idling of construction equipment shall be no more than five minutes maximum;
- Biodiesel shall be used as an alternative fuel diesel for at least 15 percent of the construction vehicles/equipment if there is a biodiesel station within five miles of the Project Site;
- At least 10 percent of the building material used for the Proposed Project shall be local to the extent feasible; and
- At least 50 percent of construction waste or demolition materials shall be recycled.

All construction equipment shall comply with the San Joaquin Valley Air Pollution Control District Mitigation Requirements for Construction Equipment Emissions (Regulation VIII).

Full compensation for conforming to the requirements of this section shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation will be allowed there for.

Environmental Awareness Training

Replace section 14-6.02 with:

14-6.02 SPECIES PROTECTION

14-6.02A General

Section 14-6.02 includes specifications for protecting regulated species or their habitat. This project is within or near habitat for regulated species shown in the following table:

Species Name	
Western Pond Turtle	
Swainson's hawk	
Townsend's big-eared bats	

Have all construction personnel complete environmental awareness training on the requirements and the project area wildlife species information before starting work. Contractor's biologist will provide the training.

The Contractor's Biologist shall conduct an environmental awareness training to all construction personnel. The training shall include identification of the special status species listed above, nesting raptors, and migratory birds, required practices before the start of construction, general measures that are being implemented to conserve the species as they relate to the project, penalties for non-compliance, and boundaries of the Project Site and of the permitted disturbance zones.

Supporting materials containing training information shall be prepared and distributed by the Contractor. Upon completion of training, all construction personnel shall sign a form stating that they have attended the training and understand all the measures. Proof of this instruction shall be kept on file with the project proponent.

Do not start vegetation removal or ground-disturbing activities until you receive approval from Engineer.

Establish a construction-free buffer zone around the activity site per section 14-6.03 when an active nest is found. Do not start construction activities within the buffer zone until you receive approval from Engineer.

Stop work immediately when determined by Contractor's biologist that the work has a potential to disturb the protected species when they are found during construction.

14-6.02B Material

Not Used

14-6.02C Construction

14-6.02C(1) General

Not Used

14-6.02C(2) Protective Radius

Upon discovery of a regulated species, stop construction activities within a radius of the discovery as determined by the Contractor's Biologist. Immediately notify the Engineer. Do not resume activities until receiving notification from the Engineer.

14-6.02D Payment

Full compensation for conforming to the requirements of this section shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation will be allowed there for

Contractor-Supplied Biologist

Replace section 14-6.05 with:

14-6.05 CONTRACTOR-SUPPLIED BIOLOGIST

14-6.05A General

14-6.05A(1) Summary

Section 14-6.05 includes specifications for providing a Contractor-supplied biologist to monitor construction and other activities to protect regulated species that may be harmed during construction activities.

14-6.05A(2) Submittals

14-6.05A(2)(a) Qualifications

Within 7 days after Contract approval, submit each biologist's name, resume, and statement of qualifications. Allow 15 days for review. If the submittal is incomplete, the Engineer will provide comments. Within 7 days after receiving the Engineer's comments, update and resubmit qualifications data. Do not start construction activities until the Contractor-supplied biologist is authorized.

14-6.05A(2)(b) Protocols

Not Used

14-6.05A(2)(c) Pre-Construction Survey Report

Submit a pre-construction survey report within 14 days before starting construction activities.

14-6.05A(2)(d) Initial Monitoring Report

Not Used

14-6.05A(2)(e) Monitoring Report

Not Used

14-6.05A(2)(f) Incident Report

Submit an Incident Report immediately following the incident.

14-6.05A(2)(g) Annual Monitoring Report

Not Used

14-6.05A(2)(h) Final Monitoring Report

Submit no later than 20 days after completion of the project.

14-6.05A(3) Quality Control and Assurance

14-6.05A(3)(a) Qualifications

Not Used

14-6.05A(3)(b) Protocols

Burrowing Owl

Contractor-supplied Biologist shall conduct pre-construction survey using recommended methods described in the "Detection Surveys Section" in Appendix D of the Staff Report on Burrowing Owl Mitigation (CDFW 2012). If no burrowing owls or signs of burrowing owls are detected in the vicinity of the BSA during the pre-construction survey, a letter report documenting survey methods and findings shall be submitted to the Department and the CDFW, and no further avoidance or minimization measures are recommended.

If burrowing owls are detected, no-construction buffers and timing on page 9 of the *Staff Report on Burrowing Owl Mitigation* (CDFW 2012) shall be followed unless the Contractor's Biologist verifies through non-invasive methods

- 1) that the birds have not begun egg laying and incubation,
- 2) that juveniles from the occupied burrows are capable of independent survival (i.e., foraging independently), or
- 3) that a reduced buffer is appropriate based on a site-specific evaluation. In addition, high visibility construction fencing should be established around the buffer zone, if feasible. Buffer diameters identified below and outlined in the *Staff Report on Burrowing Owl Mitigation* (CDFW 2012) are as follows:

Location	Time of Year	Level of Disturbance		nce
		Low	Med	High
Nesting Sites	April 1-Aug 15	356 feet	1,640 feet	1,640 feet
Nesting Sites	Aug 16-Oct 15	356 feet	356 feet	1,640 feet
Nesting Sites	Oct 16-Mar 31	164 feet	329 feet	1,640 feet

If the buffers specified above are infeasible, then the Contractor's Biologist shall conduct a site evaluation to determine whether impacts can be avoided with implementation of additional measures. If the Contractor's Biologist determines that measures can be established to avoid impacts to burrowing owls, the Contractor's Biologist shall develop a mitigation plan through consultation with the CDFW including, but not limited to, the installation of visual screens between the nest and construction activities and/or the implementation of biological monitoring during construction activities.

Western Pond Turtle

The Contractor's Biologist shall conduct a pre-construction western pond turtle survey within 14 days prior to commencement of construction activities. The Contractor's Biologist shall document and submit the results of the preconstruction survey in a letter to the Department and the CDFW within 30 days following the survey. If no western pond turtles are identified during the pre-construction survey, then no further avoidance or minimization measures are recommended.

If a western pond turtle is observed within the Project Site during the pre-construction survey, the Contractor's Biologist shall be onsite during the initial instream work to ensure that no western pond turtles are present. The Contractor's Biologist shall document and submit the results of the monitoring event in a letter to the Department and the CDFW within 30 days following the monitoring event.

Nesting Migratory Bird and Raptors

The Contractor's Biologist shall conduct a pre-construction nesting migratory bird and raptor survey within 14 days prior to commencement of construction activities and tree removal, if anticipated to commence during the nesting season (between February 15 and August 31). The Contractor's Biologist shall document and submit the results of the pre-construction survey in a letter to the Department and the CDFW within 30 days following the survey. If no active nests are identified during the pre-construction survey, then no further avoidance and minimization measures are required.

If any active nests are identified during the preconstruction survey within the BSA, the Contractor's Biologist shall establish an appropriate buffer zone around the nests through consultation with the CDFW. High visibility construction fencing should be installed around the buffer zone, if feasible. No trees anticipated for removal shall be removed until the Contractor's Biologist determines that the nest is no longer occupied. The Contractor's Biologist should recommend, if applicable, additional measures based on existing site conditions. Measures may include, but are not limited to, the installation of visual screens between the nest and construction activities and/or the implementation of biological monitoring during construction activities.

Swainson's Hawk

Prior to the commencement of construction activities during the nesting season for Swainson's hawk (between March 1 and September 15), the Contractor's Biologist shall conduct a minimum of two (2) protocol level preconstruction surveys during the recommended survey periods for the nesting season

that coincides with the commencement of construction activities, in accordance with the *Recommended Timing and Methodology for Swainson's Hawk Nesting Surveys in California's Central Valley* (Swainson's Hawk Technical Advisory Committee 2000). The Contractor's Biologist shall conduct surveys for nesting Swainson's hawk within ¼-mile of the Project Site where legally permitted. The Contractor's Biologist will use binoculars to visually determine whether Swainson's hawk nests occur within the ¼-mile survey area if access is denied on adjacent properties. If no active Swainson's hawk nests are identified on or within ¼ mile of the Project Site within the recommended survey periods, a letter report summarizing the survey results shall be submitted to the Department and the CDFW within 30 days following the final survey, and no further avoidance and minimization measures for nesting habitat are required.

If active Swainson's hawk nests are found within 1/4-mile of construction activities, the Contractor's Biologist shall contact the Department and the CDFW within one day following the pre-construction survey to report the findings. For the purposes of this avoidance and minimization requirement, construction activities are defined to include heavy equipment operation associated with construction (use of cranes or draglines, new rock crushing activities) or other project-related activities that could cause nest abandonment or forced fledging within 1/4-mile of a nest site between February 15 and August 31. Should an active nest be present within \(^1/4\)-mile of construction areas, then the CDFW shall be consulted to establish an appropriate noise buffer, develop take avoidance measures, determine whether high visibility construction fencing should be erected around the buffer zone, and implement a monitoring and reporting program prior to any construction activities occurring within 1/4 mile of the nest. Should the Contractor's Biologist determine that the construction activities are disturbing the nest, the Contractor's Biologist shall halt construction activities until the CDFW is consulted. The construction activities shall not commence until the CDFW determines that construction activities would not result in abandonment of the nest site. Should the Contractor's Biologist determine that the nest has not been disturbed during construction activities within the buffer zone, then a letter report summarizing the survey results shall be submitted to the Department and the CDFW within 30 days following the final monitoring event, and no further avoidance and minimization measures for nesting habitat are required.

Roosting Bats

The Contractor's Biologist shall conduct a pre-construction roosting bat survey within 14 days prior to commencement of tree removal. The Contractor's Biologist should document and submit the results of the pre-construction survey in a letter to the Department and the CDFW within 30 days following the survey. If no active nests are identified during the pre-construction survey, then no further avoidance and minimization measures are recommended.

If any active nests are identified during the preconstruction survey within the BSA, the Contractor's Biologist shall establish an appropriate buffer zone around the nests through consultation with the CDFW. High visibility construction fencing should be installed around the buffer zone, if feasible. No trees anticipated for removal should be removed until the Contractor's Biologist determines that the bat is no longer occupying the tree.

14-6.05B Materials
Not Used
14-6.05C Construction
14-6.05C(1) General
Not Used

14-6.05C(2) Pre-construction Survey

Survey the work area for regulated species within 14 days before starting construction activities.

14-6.05C(3) Protective Radius

Upon discovery of a regulated species, stop construction activities within a radius as determined by the Contractor's Biologist of the discovery. Immediately notify the Engineer. Do not resume activities until the Engineer notifies you.

14-6.05C(4) Monitoring Schedule

Not Used

Not Used

14-6.05C(5) Monitoring Duties

Not Used

The biologist must:

- 1. Monitor for regulated species within the project area.
- 2. Assure that construction activities do not result in take of regulated species.
- 3. Assure that construction activities comply with PLACs.
- 4. Immediately notify the Engineer of any take of regulated species.
- 5. Prepare, submit, and sign notifications and reports.

14-6.05C(6) Notification and Reporting

All reports must include the following:

- 1. PLAC requirement implementation
- 2. Name(s) of the biologist(s) conducting biological activity
- 3. Date(s) and time(s) of monitoring
- 4. Locations and activities monitored
- 5. Representative photographs
- 6. Findings
- 7. If regulated species are observed, reports must recommend actions to protect the regulated species
- 8. Name of the biologist who prepared the report
- 9. Signature of the biologist certifying the accuracy of the report

The Pre-Construction Survey Report includes one of the following:

- 1. Detailed observations and locations where regulated species were observed
- 2. Statement that no regulated species were observed by each biologist

The Incident Report includes:

- 1. Description of any take incident
- 2. Species name and number taken
- 3. Details of required notifications with contact information
- 4. Corrective actions proposed or taken
- 5. Disposition of taken species

The Annual Monitoring Report includes:

- 1. Construction beginning and ending dates
- 2. Identification of project impacts on the species covered in the plan
- 3. Species protection measures with protection measure implementation details
- 4. Incidental take details, including species name, number taken, people contacted, contact information, and disposition of taken species
- 5. An assessment of the effectiveness of the species protection measures to mitigate project impacts

6. Recommendations to improve efficiency of protection measures to mitigate impacts to regulated species

The Final Monitoring Report must be a cumulative report following the format of the Annual Monitoring Report.

14-6.05D Payment

Full compensation for conforming to the requirements of this section and furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work as required in this section shall be considered as included in the contract lump sum price paid for Contractor Supplied Biologist, and no additional compensation will be allowed.

Cultural Resources

Should buried archaeological deposits or artifacts be advertently exposed during the course of any construction activity, work shall cease in the immediate area and the Department shall be immediately contacted. A qualified archaeologist will be retained to document the find, assess its significance, and recommend further treatment. Work on the Project Site shall not resume until the archaeologist has had a reasonable time to conduct an examination and implement mitigation measures deemed appropriate and necessary by the agency with local jurisdiction in consultation with the qualified archaeologist to reduce impacts to a less than significant level.

If evidence of a paleontological site is uncovered during grading or other construction activities, work shall be immediately halted within 100 feet of the find and the Department shall be contacted. A qualified paleontologist shall be retained to conduct an on-site evaluation and provide recommendations for removal and/or preservation.

Work on the Project Site shall not resume until the paleontologist has had a reasonable amount of time to conduct an examination and implement mitigation measures deemed appropriate and necessary by the agency with local jurisdiction in consultation with the qualified paleontologist to reduce impacts to a less than significant level.

In the event that any human remains or any associated funerary objects are encountered during construction, Contractor shall stop work immediately within the vicinity of the discovery and the Department shall be immediately contacted for inadvertent discovery of resources associated with park construction. In accordance with CEQA (Section 1064.5) and the California Health and Safety Code (Section 7050.5), the Stanislaus County Coroner shall be contacted immediately. If the human remains are determined to be Native American, then Coroner shall notify the Native American Heritage Commission, who will notify and appoint a Most Likely Descendent (MLD). The MLD will work with a qualified archaeologist to decide the proper treatment of the human remains and any associated funerary objects. Construction activities in the immediate vicinity shall not resume until a notice-to-proceed is issued by the Department.

SP-46 TRAFFIC SIGNAL AND LIGHTING

General

This work shall include the furnishing of all labor, materials, tools, and equipment to construct and complete in an efficient and workmanlike manner the installation of the traffic signal system in accordance with the

- these Special Provisions,
- the approved plans,

- included 2015 Revised Standard Plans,
- included 2015 Revised Standard Specifications,
- 2015 Standard Plans, and
- 2015 Standard Specifications.

ATTENTION: The special provisions for Traffic Signal and Lighting section may reference a different version of the Standard Specifications. All Traffic Signal and Lighting work, both direct and incidental, shall be performed in accordance with the list of standards in General, Paragraph 1 of this special provision.

Traffic signal installation work is to be performed at the following intersections:

Claribel Road at Roselle Avenue

The Contractor shall furnish all labor, materials and equipment necessary to complete the work as shown on the Plans, as specified in these Special Provisions, and in strict accordance with the conditions of the Contract. All incidental work not shown on the Plans or specified herein which is necessary to complete the work necessary to provide the system described, or shown, shall be furnished and installed as part of this contract at no additional cost to the County. The work shall be complete and ready for service as shown on the Plans and/or specified to the satisfaction of the Engineer.

Submit a schedule of values within 15 days after Contract approval. Do not include costs for the traffic control system (traffic handling) in the schedule of values.

The Contractor shall bear the cost of any utility interruption, temporary relocation, modification, or other modifications as needed to install or remove any traffic signal equipment.

The controller cabinet schematic wiring diagram and intersection sketch shall be combined into one drawing, so that, when the cabinet door is fully open, the drawing is oriented with the intersection.

The Contractor shall furnish, in a three-ring binder, a maintenance manual for all auxiliary equipment, and vehicle detector sensor units, control units, and amplifiers. The maintenance manual and operation manual may be combined into one manual. The maintenance manual or combined maintenance and operation manual shall be submitted at the time the controllers are delivered for testing or, if ordered by the Engineer, previous to purchase. The maintenance manual shall include, but need not be limited to, the following items:

- (a) Specifications
- (b) Design characteristics
- (c) General operation theory
- (d) Function of all controls
- (e) Trouble shooting procedure (diagnostic routine)
- (f) Block circuit diagram
- (g) Geographical layout of components
- (h) Schematic diagrams
- (i) List of replaceable component parts with stock numbers

No signal standard shall be delivered on-site until Contractor has all signal materials on hand.

Signal heads shall not be installed before traffic signal controller is installed and wired.

Maintaining Existing And Temporary Electrical Systems

Existing flashing beacon system shutdowns shall be limited to periods between the hours of 9:00 a.m. and 3:00 p.m. The existing flashing beacon shall be kept in operation until the new traffic signal is in operation, or until approved for removal by the County Inspector.

Existing traffic signal system shutdowns shall be limited to periods between the hours of 9:00 a.m. and 3:00 p.m.

The Contractor shall place "STOP AHEAD" and "STOP" signs to direct vehicle and pedestrian traffic through the intersection during traffic signal system shutdown. All signal faces shall be covered if the system must be shut down for a 24-hour period. Contractor must request in writing the Engineer's approval 48 hours prior to a 24-hour signal system shutdown. The Contractor shall wait for the Engineer's approval, in writing, prior to any 24-hour signal system shutdown. If written approval is not received by the Contractor within 48 hours of request, Contractor will assume the request has been denied. Temporary "STOP AHEAD" and "STOP" signs shall be either covered or removed when the system is turned on.

One "STOP AHEAD" sign and one "STOP" sign shall be placed for each direction of traffic. For two-lane approaches, two "STOP" signs shall be placed. Location of the signs shall be as directed by the Engineer.

"STOP AHEAD" and "STOP" signs shall be furnished by the Contractor and shall conform to the provisions in Section 12-3.06, "Construction Area Signs," of the Standard Specifications except that the base material for the signs shall not be plywood.

Upon approval of the Engineer, all existing electrical systems, including, but not limited to, flashing beacons, solar flashing beacons, or electroliers shall be removed and salvaged and delivered the Stanislaus County Public Works Morgan Yard at 1716 Morgan Road, Modesto, CA 95358.

Full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work as required in this section shall be considered as included in the contract lump sum price paid for Traffic Control, and no additional compensation will be allowed.

Regulations And Code

All work and materials shall conform to the latest codes, rules, and regulations of the following:

- (a) State Codes and Ordinances
- (b) Local City and/or County Ordinances
- (c) National Electrical Code
- (d) Uniform Building Code

Nothing in these Specifications is to be construed to permit work not conforming to the above; expense for compliance with the above shall be paid for by the Contractor. Whenever the Plans and Specifications require higher standards or larger sizes than those required by the Ordinances and Statutes, the Plans and Specifications shall take priority.

The Contractor shall have Special Dispensation from the California Occupational Safety and Health Administration to conduct operations no closer than 6 feet, but within 10 feet, of a high voltage line prior to erecting signal standards.

Overhead Sign Structures, Standards, And Poles

Overhead Sign Structures, Standards, and Posts shall conform to Section 56 "Overhead Sign Structures, Standards and Poles", of the Standard Specifications and Section 87-1.03J "Standards, Steel Pedestals, and Posts" of the Revised Standard Specifications.

The sign mounting hardware, as shown on Detail U of Standard Plan ES-7N, shall be installed at the locations shown on the plans.

Where the plans refer to the side tenon detail at the end of the signal mast arm, the applicable tip tenon detail may be substituted.

Standards and Poles shall have two-piece base covers to cover anchor bolts.

Standards for signals, lighting, and flashing beacons, poles for closed circuit television, pedestals for cabinets, posts for extinguishable message sign and posts for pedestrian push button assemblies must comply with Section 56-3 "Standards and Poles," of the Revised Standard Specifications.

Cabinet Assembly

The Contractor shall furnish controller-ready cabinet assemblies consisting of a fully wired Model 332L cabinets and all auxiliary equipment required to control the signal indications as shown on the Plans and as specified in these Special Provisions for each location. The Traffic Signal Controller will be an Agency Furnished Material. The controller-ready assemblies shall be furnished complete with all equipment conforming to the requirements in the "Transportation Electrical Equipment Specifications," (TEES) issued by the State of California. Cabinets, equipment, and all modifications thereto shall be type approved by the State of California Testing Laboratory, and shall have California State Quality Product listing.

The controller cabinet layout and component locations shall conform to the requirements for Model 332L cabinet in the "Transportation Electrical Equipment Specifications," and addendum thereto, issued by the State of California.

Section 6.4.5.2 of TEES regarding Output File #1 with:

6.4.5.2 Output File #1L

6.4.5.2.1 Containing

The output file shall be capable of containing 12 Model 200 Switch Packs, 4 Flash Transfer Relays, and the Model 2010ECLip Monitor Unit. Six Flash Transfer Relays and 1 2010ECLip Conflict Monitor Unit shall be furnished with each output file. Model 200 Switch Packs shall be provided to operate the phases as shown on the plans. 4 Flash Transfer Relays shall be provided.

6.4.5.2.2 Output Circuits

The red and yellow output circuits of switch packs 1, 2, 3, 4, 5, 6, 7, 8 shall be made available at individual pack Molex receptacle /plug connection for flash selectability. Eight (8) red & four (4) yellow

Molex Plugs shall be provided.

6.4.5.2.3 Model 2010ECLip Monitor Unit

It shall be possible to remove the Model 2010ECLip Monitor Unit without causing the intersection to go into flashing operation. The cabinet shall be wired so that with the front cabinet door closed and with the monitor unit removed, the intersection shall go into flashing operation (See One Line Diagram). The cabinet shall contain a conspicuous warning against operation with the Model 2010ECLip Monitor Unit removed.

6.4.5.2.4 Monitor Unit Compartment

The monitor unit compartment including the housed Model 2010ECLip Monitor Unit exclusive of handle shall extend no farther than 1.25 in front of the 19-in rack front surface. The switch pack socket connector front surface shall be no more than 8.5 inches in depth from the front surface of the output file.

--END TEES REPLACE--

Cabinets shall have the additional following items installed:

- 1) LED Cabinet lighting with door switches on both doors.
- 2) Auto/manual control with police panel cord.
- 3) Pull-out drawer/shelf assembly
- 4) Corbin lock, keyed "State #2."
- 5) EDI Model 2010ECLip IP Addressable Conflict Monitor or Approved Equal
- 6) 1U rackmount detector test panel
- 7) DIN rail mounted Hardened Managed Ethernet PoE Switch

All compression connectors that terminate inside controller cabinets for low voltage circuits shall be soldered.

The cabinets shall be wired and fully equipped for traffic actuation and phasing as shown on the Plans.

Cabinets shall be aluminum.

The Contractor shall arrange to have a representative from the County Traffic Engineering Division and a signal technician, qualified to work on the units and employed by the manufacturer or their representative for the following equipment at the time the equipment is turned on:

- ATC controller unit. County Traffic Engineering Department to provide contact information for scheduling purposes.; and
- Cabinet assembly.; and
- Video detection system; and
- IP PTZ Camera.; and
- Ethernet Switch.

The convenience receptacle shall have ground-fault circuit interruption as defined by the Code. Circuit interruption shall occur on 6 milliamperes of ground-fault current and shall not occur on less than 4 milliamperes of ground-fault current.

Contractor shall furnish a certificate of compliance from a state approved testing laboratory indicating the Cabinet Assembly has been fully bench tested.

Service Enclosure

Traffic signal service enclosure with integrated Battery Backup System (BBS) shall be installed as shown on the plans. Voltage ratings of the service equipment shall confirm to the service voltages indicated on the plans.

Service enclosure shall be mounted to a concrete pedestal 18" above the finished grade of the surrounding concrete pad.

Service Enclosure shall conform to the provisions in Sections 86-1.02P, "Enclosures," of the Standard Specifications and as indicated on the plans.

Replace the 14th paragraph of Section 86-1.02P(2) of the RSS for section 86 with:

Circuit breakers used as disconnects must have a minimum interrupting capacity of 42,000 A, rms, for 120/240 V(ac) services and 30,000 A, rms, for 480 V(ac) services.

--END RSS REPLACE--

Battery Backup System

The battery backup system (BBS) shall be a self-contained system, mounted inside the service enclosure. BBS shall provide four hours of normal traffic signal operation followed by eight hours of all-red flash operation. The BBS shall be configured to automatically return the traffic signal system to line power when power is restored. BBS shall be furnished with a minimum, two-year warranty, with the two year warranty period starting on the date of the signal turn-on.

The BBS controller shall include an Ethernet port for connection to a laptop computer or network. Software for the interfacing of the BBS controller shall be provided. A bypass switch shall be provided to allow removal of batteries without interruption of line power flow to the traffic signals.

BBS shall provide line conditioning for protection against power surges or brownouts.

The supplied batteries for the BBS shall be dated within 3 months of the turn on date.

Vehicle Signal Faces And Signal Heads

Signal housings shall be polycarbonate manufactured from virgin material using lexan polycarbonate black in color.

Backplates shall be polycarbonate material black in color.

All signals shall have tunnel visors and backplates black in color. All sections of all signals shall be 12".

All indications shall have Light Emitting Diode (LED's) signal modules that meet the latest Caltrans Specifications.

Top openings of signal heads shall be sealed in the interior with neoprene gaskets.

Luminaires

Luminaires shall be/have:

- 1. LED Type
- 2. Rated to operate under a supplied voltage of single phase 120V/240V.
- 3. Factory BUG rating of B3 U0 G3 and shall not require external shields to achieve such rating.
- 4. Color Temperature of light output shall be 4000K
- 5. Factory furnished with a Control Ready 7-wire Photo-control receptacle and Twist Lock Shorting Cap.
- 6. Luminaire drive current shall not exceed 66% of the current rating of the supplied LED Driver chip.
- 7. Luminaires shall be factory furnished with a mounting bracket suitable for Round horizontal pole mounting.

All luminaries shall be LED Cobra Head Models:

HPS	Minimum	
Equivalency	Lumen Output	Model
150w	8,500	Leotek GCM2-30H-MV-NW-3R-GY-700 or Approved Equal
200w	11,000	Leotek GCM2-30H-MV-NW-3R-GY-1A or Approved Equal
250w	14,000	Leotek GCM2-40H-MV-NW-3R-GY-950 or Approved Equal
310w	20,000	Leotek GCL1-80G-MV-NW-3R-GY-700 or Approved Equal

Photoelectric Controls

Photoelectic Control Unit shall be AcuityControls/DTL brand DLL127F1.5CUL J1 or approved equal:

- 1. Extra Long Life type (20 year UV Protection)
- 2. LED inrush protection with triac assisted relay
- 3. Long life capacitors
- 4. Type V Control Type unless shown otherwise on plans.
- 5. Furnished and installed at the location shown on the plans.

There shall only be one photoelectric control unit installed on a single lighting control circuit.

Terminal Compartment

Slip-fitters and terminal compartments shall be cast bronze. All parts of signal mounting assembly shall be black in color.

Accessible Pedestrian Signal (APS)

Accessible Pedestrian Signal (APS) shall conform to Section 86-1.02T, "Accessible Pedestrian Signals," of the Standard Specifications.

The APS sign shall be a 9" x 12" R10-3 as shown in the 2014 CA MUTCD Revision 3.

Replace Paragraph 2 of Section 86-1.02T of the RSS for section 86 with:

An accessible pedestrian signal must function with the agency-furnished rackmount ATC Controller.

Add to the end of section 87-1.03T of the RSS for section 87:

A manufacturer's representative must program the accessible pedestrian signals at the following intersections:

1. Intersection of Claribel Road at Roselle Avenue

When the extended pushbutton press is used, program the signals with messages for each street as follows:

- 1. During the pedestrian clearance interval, the message heard must be *Wait to cross <u>Claribel Road</u>*, *Wait*.
- 2. During the pedestrian clearance interval, the message heard must be *Wait to cross <u>Roselle Avenue</u>*, *Wait*.

--END RSS REPLACE--

Push Button Assemblies

Push Button Assemblies shall conform to Section 86-1.02U "Push Button Assemblies," of the Standard Specifications.

Replace the 1st sentence in the 1st paragraph of section 86-1.02U of the RSS for section 86 with:

The housing for a push button assembly must be made of UV-stabilized, self-extinguishing structural plastic.

--END RSS REPLACE--

Hybrid Video and Video Detection Systems

GENERAL

If required, phase extension modules shall be approved by the Engineer.

Video Detection system shall be able to detect cyclists and vehicles.

Video Detection System shall have dedicated green max for fog/contrast errors.

All video signal/power cable shall be as specified by manufacturer.

When the Video Detection System transfers video signal over Coax cable, a surge panel shall be installed prior to system turn on.

Monitor output shall be able to be electronically or mechanically switched between all video feeds.

Video Detection System shall be IP-Addressable, either through the processing unit, or through the use of an auxiliary accessory.

Video Detection sensor units shall be mounted on signal or vehicle mast arms per manufacturer specification, as shown on plans, or as approved by the Engineer.

A technician from the equipment Manufacturer shall be present during system installation, programming and camera aiming and shall inspect all elements prior to system turn on.

ADVANCED VIDEO DETECTION SYSTEM

Advanced Video Detection systems shall detect vehicles up to 600' beyond the unit for approaching vehicles.

Advanced Video Detection system shall be able to log and provide turn movement counts.

Advanced video detection system shall route detector outputs to the cabinet/controller assembly through:

- TEES compliant 332L Input file detector cards; or,
- Through ATC Controller's NEMA TS2 Type 1 SDLC interface

Approved Hardware List for Advanced Video Detection System:

	Econolite	Iteris Vantage Vector	Other	
Advanced Sensor	Autogopa Vision Congor	Vantage Vector Sensor		
Image Processor	Autoscope Vision Sensor	Vantage Edge2 Processor

Wireless Broadband Radio Communication Device

GENERAL

The Wireless Broadband Radio Communications Device shall meet the following minimum specifications:

- 1. Operating Conditions:
 - a. Temperature @ 90% relative humidity: -40°C to +80°C
 - b. IP67 Weatherproof Rating
- 2. Communications Protocol and Features:
 - a. Compatible with any manufacturer's broadband radio network

- b. Wireless Protocol support 802.11a/n/ac
- c. Minimum range of 20 miles
- d. Minimum 300 Mbps transfer rate
- e. Operating Band: 5.8Ghz (5.180-5.825 GHz)
- f. Dual Antenna (internal or external)
- g. Multiple Topology operating modes: Point-to-Point, Point-to-Multipoint
- h. Power over Ethernet
- 3. Power over Ethernet (PoE) Protocol and Features:
 - a. IEEE 802.3af/at
 - b. PoE Gigabit Injector w/surge suppression device (built-in or external)

IEEE PROTOCOLS AND FEATURES

- 1. 802.11e WWM and QOS
- 2. 802.11h DFS and TPC
- 3. 802.1d Ethernet Bridging
- 4. 802.1p Traffic Prioritization
- 5. 802.1q VLAN
- 6. 802.1s Spanning Tree
- 7. 802.1w Rapid Spanning Tree
- 8. 802.3-1998 Ethernet
- 9. 802.3ab Gigabit Ethernet
- 10. 802.3ac Extended Frame Size for 802.1q & 802.1p Support 11. 802.3ad Link Aggregation/Port Bonding/Port Trunking
- 12. 802.3i 10 Mbps Ethernet
- 13. 802.3u 100 Mbps Ethernet and Auto-Negotiation
- 14. 802.3x Full Duplex and Flow Control
- 15. RJ-45 Gigabit 10/100/1000Base-TX Ethernet Port

SECURITY PROTOCOLS AND FEATURES

- 1. 802.11i-WPA-PSK
- 2. 802.11i-WPA2-PSK
- 3. 802.11i-WPA-EAP
- 4. 802.11i-WPA2-EAP
- 5. 802.11i-TKIP
- 6. 802.11i-AES-CCM
- 7. 802.11i-802.1x
- 8. 802.11i-RSN
- MAC Access Control List

I/O SOFTWARE SUITE

Shall include I/O management software suite to manage the configuration of the device and network features:

- 1. Profile based configuration
- 2. Built-in Diagnostics tools
- 3. Built-in alignment tools
- 4. Network mapping
- 5. Security configuration
- 6. Device mapping of other manufacturer's radio hardware

OTHER FEATURES

- 1. Built-in LED alignment indicator
- 2. Built-in GPS for location

APPROVED PRODUCTS

Encom Wireless E-Lite 5.8 HV

Network HD Camera (PTZ IP Camera)

General

The Network HD Camera shall be a Remote-IP High Definition (HD) Pan-Tilt-Zoom (PTZ) Dome Camera (Camera) and shall be installed to the manufacturer's specifications on the Luminaire Mast Arm (LMA). Per the manufacturer's recommendation, the exact mounting location on the LMA may differ from the location shown on the project plans, but must remain mounted on the LMA identified.

Manufacturer's recommended mounting shall be part of the submittal for the Traffic Signal System and considered as an informational submittal. The Engineer shall approve the installation location.

Equipment and materials used shall be standard components that are manufactured and available for purchase as standard replacement parts as long as the product is commercially available from the manufacturer.

All manufactured products shall be thoroughly tested and proven in actual use.

All manufactured products shall include, at no additional cost, online support services and availability of a toll-free (U.S. and Canada), 24-hour technical assistance program (TAP) for emergencies.

The manufacturer shall repair or replace without charge, manufactured products proven defective in material or workmanship for the stated warranty period from the date of shipment.

Camera Specifications

The Camera shall be a dome type with:

a. Pan Movement 360° continuous pan rotation

b. Pan Speed Variable between 300 per second continuous pan to 0.1°

per second

c. Vertical Tilt Unobstructed tilt of +1° to -90°

d. Manual Control Speed Pan speed of 0.1° to 80° per second and pan at 150° per

second in turbo mode; tilt operation shall range from 0.1°

to 40° per second

e. Presets 16 positions f. Tours 2 tours

g. Proportional Pan/Tilt Speed Speed decreases in proportion to the increasing depth of

zoom

h. Motor Continuous duty and variable speed, operating at 18 to 32

VAC, 24 VAC nominal

i. Window Blanking 32 blanked windows

j. Auto Flip Rotates dome 180° at bottom of tilt travel

1. Dome Drive Compatibility All dome drives are compatible with all back box

configurations

2. Power Consumption Nominal 23 VA (without heater and blower running)

Nominal 73 VA (with heater and blower running)

k. Stainless Steel, Environmental back box and lower dome

1. Connection to Dome Drive Quick, positive mechanical and electrical disconnect without

the use of any tools

Installation Quick-mount pole adapter
 Cable Entry Through NPT fitting

4. Environmental Features
 5. Operating Temperatures
 Factory-installed heaters, blowers, and sun shroud
 Maximum temperature range of (-60°F to 140°F)

(-51°C to 60°C) for two hours and a continuous operating

range of -50°F to 122°F (-45°C to 50°C)
6. Construction Stainless Steel

7. Trim Ring Connection 2 screws

I. General Specifications

Construction

1. Dome Drive Aluminum, thermo plastic

2. Lower Dome Acrylic

Light Attenuation

Smoked f/0.5 light loss
 Clear f/0.0 light loss

The Camera shall have the following Video Specifications:

a. Video Encoding H.264 in High, Main, or Base profiles and

MJPEG

b. Video Streams Up to 2 simultaneous streams, the second

stream is variable based on the setup of the

primary stream

c. Frame Rate Up to 30, 25, 15, 12.5, 10, 8.333, 7.5, 6, 5,

3, 2.5, 2, 1 (depending upon coding, resolution,

and stream configuration)

d. Available Resolutions

1. 16:9 Aspect Ratio 2.07 MPx (1920 x 1080)

0.92 MPx (1280 x 720) 0.36 MPx (800 x 448) 0.23 MPx (640 x 352) 0.13 MPx (480 x 272) 0.06 MPx (320 x 176)

e. Supported Protocols TCP/IP, UDP/IP (Unicast, Multicast IGMP),

UPnP, DNS, DHCP, RTP, RTSP, NTP, IPv4, IPv6, SNMP v2c/v3, QoS, HTTP, HTTPS, LDAP

(client), SSH, SSL, SMTP, FTP, and

802.1x (EAP)

f. Users

Unicast
 Multicast
 Up to 20 simultaneous users
 Unlimited H.264

Contract No. 9606

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS

g. Security Access Password protected

h. Software Interface Web browser view and setup

The Camera shall provide multiple independent output video streams configurable for H.264 and MJPEG video output.

Camera shall receive power by Power Over Ethernet (POE) bus. Power shall be injected by power injector or by ethernet switch capable of supplying POE IEEE802.3af standard.

The Camera manufacturer shall support open architecture best practices with a published API available to third-party network video recording and management systems and shall provide a software development kit (SDK) for allowing 3rd party developers all necessary tools for integrating the Camera Positioning System into the users control system environment.

The Camera offer multiple simultaneous video streams with 2.1 megapixel (MPx) 1920 x 1080 resolution, auto iris with 30X optical, and 12X digital zoom.

The Camera shall support standard IT protocols.

The Camera shall provide a 100Base-TX network interface over shielded CAT5E Cable.

The Camera shall use a standard Web browser interface for remote administration and configuration of camera parameters. The browser interface shall provide PTZ control including preset and pattern and on-screen display (OSD) for access to camera programming.

The Camera shall support 32 window blanks to conceal user-defined privacy areas that cannot be viewed by an operator.

The Camera shall support multiple user-programmable presets.

The Camera shall support multiple user-programmable tours.

The Camera shall support proportional pan/tilt functions dependent on the depth of view of the zoom lens.

The Camera shall provide the ability backup and restore camera settings through an embedded Web browser

The Camera shall provide Wide Dynamic Range (WDR) up to 80dB with selections for on/off available through the embedded Web browser.

The Camera shall provide Back Light Compensation with selections for on/off available through the embedded Web browser.

The Camera shall provide dynamic White Balance adjustments through the embedded Web browser.

The Camera shall provide a freeze frame feature that freezes a camera image as a preprogrammed preset is called+, providing a live view once positioned. Selections for on/off shall be available through the embedded Web browser.

The Camera shall provide image stabilization to compensate for vibration introduced into the camera.

The Camera shall provide Pan and Tilt limit stops with settings available through the embedded Web browser.

The Camera shall provide 802.1x port security to establish point-to-point access through a wired or wireless port using Extensible Authentication Protocol (EAP). Supported EAP methods shall include EAP-MD5, EAP-TLS, EAP-TTLS, EAP-PEAP and EAP-FAST.

The Camera shall support IPv6 configurations in conjunction with IPv4.

The Camera shall provide user-selectable configurations for day/night auto mode.

The Camera shall provide User and Group settings to assign permissions and access levels to the camera. The camera shall provide local management where the camera manages the access levels or remote mode where the camera authenticates the user through a Lightweight Directory Access Protocol (LDAP) server.

The Dome Camera shall provide a 1.5-inch NPT conduit attachment for pendant mounted applications

The Dome Camera shall provide a 3/4-inch NPT conduit attachment in the back box for in-ceiling applications.

The Dome Camera shall be NEMA-4X, IP66 rated.

Power Input

Port
 RJ-45 for 100Base-TX; Auto MDI/MDI-X;
 Cabling Type
 Cat5 cable or better for 100Base-TX
 Input Voltage
 VDC nominal; 22 to 27 VDC

4. Input Power

a. PoE IEEE802.3af (without heater and blower)

b. 24 VDC nominal 0.7 A nominal (without heater and blower);

3 A nominal (with heater and blower)

5. Earth Ground; Continuity shall be provided through the shield of the CAT5e Ethernet/PoE++ cable, and the shield of the multi-conductor cable, to chassis ground of the Base Enclosure. Connecting either, or both, of these shields to earth ground at the control side shall apply earth ground to chassis ground of the Base enclosure.

Warranty

Warranty shall be provided beginning the date of the signal turn on for 36-months, including parts and labor.

Approved Products

The discreet camera dome system shall be:

- Pelco Spectra Enhanced S6230-EGL0 Network Dome Positioning Camera; or,
- IVC PTZ-HD30-16-30-POEu; or,
- Approved Equal.

Hardened Managed Ethernet PoE Switch

GENERAL

A DIN rail mounted Ethernet switch shall be furnished and installed by a manufacturer's representative.

The Ethernet switch shall be hardened for field use and shall meet the following specifications/features:

Operating Environment:

- Minimum Operating temperature range: -40°C to 75°C (-40°F to 167°F)
- <u>Ambient Relative Humidity</u>: 5% to 95%

Power

- <u>Input connection:</u> Terminal Block
- Input Voltage: +48VDC nominal
- POE Output Power: IEEEE802.3af: up to 15W/port
- Protection: Reverse polarity protection

Interface:

- Total Ethernet Ports: 6 RJ45 ports
 - o 10/100BASE-TX (w/POE): 2 or more RJ45
 - o 10/100/1000 Gigabit: 2 or more RJ45
- LED Indicators:
 - o Per Port: Link/Activity (green)
 - o Per PoE Port: PoE (orange)
 - o Per Unit: Power

Software Management and Security:

- Support DHCP Server/Client
- CLI, Telnet, and Web Browser interface
- Port mirroring: TX/RX and both
- NTP (Network Time Protocol) time synchronization
- Enable/Disable port
- MAC Address filtering
- SSH for CLI and Telnet security
- SSL for web security
- System Log
- Multi-level user account/password against unauthorized configuration

Layer 2 Features

- Auto-negotiation for port speed and duplex mode
- Flow Control
 - o IEEE802.3x full duplex mode
 - o Back-Pressure half duplex mode
- Redundant Protocol
 - o IEEE802.1D Spanning Tree Protocol (STP)
 - o IEEE802.1w Rapid Spanning Tree Protocol (RSTP)

- o IEEE802.1s Multiple Spanning Tree Protocol (MSTP)
- VLANs
 - o Port-based VLANs
 - o IEEE802.1Q Tag VLANs (128 groups, 4096 VID)
 - o GVRP (GARP VLAN Registration Protocol)
 - o GMRP (GARP Multicast Registration Protocol)

Other

- <u>Installation:</u> Din-Rail (Top hat type 35mm)
- Cooling: Fanless

Approved Products

Conductors And Wiring

Replace section 86-1.02F of the RSS for section 86 with:

86-1.02F Conductors and Cables

86-1.02F(1) General

Conductors and cables must be clearly and permanently marked the entire length of their outer surface with:

- 1. Manufacturer's name or trademark
- 2. Insulation-type letter designation
- 3. Conductor size
- 4. Voltage
- 5. Temperature rating
- 6. Number of conductors for a cable

The minimum insulation thickness and color code requirements must comply with NEC.

86-1.02F(2) Conductors 86-1.02F(2)(a) General

A conductor must be UL listed or NRTL certified and rated for 600 V(ac).

Conductors must be identified as shown in the following table:

Conductor Identification

	Identification				
		Insulation color ^d		Campan	
Circuit	Signal phase or function	Base	Stripe ^a	Band symbols	Copper Size
Circuit	2, 6	Red, yel, brn	Blk	2, 6	14

NBR = No band required PEU=Photoelectric unit

^aOn overlaps, the insulation is striped for the 1st phase in the designation, e.g., phase (2+3) conductor is striped as for phase 2.

^bBand for overlap and special phases as required

^cFlashing beacons having separate service do not require banding.

dColor Code: Yel-Yellow, Brn-Brown, Blu-Blue, Blk-Black, Wht-White, Ora-Orange, Pur-Purple

The insulation color must be homogeneous throughout the full depth of the insulation. The identification stripe must be continuous throughout the length of the conductor.

Conductors size no. 8 to size no. 2 must be aluminum except for bonding jumpers and equipment grounding conductors.

86-1.02F(2)(b) Aluminum Conductors

Not Used

86-1.02F(2)(c) Copper Conductors **86-1.02F(2)(c)(i)** General

Copper wire must comply with ASTM B3 and B8.

Insulation for no. 14 to no. 4 conductors must be one of the following:

- 1. Type TW PVC under ASTM D2219
- 2. Type THW PVC
- 3. Type USE, RHH, or RHW cross-linked polyethylene

The insulation for no. 2 and larger conductors must be one of the above or THWN.

86-1.02F(2)(c)(ii) Bonding Jumpers and Equipment Grounding Conductors

A bonding jumper must be copper wire or copper braid of the same cross-sectional area as a no. 8 conductor or larger.

An equipment grounding conductor may be bare or insulated.

86-1.02F(2)(c)(iii) Inductive Loop Conductors

An inductive loop conductor must comply with the requirements shown in the following table:

Conductor Requirements for Inductive Loop Detectors

Loop wire	Requirement
	Type RHW-USE neoprene-jacketed or Type USE cross-
Type 1	linked polyethylene, insulated, no. 12, stranded copper wire
	with a minimum 40-mils insulation thickness at any point.
	Type THWN or Type XHHW, no. 14, stranded copper wire
	in a plastic tubing. The plastic tubing must be polyethylene or
Type 2	vinyl rated for use at 105 °C and resistant to oil and gasoline.
	The outside diameter of the tubing must be at most 0.27 inch
	with a wall thickness of at least 0.028 inch.

86-1.02F(2)(d) Not Used 86-1.02F(3) Cables 86-1.02F(3)(a) General Not Used

86-1.02F(3)(b) Aluminum Cables **86-1.02F(3)(b)(i)** General Not Used

Contract No. 9606

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS

86-1.02F(3)(b)(ii) **Direct Burial Cables** Not Used

86-1.02F(3)(c) Not Used

86-1.02F(3)(d) Copper Cables 86-1.02F(3)(d)(i) General Not Used

86-1.02F(3)(d)(ii) Conductor Signal Cables

A conductor signal cable must have a black polyethylene jacket with an inner polyester binder sheath. The cable jacket must be rated for 600 V(ac) and 75 degrees C. Filler material, if used, must be polyethylene.

The individual conductors in the cable must be solid copper complying with ASTM B286 with Type THWN insulation. The minimum thickness of insulation must comply with NEC for conductor sizes no. 14 to no.10. The minimum thickness of the nylon jacket must be 4 mils.

Cable must comply with the requirements shown in the following table:

Cable type ^a	Conductor quantity and	-	cet thickness	Maximum nominal	Conductor color code
3) p 3	type	Average	Minimum	outside diameter (inch)	
3CSC	3 no. 14	44	36	0.40	Blue/black, blue/orange, white/black stripe
5CSC	5 no. 14	44	36	0.50	Red, yellow, brown, black, white
9CSC	8 no. 14 1 no. 12	60	48	0.65	No. 12 - white, no. 14 - red, yellow, brown, black, and red/black, yellow/black, brown/black, white/black stripe
12CS C	11 no. 14 1 no. 12	60	48	0.80	No. 12 - white, no. 14 - red, yellow, brown, red/black stripe, yellow/black stripe, brown/black stripe, black/red stripe, black/white stripe, black, red/white stripe, brown/white stripe
28CS C	27 no. 14 1 no. 10	80	64	0.90	No. 10 - white no. 14 - red/black stripe, yellow/black stripe, brown/black stripe, red/orange stripe, yellow/orange stripe, brown/orange stripe, red/silver stripe, yellow/silver stripe, brown/silver stripe, red/purple stripe, yellow/purple stripe, brown/purple stripe, brown/purple stripe, red/2 black stripes, brown/2 black stripes, red/2 orange stripes, brown/2 orange stripes, brown/2 orange stripes, brown/2 purple stripes, brown/2 purple stripes, blue/black stripe, blue/orange stripe, blue/silver stripe, white/black stripe, black/red stripe, black

86-1.02F(3)(d)(iii) Detector Lead-in Cables

Conductors for a loop detector lead-in cable must be two no. 16, 19-by-29, stranded, tinned copper wires with calculated cross-sectional areas complying with ASTM B286, Table 1 and the requirements shown in the following table:

Conductor Requirements for Loop Detector Lead-In Cables

Lead-in cable	Requirement
Type B	Insulated with 20 mils of high-density polyethylene. Conductors must be twisted together with at least 2 turns per foot, and the twisted pair must be protected with a copper or aluminum polyester shield. A minimum no. 20 copper drain wire must be connected to the equipment ground within the cabinet. Cable must have a high-density polyethylene or high-density polypropylene outer jacket with a nominal thickness of 32 mils. Include an amorphous, interior, moisture penetration barrier of nonhydroscopic polyethylene or polypropylene fillers.
Type C	Comply with International Municipal Signal Association Specification no. 50-2. A minimum no. 20 copper drain wire must be connected to the equipment ground within the cabinet.

--END RSS REPLACE--

Subparagraphs 2, 3, and 4 of the first paragraph of Section 87-1.03H(1), "General," of the Standard Specifications is deleted.

Splices shall be insulated by "Method B" of Section 87-1.03H(2)," "Splice Insulation Methods," of the Standard Specifications except detector lead-in cables.

Conductors shall be cabled in bundles, by phase, and identified by phase with permanent labels in the controller cabinet and at terminal pull boxes.

Multiple lighting conductors, signal light grounded conductors, and bonding conductors only, may be spliced.

"C" shaped compression connectors, as shown on the Plans, shall be used.

Insulation shall be Type THW PVC, and shall comply with Section 86-1.02H, "Splicing Materials," of the Standard Specifications.

Multiple conductor cable and detector lead-in/video cables shall be color coded as follows:

COLOR	SIGNAL STANDARD	DLC/VIDEO
Brown	A	Phase 1
Red	В	Phase 2
Orange	С	Phase 3
Yellow	D	Phase 4
Green	Е	Phase 5
Blue	F	Phase 6
Violet	G	Phase 7
Gray	Н	Phase 8
White	I	OVL A
Black	J	OVL B

Signal Interconnect Cable (SIC) shall be Superior Essex Sealpic cable, or approval equal 19 AWG 6-pair cable with white/blue, white/orange, white/green, white/brown, white/slate, and red/blue color coding. No other color coding is acceptable.

Fused Splice Connectors

Fused splice connectors will not be required.

Bonding And Grounding

Grounding jumper shall be attached by a 3/16 inch or larger brass bolt in the signal standard or controller pedestal and shall be run to the conduit, ground rod or bonding wire in adjacent pull box.

Grounding jumper shall be visible after cap has been poured on foundation.

Equipment grounding conductors will not be required in conduit containing loop lead-in cables only.

Green Wire #6 (cabinet ground) shall have a separate ground rod in pull box nearest to cabinet, with no other wire attached.

Conduit

Conduit shall be rigid galvanized metal or Type 3 Rigid non-metallic and shall conform to the provisions in Section 86-1.02B, "Conduit and Accessories," of the Standard Specifications and these Special Provisions.

When a standard coupling cannot be used for coupling metal-type conduit, a UL listed threaded union coupling.

Insulated bonding bushings will be required on metal conduit. All conduit shall be grounded together in all pull boxes and cabinets by means of a grounding jumper.

Conduit to be installed under pavement shall be installed by bore and jacking, directional drilling, or other approved methods which do not damage pavement.

After conductors have been installed, the ends of conduits terminating in pull boxes, and in service and controller cabinets shall be sealed with an approved type of sealing compound.

If Type 3 non-metallic conduit is used it shall be installed with a rigid galvanized metal elbow and riser into the termination pullbox, service, cabinet, and all other termination locations.

Pull Boxes

Pull boxes shall be polymer concrete ring, fiber reinforced polymer body with a ring color of concrete gray with "Traffic Signal Detector" OR "Service" stamped on lids.

The bottoms of pull boxes shall be grouted. Contractor's attention is directed to Section 87-1.03C, "Installation of Pull Boxes," of the Revised Standard Specifications.

Pull boxes shall a #6 box at a minimum. Larger sizes or extensions shall be installed where required by the National Electrical Code or where shown on the Plans.

Replace Reserved in section 86-1.02X of the RSS for section 86 with:

The electronic marker must be discrete or cast inside the pull box cover.

An electronic marker must:

- 1. Be passive
- 2. Be energized solely by electromagnetic energy received from the interrogating electronic marker locator
- 3. Operate over a temperature range from -4 to +122 degrees F
- 4. Operate at a frequency range between 30 kHz to 300 kHz and comply with FCC part 15
- 5. Have a watertight and moisture-resistant housing

In addition, a discrete electronic marker must:

- 1. Have a maximum diameter of 6 inches
- 2. Weigh a maximum of 2 lb
- 3. Be colored red for power and orange for communication circuits
- 4. Be self-leveling or omnidirectional

The electronic marker locator must:

- 1. Be compatible with the electronic marker
- 2. Detect the electronic marker in pull boxes buried under dirt, sand, or snow
- 3. Detect the electronic marker from a maximum distance of 5 feet vertically with a 6-inch offset
- 4. Have a headphone jack
- 5. Have a battery level indicator
- 6. Have a large character display
- 7. Have a numeric and audible signal strength indicator
- 8. Have a speaker volume adjustment

--END RSS REPLACE--

Communication Cables

Replace section 87-1.03F(2)(b) of the RSS for section 87 with:

87-1.03F(2)(b) Communication Cables

87-1.03F(2)(b)(i) General

Terminate the ends of the communication cables as shown.

87-1.03F(2)(b)(ii) Category **5E** and **6** Cables

Do not splice category 5E and 6 cables between components.

Provide a minimum of 3 feet of slack at each pull box and vault and minimum of 6 feet of slack at the cabinet.

When shown on the plans, Shielded Category 5E/6 cable shall be shielded and meet ISO/IEC 11801 Standards for F/UTP shielding.

--END RSS REPLACE--

Foundations

Portland cement concrete shall conform to Section 90-2, "Minor Concrete," of the Standard Specifications and shall contain no less than 470 pounds of cement per cubic yard, except concrete for reinforced pile foundations shall contain not less than 564 pounds of cement per cubic yard.

Signs

Signs shall be furnished and installed by the Contractor as shown on the Plans and as specified in the California Manual of Traffic Control Devices, 2014 Edition Revision 2.

The G7 street name signs shall be on diamond-grade reflective sheeting.

Street name text shall be white with 12-inch upper case, first character followed by 10-inch lower case characters for each word (ex... "County Road"), Clearview font, on a green background. Block numbers and arrows shall be white, four inches high, on a green background. Block numbers and arrow shall be located on the right hand side of the sign. Arrows shall be orientated toward the highest block number. The block shall be located above the arrow, see detail on the plans. Messages shall be on both sides of the signs unless otherwise indicated on the plans.

The Contractor shall provide and install signs as called for on the plans.

Two wraps of stainless steel Band-It-Band strapping 3/4" thick shall be used to hang all overhead signs. Band-It-Band buckles type 201 stainless steel shall be used with strapping. Hawkins Swing Sign Brackets 250 Series, Part Number M10J-OCB250AL and M10J-OCB250FL with Adjustable Length Swing Sign Bracket M10J-OCB250AL or approved equal shall be used. Signs shall have 2" x 2" x 1/8" "L" aluminum bracket for additional support.

Testing

The Contractor shall make the signals fully operational including entering timing settings provided by the Engineer into the controller and peripheral equipment.

The Contractor shall have present, a qualified field technician, who shall be qualified to perform testing and servicing on all systems of the installation.

Prior to scheduled turn on, the field technician shall perform all testing assignments. This testing shall include measurement of each loop installation utilizing a field loop tester/analyzer where inductive loops are installed. Based on the measurement of each loop, the final loop configuration shall be established in such manner as to generate a unique frequency for each adjacent loop system, (detector channel). This unique frequency shall be set such that in the natural state and in the detect state, the frequency does not enter the frequency range of any adjacent loop system. In addition to the frequency setting and adjustments, the loop configuration shall be such that peak tuning characteristics shall be maximized; i.e., the detect state shall be a minimum of a 3.0 reference value based on natural state reference. For loops rated less than a 3.5 reference value, the loops shall be configured to maximize the sensitivity of the loop closest to the stop bar.

The Contractor shall provide the Engineer with the detector test report as provided. This report shall include each detector as labeled on the drawing, and shall show the final loop configuration, the natural state frequency, the detect frequency, and the calculated reference value of each loop system.

In the presence of the Engineer, the Contractor shall flash test all circuits of each signal phase and both circuits of each pedestrian phase to confirm that the signal is wired properly before the signal is requested to be energized. The Contractor shall provide the Engineer with the signal flash report as provided.

Signal Energizing

The Contractor, after fully testing the new traffic signal equipment, will contact the Engineer to schedule signal energizing. Signals will only be allowed to be put into operation on Tuesdays, Wednesdays, and Thursdays. The Contractor will have the signal fully tested at least 24 hours before the signal is energized.

Functional Testing

Field Testing of the Signal and Lighting System should conform to the Section 87-1.01D(2) "Quality Control," of the Standard Specifications.

The functional test for each lighting system shall consist of not less than 14 days. If unsatisfactory performance of the system develops, the conditions shall be corrected and the test shall be repeated until the 14 days of continuous, satisfactory operation is obtained.

Service

Service shall conform to the provisions in Section 87-1.03L, "Utility Service", of the Standard Specification and these Special Provisions.

The Contractor shall include in his bid any and all costs due to the service installation. Metering shall be per standard plans. The Contractor shall coordinate with the utility agency for service connection.

Emergency Vehicle Detector System

The Contractor shall provide and install a 3M Emergency Vehicle Detector System per the plans and these Special Provisions with two phase selectors inside the controller cabinet compatible with optically activated receiver units. The Contractor shall provide and install optically activated receiver units with optical detector cable as shown on the plans.

Two emitters shall be supplied by the Contractor. The Contractor shall not responsible for the installation of the emitters on emergency vehicles. The emitters shall be delivered to the Engineer.

The Contractor shall be responsible for making the optical Emergency Vehicle Detector System operational, as per supplier's requirements.

The phase selectors, optical emitter, optically activated receiver units, and optical detector cable shall meet the following specifications:

OPTICALLY ACTIVATED, DATA-ENCODED, TRAFFIC SIGNAL PRIORITY CONTROL SYSTEM

The required priority control system will employ data-encoded optical communication to identify the presence of designated priority or probe vehicles. A record of the vehicle by classification and identification number shall be created. In priority vehicle mode, the data-encoded optical communication will request the traffic signal controller to advance to and/or hold a desired traffic signal display selected from phases normally available. In probe vehicles mode, no traffic signal priority is requested-only a record of the probe vehicle's presence is generated.

The priority control system will consist of a matched system of optical emitters, optical detectors, optical detector cable, phase selectors, and system software.

The emitter will generate an infrared, data-encoded optical signal. The optical signal will be detected and recognized by the optical detectors at or near the intersection over a line-of-sight path of up to 2,500 ft. (762m) under clear atmospheric conditions. The phase selector will process the signal from the detector to ensure that the signal (1) is valid base frequency, (2) is correctly data-encoded, and (3) is within user-settable range. If these conditions are met, the phase selector will generate a priority control request (i.e., a green light) for the approaching priority vehicles, or record the presence of approaching probe vehicles by classification and identification number.

The system will require no action from the vehicle operator other than to turn the emitter on. The system will operate on a first-come, first-served basis. Higher priority (Command) requests will override lower priority (Advantage) requests. The system will interface with most traffic signal controllers and will not compromise normal operation or existing safety provisions.

Matched System Components

The required priority control data-encoded optical communications system will be comprised of five basic matched components: optical emitter, optical detector, detector cable, phase selector and system software. To ensure system integrity, operation, and compatibility, all components will be from the same manufacturer. The system will offer compatibility with most signal controllers, e.g., electromechanical, NEMA (National Electrical Manufacturers Association), 170. Interfacing to an electromechanical controller may require the use of an interface card.

- A. Data-Encoded Emitter. The data-encoded emitter will trigger the system. It will send the encoded infrared signal to the optical detector. It will be located on the priority or probe vehicle.
- B. Optical Detector. The optical detector will change the infrared signal to an electrical signal. It will be located at or near the intersection. It will send the electrical signal, via the optical detector cable to the phase selector.
- C. Optical Detector Cable. The optical detector cable will carry the electrical signal from the detector to the phase detector.
- D. Phase Selector. The phase selector will accommodate data-encoded communication and will validate, identify, classify and record the signal from the detector. It will be located within the controller cabinet at the intersection. It will request the controller to provide priority to the requesting vehicle and/or record presence of a probe vehicle.
- E. Card Rack. The card rack will provide simplified installation of a phase selector into controller cabinets that do not already have a suitable card rack.

- F. System Software. The system software will be a WindowsTM 95 compliant program. It supports system configuration and gathering of operational information.
- G. Electromechanical Card. The electromechanical card shall provide electrical interface between the phase selector and electromechanical-type traffic controllers.

System Component Specifications

- A. Data-Encoded Optical Emitter
- 1. The required data-encoded emitter will generate the optical signal, which serves as the trigger to the rest of the priority control system. The optical signal generated by the emitter will be a series of data-encoded flashes from a single light source. The flash signal will consist of a fixed frequency base signal and a coded overlay signal that can be used to transmit information.
- 2. The data-encoded emitter will be powered by the DC voltage supplied from the vehicle's battery, 10 to 16 volts DC.
- 3. The flash sequence generated by the data-encoded emitter will carry three types of information:
- (a) The first type will be the base frequency of either 9.63855HZ+/-0.0014HZ for an Advantage priority emitter, or 14.03509HZ +/-0.003HZ for a Command priority emitter.
- (b) The second type of information generated by the data-encoded emitter will be a vehicle classification and identification code that is interleaved into the base frequency flashes. Setting the vehicle classification and identification code will be accomplished through four, 10-position rotary switches located in the power supply of the data-encoded emitter. Each data-encoded emitter will be capable of setting a minimum of 10 different classifications with 1,000 different identification numbers per class for Command priority and an equal number for Advantage priority, for a total of 10,000 codes for each priority.
- (c) The third type of information generated by the data-encoded emitter will be reserved for the intersection detection range. The system will enable the Traffic Engineer to manually activate the range code from his/her vehicle using an emitter ON/OFF switch equipped with a special SET RANGE push button. The system configured with a clear lens, will accommodate setting a separate range from 200 feet to 2,500 feet for both Command or Advantage priority signals. The system, configured with a visible light filter, will accommodate setting a separate range from 200 feet to 1,800 feet for both Command or Advantage priority signals.
- 4. While operating, the data-encoded emitter will conduct self-diagnostics designed to check for data transmission integrity. Any failures of the self-diagnostic tests shall be displayed by flashing of the indicator light.
- 5. Each data-encoded emitter will be supplied with ON/OFF switch. The switch will be equipped with an indicator light providing internal diagnostics that will assist in troubleshooting. The indicator light will operate as follows:
- (a) Steady on when the data-encoded emitter is operating.

- (b) Flash at 0.5HZ rate when the data-encoded emitter is disabled.
- (c) Flash at a 4HZ rate when the emitter is missing pulses.
- 6. The data-encoded emitter will be supplied complete with all cables needed for installation. The cable that connects the flash head to the power supply will be pre-assembled with connectors for both ends; it will be available in two lengths, 4 feet and 15 feet. The cable that connects the power supply to the vehicle battery will have a connector on the power supply end and no connector on the battery end; it will be at least 25 feet in length.
- 7. The data-encoded emitter will be equipped with a disable input that, when activated, will cease unit operation, thereby eliminating the possibility of inadvertent signal transmission after the priority vehicle has arrived at its destination. The unit will start up with a disable input active.
- 8. The data-encoded emitter will operate over a temperature range of -30F° to +140F°.
- 9. The data-encoded emitter will operate over a relative humidity range of 5% to 95%.
- B. Optical Detector
- 1. The required optical detector will be a lightweight, weatherproof device capable of sensing and transforming pulsed optical energy into electrical signals for use by the phase selection equipment.
- 2. The optical detector will be designed for mounting at or near an intersection on mast arms, pedestals, pipes or span wires.
- 3. Each optical detector will be supplied with mounting hardware to accommodate installation on mast arms. Additional hardware shall be available for span wire installations.
- 4. The optical detector design shall include adjustable tubes to enable their reorientation for span wire mounting without disassembly of the unit.
- 5. The optical detector will accept optical signals from one or two directions and will provide single or dual electrical output signal(s).
- 6. The optical detector will be available in three configurations:
- (a) Uni-directional with one output channel.
- (b) Bi-directional with one output channel
- (c) Bi-directional with two output channels.
- 7. The optical detector will allow aiming of the two optical sensing inputs for skewed approaches or slight curves.
- 8. The optical detector will have a built-in terminal block to simplify wiring connections.

- 9. The optical detector will receive power from the phase selector and will have internal voltage regulation to operate from 18 to 37 volts DC.
- 10. The optical detector will respond to a clear lens data-encoded optical emitter at a distance of 2,500 feet under clear atmospheric conditions. If the emitter is configured with a visible light filter, the detector will respond at a distance of 1,800 feet under clear atmospheric conditions. The noted distances shall be comparable day and night.
- 11. The optical detector will deliver the necessary electrical signal to the phase selector via an optical detector cable up to 1,000 feet in length.
- C. Optical Detector Cable
- 1. The optical detector cable shall deliver sufficient power from the phase selector to the optical detector and will deliver the necessary quality signal from the detector to the phase selector over a non-spliced distance of 1,000 feet.
- 2. The cable will be of durable construction to satisfy the following installation methods:
- (a) Direct burial
- (b) Conduit and mast arm pull.
- (c) Exposed overhead (supported by messenger wire).
- 3. The outside diameter of the optical detector cable will not exceed 0.3 inches.
- 4. The insulation rating of the optical detector cable will be 600 volts minimum.
- 5. The temperature rating of the optical detector cable will be +167F° minimum.
- 6. The conductors will be shielded with aluminized polyester and have an AWG #20 (7 x 28) stranded and individually tinned drain wire to provide signal integrity and transient protection.
- 7. The optical detector will allow aiming of the two optical sensing inputs for skewed approaches or slight curves.
- (a) Orange for delivery of optical detector power (+).
- (b) Drain wire for optical detector power return (-).
- (c) Yellow for optical detector signal #1.
- (d) Blue for optical detector signal #2.
- 8. The characteristic impedance of the detector cable shall be: 0.6ohms/1000" 14.3F/1000'

- 9. The shield wrapping will have a 20% overlap to ensure shield integrity following conduit and mast arm pulls.
- D. Phase Selector
- The phase selector, designed to be installed in the traffic controller cabinet, will accommodate dataencoded signals and is intended for use directly with numerous controllers. These include California/New York Type 170 controllers with compatible software, NEMA controllers, or other controllers along with the system chassis and suitable system interface equipment and controller software.
- 2. The phase selector will be a plug-in, two or four channel, multiple-priority device intended to be installed directly into a card rack located within the controller cabinet.
- 3. The phase selector will be powered from 115 volt (95 volts AC to 135 volts AC), 60Hz mains and will contain an internal, regulated power supply that supports up to twelve optical detectors.
- 4. Programming the phase selector and retrieving the data stored in it will be accomplished using an IBM PC-compatible computer and the system interface software. The connection can be made either directly, via the computer's communication (COM) port, or remotely via a modem. The communication port on the phase selector will be an RS232 interface located on the front and back of the unit
- 5. The phase selector will have the capability of storing up to 1,000 of the most recent priority control calls. When the log is full, the phase selector will drop the oldest entry to accommodate the new entry. The phase selector will store the record in non-volatile memory and will retain the record if power terminates. Each record entry will include nine points of information about the priority call, as follows:
- (a) Classification: Indicates the type of vehicle.
- (b) Identification number: Indicates the unique ID number of the vehicle.
- (c) Priority level: Indicates whether Command or Advantage priority, or Probe frequency is requested by the vehicle.
- (d) Director: Channel A, B, C, or D: Indicates the vehicle's direction of travel.
- (e) Call duration: Indicates the total time in seconds the priority status is active.
- (f) Final greens at end of call: Indicates which phases are green.
- (g) Duration of final greens: Indicates the total time of priority greens.
- (h) Time and date call ended: Indicates the time a priority status ended; provided in second, minute, hour, day, month, and year.
- (i) Maximum signal intensity: Indicates the strongest signal intensity measured by the phase selector during call.

- (j) Priority output active: Indicates if the phase selector requested priority from the controller for the call.
- 6. The phase selector will include several control timers that will limit or modify the duration of a priority control condition, by channel, and can be programmed from a PC-type computer. The control timers will be as follows:
- (a) MAX CALL TIME: Will set the maximum time a channel is allowed to be active. It will be settable from 120 to 65,535 seconds in one-second increments. Its factory default must be the maximum time.
- (b) CALL EXTENSION TIME: Will set the time a call is held on a channel after the priority signal is no longer being received. It will be settable from one to 255 seconds in one-second increments. Its factory default must be six seconds.
- (c) CALL DELAY TIME: Will set the time a call must be recognized before the phase selector activates the corresponding output. It will be settable from zero to 255 seconds in one-second increments. Its factory default must be zero seconds.
- 7. The phase selector's default values shall be re-settable by the operator using and IBM PC-compatible computer, or manually using the switches located on its front.
- 8. The phase selector will be capable of three levels of discrimination of data-encoded optical signals as follows:
- (a) Verification of the presence of the base optical signal of either 14.03509Hz for Command priority, 9.63855Hz for Advantage priority or 11.25870HZ ± 0.0114 Hz for Probe frequency.
- (b) Determination of when the vehicle is within the predetermined range.
- (c) Validation of the optical signal data-encoded pulses.
- 9. The phase selector's card edge connector will include primary optical detector inputs and power outputs. Two additional detector inputs per channel will be provided on a front panel connector.
- 10. The phase selector will include one opto-isolated NPN output per channel that provides the following electrical signal to the appropriate pin on the card edge connector:
- (a) $6.25HZ \pm 0.1HZ$ 50% on/duty square wave in response to an Advantage priority call.
- (b) A steady ON in response to a Command priority call.
- 11. The phase selector will accommodate three methods for setting the high and low priority optical sensitivity (emitter range):
- (a) Using an encoded emitter with range-setting capability.
- (b) Using any optical emitter by manipulating the front panel switches.

- (c) Inputting the information via the communication port.
- 12. The phase selector will have a solid state POWER ON LED indicator that flashes to indicate unit diagnostic mode and illuminates steadily to indicate proper operation.
- 13. The phase selector will have internal diagnostics to test for proper operation. If a fault is detected, the phase selector will use the front panel LED indicators to display fault information.
- 14. The phase selector will have a Command (High) and Advantage (Low) solid state LED indicator for each channel to display active calls.
- 15. The phase selector will have a test switch for each channel to test proper operation of Command or Advantage priority.
- 16. The phase selector will properly identify a Command priority call with the presence of 10 Advantage priority data-encoded emitter signals being received simultaneously on the same channel.
- 17. The phase selector will have write-on pads to allow identification of the phase and channel.
- 18. The phase selector will have a test for each channel to test proper operation of Command or Advantage priority.
- 19. The phase selector shall provide one isolated confirmation light control output per channel. These outputs are user configurable through software for a variety of confirmation light sequences.
- 20. The NEMA model of the phase selector shall have outputs for the control of NEMA controllers that lack internal preemption capability. The function shall be accomplished through the use of Manual Control Enable, Interval Advance and Phase Omit signals.
- 21. The phase selector shall have the capability of recording the presence of a vehicle transmitting at the specified Probe frequency. The phase selector shall at no time attempt to modify the intersection operation in response to the Probe frequency.
- 22. The phase selector shall have the capability of providing Advantage priority in a mode where the output to the controller is gated or controlled by timing relationships within the controller cycle.
- 23. The phase selector shall have the capability to assign a relative priority to a call request within Command or Advantage priority. This assignment is based on the received vehicle ID class.
- 24. The phase selector shall have the capability to discriminate between individual ID codes, and allow or deny a call output to the controller based on this information.
- 25. The phase selector shall have the capability to log call requests by unauthorized vehicles.
- 26. The phase selector shall have the ability to command an emitter to relay a received code to the next intersection.

- 27. The selector shall have the capability of functionally testing connected detector circuits and indicating via front panel of LED's non-functional detector circuits.
- 28. The phase selector shall incorporate a precision real time clock synchronized to the utility AC power line frequency.
- 29. The phase selector shall include an auxiliary interface panel to facilitate interconnections between the phase selector and traffic cabinet wiring.
- E. Card Rack
- 1. The required card rack will provide simplified installation of a phase selector into controller cabinets that do not already have a suitable card rack.
- 2. The card rack will be factory wired to one connector, located under the card slot, and a terminal block, located next to the phase selector slot, on the front of the card rack.
- 3. The card rack connector on the front will provide for all connections to the traffic controller.
- 4. The card rack will provide labeled terminal blocks for connecting the primary optical detectors to a phase selector.
- F. Interface Card for Electromechanical Controllers
- 1. The required interface card for electromechanical controllers will provide electrical and logic interface between the phase selector and an electromechanical-type controller.
- 2. The inputs to the interface card for electromechanical controllers will be connected to the outputs of the phase selector.
- 3. The outputs of the interface card for electromechanical controllers will be connected to the Hand Control Switch or Police Panel where the dial motor and its self-generated solenoid advance pulses are disconnected from the cam/solenoid assembly and replaced by pulses generated by the action of the Hand Control Switch in the electromechanical-type controller.
- 4. The interface card for electromechanical controllers will decode the outputs of the phase selector(s) and advance the controller to the phase that is set for that channel by sensing the traffic controller signal indications.
- 5. The interface card for electromechanical controllers will have one input to disable the interface card.
- 6. The interface card for electromechanical controllers will include the following switches:
- (a) Channel 1 Green Time: 16-position rotary switch; Controls timing between advance pulses, in seconds, when in Phase 1 green.
- (b) Channel 2 Green Time: 16-position rotary switch; Controls timing between advance pulses, in seconds, when in Phase 2 green.

- (c) Channel 3 Green Time: 16-position rotary switch; Controls timing between advance pulses, in seconds, when in Phase 3 green.
- (d) Channel 4 Green Time: 16-position rotary switch; Controls timing between advance pulses, in seconds, when in Phase 4 green.
- (e) NON Green Time: 16-position rotary switch; Controls timing between advance pulses, in seconds, when no indications are green.
- (f) Power Switch.
- G. Interface Software
- 1. The priority control interface software will be provided on 3.5", 1.44MB diskettes to interface with the phase selector. It must run on most IBM-compatible computers equipped with at least 512 KB RAM, Windows™ 95 and color VGA display capability.
- 2. The priority control interface software must accommodate:
- (a) Setting up and presenting user-determined system parameters.
- (b) Viewing and changing settings.
- (c) Viewing activity screens.
- (d) Displaying and/or downloading records of previous activity showing class, code, priority, direction, call duration, final greens at end of call, duration of final greens, time call ended in real time plus maximum signal intensity (vehicle location information). This information may be used to reconstruct the route taken by a priority (or probe) vehicle to track the vehicle.
- 3. The priority control interface software must accommodate operation via a mouse or via the keyboard, or in combination.
- 4. The priority control interface software must provide menu displays to enable:
- (a) Setting of valid vehicle ID classes and codes.
- (b) Establishing signal intensity thresholds (detection ranges), modem initialization, intersection name and timing parameters.
- (c) Setting of desired green signal indications during priority control operation and upload and download capability to view.
- (d) Resetting and/or retrieving logged data and priority vehicle activity.
- (e) Addressing for each card in a multi-drop connected system.
- (f) Confirmation light configuration.

(g) NEMA Control Parameters.

Reliability

- A. All equipment supplied as part of the optical priority control system intended for use in the controller cabinet will meet the following electrical and environmental specifications spelled out in the NEMA Standards Publication TS2 1992, Part 2.
- 1. Line voltage variations per NEMA TS2 1992, Paragraph 2.1.2.
- 2. Power source frequency per NEMA TS2 1992, Paragraph 2.1.3.
- 3. Power source noise transients per NEMA TS2 1992, Paragraph 2.1.6.1.
- 4. Temperature range per NEMA TS2 1992, Paragraph 2.1.5.1.
- 5. Humidity per NEMA TS2 1992, Paragraph 2.1.45.2.
- 6. Shock test per NEMA TS2 1992, Paragraph 3.13.9.
- 7. Vibration per NEMA TS2 1992, Paragraph 3.13.8.
- B. Each piece of equipment supplied as part of the priority control system intended for use in or on priority vehicles will operate properly across the entire spectrum of combinations of environmental conditions (temperature range, relative humidity, vehicle battery voltage) per the individual component specifications.

Qualifications

- A. The manufacturer of the required optical priority control system will verify the proven, safe operation of the system's optical communication technology. Upon request, the manufacturer will produce a list of 20 user agencies having two years or more experience interfacing priority control equipment with electromechanical, solid-state and programmable controller types.
- B. The manufacturer will demonstrate the ability to finance ongoing technical support, written product warranties, and responsibility for product failure.
- C. Upon request, the manufacturer will produce a copy of its last full year and four previous years' corporate financial statements.
- D. The manufacturer will have an independent quality department that has complete authority to control product integrity and is answerable only to the senior officer of the organization.

Responsibilities

A. The manufacturer of the required optical priority control system and/or the manufacturer's representative will provide responsive service before, during and after installation of the priority control system. The manufacturer and/or the manufacturer's representative, as consultants to the installer, will provide certified, trained technicians having traffic systems industry experience and operational knowledge of priority control systems.

- B. The lowest fully responsive bidder will be required to supply working production components specified in the Specifications within 14 calendar days from the bid opening date. Failure to do so will render the bid non-responsive.
- C. Paragraph B will not be required if, prior to the bid opening, the bidder demonstrated to the County that the equipment bid meets these specifications.

Substantiated Warranty

- A. The manufacturer of the required optical priority control system will warrant that, provided the priority control system has been properly installed, operated and maintained, component parts of a matched component system (see Section II) that prove to be defective in workmanship and/or material during the first five years from the date of shipment from the manufacturer will be covered in a documented system-protection plan, plus an added five-year warranty for repair or replacement at a fixed deductible charge for a total of 10 years of product coverage.
- B. In addition, upon request, the manufacturer will provide documentation proving ability to financially support the 10-year provisions of the warranty. Documentation will include appropriate financial reports for the previous five business years.
- C. The protection plan will warrant that component parts of a matched component system that prove to be defective in workmanship and/or material during the first five years from the date of shipment from manufacturer will be repaired at no charge, and that extended coverage with a fixed repair deductible will be available for an additional five years.
- D. In total, the warranty coverage must assure that system components will be available to allow system operation during the 10-year warranty period.
- E. A copy of the manufacturer's written warranty outlining the conditions stated above will be supplied with the bid.

Certificate Of Insurance

The manufacturer of the required optical priority control system will provide a certificate of product liability insurance protection for \$5,000,000 assuring the priority control user that the manufacturer is insured against civil damages if proven to be at fault for an accident due to equipment failure within the system of matched priority control components. This certificate, however, need not, and is not meant to provide liability insurance protection to the priority control system dealer, installer or user.

User Support Services

The manufacturer of the required optical priority control system will offer support programs to assist the purchase and implementation of a priority control system program, including:

- A. A preferred lease program to finance purchase of a system.
- B. Public relations assistance to promote the system within the user community.
- C. Intersection survey service to document appropriate equipment interfaces.
- D. Customized proposals to assist the procurement process.

Contract No. 9606

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS

Certification

The manufacturer of the required priority control system will certify that all component products are designed, manufactured and tested as a system of matched components and will meet or exceed the requirements of this specification.

Measurement And Payment

Per the requirements of Section 9-1.16B "Schedule of Values", of the Standard Specifications, and Section 86-1.01C "Submittals" of the RSS, the Contractor shall submit to the County a cost breakdown of the items of work included in the lump sum price for Traffic Signal and Lighting, at the locations specified. This cost breakdown shall be provided to the Engineer for review and approval prior to

Contract No. 9606

COUNTY OF STANISLAUS DEPARTMENT OF PUBLIC WORKS

commencement of the project. The reviewed and approved cost breakdown will be used to determine and justify partial payments during the progress of the work.

Full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work required in this section shall be considered as included in the contract lump sum price paid for Traffic Signal and Lighting, at the locations specified, and no additional compensation will be allowed.
