

# Modesto Reservoir Regional Park Marina Fuel Station Upgrade

The Project's purpose is to upgrade and retrofit existing fuel dispensing facilities used for boating activities. The improvement plans were developed and project was advertised for construction August, 2016. The bid opening was scheduled for September 21, 2016. During the bid opening, only one bid was submitted for the construction of proposed improvements. The submitted bid significantly exceeded available funding, provide by Parks Department, for this project. Therefore, the Parks Department decided to reject the bid and revise the plans to reduce the scope of the project. Once plans are revised, the project will be re-advertised for construction with reduce construction scope.
