

PROJECT NAME: Roadside Drainage Improvements Phase A

CALRECYCLE GRANT PROGRAM: 2016-17 Tire-Derived Aggregate Grant Program

TERM OF GRANT AGREEMENT: April 10, 2017 – April 1, 2019

TOTAL GRANT NOT TO EXCEED: \$35,733.00

PROJECT DESCRIPTION: The project consists of placing approximately 506 tons of tire derived aggregate (TDA) as bottom fill for roadside horizontal drains at various locations in Stanislaus County. The TDA will be covered with three feet of drain rock. The project will divert an estimated 50,600 waste tires in California from the waste stream.
