Phase C

About the Project

This project consists of the application of rapid setting slurry and asphalt rubber chip seal on 25 miles of roadway in the areas of Del Rio, Denair, and the Cowan Tract which lies southwest of Ceres. The purpose of this project is to extend the life of the roads by preserving the pavement with various treatment options. This project also includes road preparation crack treatment, and pavement striping.

Date: 05/14/2020
Project No. 9653

Project Benefits

- Extends Life of Roads

What to Expect During Construction

- Traffic Delays
- Road Closures
- Noise

Hours

Monday - Friday
7:00 am - 5:00 pm
