To allow for the unfettered trading of property and minimize the cost of administration, the State of California places the responsibility for the payment of property taxes on the property owner.

If the first installment (or half) is paid after the end of the month following the month the bill was mailed or December 10 (depending on the due date noted on the bill) then a 10% penalty must be added to the original tax.

If the second installment (or half) is paid after four months following the first installment delinquent date or April 10 (depending on the due date noted on the bill) then a 10% penalty and \$10.00 cost must be added to the original tax.

Public services are provided and cannot be withheld like private services so the "incentive" to pay taxes on time is to avoid having to pay with penalty.

Rarely are exceptions made to the addition of the penalties because they are based solely on the time of payment. The taxpayer either paid on time (on or before December 10 or April 10) or the taxpayer paid after those dates.

Waiver of a penalty, while very rare, is permitted under State law for the following reasons:

(Please select the following reason/s which applies to you).

The taxpayer made every reasonable effort but could not make payment because of circumstances outside of the taxpayer's normal control. Examples:

- U.S. Postal Service delay causing late postmark;
Postal Service misdirecting payment (please enclose the envelope showing misdirection);
All taxpayers (Assesseees) associated with a parcel hospitalized prior to, on and extending after the deadline

A local, state or federal court orders the penalty cancellation.

There has been an administrative error as verified by the Stanislaus County Assessor, Auditor-Controller or Tax Collector. (Documentation attached)
