California WIC § 5346

(a) In any county in which services are available as provided in Section 5348, a court may order a person who is the subject of a petition filed pursuant to this section to obtain assisted outpatient treatment if the court finds, by clear and convincing evidence, that the facts stated in the verified petition filed in accordance with this section are true and establish that all of the requisite criteria set forth in this section are met, including, but not limited to, each of the following:

(1) The person is 18 years of age or older.

(2) The person is suffering from a mental illness as defined in paragraphs (2) and (3) of subdivision (b) of Section 5600.3.

(3) There has been a clinical determination that the person is unlikely to survive safely in the community without supervision.

(4) The person has a history of lack of compliance with treatment for his or her mental illness, in that at least one of the following is true:

(A) The person's mental illness has, at least twice within the last 36 months, been a substantial factor in necessitating hospitalization, or receipt of services in a forensic or other mental health unit of a state correctional facility or local correctional facility, not including any period during which the person was hospitalized or incarcerated immediately preceding the filing of the petition.

(B) The person's mental illness has resulted in one or more acts of serious and violent behavior toward himself or herself or another, or threats, or attempts to cause serious physical harm to himself or herself or another within the last 48 months, not including any period in which the person was hospitalized or incarcerated immediately preceding the filing of the petition.

(5) The person has been offered an opportunity to participate in a treatment plan by the director of the local mental health department, or his or her designee, provided the treatment plan includes all of the services described in Section 5348, and the person continues to fail to engage in treatment.

(6) The person's condition is substantially deteriorating.

(7) Participation in the assisted outpatient treatment program would be the least restrictive placement necessary to ensure the person's recovery and stability.

(8) In view of the person's treatment history and current behavior, the person is in need of assisted outpatient treatment in order to prevent a relapse or deterioration that would be likely to result in grave disability or serious harm to himself or herself, or to others, as defined in Section 5150.

(9) It is likely that the person will benefit from assisted outpatient treatment.

California WIC § 5348

(a) For purposes of subdivision (e) of Section 5346 , a county that chooses to provide assisted outpatient treatment services pursuant to this article shall offer assisted outpatient treatment services including, but not limited to, all of the following:

(1) Community-based, mobile, multidisciplinary, highly trained mental health teams that use high staff-to-client ratios of no more than 10 clients per team member for those subject to court-ordered services pursuant to Section 5346 .

(2) A service planning and delivery process that includes the following:

(A) Determination of the numbers of persons to be served and the programs and services that will be provided to meet their needs. The local director of mental health shall consult with the sheriff, the police chief, the probation officer, the mental health board, contract agencies, and family, client, ethnic, and citizen constituency groups as determined by the director.

(B) Plans for services, including outreach to families whose severely mentally ill adult is living with them, design of mental health services, coordination and access to medications, psychiatric and psychological services, substance abuse services, supportive housing or other housing assistance, vocational rehabilitation, and veterans' services. Plans shall also contain evaluation strategies, which shall consider cultural, linguistic, gender, age, and special needs of minorities and those based on any characteristic listed or defined in Section 11135 of the Government Code in the target populations. Provision shall be made for staff with the cultural background and linguistic skills necessary to remove barriers to mental health services as a result of having limited-English-speaking ability and cultural differences. Recipients of outreach services may include families, the public, primary care physicians, and others who are likely to come into contact with individuals who may be suffering from an untreated severe mental illness who would be likely to become homeless if the illness continued to be untreated for a substantial period of time. Outreach to adults may include adults voluntarily or involuntarily hospitalized as a result of a severe mental illness.

(C) Provision for services to meet the needs of persons who are physically disabled.

(D) Provision for services to meet the special needs of older adults.

(E) Provision for family support and consultation services, parenting support and consultation services, and peer support or self-help group support, if appropriate.

(F) Provision for services to be client-directed and to employ psychosocial rehabilitation and recovery principles.

(G) Provision for psychiatric and psychological services that are integrated with other services and for psychiatric and psychological collaboration in overall service planning.

(H) Provision for services specifically directed to seriously mentally ill young adults 25 years of age or younger who are homeless or at significant risk of becoming homeless. These provisions

California WIC § 5348

may include continuation of services that still would be received through other funds had eligibility not been terminated as a result of age.

(I) Services reflecting special needs of women from diverse cultural backgrounds, including supportive housing that accepts children, personal services coordinator therapeutic treatment, and substance treatment programs that address gender-specific trauma and abuse in the lives of persons with mental illness, and vocational rehabilitation programs that offer job training programs free of gender bias and sensitive to the needs of women.

(J) Provision for housing for clients that is immediate, transitional, permanent, or all of these.

(K) Provision for clients who have been suffering from an untreated severe mental illness for less than one year, and who do not require the full range of services, but who are at risk of becoming homeless unless a comprehensive individual and family support services plan is implemented. These clients shall be served in a manner that is designed to meet their needs.

(3) Each client shall have a clearly designated mental health personal services coordinator who may be part of a multidisciplinary treatment team that is responsible for providing or assuring needed services. Responsibilities include complete assessment of the client's needs, development of the client's personal services plan, linkage with all appropriate community services, monitoring of the quality and follow through of services, and necessary advocacy to ensure each client receives those services that are agreed to in the personal services plan. Each client shall participate in the development of his or her personal services plan, and responsible staff shall consult with the designated conservator, if one has been appointed, and, with the consent of the client, shall consult with the family and other significant persons as appropriate.

(4) The individual personal services plan shall ensure that persons subject to assisted outpatient treatment programs receive age-appropriate, gender-appropriate, and culturally appropriate services, to the extent feasible, that are designed to enable recipients to:

(A) Live in the most independent, least restrictive housing feasible in the local community, and, for clients with children, to live in a supportive housing environment that strives for reunification with their children or assists clients in maintaining custody of their children as is appropriate.

(B) Engage in the highest level of work or productive activity appropriate to their abilities and experience.

(C) Create and maintain a support system consisting of friends, family, and participation in community activities.

(D) Access an appropriate level of academic education or vocational training.

(E) Obtain an adequate income.

(F) Self-manage their illnesses and exert as much control as possible over both the day-to-day and long-term decisions that affect their lives.

California WIC § 5348

(G) Access necessary physical health care and maintain the best possible physical health.

(H) Reduce or eliminate serious antisocial or criminal behavior, and thereby reduce or eliminate their contact with the criminal justice system.

(I) Reduce or eliminate the distress caused by the symptoms of mental illness.

(J) Have freedom from dangerous addictive substances.

(5) The individual personal services plan shall describe the service array that meets the requirements of paragraph (4), and to the extent applicable to the individual, the requirements of paragraph (2).

(b) A county that provides assisted outpatient treatment services pursuant to this article also shall offer the same services on a voluntary basis.

(c) Involuntary medication shall not be allowed absent a separate order by the court pursuant to Sections 5332 to 5336 , inclusive.

(d) A county that operates an assisted outpatient treatment program pursuant to this article shall provide data to the State Department of Health Care Services and, based on the data, the department shall report to the Governor and the Legislature on or before May 1 of each year regarding the services the county provides pursuant to this article. The report shall include, at a minimum, an evaluation of the effectiveness of the strategies employed by each program operated pursuant to this article in reducing homelessness and hospitalization of persons in the program and in reducing involvement with local law enforcement by persons in the program. The evaluation and report shall also include any other measures identified by the department regarding persons in the program and all of the following, based on information that is available:

(1) The number of persons served by the program and, of those, the number who are able to maintain housing and the number who maintain contact with the treatment system.

(2) The number of persons in the program with contacts with local law enforcement, and the extent to which local and state incarceration of persons in the program has been reduced or avoided.

(3) The number of persons in the program participating in employment services programs, including competitive employment.

(4) The days of hospitalization of persons in the program that have been reduced or avoided.

(5) Adherence to prescribed treatment by persons in the program.

(6) Other indicators of successful engagement, if any, by persons in the program.

(7) Victimization of persons in the program.

California WIC § 5348

- (8) Violent behavior of persons in the program.
- (9) Substance abuse by persons in the program.
- (10) Type, intensity, and frequency of treatment of persons in the program.
- (11) Extent to which enforcement mechanisms are used by the program, when applicable.
- (12) Social functioning of persons in the program.
- (13) Skills in independent living of persons in the program.
- (14) Satisfaction with program services both by those receiving them, and by their families, when relevant.

*Excerpt from

California WIC § 5600.3

(b)(1) Adults and older adults who have a serious mental disorder.

(2) For the purposes of this part, “serious mental disorder” means a mental disorder that is severe in degree and persistent in duration, which may cause behavioral functioning which interferes substantially with the primary activities of daily living, and which may result in an inability to maintain stable adjustment and independent functioning without treatment, support, and rehabilitation for a long or indefinite period of time. Serious mental disorders include, but are not limited to, schizophrenia, bipolar disorder, post-traumatic stress disorder, as well as major affective disorders or other severely disabling mental disorders. This section shall not be construed to exclude persons with a serious mental disorder and a diagnosis of substance abuse, developmental disability, or other physical or mental disorder.

(3) Members of this target population shall meet all of the following criteria:

(A) The person has a mental disorder as identified in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders, other than a substance use disorder or developmental disorder or acquired traumatic brain injury pursuant to subdivision (a) of Section 4354 unless that person also has a serious mental disorder as defined in paragraph (2).

(B)(i) As a result of the mental disorder, the person has substantial functional impairments or symptoms, or a psychiatric history demonstrating that without treatment there is an imminent risk of decompensation to having substantial impairments or symptoms.

(ii) For the purposes of this part, “functional impairment” means being substantially impaired as the result of a mental disorder in independent living, social relationships, vocational skills, or physical condition.

(C) As a result of a mental functional impairment and circumstances, the person is likely to become so disabled as to require public assistance, services, or entitlements.
