Renee Crawford and Claudia Cruz from HSA received their 30-year Employee Service Awards; and, Andrew W. Fiskum with Workforce Development received his 35-year Employee Service Award.

CEO Hayes acknowledged receipt of written public comments. He noted that all public comments submitted via email were distributed to the members of the Board of Supervisors.

Elias Funez, former City of Patterson Planning Commissioner, Parks and Recreation Commissioner, and a member of the General Plan Advisory Committee, spoke regarding what an asset the Del Puerto Canyon is for the community. He voiced concerns regarding the Del Puerto Water District's plans for a dam and provided a petition signed by individuals who oppose the proposed Del Puerto Canyon Dam. He spoke regarding the Native American pathway carved into the rocks, and voiced concerns regarding the Del Puerto Water District's communication with Patterson residents.

Roberta shared concerns regarding the way the Sheriff's office handled the eviction of her friend who has severe mental health issues. She requested that the Board encourage trauma informed care training for employees. Roberta also voiced concerns regarding the proposed Del Puerto Canyon Dam. She shared that the Central Valley used to be the largest path for the migration of birds and that the proposed dam would destroy the ecosystem. She spoke regarding the need for water saving measures instead of building another dam.

Randon Kirkbride, representing the Stanislaus Sworn Deputies Association, noted that they have been out of contract for 8 weeks. He shared that the current staffing level is 185 and spoke regarding officers leaving to work for other agencies. He asked the Board what they are going to do about this.

Elaine Gorman, from District 1, spoke in opposition to the proposed Del Puerto Dam and the re-routing of the Del Puerto Canyon Road. She voiced concerns regarding potential earthquake and downstream flood damage, and that the dam will not alleviate water issues for the County. She encouraged looking at alternative sites and viable conservation efforts. She shared that the canyon is an important natural resource with cultural and environmental value.

Renea Frye, IHSS provider in Turlock for almost a year, spoke in support of a wage increase for IHSS providers. She shared they are paid less than union paid janitors, and Uber and Lyft drivers. She asked the Board for compassion and to support a fair wage.

Alisa Smith, IHSS provider in Stanislaus County, noted that she was a recipient of IHSS services for 9 years but since 2023 is an IHSS provider. She cares for her 20-year-old daughter who is disabled due to a

head injury. She worked at Allstate before her daughter's injury and put her career on hold to care for her daughter. She spoke regarding the high cost of living and in support of a better contract for IHSS providers.

Todd Goss spoke on behalf of IHSS provider Devon. Devon cares for his 3-year-old son with developmental delays and will soon care for his grandmother as well. He shared that without the IHSS program, recipients would not be able to afford care with the rising healthcare costs. He spoke regarding the importance of IHSS services and that IHSS improves the quality of life for their clients. He spoke in support of increased wages for IHSS providers and requested a fair contract and pay that is equitable to what they do on a day-to day basis.

Ryan Hoggatt, an IHSS provider, noted that he cares for his autistic son, who requires 24-hour supervision. He shared that IHSS allows his son to receive the specialty services he needs. He also spoke regarding the high cost of living and expressed support for a pay raise.

Astrid Zuniga, President of UDW AFSCME Local 3930, noted that this organization represents over 170,000 home care providers in the State, and over 6,000 in Stanislaus County. She shared she is a caregiver for her adult son who has autism, intellectual disabilities and epilepsy. She also shared that the income needed to attain an adequate standard of living in the County is \$4,240 a month or \$50,900 a year. She noted that the current IHSS provider wage \$17.75 per hour and that 40 hours per week is not guaranteed for all home care providers. She asked the Board to give caregivers the respect and dignity they deserve and to provide an equitable living wage.

Milt Trieweiler voiced concerns regarding the proposed Del Puerto Water District Reservoir and suggested the alternative of investing in the San Luis Dam project and preserving the Del Puerto Canyon. He shared concerns regarding the high-speed rail project and recommended that funding be used for solving the water issues within our County. He also spoke regarding the need to protect farmland in this County.

Brian Evitt spoke regarding the need for excessive force training for law enforcement. He voiced concerns regarding an experience he had with the Sheriff's office in the past. He also shared concerns about the IHSS program and how the number of caregiver hours is established.

Manali, with Save Del Puerto Canyon Men's Healing Circle, acknowledged that they are on Northern Yokuts territory and spoke in support of protecting Del Puerto Canyon for future generations. He shared that his family came from Texas and Mexico as United Farm Workers and, like many other families, are not acknowledged for their contributions to the economy but are called out as a problem. He spoke regarding the wildlife in the canyon and recommended everyone to visit this location. He also spoke regarding the need for more resources for the youth in the County and the need for more culture centers, community centers and parks.

Zevi Alexandar Toscano noted that the name Stanislaus comes from a Yokuts Chief named Estanislao and that the Yokuts lived here for thousands of years. He spoke regarding the importance of Del Puerto Canyon and noted that he goes there to connect with nature and have a moment of true serenity. He shared that the canyon is ancient land, and he has discovered ancient seashells and other archaeology discoveries in the canyon. He voiced concerns that building the proposed dam would rob future generations of a place they can connect with nature.
