

Eastern Modesto Subbasin Landowner Workshop

Wednesday January 25, 2023, 5:00-6:30 PM
Stanislaus County Farm Bureau

1201 L St, Modesto or register to join by Zoom: bit.ly/Landowner-Event

Do you depend on groundwater for a majority, if not all, of your water supply needs for crops and livestock? Stanislaus County invites you to join a workshop series that is tailored for landowners in the eastern Modesto Subbasin. The first meeting is anticipated to cover:

- Status update of the STRGBA GSA Groundwater Sustainability Plan and progress towards implementation.
- Review of governance in the Non-District East Management Area.
- Current groundwater conditions in the Non-District East Management Area.
- Projects to promote groundwater reliability.

Stanislaus County is a member agency of the Stanislaus and Tuolumne Rivers Groundwater Basin Association (STRGBA) Groundwater Sustainability Agency (GSA).

We recognize that landowners such as yourself have a greater understanding of the range of groundwater management options that can respond to the subbasin's challenges and invite you to share your input with us.
