FOR IMMEDIATE RELEASE:

For further information, contact  
Beth Holmes, 558-7817

### **Puppet Show to educate at Modesto Library**

Doctor's Medical Center Foundation's Kids Works puppeteers will present "Disabilities and Differences" at the Modesto Library in the Downstairs Auditorium on Saturday, Feb. 19 at 1 and 2:30 p.m. The interactive show is a fun and educational depiction about what makes people different from one another.

The puppet show is presented in traditional Japanese "Bunraku" style and uses large puppets and puppeteers are clothed in black with a black background. Programs presented offer health and safety information to children in a fun way that promotes awareness and understanding.

Admission is free, but space is limited. Same-day free tickets will be available at the Children's Desk beginning one hour before each show. The program is sponsored by the Eileen T. Gisler bequest.

For more information, please contact the Modesto Library Children's Department at 558-7810.
