hello Planning,

first let me point out the planning agenda (sups also) needs a clear cleark of the board email with a click here link address on the agenda and the outreach email ... we hate tracking it down each time , and at the county web side also very poor at showing emails and numbers for departments... like to see that tied to as goal tied to any more budget next year...

regarding the

7. PUBLIC HEARINGS (*Consent Items): *CONSENT ITEMS: None NON-CONSENT ITEMS: A. USE PERMIT APPLICATION NO. PLN2021-0087 – JORDAO DAIRY – Request to increase herd size from 1,985 mature cows to 3,990 and to allow construction of three loafing barns totaling 236,000± square-feet at an existing dairy facility located on a 79.74±

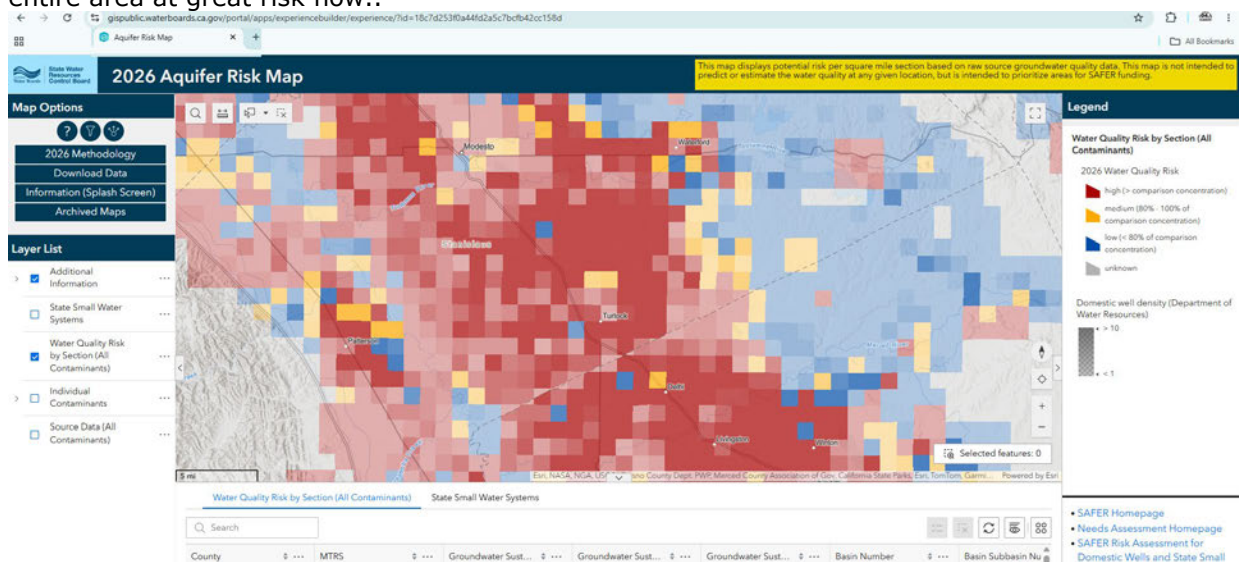

jamming ~2000 more hyped up cows would put the local ground water at a very great risk as it is already considered ground water as risk now.

just no....with out a septic system , NO!!

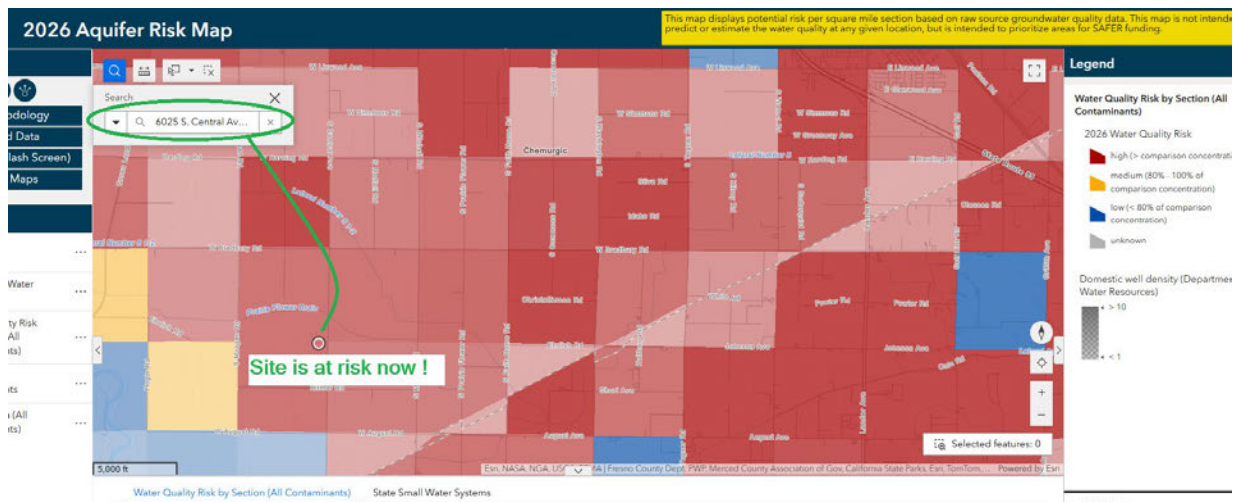

ground water supply is also a problem for this project, many homes going with out water service now, this makes it worse.

Kind regards,
Brad Johnson

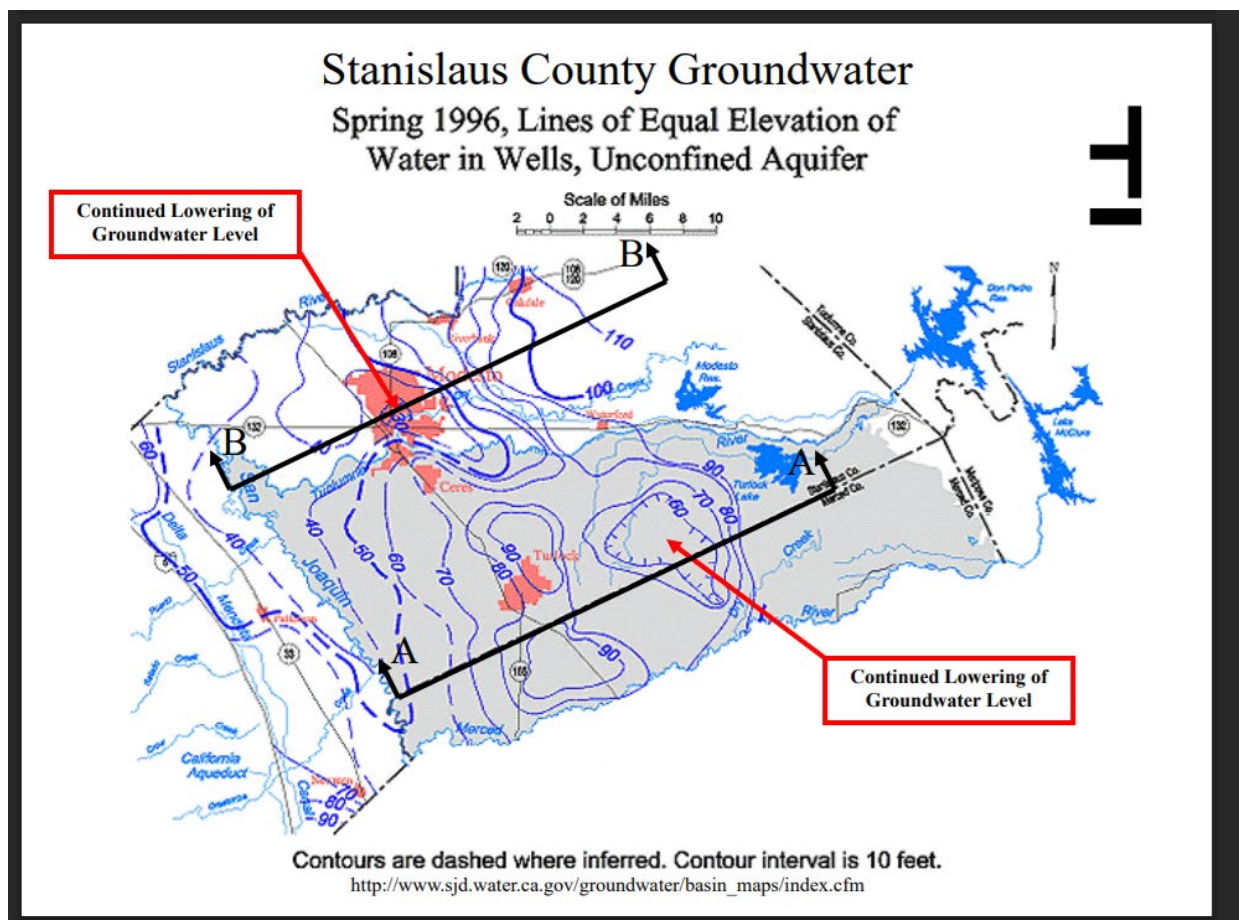

our Valley needs help or we we all have to buy bottled drinking water from a monopoly at ~\$2 a gallon.
entire area at great risk now..

site of project , looks like a 'source' to me.... lets not make it worse.

getting clean water out of the ground a problem here for long time.
this project makes it worse.
