Voting Rights Act (VRA) – Section 2 Analysis

- The U.S. Supreme Court established that districts violate Section 2 when there is evidence that a bloc voting majority usually defeats candidates supported by a politically cohesive, geographically insular minority group.
- To ensure compliance with the VRA, the County contracted with census and redistricting experts at Q2 Data and Research, LLC, as well election law experts at Olson Remcho. Also, the County consulted with Dr. Megan A. Gall, Ph.D., GISP, an expert in VRA compliance, research, and instruction.
- Olsen Remcho, concluded that the County has a potential Federal VRA Section 2 issue.
 - To remedy this situation, an increase is needed to the Hispanic citizen voting age population (CVAP) in a “majority minority district” to create a single district that has a sufficiently large number of Hispanic voters to elect candidates of choice.
 - Currently, District 5 is a majority-plus Hispanic CVAP district with a Hispanic CVAP of 53.93%. The best option is to compensate for low voter turnout and to create a single district that exceeds the current Hispanic CVAP of 53.93%.
