

# Easy Smart Pay

**Are you having trouble paying your annual property taxes in two installments?**

**Would it help you to pay in monthly payments?**

Unfortunately, our systems cannot accept payments for more than the two installments each year. However, there may be other options for you to consider:

- **Set up on an Impound Account.** Many times, you can adjust your monthly mortgage payment through your lender to include your yearly property taxes. These amounts are added as part of your mortgage payment and then paid by your lender directly to our office on the required due dates. Banks will do this at no cost to you.
- **Set up an account with your bank.** Open a savings account with your bank. To your current taxes, add about 3% to allow for rising valuations and voter approved measures. Divide that amount by 12 and put that amount into an interest earning account each month. You can then use this account to pay for your property tax payments when due. There should be no cost to you, and you also can make a little interest as the money sits.
- **Easy Smart Pay.** This is a new service that you can use to pay your secured property tax monthly via an ACH payment or a credit card (does not apply to supplemental property tax). The fee currently being charged is 1.99%. This rate is subject to change, and it is provided by an outside vendor to facilitate your payment should you be unable to pay the taxes in two installments. When taxes are due and if you have paid the total amount due over this period, they will send the payment to us on your behalf. **THIS SERVICE IS ENDORSED BY US BUT IS NOT AFFILIATED WITH STANISLAUS COUNTY.**

## Easy Smart Pay Disclaimer Notice
